NOTE A - DESCRIPTION OF THE PLAN

The following description of the TEM Enterprises 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan, covering substantially all employees of TEM Enterprises, Inc., DBA Xtra Airways (the "Company"), who are at least 21 years old. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Administration of Plan Assets

The Plan is administered by the Company. State Street Bank and Trust Company functions as the Custodian for the Plan. Automatic Data Processing, Inc. functions as the Plan's record-keeper.

Eligibility and Contributions

Substantially all employees of the Company are eligible to become participants in the Plan subsequent to reaching an age of 21 years or older. Entrance to the Plan is on the first day of the month following the hiring date.

Eligible employees may elect to contribute from their salary in whole percentages ranging from 1%-80% of eligible compensation as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions, subject to certain limitations under the Internal Revenue Code ("IRC"). Participants may also contribute amounts representing distributions from other qualified plans ("rollovers"). Participants direct the investment of their contributions into various investment options offered by the Plan.

All contributions during a Plan year are subject to maximum dollar limitations established by the IRC. For the year ended December 31, 2014, the total maximum allowable tax-deferred contribution to the Plan under the IRC from employee sources was $17,500 plus catch-up contributions of $5,500 for eligible employees.

The Plan provides for discretionary matching contributions determined annually at the discretion of the Company's management, subject to certain limitation as described in the Plan document. The discretionary contribution, if any, is allocated to the participants' accounts based upon the participants' elective deferral contributions. The Company has elected not to contribute to the Plan for the year ended December 31, 2014.

(continued)

NOTE A - DESCRIPTION OF THE PLAN - Continued

Participant Accounts

Each participant's account is credited with the participant's contributions, any discretionary Company contributions and allocations of Plan earnings or losses, investment fees and any other administrative expenses paid out of the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Upon enrollment in the Plan, a participant may direct their contributions plus actual earnings thereon to be invested in any of the investment options offered by the Plan. Participants may change their investment options selections on any business day as defined by the Plan.

Vesting

Participants are immediately fully vested in their own contributions plus/minus actual earnings/losses thereon.

Participants are vested in Company contributions based on years of service as follows:

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Each participant is allowed to have a maximum of one loan outstanding at a time. The notes are secured by the balance in the participant's account, or other collateral, and bear interest at the prime rate as published in The Wall Street Journal on the 14th day of each month, plus two percentage points. The interest rate on all participant loans outstanding at December 31, 2014 and 2013 was 5.25%. Principal and interest is paid ratably through payroll deductions.

The maximum note repayment period is five years unless the note is for the purchase of a primary residence in which case the repayment schedule may be for a term of up to thirty years. Principal and interest payments with respect to the notes are credited solely to the account of the borrowing participant from which the note was made.

(continued)

NOTE A - DESCRIPTION OF THE PLAN - Continued

Payment of Benefits

In the event of a participant's termination of employment, total and permanent disability as determined by the Social Security Administration, normal retirement (age 65) or death, the participant or the participant's beneficiary may elect to receive a lump-sum distribution of his/her account balance. If a participant does not elect to take a partial or full payment, or rollover some or all of his/her vested account balance when he/she terminates employment with the Company, his/her vested account balance will remain in the Plan with no future employee or employer contributions. Benefit payments are recorded as deductions from net assets available for benefits when paid.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis. At December 31, 2014 and 2013, the contract value of the Plan's investment in the common/ collective trust fund approximated fair value. As such, no adjustment was made to the statements of net assets available for benefits as of December 31, 2014 or 2013.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

(continued)

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Investment Valuation and Income Recognition - Continued

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

Net Depreciation in Fair Value of Investments

Net realized and unrealized depreciation of investments is recorded in the accompanying statement of changes in net assets available for benefits as net depreciation in fair value of investments and includes gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the Plan document.

Risks and Uncertainties

The Plan provides for investment options in a variety of investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, market volatility, and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Administration of the Plan

Certain administrative functions are performed by officers or employees of the Company. No such officers or employees receive compensation from the Plan. The Company pays most administrative expenses associated with the Plan. Expenses relating to Plan investments are paid by the Plan and borne on a pro-rata basis by each participant.

NOTE C - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds – Valued at the net asset value ("NAV") of shares held by the Plan at year-end. The mutual funds provide for daily redemptions by the Plan at reported NAVs with no advance notice requirement.

Common/Collective Trusts – Valued based on the fair value of the collective trust's underlying investments using information reported by the investment custodian.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

* Investment does not represent 5% or more of the net assets available for benefits.

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $3,359, all of which primarily relate to the mutual fund investments.

NOTE E - COMMON COLLECTIVE TRUST

The Plan holds an interest in a collective investment trust (Invesco Stable Asset Trust) to maintain a portion of the Plan contributions in guaranteed investment contracts, synthetic guaranteed investment contracts, and separate account investment contracts. The account is credited with contributions and earnings on the underlying investments and charges for participant withdrawals and administrative expenses charged by the trustee of the collective investment trust. The guaranteed investment contract issuers are contractually obligated to repay the principal and a specific interest rate that is guaranteed to the Plan.

Because the investment contracts in the collective trust are fully benefit-responsive, the collective investment trust is included in the financial statements at contract value as reported to the Plan by Invesco. There are no reserves against the collective investment trust for credit risk of the contract issuer or otherwise. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

The average yield at fair value and weighted average crediting rate for the fund at December 31, 2014 and 2013 are as follows:

	2014	2013
Average yields:		
Based on actual earnings	1.45%	1.15%
Based on interest rate credited to participants	1.57%	1.31%

(continued)

NOTE E - COMMON COLLECTIVE TRUST - Continued

Certain events limit the ability of the Plan to transact at contract value with the issuer. Specific coverage provided by each contract may be different from each issuer and can be found in the contract of the collective investment trust. Examples of such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spins-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.

The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

NOTE F - TAX STATUS

The underlying standardized prototype plan has received an opinion letter from the Internal Revenue Service dated March 31, 2008, stating that the written form of the underlying prototype document is qualified under Section 401(a) of the Internal Revenue Code ("IRC"), and that any employer adopting this form of the Plan will be considered to have a plan qualified under Section 401(a) of the IRC. Therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of both December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is not subject to income tax examinations for years prior to 2011.

NOTE G - INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodian certified that the following data included in the financial statements and supplemental schedule is complete and accurate.

a. Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2014 and 2013.

b. Net investment income, dividend income and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2014.

c. Schedule H, Line 4i - Schedule of Assets (Held at End of Year), December 31, 2014.

The Plan's independent certified public accountants did not perform auditing procedures with respect to this information, except for comparing such information certified by the Custodian to the related information included in the financial statements and supplemental schedule.

NOTE H - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination, participants will become 100% vested in their accounts.

NOTE I - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments and the related transactions as of December 31, 2014 and 2013, and for the year ended December 31, 2014, were in investment funds managed by the Custodian; therefore, these investments and transactions qualify as party-in-interest transactions. Fees paid during the year for accounting and other services rendered by parties-in-interest were based on customary and reasonable rates for such services. Notes receivable from participants are also considered to be party-in-interest transactions because they are transacted with Plan participants.

NOTE J - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of contributions per the financial statements to amounts reported in the Form 5500, for the year ended December 31, 2014:

Total contributions per the financial statements	$ 76,019
Add: Participant contributions received in 2014 for 2013 Plan year	5,675
Total contributions per the Form 5500	$ 81,694

The following is a reconciliation of deductions per the financial statements to amounts reported in the Form 5500 for the year ended December 31, 2014:

Add: Deemed participant loan distributions made in 2014 for 2013 Plan year	3,485
Total deductions per the Form 5500	$ 105,671

NOTE K - SUBSEQUENT EVENTS

The Plan evaluated its financial statements for subsequent events through October 15, 2015, which is the date these financial statements were available to be issued.
