- a) *General* – The Plan is a 401(k) defined contribution plan covering substantially all full-time employees of Nutis Press Inc (the "Company") who have completed one year of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Participants who have attained age 50 before the end of the calendar year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit plans or defined contribution plans.

Additional employer matching and profit sharing contributions may be made at the discretion of the Company. No such contributions were made for the year ended July 31, 2014.

Participants direct the investment of their contributions and the Company's contribution into various investment options offered by the Plan. Participants may change their investment options at any time online at the recordkeeper's website.

- f) *Forfeited accounts* – Forfeitures of nonvested balances may be used to pay employer discretionary contributions or administrative expenses. The balance in the forfeiture account at July 31, 2014 and 2013 was \$0.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan to make estimates and assumptions that affect the reported amounts of net assets and changes therein. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See Note 6 for discussion of fair value measurements.

Nutis Press, Inc. 401(k) Plan

Notes to Financial Statements

July 31, 2014 and 2013

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Excess contributions payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain administrative costs of the Plan are paid directly by the Company.

3. Subsequent Events

The Plan has evaluated events and transactions occurring after July 31, 2014 for potential recognition or disclosure through the date the financial statements were available to be issued, October 18, 2015. No material events requiring recognition or disclosure were noted.

4. Information Prepared and Certified by the Custodian

The following information included in the accompanying financial statements and supplemental material was obtained from data that has been prepared and certified to as complete and accurate by John Hancock Life Insurance Company, the Plan's custodian.

* Represents less than 5% of net assets in the year presented.

During 2014 the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated by \$64,570.

6. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Nutis Press, Inc. 401(k) Plan

Notes to Financial Statements

July 31, 2014 and 2013

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value.

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled Separate Accounts – The value of the units held in pooled separate accounts are based on quoted market prices of the underlying investments and are based on the net asset value of the shares held by the Plan at year end. The pooled separate accounts are included in Level 2.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value.

<i>Investment Assets at Fair Value</i>				
<i>as of July 31, 2014</i>				
	Level 1	Level 2	Level 3	Total
Pooled Separate Accounts	–	\$545,039	–	\$545,039
Total investments at fair value	–	\$545,039	–	\$545,039

<i>As of July 31, 2013</i>				
	Level 1	Level 2	Level 3	Total

7. Risks and Uncertainties

The Plan utilizes various investment instruments, which are exposed to various risks, such as interest rates, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

8. Related Party Transactions

Certain Plan investments are held in a group annuity contract and shares of pooled separate accounts managed by John Hancock Life Insurance Company (John Hancock). John Hancock is the custodian of the Plan and therefore, these transactions qualify as party-in-interest.

In 2014, the Plan paid asset management fees of \$6,477 to John Hancock.

9. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

10. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 16, 2010 that the Plan is designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.
