(Employer) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan was originally effective June 1, 2006 and amended and restated as of September 1, 2011.

Eligibility – All employees (except members of a collective bargaining unit and non-resident aliens) are eligible for participation in the Plan after completing one year of service and attainment of age 20. Plan entry dates are September 1, December 1, March 1, and June 1.

Contributions – Under the Plan, the participant and the Employer are both allowed to make contributions. The participants are allowed to contribute a portion of their salary to the Plan subject to those limitations provided for in Section 401(k) of the Internal Revenue Code. The Employer may contribute a matching contribution of the employee's salary deferral contributions. The Employer may set a matching percentage each year. Employees must have completed 1,000 hours of service during the Plan year in order to qualify for the matching contribution. In addition, the Employer shall contribute to the trust fund each plan year such amount as a non-elective contribution as the employer elected in the adoption agreement. The Employer's non-elective contribution to the Plan shall be discretionary, and not limited to profits. Catch-up contributions are permitted after January 1, 2002 and are matched at the same rate as elective deferrals.

Forfeitures – Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeitures of non-elective and matching contributions will be applied to reduce administrative expenses of the Plan, then any remaining forfeitures shall go to reduce the Employer's contributions for the following plan year.

Participant Account – Each participant has up to four accounts, with one account designated for participant 401(k) contributions, one account designated employer matching contributions, one designated for employer profit sharing contributions, and one account designated for participant rollover contributions.

All participants' contribution accounts are credited with the participant's contributions and the earnings of the specific investment vehicles selected. Participants may self-direct their contributions to several investment vehicles, including money market accounts and mutual funds.

Employer contribution accounts are credited with the Employer's matching contribution and an allocation of the Employer's discretionary contribution. Allocations are based on each participant's share of the total compensation paid during the fiscal year to all participants in the Plan. Participants may also self-direct the Employer account to several investment vehicles, including money market accounts and variable annuities.

Vesting – After two years of service, each participant's employer non-elective contribution and employers matching contribution accounts vest at 20%, the vesting percentage increases each year thereafter at a rate of 20% per year until fully vested after six years. If a participant dies or becomes disabled, the participant's accrued benefit derived from Employer contributions becomes 100% vested without regard to the above schedule. In the event of full or partial termination of the Plan, an affected participant's rights to the accrued benefit shall be 100% non-forfeitable. The Plan can be terminated at the discretion of the Employer.

Payment of Benefits – A participant may receive distributions prior to separation of service after normal retirement age is reached. Distributions are required to begin by April 1 of the calendar year following the calendar year in which the participant attains the age of 70½. Participant contributions are paid out in a lump sum payment. If the participant's vested balance in the Employer contributions is less than $1,000, a lump sum payment is made when the participant reaches early retirement age. If the participant's vested balance is between $1,000 and $5,000, the balance is automatically rolled over into an eligible retirement plan or individual retirement account. If the participant dies prior to receiving all benefits under the Plan, the balance of the participant's account is paid to the beneficiary.

2. Summary of Significant Accounting Policies

Basis of Accounting – The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting. Benefits are recorded when paid. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair Value Measurement – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Securities transactions are recognized on the trade date (the date the order to buy or sell is executed). Income from investments is recorded as earned on an accrual basis.

Certification – Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at August 31, 2013, and net appreciation in fair value of investments, interest and dividends for the year ended August 31, 2013, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by John Hancock Life Insurance Company (U.S.A.).

Use of Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires the administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

Risks and Uncertainties – The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statement of net assets available for benefits.

Concentrations of credit risk exist if a number of investments are engaged in similar activities and have similar economic characteristics that could cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions. The Plan has invested in a variety of financial instruments and investments involving diverse industries and geographic areas to mitigate exposure to credit risks.

3. Administration of Plan Assets

The Plan assets are held by the administrator of the Plan. Employer and participant contributions are invested by the administrator as directed by the participant. Administrative expenses for the Plan are shared between the Employer and participants. Investment related expenses are included in net appreciation in fair value of investments.

4. Investment Information Prepared and Certified by Trustee

The following information included in the accompanying financial statements and supplemental information was obtained from data that has been prepared and certified to as complete and accurate by the Trustee.

5. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Variable Annuities: Valued on the Net Asset Value (NAV) of shares held by the Plan as of the close of business of the NYSE at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO THE FINANCIAL STATEMENTS

6. Tax Status

The Plan adopted Actuaries & Associates (Sixty Forty Corp.) Prototype Non-Standardized Profit Sharing Plan document was effective as September 1, 2011, and amended and restated the preexisting plan originally effective June 1, 2006.

The Internal Revenue Service has determined, in the letter dated March 31, 2008, that the Actuaries & Associates (Sixty Forty Corp.) Prototype Non-Standardized Profit Sharing Plan is a qualified plan under Section 401(a) of the Internal Revenue Code. Therefore, the Plan is exempt from federal income taxes under Section 501(a) of the Internal Revenue Code.

The Plan has adopted the "uncertain tax positions" provisions of accounting principles generally accepted in the United States of America. The primary tax position of the Plan is its filing status as a tax exempt entity. The Plan determined that it is more likely than not that its tax positions would be sustained upon examination by the Internal Revenue Service (IRS), or other State taxing authority. There were no penalties or interest related to income taxes recognized during the year ended August 31, 2013. The Plan is no longer subject to U.S. federal income tax examinations by tax authorities for years prior to 2010.

7. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

8. Subsequent Events

The Plan's management has evaluated subsequent events through October 20, 2015, the date which the financial statements were available for issue.
