## PLAN DESCRIPTION

The following description of the *Eastland Food Corporation 401(k) Profit Sharing Plan and Trust* ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

### *General*

The Plan is a defined contribution profit sharing plan covering substantially all employees who have completed one year of service and have attained the age of twenty one. In addition, an employee must have completed 1,000 hours of service per each plan year and be employed on the last day of the plan year in order to be eligible to receive any employer matching contribution. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

### *Contributions*

Participants may contribute pre-tax annual compensation as defined by the Plan, up to the maximum allowed by the Internal Revenue Service. The Plan also permits participant rollover contributions. Participants direct the investment of their contributions into various investment options. The Company's matching contributions are discretionary and based on the participant's elective deferral, not to exceed 25% of a participant's elective deferral up to a maximum of 5% of each participant's compensation. The Company may also make a Non-Elective contribution, determined on an annual basis.

### *Participant Accounts*

Each participant's account is credited or charged with the participant's contributions, Company's discretionary contributions, and Plan earnings and losses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

### *Vesting*

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their account is based on years of continuous service. Employer contributions and earnings are vested 20% per year, starting upon their second year of service. A participant is 100% vested after six years of credited service.

### *Notes Receivable from Participants*

Participants may borrow from their accounts a minimum of $1,000, up to a maximum of $50,000 or 50% of their account balance, whichever is less. The loan is secured by the participant's vested account balance. The interest rate on the loan is determined at the time the loan is made based on prime rate plus 2%. Interest on existing participant loans bear interest at 4.25% to 5.25%. Principal and interest are paid ratably through payroll deductions.

## PLAN DESCRIPTION (continued)

### *Payment of Benefits*

On termination of service, death, disability or retirement, a participant may elect to receive a lump sum payment equal to the value of the participant's vested interest in his or her account, or partial payments, with a minimum of $2,000 per payment. If a participant has reached the age of 59 1/2, distributions may be made at the participant's election from any accounts which are 100% vested, without requiring the participant to terminate employment.The Plan also permits withdrawals due to circumstances of financial hardship, in accordance with provisions specified in the Plan Document. Benefits are recorded when paid.

### *Investment Options*

Plan participants have 34 funds available to them for investment. All investments are participant-directed, and participants may change their investment choices at any time.

### *Forfeitures*

Forfeited accounts are used to offset Plan expenses first, then any remaining amounts after that are reallocated as additional employer contributions. Forfeited non-vested accounts totaled $2,260 and $9,992 for the Plan years ended March 31, 2015 and 2014, respectively.

### *Plan Administrative Costs*

Administrative costs of $2,020 and $1,765 were paid by the Plan for the years ended March 31, 2015 and 2014, respectively. The Plan's custodian is compensated through Sub-TA revenue sharing payments, so there is no direct payment by the Plan for custodial services.

## SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### *Basis of Accounting*

The financial statements of the Plan are prepared on the accrual basis of accounting in comformity with accounting principles generally accepted in the United States.

### *Notes Receivable from Participants*

Loans to participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

### *Investment Valuation and Income Recognition*

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

## SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### *Use of Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities and reported revenues and expenses during the reporting period. Actual results may differ from those estimates.

### *Subsequent Events*

The Company's management has evaluated subsequent events through September 22, 2015, the date the financial statements were available to be issued.

## TAX STATUS

The plan obtained a favorable tax determination letter on October 26, 2000, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code, and, therefore, not subject to income tax. The plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. The IRS and DOL have not subjected the plan to audit during it's existence. The plan administrator believes the plan is no longer subject to income tax examinations for years prior to March 31, 2011.

## PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts, and assets of the Plan will be distributed in accordance with the Plan's provisions.

## PARTIES-IN-INTEREST

Under ERISA, the following are considered Parties-in-Interest:

## INFORMATION CERTIFIED BY THE CUSTODIAN

The Plan's custodian, MG Trust Company, holds the Plan's investments and executes its transactions. CDM Retirement Consultants has prepared the information included in the accompanying financial statements and supplemental schedules for investments and related activities, as of and for the years ended March 31, 2015 and 2014, and has furnished it to the Plan Administrator together with a certification from MG Trust Company that such information is complete and accurate. Such certification is required under the method of compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

## RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

## FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels of inputs: *Levels 1, 2,* and *3* . The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments.

*Level 1* inputs consist of unadjusted quoted prices in active markets for *identical* assets or liabilities at the measurement date and have the highest priority. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value.

*Level 2* inputs are based on quoted prices for *similar* assets or liabilities in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the instrument. Such inputs include market interest rate and volatilities, spreads, and yield curves.

*Level 3* inputs are unobservable (supported by little or no market activity) and significant to the fair value measurement. Unobservable inputs reflect the Plan's best estimate of what hypothetical market participants would use to determine transaction price for the asset at the reporting date.

The following are the major categories of assets and liabilities measured at fair value on a recurring basis as of:

| Description | Level 1: Quoted prices in active markets | Level 2: Internal models with significant observable market parameters | Level 3: Internal models with significant unobservable market parameters | Total |

## FAIR VALUE MEASUREMENTS (cont.)

### *Mutual Funds*

Mutual funds are valued at the net asset value (NAV) of the shares held by the Plan at year end, and are classified in Level 1 of the fair value hierarchy.

These funds are considered open-ended mutual funds, meaning that the fund is ready to redeem its shares at any time and offers its shares for sale to the public, either through retail outlets or through institutional investors continuously. For institutional funds, NAV's are received daily from fund managers, and the managers stand ready to transact at these quoted amounts. The insurance company custodian transacts in these funds on a daily basis as part of the separate account trading activity.

The calculation of the NAV for funds composed of other funds (i.e., retirement target date funds) is essentially the same as the calculation of the NAV for any other fund: the total market value of assets across all underlying funds less any liabilities is divided by the outstanding shares. Again, this resulting NAV is published and/or the fund managers are ready to transact at the quoted prices.
