1. Description of Plan:

The following description of the Safariland 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan was established on July 28, 2012. The Plan is a 401(k) defined contribution plan covering all employees of Safariland, LLC (the "Company") who are age 18 or greater. Employees can enroll after the first day of the month following their eligibility date. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Transfers

During January 2014, the Company acquired Med-Eng, LLC, from Allen Vanguard, LLC. During January 2014, approximately $800,000 was transferred to the Plan related to prior employees of Med-Eng, Inc.

On February 28, 2014, Mustang Survival Holdings, LLC, became a participating employer in the Plan. During March 2014, approximately $499,000 was transferred to the Plan related to employees who were participating in the Mustang Survival 401(k) Plan.

Contributions

Participants may make salary deferral contributions in any percentage between 1% and 75% of their salary up to limits as defined in the Plan and other limits according to the Internal Revenue Service ("IRS"). In addition, employees who have attained age 50 by the end of the Plan year may make catch-up contributions up to limits defined by the IRS. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company makes a safe harbor matching contribution equal to 100% of the first 3% of the participants' salary deferral contributions plus 50% of participant deferrals from 3% to 6%. Company safe harbor matching contributions are invested as directed by the participant.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contribution and (b) Plan investment earnings or losses. Allocations are based on participant earnings on account balances, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions as well as employer safe harbor contributions plus actual earnings thereon.

1. Description of Plan (continued):

Participant Loans Receivable

Participants may borrow from their fund accounts, a minimum of $1,000 up to an amount not to exceed the lesser of one-half of the participant's vested interest under the Plan or $50,000. The loans are collateralized by the vested balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan administrator.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum distribution equal to the vested balance in the individual participant's account. Additionally, hardship withdrawals and certain other in-service withdrawals are also permitted by the Plan if certain criteria are met.

2. Summary of Accounting Policies:

Basis of Accounting

The accompanying financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Participants in the Plan direct their accounts to be invested in various investment options. The fair value of those securities traded on a national stock exchange are determined by the closing price at the end of each period. See Note 3 for a discussion of fair value measurements.

Contract value is the relevant measurement attribute for certain Plan assets attributable to fully benefit-responsive investments because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the contract. The Plan invests in fully benefit-responsive investment contracts through a common collective trust, the MetLife Group Annuity Contract. Contract value for this common collective trust is based on the net asset value of the fund as reported by the investment advisor.

Purchases and sales of investments are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

2. Summary of Accounting Policies (Continued):

Risks and Uncertainties

The Plan provides for various investment options in mutual funds. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Recent Accounting Pronouncements

In July 2015, the FASB issued Accounting Standards Update ("ASU") 2015-12, *Plan Accounting: Defined Benefits Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962) and Health and Welfare Benefit Plans (Topic 965): I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures; and III. Measurement Date Practical Expedient.* This three-part ASU simplifies current benefit plan accounting and requires (i) fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value and accordingly removes the requirement to reconcile their contract value to fair value; (ii) benefit plans to disaggregate their investments measured using fair value by general type, either on the face of the financial statements or in the notes to the financial statements; (iii) the net appreciation or depreciation in investments for the period to be presented in the aggregate rather than by general type, and removes certain disclosure requirements relevant to individual investments that represent five percent or more of net assets available for benefits. Further, the amendments in this ASU eliminate the requirement to disclose the investment strategy for certain investments that are measured using Net Asset Value ("NAV") per share using the practical expedient in the FASB ASC Topic 820. Part III of the ASU provides a practical expedient to permit employee benefit plans to measure investments and investment-related accounts as of the month-end that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end, while requiring certain additional disclosures. The amendments in Parts I and II of this standard are effective retrospectively for fiscal years beginning after December 15, 2015 and early adoption is permitted. The amendments in Part III of this standard are effective prospectively for fiscal years beginning after December 15, 2015. The adoption of this authoritative guidance is not expected to have a material impact on the financial statements of the Plan.

Administrative Expenses

Plan expenses, except for administrative expenses, are paid directly by the Plan sponsor. Administrative fees of $60,316 were paid by the Plan and charged to the related participant's accounts for the year ended December 31, 2014.

Notes Receivable from Participants

Notes receivable from participants are reported at amortized principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributed based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

3. Fair Value Measurements:

Financial Accounting Standards Board Statement Accounting Standards Codification Topic 820 (ASC 820), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 - Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3 - Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual Funds:
The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Common Collective Trust:
The Plan invests in the Wilmington Trust Retirement and Institutional Services Company Collective Investment Trust III for MetLife Group Annuity Contract No. 25554 (the “MetLife Group Annuity Contract”) which is a common collective trust ("CCT"). The CCT primarily owns investment contracts that invest in conventional, synthetic and separate account investment contracts issued by life insurance companies, banks and other financial institutions. The fair value of the investments in the CCT are determined by the investee's trustee based on the fair value of the underlying securities within the investment, which represent the NAV of shares held by the Plan at year end (Level 2 inputs).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. Fair Value Measurements (Continued):

The following tables summarize by level within the fair value hierarchy, the Plan investments measured at fair value, as of December 31, 2014 and 2013:

4. Information Certified by the Plan's Trustee:

The investments included in the statements of net assets available for benefits as of December 31, 2014 and 2013 and the interest and net appreciation in fair value of investments included in the statement of changes in net assets available for benefits for the year ended December 31, 2014 have been derived from information certified as complete and accurate by Reliance Trust Company, trustee of the Plan in 2014, and DWS Trust Company, trustee of the Plan in 2013, in accordance with 29 CFR 2520.103-5(c) of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, as follows:

December 31,	2014	2013
Mutual funds	$ 35,564,283	$ 31,221,173
Common collective trust	3,496,413	3,244,753
Participant loans receivable	1,678,913	1,619,724

Year ended December 31,	2014
Net appreciation in fair value of investments	$ 667,524
Interest and dividends	1,978,466
Other income	40,135
Net investment income	$ 2,686,125

5. Common Collective Trust:

The Plan includes an investment option to participants in a common collective trust. The option invests in a group annuity contract which includes underlying assets that are held in a trust owned by the Metropolitan Life Insurance Company ("MetLife"). The contract provides that participants execute Plan transactions at contract value. Contract value represents contributions made to the trust, plus earnings, less participant withdrawals. The investment is stated at fair value as reported by MetLife and adjusted to contract value on the statement of assets available for benefits.

The average yield and the blended net crediting interest rate of this common collective trust for the year ended December 31, 2014 was as follows:

Year ended December 31,	2014
Average yield earned by Plan	4.61%
Average yield earned by Plan adjusted for actual interest credited to participants	2.22%

There are no reserves against contract value for credit risk of the contract issuer or otherwise. MetLife will guarantee principal and accrued interest, based on the crediting interest rates, for participant-initiated withdrawals as long as the contract remains active. Interest is credited to the contract at interest rates that reflect the performance of the underlying portfolio. MetLife will reset the rate quarterly, by amortizing the difference between the market value of the portfolio and the guaranteed value over the weighted average duration of the fund's investments.

Participants will receive the principal and accrued earnings credited to their accounts on withdrawal for allowed events. These events include transfers to other Plan investment options, and payment because of retirement, termination of employment, disability, death and in-service withdrawals as permitted by the Plan. Certain events, such as Plan termination or a Plan merger initiated by the Plan sponsor, may limit the ability of the Plan to transact at contract value. The Plan sponsor does not believe any events that may limit the ability of the Plan to transact at contract value are probable.

6. Investments:

Investments which exceeded five percent or more of the Plan's net assets available for benefits at December 31, 2014 and 2013 are summarized as follows:

December 31,	2014	2013
MetLife Group Annuity Contract *(2)*	$ 3,496,413	$ 3,244,753
T Rowe Price Equity Income Fund	2,243,797	2,339,915
Dreyfus Core Equity Fund	*(1)*	3,356,517
Vanguard Wellington Fund	4,149,631	4,124,307
JP Morgan Core Bond Fund	2,610,302	2,754,698
JP Morgan Disciplined Equity Fund	3,401,109	*(1)*
Ameican CenturyOne Choice 2025	3,266,938	2,542,895
Ameican CenturyOne Choice 2020	2,128,838	*(1)*

(1) Investment did not comprise 5% of net assets available for benefits at year end.
(2) The contract value of the MetLife Group Annuity Contract was $3,400,188 and $3,201,216 as of December 31, 2014 and 2013, respectively.

6. Investments (Continued):

During 2014, the Plan's investments, including gains and losses on investments bought and sold, as well as held during the year, appreciated in value as follows:

Year ended December 31,	2014
Mutual funds	$ 612,726
Common collective trust	54,798
	$ 667,524

7. Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

8. Tax Status:

The Plan was established under the Automated Data Processing Flexible Defined Contribution Prototype Plan and Trust (the "Prototype Plan"). The Internal Revenue Service issued a determination letter dated March 31, 2008 stating that the Prototype Plan was in accordance with the applicable Plan designed requirements as of that date. The Plan as adopted and amended has not requested a determination letter. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement dates.

Management has evaluated the Plan's tax positions and concluded that as of December 31, 2014, the Plan had taken no uncertain tax positions that require recognition of a liability (or asset) in the financial statements. With few exceptions, the Plan is no longer subject to income tax examination by the U.S. federal, state or local tax authorities for tax years before 2012.

9. Reconciliation of Financial Statements to Form 5500:

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2014 and 2013:

December 31,	2014	2013
Net assets available for benefits per the Form 5500	$ 40,627,318	$ 36,041,072
Deemed distributions	112,291	44,578
Contract adjustment	(96,225)	(43,537)
Contribution reeivable	10,098	-
Net assets available for benefits per the financial statements	$ 40,653,482	$ 36,042,113

9. Reconciliation of Financial Statements to Form 5500 (Continued):

The following is a reconciliation of increase in Plan assets per the financial statements to Form 5500 for the year ended December 31, 2014:

Year ended December 31,		2014
Net income per the Form 5500	$	3,287,048
Deemed distributions		67,713
Change in contract adjustment		(52,688)
Contribution receivable		10,098
Net increase per the financial statements	$	3,312,171

10. Financial Instruments:

Financial instruments which potentially subject the Plan to concentrations of credit risk consist primarily of investments in mutual fund accounts. The Plan limits its credit risk by maintaining its accounts with what it believes to be a high quality financial institution.

11. Non-Exempt Transactions:

The Company determined that during the Plan year 2014, it failed to remit certain employee deferrals to the Plan within the appropriate time period. The late remittances were $2,451 in aggregate. Late or delinquent deferrals and loan repayments constitute prohibited transactions as defined by ERISA and are included in the accompanying Schedule H, Line 4a – Schedule of Delinquent Participant Contributions. Lost earnings of $84 related to these late remittances were calculated by the Company and paid to the Plan during September 2015. The Company is implementing additional procedures to ensure future deferrals and loan repayments are remitted within the prescribed period of time.

12. Subsequent Events:

During March 2015, Plan management was notified by the Internal Revenue Service that Plan year ended December 31, 2013 was selected for examination. There have been no developments on, or findings from, that examination.

The Plan has evaluated the accounting and disclosure requirements for subsequent events through October 2, 2015, the date of this report.
