Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Hourly Employees Pension Plan of Kaydon Ring & Seal, Inc. Baltimore Plant (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2014, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014 and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 11, which was certified by The Northern Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2014, and for the year then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2014 financial statements. Accordingly, we do not express an opinion on the 2014 financial statements.

Other Matter - 2013 Financial Statements

The financial statements of the Plan as of December 31, 2013 were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the predecessor auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by the trustee. Their report, dated October 3, 2014, indicated that (a) because of the significance of the information that they did not audit, they were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements (b) the form and content of the information included in the financial statements other than that derived from the information certified by the trustee, were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the 2014 financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Notes to Financial Statements

December 31, 2014 and 2013

1. Description of the Plan

The following description of the Hourly Employees Pension Plan of Kaydon Ring & Seal, Inc. Baltimore Plant (the "Plan") is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit pension plan covering bargaining unit hourly employees of Kaydon Ring & Seal, Inc. (the "Company"). Kaydon Ring & Seal, Inc. is a wholly-owned subsidiary of Kaydon Corporation. The Plan was amended in 2014 to limit participation to eligible employees whose most recent hire date is on or before February 1, 2014.

On September 25, 2013, Kaydon Corporation entered into an Agreement and Plan of Merger with Atlas Management, Inc. ("Parent") and Dublin Acquisition Sub Inc. ("Merger Sub"), providing for, among other things, the merger of Merger Sub with and into Kaydon Corporation (the "Merger"), with Kaydon Corporation continuing as the surviving corporation and a direct wholly-owned subsidiary of Parent. Parent is a wholly-owned subsidiary of SKF USA Inc. The Merger became effective on October 16, 2013, pursuant to the Certificate of Merger filed with the Secretary of State of the State of Delaware.

The Plan is administered by the SKF USA Inc. Pension and Benefits Committee ("Committee"). The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Board of Directors.

The Plan is subject to the provisions of the Employee Retirement Income Securities Act of 1974 ("ERISA").

Pension Benefits

Participants with 5 or more years of credited service are entitled to annual pension benefits beginning at normal retirement age (65) determined by a formula that takes into account the participant's years of credited service and the benefit multiplier in effect on the participant's last day of work as an active participant.

The Plan permits early retirement at ages 55 to 64 for participants with 10 or more years of credited service.

Participants generally elect to receive the value of their accumulated plan benefits in the form of a life annuity (if single) or qualified joint and survivor annuity (if married) upon retirement or termination. If the present value of a benefit is \$10,000 or less, the benefit may be made in one lump-sum payment. If a participant terminates before rendering 5 years of service, they forfeit the right to receive their accumulated plan benefits.

Notes to Financial Statements

December 31, 2014 and 2013

Death and Disability Benefits

If a participant is vested and dies before beginning receipt of a pension benefit, a death benefit is paid to the employee's surviving spouse. Once a participant has commenced receiving payments under the Plan, survivor benefits (if any) are paid according to the form of payment, and to the beneficiary, the participant elected at retirement. If a participant dies while an active participant, an additional lump-sum death benefit may be payable to the beneficiary for Company-provided life insurance.

Employees who have at least 10 years of vesting service when they become disabled or at least 5 years of vesting service if they are at least age 50 when they become disabled, are eligible for a disability retirement benefit from the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosures of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statement of Changes in Net Assets Available for Benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying Statement of Changes in Net Assets Available for Benefits.

Investment Valuation and Income Recognition

The Plan's investment interest in the Master Trust is reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustee. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the gains and losses on investments bought and sold as well as held in the Master Trust during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation and years of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances such as retirement, death, disability, and termination of employment are included, to the extent they are attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary as of January 1, 2014. The actuarial present value of accumulated plan benefits is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits as of January 1, 2014 is as follows:

Vested benefits:	
Participants and beneficiaries currently receiving payments	\$ 9,185,915
Other participants	<u>10,757,511</u>
Total vested benefits	19,943,426
Nonvested benefits	<u>158,376</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 20,101,802</u>

Hourly Employees Pension Plan of Kaydon Ring & Seal, Inc. Baltimore Plant

Notes to Financial Statements

December 31, 2014 and 2013

The changes in the actuarial present value of the accumulated plan benefits for the year ended December 31, 2013 are summarized as follows:

Actuarial present value of accumulated plan benefits, at beginning of year	\$ 19,930,117
Increase (decrease) during the year attributable to:	
Benefits accumulated	785,957
Increase for interest due to decrease in discount period	801,887
Benefits paid	(751,344)
Change in actuarial assumptions	<u>(664,815)</u>
Actuarial present value of accumulated plan benefits, at end of year	<u>\$ 20,101,802</u>

Significant assumptions underlying the actuarial computations are as follows:

Discount rate	4.96 percent for 2013
Long-term rate of return on assets	7.00 percent for 2013
Mortality	RP-2014 Mortality Tables
Retirement age	Age 65

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The long term rate of return on assets decreased from 7.70 percent to 7.00 percent. The discount rate increased from 4.10 percent to 4.96 percent. The mortality assumption was changed from the 2013 static mortality table for annuitants and non-annuitants per IRS regulation 1.430(h)(3)-1(e) to the RP-2014 Healthy Projected with Scale MP-2014 table.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* ("ASU 2015-07"). ASU 2015-07 removes the requirement to include investments in the fair value hierarchy for which fair value is measured using the net asset value per share practical expedient under Accounting Standards Codification 820. ASU 2015-07 is effective for the Plan for years beginning after December 15, 2016 with early adoption permitted. Management is currently evaluating the impact of the pending adoption of ASU 2015-07 on the Plan's financial statements.

Hourly Employees Pension Plan of Kaydon Ring & Seal, Inc. Baltimore Plant

Notes to Financial Statements

December 31, 2014 and 2013

In July 2015, the FASB issued Accounting Standards Update No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient* ("ASU 2015-12"). Part I of the accounting standards update requires fully-benefit responsive investment contracts to be measured, presented, and disclosed only at contract value. Part II of this update requires that investments (both participant-directed and nonparticipant-directed investments) be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways. Part II also eliminates the disclosure of individual investments that represent 5 percent or more of net assets available for benefits and the disclosure of net appreciation or depreciation for investments by general type, requiring only presentation of net appreciation (depreciation) in investments in the aggregate. Additionally, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is a fund that files a U.S. Department of Labor Form 5500, as a direct filing entity, disclosure of that investment's strategy is no longer required. Part III of the update permits plans to measure investments and investment-related accounts (e.g., a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. The amendments in ASU 2015-12 are effective for fiscal years beginning after December 15, 2015, with early application permitted. The amendments within Parts I and II require retrospective application; whereas, the amendments within Part III should be applied prospectively. Management is currently evaluating the impact of the pending adoption of ASU 2015-12 on the Plan's financial statements.

Reclassifications

Certain reclassifications have been made to the 2013 Statement of Changes in Net Assets Available for Benefits to correspond with the current year's format and to improve comparability.

3. Investments

The Plan's investment in the Kaydon Corporation Retirement and Pension Plan Master Trust (the "Master Trust") of \$22,265,447 and \$21,053,224 as of December 31, 2014 and 2013, respectively, represents 5 percent or more of the Plan's net assets available for benefits.

During 2014 and 2013, the Plan's investment in the Master Trust (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$2,068,860 and \$3,639,696, respectively.

4. Investment in Master Trust

The Plan's investments are held in the Master Trust, which was established for the investment of assets of the Plan and several other retirement plans sponsored by Kaydon Corporation. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by the trustee of the Plan. At both December 31, 2014 and 2013, the Plan's interest in the net assets of the Master Trust was approximately 14 percent. Investment income is allocated to each plan on the basis of each plan's proportionate interest in the assets of the Master Trust.

The following table presents the fair values of investments for the Master Trust as of December 31, 2014 and 2013:

	<u>2014</u>	<u>2013</u>

5. Fair Value Measurements of Financial Instruments in Master Trust

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Common collective trusts are valued at the net asset value ("NAV") of units of a collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Hourly Employees Pension Plan of Kaydon Ring & Seal, Inc. Baltimore Plant

Notes to Financial Statements
December 31, 2014 and 2013

The common collective trust fund's objective is to preserve capital, achieve a competitive level of income over time and maintain a stable unit price although unit value is not guaranteed. Returns are derived from income earned less expenses. Individual investment contracts are held within the portfolio and represent credit obligations of the issuer, units of the portfolio are not guaranteed by the trustee, the Company, or any federal or state agency. The portfolio includes contracts issued by insurance companies and other financial institutions, fixed income securities, and money market funds.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Fair Value of Investments that Calculate Net Asset Value

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2014 and 2013, respectively.

	December 31, 2014			
	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Common collective trusts	\$ 159,270,566	\$ -	Daily	None
	December 31, 2013			
	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Common collective trusts	\$ 151,718,567	\$ -	Daily	None

6. Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. No participant contributions are permitted. The minimum funding requirements of ERISA were met for 2014 and 2013.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Notes to Financial Statements

December 31, 2014 and 2013

7. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- b) Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations (discussed subsequently).
- c) All other vested benefits (that is, vested benefits not insured by PBGC).
- d) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, a statutory ceiling exists, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

8. Related Party and Party In Interest Transactions

The Plan's investments are administered under a master trust agreement with The Northern Trust Company, the trustee of the Plan. Contributions are held and managed by The Northern Trust Company, who invests cash received, interest, and dividend income and makes distributions to participants. These transactions qualify as party in interest transactions which are exempt from the prohibited transactions rules of ERISA.

Certain expenses of The Northern Trust Company are paid by the Plan related to plan operations and investment activity described in Note 1. Notes to Financial Statements

December 31, 2014 and 2013

9. Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated April 13, 2011, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. Risks and Uncertainties

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

In addition, the Plan's interest in the Master Trust consists of various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statement of Net Assets Available for Benefits.

11. Information Certified by Trustee

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2014 and 2013. Accordingly, The Northern Trust Company, the trustee of the Plan has certified to the completeness and accuracy of all investments reported in the accompanying Statement of Net Assets Available for Benefits as of December 31, 2014 and 2013 and the related investment activity reported in the Statement of Changes in Net Assets Available for Benefits for the years ended December 31, 2014 and 2013.

12. Subsequent Event

The Committee consented to expand the SKF USA Inc. Master Trust at Bank of New York Mellon to open an account for the Plan and to transfer the majority of the assets of the Plan to the SKF USA Inc. Master Trust. Such transfer took place on January 9, 2015. The Committee voted to retain the Northern Trust Company under the existing trust relationship for the foreseeable future to process benefit payments for retirees, until such time as that benefit disbursement function can be transferred to the SKF USA Inc. Master Trust.

The Plan has evaluated subsequent events for recognition or disclosure through October 13, 2015, the date the financial statements were available to be issued.

Asset valuation method

The Actuarial Value of Assets is Market Value as of the valuation date, including discounted receivable contributions, reduced by 2/3 and 1/3 of the gain/(loss) in the prior two years, respectively. The gain/(loss) for each period is determined as the actual return on Market Value during the period less the expected return on Market Value based on an assumed earnings rate chosen by the plan administrator but required by PPA to be not greater than the applicable third segment rate. The resulting value is constrained to be within a corridor of 90% to 110% of Market Value, including discounted receivable contributions.

	EA's Expected Return	Third Segment Rate	Reflecting PPA Limit
2014 Expected Return	7.00%	6.99%	6.99%
2013 Expected Return	7.70%	6.76%	6.76%
2012 Expected Return	7.70%	7.52%	7.52%

Mortality

Mortality tables mandated by PPA as specified in IRS Regulation 1.430(h)(3)-1, applied on a fully generational basis.

Actuarial cost method

The Funding Target is the present value of accrued benefits based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected plan related expenses to be paid from plan assets during the year.

Asset valuation method

The Actuarial Value of Assets is Market Value as of the valuation date, including discounted receivable contributions, reduced by 2/3 and 1/3 of the gain/(loss) in the prior two years, respectively. The gain/(loss) for each period is determined as the actual return on Market Value during the period less the expected return on Market Value based on an assumed earnings rate chosen by the plan administrator but required by PPA to be not greater than the applicable third segment rate. The resulting value is constrained to be within a corridor of 90% to 110% of Market Value, including discounted receivable contributions.

	EA's Expected Return	Third Segment Rate	Reflecting PPA Limit
2014 Expected Return	7.00%	6.99%	6.99%
2013 Expected Return	7.70%	6.76%	6.76%
2012 Expected Return	7.70%	7.52%	7.52%

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the economic and demographic assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions, applicable law or regulations. Because of limited scope, Buck performed no analysis of the potential range of such future differences.
