**Note 1. Plan Description**

The following description of Indiana Rotomolding Inc. 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

**General:**

The Plan was established effective April 1, 2011 by Elkhart Plastics, Inc. formerly known as Indiana Rotomolding, Inc. (the "Company") and is a defined contribution plan covering substantially all full-time employees of the Company, who have three months of service as defined by the Plan, are age eighteen or older, and are not a member of a unit of employees covered by a collective bargaining agreement or a non-resident alien. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

**Contributions:**

Each year, participants may contribute a portion of their pre-tax annual compensation, as defined by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company has elected to provide safe-harbor contributions and therefore is required to match the first 1% of the employee's compensation and 50% of the next 5% of the employee's compensation. The Company contributions are invested into the various investment options in a manner that is consistent with participant contributions. Contributions are subject to certain limitations.

**Participant accounts:**

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution, if any, (b) Plan earnings, and (c) forfeitures of terminated participant's non-vested accounts (if applicable) and charged with an allocation of administrative expenses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's vested account.

**Vesting:**

Participants are immediately vested in their voluntary contributions and employer match contributions plus actual earnings thereon. Vesting in the remainder of their account is based on years of continuous service. A participant is 100% vested after three years of credited service.

**Payment of benefits:**

On termination of service due to death, disability, retirement, or other reasons, participants receive a single lump-sum payment in an amount equal to the value of the participant's vested account. Benefit payments are recorded when paid.

**Notes To Financial Statements**

---

**Forfeitures:**

Forfeited accounts can be used to reduce future employer contributions or allocated to participants. At December 31, 2012 and 2011, there were no forfeited accounts available for carry-over to future years. During the year ended December 31, 2012, approximately \$4,900 of forfeited accounts was used to reduce employer contributions.

**Notes receivable from participants:**

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance, whichever is less. The maximum term allowed is five years or longer for the purchase of a primary residence. The notes are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the third party administrator. Principal and interest are paid ratably through payroll deductions.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

**Administration of Plan assets:**

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

**Note 2. Significant Accounting Policies**

**Basis of accounting:**

The financial statements of the Plan are prepared under the accrual method of accounting.

**Use of estimates:**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

**Investment valuation and income recognition:**

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See below for discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

### Fair value measurements:

Accounting standards board establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. That hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

**Level 1** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

**Level 2** Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

**Level 3** Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of the observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

**Registered Investment Companies:** Valued at the quoted market price of the fund which represents the net asset value of the shares held by the Plan at year end.

**Shares of Pooled Separate Accounts:** Valued at the total of the NAV of shares of mutual funds and cash held by the account at year-end. The Plan's interest in the pooled separate accounts is valued based on the information reported by the investment advisor.

**Common Collective Trust:** Valued at the total of the NAV of shares of underlying investments held by the account at year-end. The Plan's interest in the trust accounts is valued based on the information reported by the investment advisor.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

In addition, each property is appraised annually by an independent appraiser.

**Changes in fair value levels:**

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2012, there were no transfers between levels.

**Note 5. Plan Termination**

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

**Note 6. Related Party Transactions**

Certain Plan investments are managed by Principal. Principal is the custodian, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid to the custodian and other third party administrators by the Plan for the year ended December 31, 2012 totaled approximately \$7,200.

**Note 7. Income Tax Status and Uncertain Tax Positions**

The Internal Revenue Service has determined and informed the prototype plan sponsor by a letter dated March 31, 2008, that the prototype plan was designed in accordance with the applicable requirements of the Internal Revenue Code ("IRC"). The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

The Plan's administrator has evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2009.
