STAR SPORTS THEATER 401(K) PROFIT SHARING PLAN & TRUST
NOTES TO FINANCIAL STATEMENTS
Year Ended December 31, 2014

NOTE 1—DESCRIPTION OF PLAN

The following description of the Star Sports Theater (the "Company") 401(k) Profit Sharing Plan & Trust (the "Plan") provides only general information. The Plan agreement provides a more complete description of the Plan's provisions.

General. The Plan was adopted as of December 1, 2008 as a defined contribution plan. Since then, the Plan has been amended from time to time, the latest amendment put into effect as of June 20, 2011. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility. The Plan covers all full-time employees of the Company who are age 18 or older and have completed three months of service.

Contributions. The eligible employees may elect to contribute any percentage of their compensation, subject to certain IRS limitations. Employees over 50 years of age may make an additional "catch-up contribution" as permitted by IRS regulations. "Rollover" contributions from other qualified plans are allowed.

The Company does not make matching contributions to the Plan. The Company may also elect to contribute to the profit sharing portion of the Plan based upon the total compensation of all employees eligible to receive an allocation, under an allocation method / formula prescribed in the Plan agreement.

Participant Accounts. Each participant's account is credited with (a) participant's contribution, (b) Plan earnings and (c) Employer's contributions.

Investment fees are charged to the funds used by the Plan. The prospectuses of these funds provide details on the various types and amounts of investments fees charged to the Plan funds.

Vesting. Participants are fully vested for their contributions including rollovers, plus actual earnings thereon. Vesting on Company contributions is based on years of service. The vesting schedule in effect is as follows:

Years of Service	Percentage Vested
1	0
2	20
3	40
4	60
5	80
6 or more	100

NOTE 1—DESCRIPTION OF PLAN (CONTINUED):

Plan Investment. The Plan's assets are held in trust and the plan offers a number of investment options. The participants select the percentage or amount of contributions to be allocated to each investment option and allocations. Participants' contributions are withheld from their paychecks and remitted to the Plan. The participants' accounts are credited with actual earnings on underlying investments. Earnings on investments include interest income, dividends and realized and unrealized gains or losses from the funds.

Plan and Trust Administration. The administration of the Plan is the responsibility of the Company. The assets of the Plan are maintained in a trust fund that is administered, under a custodian agreement, by Mid Atlantic Trust Company (Custodian).

Payment of Benefits. Benefits attributable to each participant become fully vested in the event of death, total disability, or normal retirement at age 65. Participants whose service terminates prior to their normal retirement age, other than by reason of death or disability, are entitled to a termination benefit based upon their vested entitlements. On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of their account or installments over a period of time.

Notes Receivable from Participants (Participant Loans). Subject to government regulations and a $1,000 minimum amount, participants may borrow up to the lesser of 50% of their vested interest of their account or $50,000. Such loans are collateralized by the respective participant's account with interest and principal payments being credited to the participant's account according to the then current investment choices. All loans are subject to repayment through payroll deductions over a maximum period of 5 years, except for loans to purchase a primary residence, which is determined by the plan administrator.

Forfeitures. The portion of a participant's account that is not vested is forfeited when the participant's employment with the Company is terminated. These forfeitures are first used to pay administrative expenses of the Plan and then to reduce future employer contributions payable under the Plan. At December 31, 2014 and 2013, the balance in the forfeiture non-vested account amounted to $0 and $0, respectively. No forfeiture funds were applied to reduce employer's profit sharing contributions during the year ended December 31, 2014.

Plan Termination. The Company anticipates and believes that the Plan will continue, but reserves the right to terminate the Plan in whole or in part at any time. In the event of termination of the Plan, the net assets will be allocated amongst the participants in accordance with the terms of the Plan and ERISA.

Risk and Uncertainties. The Plan invests in various financial investments. All such investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain financial investments, it is at least reasonably possible that changes in the values of the investments securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 2—BASIS OF ACCOUNTING

The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value as reported by Custodian of the Plan. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 6 for discussion of fair value measurements. Participant loans are valued at their outstanding balance, which approximates their market value.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income. Net gain (loss) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

Management has evaluated subsequent events through October 26, 2015, the date the financial statements were available to be issued.

NOTE 3 - RECENT ACCOUNTING PRONOUNCEMENTS

FASB ASC 962, *Plan Accounting—Defined Contribution Pension Plans: Reporting Loans to Participants by Defined Contributions Pension Plans*, clarifies how loans to participants should be classified and measured. Participant loans should be classified as notes receivable from participants (rather than investments) and measured at their unpaid principal balance plus any accrued but unpaid interest. This change is effective for fiscal years ending after December 15, 2010. The Plan reflected notes receivable from participants of $11,979 at December 31, 2014.

FASB ASC 820, *Fair Value Measurement,* emphasizes that fair value is a market-based measurement, not an entity-based measurement. The statement serves to define "fair value" as the price that would be received to sell an asset. As required by generally accepted accounting principles for fair value measurement, this establishes and updates a single authoritative definition of fair value, sets out a framework for measuring fair value and requires additional disclosures about fair value measurement (see Note 6).

NOTE 4 - INFORMATION CERTIFIED BY THE CUSTODIAN

The following is a summary of the unaudited information regarding the Plan, included in the Plan's financial statements and supplemental schedules as of December 31, 2014 and for the year then ended, that was prepared or derived from information prepared by the Custodian and furnished to the Plan Administrator:

a) Statement of Net Assets Available for Benefits, except for contributions receivable.
b) Statement of Changes in Net Assets Available for Benefits, except for contributions.
c) Supplemental Schedule of Assets Held for Investment Purposes.

The Plan Administrator has obtained a certification from the Custodian that such information is complete and accurate.

NOTE 5 - INVESTMENTS

The fair value of investments that represent 5% or more of the Plan's net assets available for benefits is as follows:

	Net Asset Value at December 31,	
	2014	2013
Fidelity Prime Fund-Money Mkt	$ 144,571	$ 138,392
Fidelity Advisor Strategic Income	51,359	65,182
Fidelity Advisor Freedom Funds (combined)	686,735	671,810

NOTE 6 – FAIR VALUE MEASUREMENTS

Fair value is determined based on assumptions that a market participant would use in pricing an asset or liability. Measurements of fair value are classified within a hierarchy based upon valuation inputs that give the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy are as follows:

Level 1 Inputs to valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in active markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable or substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds: Valued at the net asset value of shares held by the Plan at year end.

Common Stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Government and Corporate Debt Obligations: Valued at the closing price reported on the active or observable market on which the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, while management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 7 - INCOME TAX STATUS

The Internal Revenue Service has issued an opinion dated October 31, 2011, stating that the written form of the underlying prototype plan document is qualified under Section 401(a) of the Code, and that any employer adopting this form of the Plan will be considered to have a plan qualified under Section 401(a) of the Code. Therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Sponsor adopted this prototype plan on October 31, 2011, and the Plan received a current determination letter dated April 10, 2014. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt. The Plan believes that it has appropriate support for any tax position taken, and as such, does not have any uncertain tax positions that would require recognition or disclosure at December 31, 2014.

NOTE 8 - ADMINISTRATIVE EXPENSES

All administrative expenses of the Plan, other than Participants' loan fees and benefits payments fee, are currently paid by the Company.

NOTE 9 - PARTY-IN-INTEREST TRANSACTIONS

The Plan's investments include shares/units of mutual funds managed by Mid Atlantic Trust Company. Since Mid Atlantic Trust Company is the custodian of the Plan, these transactions qualify as party-in-interest transactions. Administrative fees paid to Mid Atlantic Trust Company amounted to $860 for the year ended December 31, 2014.

The records of the Plan indicate no party-in-interest transactions which are prohibited by ERISA Section 406 and for which no statutory or administrative exemption exists.

NOTE 10 - LATE TRANSFER OF PARTICIPANTS' CONTRIBUTIONS

During the year ended December 31, 2014, the Company was not late in transferring any participants' contributions to the Plan.
