Report on the Financial Statements

We were engaged to audit the accompanying financial statements of **Indiana Rotomolding Inc. 401(k) Savings Plan** (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company, Principal Life Insurance Company, and Principal Life Insurance Company on behalf of Union Bond and Trust the custodian of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the custodian holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the custodian as of December 31, 2013 and 2012, and for the year ended December 31, 2013, that the information provided to the Plan Administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) as of December 31, 2013, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purposes of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the custodian have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes To Financial Statements

Note 1. Plan Description

The following description of Indiana Rotomolding Inc. 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General:

The Plan was established effective April 1, 2011 by Elkhart Plastics Inc. (the "Company") and is a defined contribution plan covering substantially all full-time employees of the Company, who have three months of service as defined by the Plan, are age eighteen or older, and are not a member of a unit of employees covered by a collective bargaining agreement or a non-resident alien. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

Each year, participants may contribute a portion of their pre-tax annual compensation, as defined by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company has elected to provide safe-harbor contributions and therefore is required to match the first 1% of the employee's compensation and 50% of the next 5% of the employee's compensation. The Company contributions are invested into the various investment options in a manner that is consistent with participant contributions. Contributions are subject to certain limitations.

Participant accounts:

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution, if any, (b) Plan earnings, and (c) forfeitures of terminated participant's non-vested accounts (if applicable) and charged with an allocation of administrative expenses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's vested account.

Vesting:

Participants are immediately vested in their voluntary contributions and employer safe-harbor match contributions plus actual earnings thereon. Vesting in the remainder of their account is based on years of continuous service. A participant is 100% vested after three years of credited service.

Payment of benefits:

On termination of service due to death, disability, retirement, or other reasons participants receive a single lump-sum payment in an amount equal to the value of the participant's vested account. Benefit payments are recorded when paid.

Forfeitures:

Forfeited accounts can be used to reduce future employer contributions or allocated to participants. At December 31, 2013 and 2012, there were no forfeited accounts available for carry-over to future years. During the year ended December 31, 2013, approximately \$3,300 of forfeited accounts was used to reduce employer contributions.

Notes To Financial Statements

Notes receivable from participants:

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance, whichever is less. The maximum term allowed is five years or longer for the purchase of a primary residence. The notes are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the third party administrator. Principal and interest are paid ratably through payroll deductions.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Administration of Plan assets:

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Note 2. Significant Accounting Policies

Basis of accounting:

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See below for discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Fair value measurements:

Accounting standards board establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. That hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Notes To Financial Statements

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of the observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Registered Investment Companies: Valued at the quoted market price of the fund which represents the net asset value of the shares held by the Plan at year end.

Shares of Pooled Separate Accounts: Valued at the total of the NAV of shares of mutual funds and cash held by the account at year-end. The Plan's interest in the pooled separate accounts is valued based on the information reported by the investment advisor.

Common Collective Trust: Valued at the total of the NAV of shares of underlying investments held by the account at year-end. The Plan's interest in the trust accounts is valued based on the information reported by the investment advisor.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Subsequent events:

The Plan Sponsor has evaluated subsequent events for potential recognition and/or disclosure through April 14, 2015, the date the financial statements were available to be issued.

New accounting pronouncement:

In October 2012, the FASB issued ASU 2012-04, "Technical Corrections and Improvements". The amendments in this update cover a wide range of Topics in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financials. The adoption of ASU 2012-04 is not expected to have a material impact on subsequent periods.

Note 3. Information Certified by Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company, Principal Life Insurance Company, and Principal Life Insurance Company on behalf of Union Bond and Trust (collectively referred to "Principal")

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Principal, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedule.

The following table presents the Plan's assets, as certified by Principal, at December 31, 2013 and 2012. Investments representing 5% or more of the Plan's net assets as of December 31, 2013 and 2012 are separately identified.

- (a) This asset class seeks to provide a relatively high level of current income and long-term growth of income and capital. The fund normally investments at least 80% of its net assets in dividend-paying equity securities. Typical investments include equity securities of companies with large market capitalizations, but may also invest in equity securities of companies with medium market capitalizations.
- (b) This asset class typically invests the majority of assets in common stocks of companies that compose the S&P 500 Index. Management attempts to mirror the investment performance of the index by allocating assets in approximately the same weightings as the S&P 500 Index. Over the long-term, this asset class seeks a very close correlation between the performance of the funds and that of the S&P 500 Index.
- (c) This asset class seeks long-term growth of capital. Typical investments include at least 80% of the net assets in equity securities of companies with large market capitalizations. The fund invests in growth equity securities; growth orientation emphasizes buying equity securities of companies whose potential for growth of capital and earnings is expected to be above average. The fund may also invest in securities of foreign companies.
- (d) This asset class is generally comprised of investment options that invest in common stocks and other equity securities of medium capitalization companies. Security selections are based on stocks with value and/or growth characteristics, and management constructs an investment portfolio that has a blend of stocks with these characteristics. The fund may invest up to 25% of assets in foreign securities.
- (e) This asset class typically invests the majority of assets in common stocks of companies that compose the S&P SmallCap 600 Index. Management attempts to mirror the investment performance of the index by allocating assets in approximately the same weightings as the S&P 600 Index. Over the long-term, this asset class seeks a very close correlation between the performance of the funds and that of the S&P 600 Index.

Notes To Financial Statements

- (f) This asset class seeks long-term growth of capital by investing primarily in stocks of non-US companies with relatively small capitalizations. The fund invests in securities of companies with their principal place of business or principal office outside the US; companies for which the principal securities market is outside the US; or companies, regardless of where their securities are traded, that derive 50% of their total revenue outside of the US.
- (g) This asset class is generally comprised of investment options that invest in bonds, or debt of a company or government entity. It may also include real estate investment options that directly own property. These investment options typically carry more risk than short-term fixed income investment options, but less overall risk than equities. All investment options in this category have the potential to lose value.
- (h) This asset class invests the majority of assets on commercial real estate holdings. It focuses on properties that return both lease income and appreciation of the buildings' marketable value. The property holdings usually contain real estate from the multi-family, office, warehouse/manufacturing, and retail sectors. The fair value of the underlying real estate is estimated using discounted cash flow valuation models that utilize public real estate market data inputs such as transaction prices, market rents vacancy levels, leasing absorption, market cap rates and discount rates. In addition, each property is appraised annually by an independent appraiser.
- (i) This asset class seeks a total return consisting of long-term growth of capital and current income. The fund operates as a "target date fund".
- (j) This asset class seeks to provide a low-risk, moderate-yield investment. The fund is managed to earn a consistent level of return, while providing for preservation of capital, high credit quality and liquidity to pay plan benefits.

Changes in fair value levels:

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2013, there were no transfers between levels.

Note 5. Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

Note 6. Related Party Transactions

Certain Plan investments are managed by Principal. Principal is the custodian, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid to the custodian and other third party administrators by the Plan for the years ended December 31, 2013 totaled approximately \$14,400.

Notes To Financial Statements

Note 7. Income Tax Status and Uncertain Tax Positions

The Internal Revenue Service has determined and informed the prototype plan sponsor by a letter dated March 31, 2008, that the prototype plan was designed in accordance with the applicable requirements of the Internal Revenue Code ("IRC"). The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

The Plan's administrator has evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2010.
