1. PLAN DESCRIPTION

The following description of the W.C.A. Services Corporation Savings and Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan as permitted under Section 401(k) of the Internal Revenue Code ("IRC"). The Plan is funded by employee and employer contributions and covers employees of W.C.A. Services Corporation (the "Company" and "Plan Sponsor") upon the attainment of age 21 and upon the completion of one year of service. Non-resident aliens and leased employees are not eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions – Participants may elect to contribute up to 100% of their eligible compensation limited to the IRC maximum. The Company contributes, as a matching contribution, an amount equal to 50% of an employee's salary deferral contribution, disregarding any salary deferral contribution in excess of 4% of the employee's compensation. The Company may also make discretionary profit sharing contributions, which may vary from year to year. This contribution is determined at year-end by the Board of Directors. The Company contributed a discretionary profit sharing contribution of $61,430 for the year ended December 31, 2014. No discretionary contribution was made for the year ended December 31, 2013.

Participant Accounts – Each participant's account is credited with the participant's contribution and an allocation of the (a) employer contributions, (b) Plan earnings, and (c) forfeitures of terminated participants' non-vested accounts and charged with an allocation of administrative expenses. Allocations are based on participant earnings or participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are fully vested with respect to their salary deferrals, qualified employer matching contributions, and qualified non-elective contributions. A participant is 100% vested in employer profit-sharing contributions after three years of credited service. Notwithstanding the profit-sharing vesting provisions, a participant's right to their account will be nonforfeitable upon attainment of retirement, total and permanent disability, or death.

Forfeitures – Upon the forfeiture of any non-vested portion of a participant's account, the forfeited amount shall be used to reduce future Company contributions to the Plan. During the year ended December 31, 2014, forfeitures were utilized in the amount of $552 to offset employer matching contributions. As of December 31, 2014 and 2013, no forfeitures were available to be used to reduce future Company contributions.

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 or up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Terms range from one to five years. The note is secured by the balance in the participant's account and bears interest at rates commensurate with local prevailing rates, as determined by the Plan administrator. Principal and interest are paid through regular payroll deductions. Interest rates were 4.25% at December 31, 2014 maturing through August 2019.

1. PLAN DESCRIPTION (continued)

Payment of Benefits – On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of his or her vested account balance, or annual installments over various terms. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

Plan Termination – Although it has not expressed any intent to do so, the Plan Sponsor has the right to terminate the Plan subject to the provisions of ERISA. In the event of termination, all participants shall become 100% vested in their employer discretionary contributions

Administrative Expenses – Costs of administering the Plan are primarily paid by the Plan Sponsor.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition – The Plan measures the fair value of assets and liabilities based on accounting principles generally accepted in the United States of America, which are subject to reporting at fair value. The Plan follows a hierarchy for the determination of fair value, as well as certain disclosure requirements relative to those assets and liabilities. The hierarchy identifies three levels of input. Level 1 inputs are generally quoted market prices for identical assets or liabilities, which are actively traded on an exchange. Level 2 inputs generally consist of market prices for identical assets which are not actively traded or market prices of similar assets or liabilities which are actively traded on an exchange. Level 3 inputs are referred to as unobservable inputs and consist primarily of information derived by management where Level 1 and Level 2 inputs are not available. These may include such things as present value of expected future cash flows or other valuation methodologies. Under the hierarchy, Level 1 inputs are the most preferred, followed by Level 2, and Level 3. Level 3 inputs are to be used only where neither Level 1 nor Level 2 inputs are available.

An investment's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value as of December 31, 2014 and 2013:

Pooled separate accounts: Valued based on the net asset values of units held by the Plan at year-end. The fair values of the underlying assets in the pooled separate accounts, except for the U.S. Property SEP Account, are based on the fair values of publicly traded securities. The fair value of underlying assets of the U.S. Property SEP Account is primarily based on the appraised value of real estate, as well as the fair value of publicly traded securities.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Guaranteed interest accounts: The guaranteed interest accounts are not fully benefit-responsive and are accordingly stated at fair value. Fair values of the guaranteed interest accounts are the amounts Plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity for an event other than death, disability, termination, or retirement. This fair value represents contract value adjusted to reflect current market interest rates only to the extent such market rates exceed contract crediting rates. Contract value represents contributions made under the contract, plus interest at the contract rate, less funds used to pay Plan benefits and the insurance company's administrative expenses.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

The Plan presents in the statement of changes in net assets available for benefits the net appreciation in fair value of investments, which includes unrealized and realized gains and losses on investments that were held or sold during the period.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis.

Payment of Benefits – Benefits are recorded when paid.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties – The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest, market and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Subsequent Events – Management has evaluated the effects of all subsequent events through October 14, 2015, the date the financial statements were available to be issued, to determine if events or transactions occurring through that date require potential adjustment or disclosure in the financial statements.

3. PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are units of pooled separate accounts and guaranteed interest accounts managed by Principal Financial Group and subsidiaries. As Principal Life Insurance Company ("Principal") is a member of Principal Financial Group and is the Plan trustee as defined in the Plan document, these transactions qualify as party in interest transactions.

4. INVESTMENTS

7. INCOME TAX STATUS

The Plan is using a prototype plan developed by Principal Life Insurance Company which received a favorable determination letter from the Internal Revenue Service ("IRS") stating the Plan is qualified under applicable sections of the IRC, and, therefore, the related trust net investment income is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualifications. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and therefore, believes that the Plan is qualified and the related trust, net investment income is tax exempt.
