Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Industrial Piping, Inc. 401(k) Profit Sharing Plan (the "Plan"), which comprise the statements of net assets available for benefits as of September 30, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended September 30, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the **Basis for Disclaimer of Opinion** paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor ("DOL")'s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by John Hancock Life Insurance Company USA, the Trustee of the Plan as of September 31, 2013 and for the period October 1, 2013 to March 31, 2014, and State Street Bank & Trust Company, the Trustee of the Plan as of September 30, 2014 and for the period April 1, 2014 through September 30, 2014, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan Administrator that the Trustees held the Plan's investment assets and executed investment transactions. The Plan Administrator has obtained a certification from the Trustees as of September 30, 2014 and 2013, and for the year ended September 30, 2014, that the information provided to the Plan Administrator by the Trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule H, Part IV, Line 4i – Schedule of Assets (Held at End of Year) as of September 30, 2014 is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1—Description of the Plan

The following brief description of Industrial Piping, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan established by Industrial Piping, Inc. (the "Company" or "Plan Sponsor") in December 1997. The Plan covers full-time employees of the Company who have completed twelve months of service which is defined as 1,000 hours of service over 12 consecutive months of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Administration – The Plan is administered by the Company, which serves without compensation. The Plan Administrator has the overall responsibility and authority as the named fiduciary to manage and control the operations and administration of the Plan and may designate one or more individuals to perform those responsibilities.

Contributions – Participants may contribute up to 100% of pretax annual compensation subject to certain Internal Revenue Service ("IRS") limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investments of their contributions into various investment options offered by the Plan.

The Company may make a discretionary matching contribution equal to a specified percentage of each participant's compensation. The Company elected to match employee deferrals by 50%, up to 6% of employees' annual compensation for the year ended September 30, 2014. The exact percentage, if any, is determined each year by the Company. The Company made discretionary matching contributions of $81,506 during the year ended September 30, 2014.

The Plan also allows for annual discretionary profit sharing contributions in an amount to be determined by the Board of Directors at the end of the Plan year. Participants must be employed on the last day of the Plan year and have worked at least 1,000 hours in order to be eligible to receive any profit sharing contributions that may be made for that Plan year. The Company made no profit sharing contributions during the year ended September 30, 2014.

Participant Accounts – Each participant's account is credited with the participant's contribution, allocations of related Company discretionary matching contribution and discretionary profit sharing contributions, if applicable, and Plan earnings, and charged with benefits paid to participants and an allocation of Plan losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their voluntary contributions. Vesting in Company contributions and earnings thereon are subject to the following vesting schedule:

Years of Service Completed	Vesting Percentage
1 – 2	0%
2 – 3	50%
3 or more	100%

Notes Receivable From Participants – Effective this Plan year, participants may borrow from their accounts at a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's accounts and bear interest commensurate with local rates as determined by the Plan Administrator. The notes receivable from participants are due within five years. As of September 30, 2014, the interest rate on all outstanding notes was 4.25% with maturities through October, 2019. Principal and interest are generally paid through payroll deductions.

Note 1—Description of the Plan (continued)

Benefits Paid to Participants – Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, installment payments, or an annuity. For termination of service for other reasons, distribution of the value of the participant's vested interest in his or her account will begin as soon as possible after the participant's request. Withdrawals prior to attaining age 59 ½ are not permitted, except in the event of retirement, disability, or as a hardship distribution. Upon proof, to the satisfaction of the Plan Administrator, of an immediate and heavy financial need, amounts contributed may be withdrawn for a hardship purpose. Certain income tax penalties may apply to withdrawals or distributions prior to age 59 ½.

Forfeited Accounts – As of September 30, 2014 and 2013, forfeited accounts totaled $4,357 and $3,696, respectively. Forfeitures are retained in the Plan and will first be used to reduce the Company matching contributions for the Plan year in which the forfeitures occurred. During the year ended September 30, 2014, $4,357 of forfeitures were used to reduce Company matching contributions.

Note 2—Summary of significant accounting policies

Basis of Accounting – The accompanying financial statements have been prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to common/collective trusts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the contract value of these investments, which approximates the fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefits Paid to Participants – Benefits paid to participants are recorded when paid.

Notes Receivable From Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Plan Administration Expenses – As discussed in Note 6, certain Plan administration expenses are paid by the Plan, as allowed by the Plan document. The Plan Sponsor pays all other administrative expenses incurred by the Plan.

Use of Estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Note 2—Summary of significant accounting policies (continued)

Risks and Uncertainties – Investment securities are subject to various risks such as interest rate, credit, and overall market volatility. Due to the levels of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term which could materially affect the amounts reported in the statements of net assets available for benefits.

Fair Value Measurements – GAAP defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction value hierarchy which requires an entity to maximize the use of observable inputs when measuring fair value.

The standard describes three levels of inputs that may be used to measure fair value:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Money Market Fund – This investment is a public investment vehicle valued using the NAV provided by the administrator of the fund. The underlying assets are generally comprised of short-term securities representing high-quality, liquid debt, and monetary assets. The money market fund is classified within Level 1 of the valuation hierarchy.

Mutual Funds – These investments are public investment vehicles valued using the net asset value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within Level 1 of the valuation hierarchy.

Common/Collective Trusts – These investments are public investment vehicles valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. Investments and other portfolio instruments are generally valued using a market approach. With respect to the underlying funds, equity investments for which market quotations are readily available (including registered investment companies that are exchange traded) are valued at the last reported sale price on their principal exchange on valuation date, or official close price for certain markets. If no sales are reported for that day, investments are valued at the last published sale price, the mean between the last reported bid and ask prices, or at fair value determined in good faith by the trustee. The NAV is generally classified within Level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market. The common/collective trusts consist primarily of the Invesco Stable Asset Fund, which is described in Note 4.

Note 3—Investments (unaudited)

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor ("DOL")'s Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, John Hancock Life Insurance Company USA ("John Hancock"), the Trustee of the Plan from October 1, 2013 to March 31, 2014, has certified to the completeness and accuracy of all investments and related net appreciation in fair value of investments as of September 30, 2013 and for the period October 1, 2013 to March 31, 2014. In addition, State Street Bank & Trust Company ("State Street"), the Trustee of the Plan beginning as of April 1, 2014, has certified to the completeness and accuracy of all investments and related net appreciation in fair value of investments as of September 30, 2014 and for the period April 1, 2014 to September 30, 2014.

John Hancock has certified that investments consisting of shares of mutual funds and a money market fund have a fair value of $2,939,276 as of September 30, 2013, and that the Plan's investments in mutual funds and a money market fund for the period October 1, 2013 to March 31, 2014 had net appreciation of $157,469, which includes gains and losses on investments bought and sold, as well as held, during the period.

State Street has certified that investments consisting of shares of mutual funds and common/collective trusts have a fair value of $3,303,747 as of September 30, 2014, and that, for the period April 1, 2014 to September 30, 2014, the Plan's investments in mutual funds and common/collective trusts had net appreciation of $49,921 and $11,826, respectively, which includes gains and losses on investments bought and sold, as well as held, during the period.

State Street has also certified the Schedule H, Part IV, Line 4i – Schedule of Assets (Held at End of Year) as of September 30, 2014.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing the information to the related information included in the financial statements and supplemental schedule.

The following presents investments that represent 5 percent or more of the Plan's net assets available for benefits as of September 30:

T. Rowe Price Retirement 2045 Fund	187,412	*

* Funds did not represent 5% or more of the Plan's net assets for the respective year listed.

Note 4—Invesco Stable Asset Fund

The Plan is invested in the Invesco Stable Asset Fund ("ISAF") as of September 30, 2014, and is applying the practical expedient to value the fund. The investment objectives seek the preservation of principal and to provide interest income reasonably obtained under prevailing market conditions and rates, consistent with seeking to maintain required liquidity. Participants' ownership of the ISAF is represented as units. Units are issued and redeemed daily at the ISAF's NAV. The issuance and redemption terms of the ISAF are consistent with those of the underlying assets.

Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investment in the ISAF at contract value. Contract value represents contributions made to the ISAF, plus earnings, less participant withdrawals and administrative expenses. The ISAF imposes certain restrictions on the Plan that may be subject to circumstances that impact its ability to transact at contract value, as described in the following paragraphs. Plan management believes the occurrence of events that would cause the ISAF to transact at less than contract value is not probable.

The ISAF invests in synthetic guaranteed investment contracts (synthetic GICs), which are portfolios of debt securities or units of collective trusts and enters into wrap contracts issued by third parties. A wrap contract is an agreement by another party, such as a bank or insurance company, to make payments to the ISAF in certain circumstances. Wrap contracts are designed to allow a stable value portfolio to maintain a constant NAV and protect a portfolio in extreme circumstances. In a typical wrap contract, the wrap issuer agrees to pay a portfolio the difference between the contract value and the market value of the underlying assets once the market value has been totally exhausted.

The following events may limit the ability of the Plan to transact at contract value:

- Termination of the Plan.
- A material adverse change to the provision of the Plan.
- The employer elects to withdraw from a wrapper contract in order to switch to a different investment provider.
- The terms of a successor Plan do not meet the wrapper contract issuer's underwriting criteria for issuance of a clone wrapper contract.

The average yields of the investment contracts held by the ISAF for the year ended September 30, 2014 are as follows:

Based on market yield at the end of the reporting period – 1.219%

Based on credit rating at the end of the reporting period – 1.300%

The ISAF is unlikely to maintain a stable NAV if, for any reason, it cannot obtain or maintain wrap contracts covering all of its underlying assets that are not otherwise invested in money market funds. For example, this could result from an inability to promptly find a replacement wrap contract following termination of a wrap contract. The wrap issuer's ability to meet its contractual obligations under the wrap contracts may be affected by future economic and regulatory developments. In the event that wrap contracts fail to perform as intended, the ISAF's NAV may decline if the market value of its assets declines.

Note 5—Fair value measurements

The Plan's financial instruments carried at fair value are classified by the following fair value hierarchy levels as of September 30:

	2014			
	Level 1	Level 2	Level 3	Total
Common/collective trusts	$ -	$ 1,165,620	$ -	$ 1,165,620

The following table summarizes investments measured at fair value based on NAV per share as of September 30, 2014:

Asset	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common/collective trusts	$1,165,620	n/a	Daily	30 days

Note 6—Party-in-interest transactions

Certain Plan investments held are shares of mutual funds and a money market fund managed by John Hancock, the Trustee of the Plan as of September 31, 2013 and for the period October 1, 2013 to March 31, 2014, and State Street, the Trustee of the Plan as of September 30, 2014 and for the period April 1, 2014 through September 30, 2014. Fees paid by the Plan for investment management services amounted to $1,238 for the year ended September 30, 2014. Transactions with John Hancock and State Street qualify as party-in interest transactions, which are exempt from the prohibited transaction rules of ERISA.

Note 7—Tax status

The Plan operates under a non-standardized prototype plan document sponsored by WRL & Associates, which has a determination letter dated December 3, 1997. Although the non-standardized prototype plan document has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, that it has no income subject to business income tax and that the Plan continues to be tax exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of September 30, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to September 30, 2011.

Note 8—Plan termination

The Company believes that the Plan will continue without interruption, but reserves the right to discontinue the Plan. In the event such discontinuance results in termination of the Plan, the Plan provides that the assets be allocated among the participants and beneficiaries in the amounts credited to each participant's respective account at the effective date of such termination. In the event of Plan termination, participants would become 100 percent vested in their Company contributions.

Note 9—Subsequent events

The Company has evaluated subsequent events through July 15, 2015, which is the date the financial statements were available to be issued.

Effective December 1, 2014, CIC Group, Inc. Office 401(k) Savings Plan and Trust was merged into the Plan.

Effective October 1, 2015, the Company amended the Plan to offer safe harbor employer matching contributions. The Company will make a matching contribution equal to 100% of employee salary deferrals that are made up to the first 3% of their eligible compensation, as well as a matching contribution equal to 50% of the employee's compensation that they defer between 3% and 5% of their eligible compensation.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Industrial Piping, Inc. 401(k) Profit Sharing Plan (the "Plan"), which comprise the statements of net assets available for benefits as of September 30, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended September 30, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the **Basis for Disclaimer of Opinion** paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor ("DOL")'s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by John Hancock Life Insurance Company USA, the Trustee of the Plan as of September 31, 2013 and for the period October 1, 2013 to March 31, 2014, and State Street Bank & Trust Company, the Trustee of the Plan as of September 30, 2014 and for the period April 1, 2014 through September 30, 2014, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan Administrator that the Trustees held the Plan's investment assets and executed investment transactions. The Plan Administrator has obtained a certification from the Trustees as of September 30, 2014 and 2013, and for the year ended September 30, 2014, that the information provided to the Plan Administrator by the Trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule H, Part IV, Line 4i – Schedule of Assets (Held at End of Year) as of September 30, 2014 is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1—Description of the Plan

The following brief description of Industrial Piping, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan established by Industrial Piping, Inc. (the "Company" or "Plan Sponsor") in December 1997. The Plan covers full-time employees of the Company who have completed twelve months of service which is defined as 1,000 hours of service over 12 consecutive months of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Administration – The Plan is administered by the Company, which serves without compensation. The Plan Administrator has the overall responsibility and authority as the named fiduciary to manage and control the operations and administration of the Plan and may designate one or more individuals to perform those responsibilities.

Contributions – Participants may contribute up to 100% of pretax annual compensation subject to certain Internal Revenue Service ("IRS") limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investments of their contributions into various investment options offered by the Plan.

The Company may make a discretionary matching contribution equal to a specified percentage of each participant's compensation. The Company elected to match employee deferrals by 50%, up to 6% of employees' annual compensation for the year ended September 30, 2014. The exact percentage, if any, is determined each year by the Company. The Company made discretionary matching contributions of $81,506 during the year ended September 30, 2014.

The Plan also allows for annual discretionary profit sharing contributions in an amount to be determined by the Board of Directors at the end of the Plan year. Participants must be employed on the last day of the Plan year and have worked at least 1,000 hours in order to be eligible to receive any profit sharing contributions that may be made for that Plan year. The Company made no profit sharing contributions during the year ended September 30, 2014.

Participant Accounts – Each participant's account is credited with the participant's contribution, allocations of related Company discretionary matching contribution and discretionary profit sharing contributions, if applicable, and Plan earnings, and charged with benefits paid to participants and an allocation of Plan losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their voluntary contributions. Vesting in Company contributions and earnings thereon are subject to the following vesting schedule:

Years of Service Completed	Vesting Percentage
1 – 2	0%
2 – 3	50%
3 or more	100%

Notes Receivable From Participants – Effective this Plan year, participants may borrow from their accounts at a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's accounts and bear interest commensurate with local rates as determined by the Plan Administrator. The notes receivable from participants are due within five years. As of September 30, 2014, the interest rate on all outstanding notes was 4.25% with maturities through October, 2019. Principal and interest are generally paid through payroll deductions.

Note 1—Description of the Plan (continued)

Benefits Paid to Participants – Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, installment payments, or an annuity. For termination of service for other reasons, distribution of the value of the participant's vested interest in his or her account will begin as soon as possible after the participant's request. Withdrawals prior to attaining age 59 ½ are not permitted, except in the event of retirement, disability, or as a hardship distribution. Upon proof, to the satisfaction of the Plan Administrator, of an immediate and heavy financial need, amounts contributed may be withdrawn for a hardship purpose. Certain income tax penalties may apply to withdrawals or distributions prior to age 59 ½.

Forfeited Accounts – As of September 30, 2014 and 2013, forfeited accounts totaled $4,357 and $3,696, respectively. Forfeitures are retained in the Plan and will first be used to reduce the Company matching contributions for the Plan year in which the forfeitures occurred. During the year ended September 30, 2014, $4,357 of forfeitures were used to reduce Company matching contributions.

Note 2—Summary of significant accounting policies

Basis of Accounting – The accompanying financial statements have been prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to common/collective trusts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the contract value of these investments, which approximates the fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefits Paid to Participants – Benefits paid to participants are recorded when paid.

Notes Receivable From Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Plan Administration Expenses – As discussed in Note 6, certain Plan administration expenses are paid by the Plan, as allowed by the Plan document. The Plan Sponsor pays all other administrative expenses incurred by the Plan.

Use of Estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Note 2—Summary of significant accounting policies (continued)

Risks and Uncertainties – Investment securities are subject to various risks such as interest rate, credit, and overall market volatility. Due to the levels of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term which could materially affect the amounts reported in the statements of net assets available for benefits.

Fair Value Measurements – GAAP defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction value hierarchy which requires an entity to maximize the use of observable inputs when measuring fair value.

The standard describes three levels of inputs that may be used to measure fair value:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Money Market Fund – This investment is a public investment vehicle valued using the NAV provided by the administrator of the fund. The underlying assets are generally comprised of short-term securities representing high-quality, liquid debt, and monetary assets. The money market fund is classified within Level 1 of the valuation hierarchy.

Mutual Funds – These investments are public investment vehicles valued using the net asset value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within Level 1 of the valuation hierarchy.

Common/Collective Trusts – These investments are public investment vehicles valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. Investments and other portfolio instruments are generally valued using a market approach. With respect to the underlying funds, equity investments for which market quotations are readily available (including registered investment companies that are exchange traded) are valued at the last reported sale price on their principal exchange on valuation date, or official close price for certain markets. If no sales are reported for that day, investments are valued at the last published sale price, the mean between the last reported bid and ask prices, or at fair value determined in good faith by the trustee. The NAV is generally classified within Level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market. The common/collective trusts consist primarily of the Invesco Stable Asset Fund, which is described in Note 4.

Note 3—Investments (unaudited)

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor ("DOL")'s Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, John Hancock Life Insurance Company USA ("John Hancock"), the Trustee of the Plan from October 1, 2013 to March 31, 2014, has certified to the completeness and accuracy of all investments and related net appreciation in fair value of investments as of September 30, 2013 and for the period October 1, 2013 to March 31, 2014. In addition, State Street Bank & Trust Company ("State Street"), the Trustee of the Plan beginning as of April 1, 2014, has certified to the completeness and accuracy of all investments and related net appreciation in fair value of investments as of September 30, 2014 and for the period April 1, 2014 to September 30, 2014.

John Hancock has certified that investments consisting of shares of mutual funds and a money market fund have a fair value of $2,939,276 as of September 30, 2013, and that the Plan's investments in mutual funds and a money market fund for the period October 1, 2013 to March 31, 2014 had net appreciation of $157,469, which includes gains and losses on investments bought and sold, as well as held, during the period.

State Street has certified that investments consisting of shares of mutual funds and common/collective trusts have a fair value of $3,303,747 as of September 30, 2014, and that, for the period April 1, 2014 to September 30, 2014, the Plan's investments in mutual funds and common/collective trusts had net appreciation of $49,921 and $11,826, respectively, which includes gains and losses on investments bought and sold, as well as held, during the period.

State Street has also certified the Schedule H, Part IV, Line 4i – Schedule of Assets (Held at End of Year) as of September 30, 2014.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing the information to the related information included in the financial statements and supplemental schedule.

The following presents investments that represent 5 percent or more of the Plan's net assets available for benefits as of September 30:

	2014	2013
John Hancock Money Market Fund	*	$ 497,180
John Hancock Lifestyle Balanced Fund	*	199,241

T. Rowe Price Retirement 2045 Fund	187,412	*

* Funds did not represent 5% or more of the Plan's net assets for the respective year listed.

Note 4—Invesco Stable Asset Fund

The Plan is invested in the Invesco Stable Asset Fund ("ISAF") as of September 30, 2014, and is applying the practical expedient to value the fund. The investment objectives seek the preservation of principal and to provide interest income reasonably obtained under prevailing market conditions and rates, consistent with seeking to maintain required liquidity. Participants' ownership of the ISAF is represented as units. Units are issued and redeemed daily at the ISAF's NAV. The issuance and redemption terms of the ISAF are consistent with those of the underlying assets.

Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investment in the ISAF at contract value. Contract value represents contributions made to the ISAF, plus earnings, less participant withdrawals and administrative expenses. The ISAF imposes certain restrictions on the Plan that may be subject to circumstances that impact its ability to transact at contract value, as described in the following paragraphs. Plan management believes the occurrence of events that would cause the ISAF to transact at less than contract value is not probable.

The ISAF invests in synthetic guaranteed investment contracts (synthetic GICs), which are portfolios of debt securities or units of collective trusts and enters into wrap contracts issued by third parties. A wrap contract is an agreement by another party, such as a bank or insurance company, to make payments to the ISAF in certain circumstances. Wrap contracts are designed to allow a stable value portfolio to maintain a constant NAV and protect a portfolio in extreme circumstances. In a typical wrap contract, the wrap issuer agrees to pay a portfolio the difference between the contract value and the market value of the underlying assets once the market value has been totally exhausted.

The following events may limit the ability of the Plan to transact at contract value:

- Termination of the Plan.
- A material adverse change to the provision of the Plan.
- The employer elects to withdraw from a wrapper contract in order to switch to a different investment provider.
- The terms of a successor Plan do not meet the wrapper contract issuer's underwriting criteria for issuance of a clone wrapper contract.

The average yields of the investment contracts held by the ISAF for the year ended September 30, 2014 are as follows:

Based on market yield at the end of the reporting period – 1.219%

Based on credit rating at the end of the reporting period – 1.300%

The ISAF is unlikely to maintain a stable NAV if, for any reason, it cannot obtain or maintain wrap contracts covering all of its underlying assets that are not otherwise invested in money market funds. For example, this could result from an inability to promptly find a replacement wrap contract following termination of a wrap contract. The wrap issuer's ability to meet its contractual obligations under the wrap contracts may be affected by future economic and regulatory developments. In the event that wrap contracts fail to perform as intended, the ISAF's NAV may decline if the market value of its assets declines.

Note 5—Fair value measurements

The Plan's financial instruments carried at fair value are classified by the following fair value hierarchy levels as of September 30:

	2014			
	Level 1	Level 2	Level 3	Total
Common/collective trusts	$ -	$ 1,165,620	$ -	$ 1,165,620

The following table summarizes investments measured at fair value based on NAV per share as of September 30, 2014:

Asset	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common/collective trusts	$1,165,620	n/a	Daily	30 days

Note 6—Party-in-interest transactions

Certain Plan investments held are shares of mutual funds and a money market fund managed by John Hancock, the Trustee of the Plan as of September 31, 2013 and for the period October 1, 2013 to March 31, 2014, and State Street, the Trustee of the Plan as of September 30, 2014 and for the period April 1, 2014 through September 30, 2014. Fees paid by the Plan for investment management services amounted to $1,238 for the year ended September 30, 2014. Transactions with John Hancock and State Street qualify as party-in interest transactions, which are exempt from the prohibited transaction rules of ERISA.

Note 7—Tax status

The Plan operates under a non-standardized prototype plan document sponsored by WRL & Associates, which has a determination letter dated December 3, 1997. Although the non-standardized prototype plan document has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, that it has no income subject to business income tax and that the Plan continues to be tax exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of September 30, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to September 30, 2011.

Note 8—Plan termination

The Company believes that the Plan will continue without interruption, but reserves the right to discontinue the Plan. In the event such discontinuance results in termination of the Plan, the Plan provides that the assets be allocated among the participants and beneficiaries in the amounts credited to each participant's respective account at the effective date of such termination. In the event of Plan termination, participants would become 100 percent vested in their Company contributions.

Note 9—Subsequent events

The Company has evaluated subsequent events through July 15, 2015, which is the date the financial statements were available to be issued.

Effective December 1, 2014, CIC Group, Inc. Office 401(k) Savings Plan and Trust was merged into the Plan.

Effective October 1, 2015, the Company amended the Plan to offer safe harbor employer matching contributions. The Company will make a matching contribution equal to 100% of employee salary deferrals that are made up to the first 3% of their eligible compensation, as well as a matching contribution equal to 50% of the employee's compensation that they defer between 3% and 5% of their eligible compensation.

Dear Sir/Madam:

I am attaching this reasonable cause statement to my 5500 filing for your consideration. In 2013, Industrial Piping, Inc. changed 401K plan administrators from WLR and Associates to ADP. During this time, Industrial Piping, Inc. also changed from a three percent standard plan to a four percent safe harbor plan. We encountered significant delays with the update and transfer of records during the transition.

It was the company's intent to complying with the reporting and disclosure rules. I believe that the filing I am attempting to submit is the result of reasonable cause, not willful neglect. I do not anticipate the same issues in the future and all future filings will be submitted timely. I respectfully request abatement of the purposed late filing penalty.

Thank you,

Robert G. Coston, CFO
