NOTE 1 DESCRIPTION OF PLAN

The following description of Nash, Inc. ("Company") 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Company who have one year of service and are age twenty-one or older. It is subject to the provision of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute an amount equal to the contributing participant's compensation not to exceed the limits imposed by Section 401(k) of the IRS Code. For 2014 the maximum contribution allowed by Section 401(k) was $17,500. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions not to exceed $5,500 for 2014. Participants may also contribute amounts representing distribution from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers two mutual funds and an insurance investment contract as investment options for participants. The Company matches 100% up to 3% of annual compensation plus another 50% up to 5% of annual compensation that a participant contributes to the Plan.

Participant Accounts

Each participant's account is credited with the participants' contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their total account.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution or in annuity payments. If a terminating participant's account is more than $1,000 but less than $5,000, it will be rolled in an IRA with an affiliate of Principal Life Insurance Group. The Plan's provisions provide for hardships for certain qualifying events as more specifically described in the Plan document.

Date of Management's Review

Subsequent events were evaluated through October 13, 2015, which is the date the financial statements were available to be issued.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of Accounting

The financial statement for the Plan is prepared under the accrual method of accounting.

As described in FASB ASC 962-325-35 (formerly Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1), *Reporting of Fully Benefit-Responsive Investment Contracts held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans,* investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attributed to that portion of the new assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. Accordingly, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. The guaranteed interest account is carried at the guaranteed balance of the invested funds under contract (contract value), which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payments of Benefits

Benefits are recorded when paid.

Operating Expenses

All expenses of maintaining the Plan are paid by the Company.

NOTE 3 FAIR VALUE MEASUREMENTS

FASB ASC 820-10-50 (formerly SFAS No. 157), *Fair Value Measurements,* establishes a fair value hierarchy that prioritizes the inputs of valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of pooled separate accounts is based on quoted net asset values of the shares held by the Plan at year-end.

NOTE 3 FAIR VALUE MEASUREMENTS (Continued)

Level 3 Fair Value Measurements

The guaranteed investment contract with an insurance company is not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contracts is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations. The following table provides further details of Level 3 fair value measurements.

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit.

		Fair Value Measurements Using	
	Fair Value	Quoted Prices In Active Markets For Identical Assets (Level 1)	Significant Unobservable Inputs (Level 3)
December 31, 2014:			
Pooled separate accounts	$1,536,283	$1,536,283	$ –
Investment contracts with insurance company	57,385	—	57,385
Total	$1,593,668	$1,536,283	$57,385

Fair Value Measurements Using Significant Unobservable Inputs (Level 3):

	Investment Contract
December 31, 2014:	
Beginning Balance	$114,877
Total gains or losses (realized and unrealized) included in changes in net assets available for benefits	792
Purchases, sales, issuances, and settlements (net)	(58,284)
Ending Balance	$ 57,385

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2014 are reported in net appreciation in fair value of investments.

NOTE 4 INVESTMENTS

The Plan contracted with Principal Life Insurance Company to invest the assets of the Plan and maintain participant account records. Participants can direct which account(s) their contributions are to be invested in and may change investment vehicles at any time. All of the information in the accompanying financial statements has been certified by Principal Life Insurance Company as complete and accurate.

The following presents investments that represent 5% or more of the Plan's net assets:

Large Cap Growth II	$246,823
Mid Cap	176,882
Income Separate Account	146,642
High Yield	118,756
Small Cap S&P 600 Index	98,452
Capital Appreciation	94,173

NOTE 4 INVESTMENTS (Continued)

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value by $86,345.

NOTE 5 INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 2004, the Plan entered into a benefit-responsive investment contract with Principal Life Insurance Company (Principal). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expense. The guaranteed investment contract issuer is contractually obligated to repay the principal and specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expense. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issue or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 4%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with Principal. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor to other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to quality for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974, would limit the Plan's ability to transact at contract value with Plan participants, is probable.

The Plan administrator does not believe that the occurrence of any such value event, which the guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

NOTE 6 RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Principal. Principal is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services in 2014 amounted to $2,182.

NOTE 7 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE 8 TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan had been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC.

The Plan is no longer subject to U.S. federal tax examination by taxing authorities for years prior to 2011.

NOTE 9 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
