MicroTech, LLC

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of ***MicroTech, LLC 401(k) Profit Sharing Plan*** (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2014, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Delaware Charter Guarantee d/b/a Principal Trust Company and Principal Life Insurance Company, the custodians of the Plan, except for comparing such information to the related information included in the financial statements. We have been informed by the plan administrator that the custodians hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the custodians as of and for the year ended December 31, 2014, that the information provided to the plan administrator by the custodians is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the 2014 financial statements.

DIXON HUGHES GOODMAN LLP

Other Matter – Supplemental Schedule

The supplemental schedule of assets (held at end of year) as of December 31, 2014 is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplemental schedule.

Other Matter - 2013 Financial Statements

The financial statements of the plan as of December 31, 2013, were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the predecessor auditors not to perform and they did not perform, any auditing procedures with respect to the information certified by the custodians. Their report, dated October 1, 2014, indicated that (a) because of the significance of the information that they did not audit, they were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the custodians, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the 2014 financial statements and supplemental schedule, other than that derived from the information certified by the custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Description of the Plan

The following description of ***MicroTech, LLC 401(k) Profit Sharing Plan*** (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution profit sharing plan with Section 401(k) salary deferral provisions covering all employees of the Company who have attained the age of twenty-one. Principal Life Insurance Company and Principal Trust Company (collectively Principal) are the respective custodians of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up the maximum allowed by the Internal Revenue Code. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Employees are automatically enrolled to contribute 6% of compensation for each payroll period, and the automatic deferral will increase by 1% of compensation each year, up to a maximum of 10%. Participants may also contribute amounts representing distributions from other qualified plans. The Company may provide a discretionary profit sharing contribution and matching contribution as determined by the Company's Board of Directors. For the year ended December 31, 2014, a profit sharing contribution was not made to the Plan by the Company. For the year ended December 31, 2014, the Company elected to match 50% of each employee's elective deferrals up to 3% of his or her eligible gross wages in the Plan year. Contributions are subject to certain limitations.

Investment Options

Participants direct the investment of their accounts into various investment options offered by the Plan. The Plan currently offers mutual funds, pooled separate accounts and a guaranteed investment contract as investment options for participants.

Participant Accounts

Each participant's account is credited with the participant's contribution, including amounts rolled over from other qualified plans, and allocations of the Company's contributions and plan earnings, and charged with benefit payments, transaction fees related to notes receivable from participants and distributions. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contributions is based on years of service, as defined in the Plan. A participant is 100 percent vested after three years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts up to a maximum of $50,000 or 50 percent of their vested account balance, whichever is less, with a minimum loan of $1,000. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. At December 31, 2014, outstanding loans bore interest rates ranging from 5.25% to 5.75%. Principal and interest are paid ratably through payroll deductions.

Excess Contribution Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as accounts payable, with a corresponding reduction to contributions. The Plan distributed the 2013 excess contributions in 2014.

Payment of Benefits

On termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum distribution. Hardship distributions are permitted upon demonstration of financial hardship. In-service distributions are available after the participant has attained age 59 ½ from all vested accounts.

Forfeited Accounts

At December 31, 2014 and 2013, forfeited nonvested accounts totaled $5,623 and $2,345, respectively. During 2014, $147,395 of forfeitures was used to reduce Company contributions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (GAAP).

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates and assumptions.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit- responsive investment contract from fair value to contract value. The accompanying statement of changes in net assets available for benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based on the terms of the Plan document.

Payment of Benefits

Benefits are recorded upon distribution.

Administrative Expenses

The Plan's administrative expenses are paid either by the Plan or the Company, as provided by the Plan document. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. Expenses relating to specific participant transactions (notes receivable from participants and distributions) are charged directly to the participant's account.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability.

Subsequent Events

In preparing these financial statements, the plan administrator has evaluated events and transactions for potential recognition or disclosure through October 14, 2015, the date the financial statements were available to be issued.

3. Investments

The following table presents investments that represent 5 percent or more of the Plan's net assets.

	December 31,	
	2014	2013
Principal LifeTime 2030 Separate Account	$ 950,782	$ 1,246,313
Principal LifeTime 2040 Separate Account	735,632	861,677
Principal LargeCap S&P 500 Index	576,530	*
Principal LifeTime 2045 Separate Account	499,090	*
Principal LifeTime 2035 Separate Account	460,946	685,783
Principal LifeTime 2050 Separate Account	459,908	574,317
Principal Fixed Income Guaranteed Option	453,917	770,000
Principal MidCap Value	427,144	*
Principal LifeTime 2020 Separate Account	418,477	615,623
Principal LifeTime 2015 Separate Account	*	798,068

*Investment did not represent 5 percent or more of the Plan's net assets at the end of the year.

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Pooled separate accounts	$ 404,156
Mutual funds	57,325
	$ 461,481

4. Fair Value Measurements

Fair value as defined under GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1: Observable inputs such as quoted prices in active markets.
- Level 2: Inputs other than quoted prices in active markets that are either directly or indirectly observable.
- Level 3: Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

When quoted prices are available in active markets for identical instruments, investment securities are classified within Level 1 of the fair value hierarchy. Level 1 investments include mutual funds. Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Level 2 investment securities include pooled separate accounts and common collective trusts for which quoted prices are not available in active markets for identical instruments. The funds are valued at the NAV units of the collective trust. The NAV, as provided by the custodians, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the common collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

Total	$ 1,600,441	$ 8,020,563	$ 770,000	$ 10,391,004

(a) Target date funds represent investments with a strategy seeking to achieve high total rate of return on an annual basis as is considered consistent with prudent investment risk and the preservation of capital within a specified time frame.
(b) Bond funds invest in a diversified portfolio of long duration fixed income securities. There are no unfunded commitments.
(c) Growth funds invest in corporate securities with capital appreciation as the primary objective.
(d) Value funds invest in corporate securities that are deemed to be undervalued in price and are likely to pay dividends.
(e) Blend funds invest in a mix of growth and value securities.
(f) International funds invest in international bonds and foreign company stocks.
(g) Represents investments in a pooled separate account with an investment strategy seeking to invest the majority of assets in commercial real estate holdings with a focus on properties that return both lease income and appreciation of the buildings' marketable value.

The pooled separate account investments with a reported estimated fair value using net asset per value do not have an unfunded commitment, redemption restrictions or a redemption period. The redemption frequency is immediate.

Guaranteed investment contracts are valued at fair value by Principal by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer. In determining the reasonableness of the methodology, the Company evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, durations or payout date) while others are substantiated utilizing available market data (for example, swap curve rate). Disclosure of unobservable inputs to fair value measurement has not been included for the GIC because quantitative unobservable inputs are not developed by the plan when measuring fair value and have not been made available to the plan by Principal.

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2014:

	Guaranteed Investment Contract
Balance at the beginning of the year	$ 770,000
Interest credited	8,654
Purchases	285,873
Sales	610,610
Balance at the end of the year	$ 453,917

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the statement of changes in net assets available for benefits.

*The fair value of the investments has been estimated using the net asset value of the investment.

5. Unaudited Information Certified by the Custodian

The accompanying financial statements include the following unaudited information as of December 31, 2014 and 2013 and for the year ended December 31, 2014, that was obtained from data prepared and certified to be complete and accurate by the Plan's custodians:

	2014	2013
Investments	$ 7,623,607	$ 10,391,004
Net appreciation in fair value of investments	$ 461,481	
Interest and dividends	$ 23,039	

The certification mentioned above includes all investment information discussed in Notes 4 and 5.

6. Investment Contract with Insurance Company

The Plan has a fully benefit-responsive guaranteed investment contract (GIC) with Principal. Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Principal is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The GIC is included in the financial statements at contract value which Principal has determined approximates fair value. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan document (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The GIC does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than three percent. Such interest rates are reviewed on a quarterly basis for resetting. The crediting rate of the contract will track current market yields on a trailing basis.

	December 31,	
	2014	**2013**
Average yields:		
Based on actual earnings	2.00%	2.25%
Based on interest rate credited to participants	2.00%	2.25%

7. Exempt Party-in-Interest Transactions

Certain plan assets are invested in funds managed by Principal Trust Company (Principal Trust) and Principal Life Insurance Company (Principal Life). Principal Trust and Principal Life are the custodians as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. Fees paid to a third-party administrator for administrative services were $9,682. Fees paid by the Plan for investment management services are included in net appreciation of fair value of investments as they are paid through revenue sharing rather than a direct payment.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants would become fully vested in their employer contribution accounts.

9. Tax Status

The Plan has not obtained a determination letter from the Internal Revenue Service (IRS) stating that the Plan was in compliance with the applicable requirement of the Internal Revenue Code (IRC). The Plan is relying on the IRS approval of the standardized prototype plan that it is utilizing. The IRS has determined and informed the document provider by a letter dated March 31, 2014 that the standardized prototype plan document was designed in accordance with applicable sections of the IRC. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

11. Reconciliation of Financial Statements to the Form 5500

The following is a reconciliation of net assets available for benefits as of December 31, 2013 per the accompanying financial statements to Schedule H of Form 5500:

Net assets available for benefits per the financial statements	$ 10,593,251
Excess contributions payable	19,422
Net assets available for benefits per the Form 5500	$ 10,612,673

The following is a reconciliation of net change in net assets available for benefits per the financial statements for the year ended December 31, 2014 to Schedule H of Form 5500:

Net change in net assets available for benefits per the financial statements	$ (2,899,707)
Corrective distribution of excess contributions	(19,422)
Net income per Form 5500	$ (2,919,129)
