1. DESCRIPTION OF PLAN:

The following description of the Lighthouse Youth Services 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full time employees of Lighthouse Youth Services, Inc. (the Organization or Employer) who have attained the age of 21 and completed 30 days of service. Part time and PRN (as needed) employees who work more than 1,000 hours a year are permitted to participate. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year participants can contribute a percentage of their pretax annual compensation subject to certain limitations as defined by the Plan. Participants who had attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Eligible employees are automatically enrolled in the Plan 30 days after their hire date. Employees have the option to decline participation. Participants may also contribute amounts representing distributions from other defined benefit or contribution plans (rollovers).

The Organization elected to contribute to the Plan a percentage of the participant's compensation as determined by the following table, to all participants employed at the Organization on the last day of the Plan year (attained age is the participant's age on the last day of the Plan year) who have performed at least 1,000 hours of service during the Plan year:

<u>Attained Age</u>	<u>Percentage</u>
29 or younger	2.5%
30 to 39	4.5%
40 to 49	6.5%
50 to 59	8.5%
60 or older	10.5%

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of the Organization's contributions and Plan earnings. Each account may be charged with an allocation of administrative expenses. Allocations of Plan earnings are based upon the performance of the investment funds chosen by the participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions, catch-up contributions and rollover contributions as adjusted for earnings and losses thereon. Employer discretionary contributions, matching contributions and earnings thereon will be vested in accordance with the following schedule:

<u>Years of Credited Service</u>	<u>Percentage Vested Interest</u>
Less than 2	0%
2	25%
3	50%
4	75%
5	100%

Benefit payments

Distributions may generally be made to a participant upon the participant's retirement (including early retirement), death, disability or termination of employment with the Organization, or upon incurring a financial hardship. Distributions may be made to the participant or beneficiary in either a single lump sum or in installments. A participant who has attained age 59 ½ may elect in writing to make a cash withdrawal, subject to Plan provisions, of up to 100% of the participant's vested account balance. Normal retirement age is 65. The Plan provides for an early retirement if a participant has reached age 55 and is 100% vested in his or her Plan accounts.

Forfeited accounts

As of June 30, 2015 and 2014, the amount of forfeited non-vested accounts was approximately \$83,200 and \$49,700, respectively. Forfeitures may be used to pay Plan expenses or to reduce the employer's required contribution. \$48,400 of the forfeited amounts was used in 2015 to reduce employer contributions. The balance will be used in the subsequent year.

Reclassifications

Certain amounts in the 2014 financial statements have been reclassified to conform to the 2015 presentation.

2. SUMMARY OF ACCOUNTING POLICIES:**Basis of accounting**

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Certain administrative expenses are paid directly by the Organization and are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net depreciation in fair value of investments.

Subsequent events

The Organization evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The Plan has evaluated subsequent events through November 10, 2015, the date the financial statements were available to be issued.

Accounting Changes

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further the disclosure of information about fair value measurements shall be provided by general type of plan asset. Parts I and III are not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Part II is to be applied retrospectively. Management has elected to adopt Part II early.

3. INFORMATION CERTIFIED BY THE TRUSTEE:

All investments, investment income and the net depreciation in fair value of investments included in the accompanying financial statements and supplemental schedule of assets held (at end of year) were obtained from data that was prepared and certified as complete and accurate by the trustee, Fidelity Management Trust Company.

4. FAIR VALUE MEASUREMENTS:

Financial accounting standards provide the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described below.

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include: 1. Quoted prices for similar assets or liabilities in active markets; 2. Quoted prices for identical or similar assets or liabilities in inactive markets; 3. Inputs other than quoted prices that are observable for the asset or liability; 4. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2015 and 2014.

Mutual funds: Valued at the quoted daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Stable value collective trust: The stable value fund is composed primarily of fully benefit-responsive investment contracts that are valued at the net asset value of units of the collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies

or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of June 30, 2015 and 2014.

5. RISKS AND UNCERTAINTIES:

Investment securities are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements and supplemental schedule.

6. TAX STATUS:

The prototype Plan sponsor has obtained an opinion letter dated March 31, 2014 in which the Internal Revenue Service (IRS) stated that the prototype Plan document was in compliance with applicable requirements of the Internal Revenue Code (IRC). The Plan sponsor has not obtained its own determination letter. The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Accordingly, the Plan is exempt from income taxes.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2015, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however there are currently no audits for periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

7. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Organization has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

8. RELATED-PARTY TRANSACTIONS:

Certain Plan investments are managed by Fidelity Management Trust Company, trustee of the Plan. These transactions qualify as party-in-interest transactions. Certain employees of the Organization provide administrative services to the Plan, for which the Plan is not charged.

9. RECONCILIATION TO FORM 5500:

The following is a reconciliation of net assets available for benefits per the financial statements at June 30, 2015 and 2014 to Schedule H of Form 5500:
