1. Plan Description

The following is a brief description of the Empire Office, Inc. 401(k) Plan II (the "Plan") and provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan was established to provide benefits to certain employees of Empire Office, Inc. General

The Plan is a qualified defined contribution plan covering all full-time employees who have completed more than six months of service with the Company and have attained the age of twenty-one, except for those employees employed pursuant to a Collective Bargaining Agreement with the United Brotherhood of Carpenters and Joiners of America. Such employees are covered under a different plan sponsored by the Company. The Plan is designed to comply with the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Plan Administration

The Plan is administered by the Administrative Committee consisting of one or more members of Company management. Wilmington Trust Fiduciary Services Company is the trustee (the "Trustee") of the Plan.

In addition, see footnote 8. Reconciliation of Form 5500 for amounts restated related to the adjustments noted above.

Contributions
Participants may elect to contribute up to 6.5% of their annual compensation, as defined, in the Plan. Total participant contributions in any calendar year are limited to the applicable limits under the Internal Revenue Code (the "Code"). Such limits were $17,500 for calendar year 2013 and $17,000 for calendar year 2012. Participants may also contribute amounts due to rollovers and plan-to-plan transfers. Participants direct the investment of the contributions into various investment options offered by the Plan. The Plan also allows participants age 50 or older to make additional "catch up" salary deferrals each year, up to 100% of their compensation with proper notice and approval, subject to limitations as defined by the Code. Such catch up limits were $5,500 for 2013 and 2012.

The Company will make a minimum contribution of $110,000 annually, for the 2013 Plan year and each Plan year through 2015, which is allocated to participant accounts in accordance with the provisions of the Plan as a pro-rata share of each participant's contribution as a percentage of total contributions.

Vesting
Vested benefits are those amounts participants are entitled regardless of future services to the Company. Participants become fully vested immediately upon entry into the Plan in any Company contribution and in their voluntary contributions plus actual earnings thereon.

Notes Receivable from Participants
Participants may borrow up to the lesser of 50% of their vested balance or $50,000. Such loans are interest-bearing at a reasonable rate of interest (as defined in the Plan) and evidenced by a note payable with a maturity within five years. However, loans used to purchase a primary residence may be paid over a reasonable period of time extending over five years. Loans outstanding as of December 31, 2013 and 2012 bore interest at fixed rates between 4.25% and 8.25% and between 4.25% and 9.25%, respectively. Principal and interest is paid ratably through payroll deductions.

Participant Accounts
Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's elective 401(k) deferrals and earnings in their investments, and charged with withdrawals and losses in their investments. Allocations of earnings and losses are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Benefit Payments
Upon termination of service due to death, disability, retirement, or other reasons, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Administrative Expenses
Substantially all Plan administrative expenses are paid by the Company, with the exception of loan, distribution and Trustee fees. However, if the Company elects to do so, the loan and distribution fees may be paid by the Company.

Plan Termination
Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination of the Plan, the interest of each participant in the Plan will be distributed to such participant, or his or her beneficiary, at the time prescribed by the Plan terms and the Code.

2. Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date.

Mutual funds are valued at the daily closing price as reported by the funds. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset values and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Investments in common collective trusts are valued at unit value, which is based on the aggregate current fair values of the underlying assets in relation to the total number of units outstanding. Unit value, or the equivalent of net asset value, is a practical expedient for estimating the fair values of those investments. The common collective trusts have no unfunded commitments as of December 31, 2013, and can be redeemed daily with no redemption notice period or other redemption restrictions.

Net appreciation (depreciation) in fair value of investments includes realized gains and losses on investments sold during the year as well as net appreciation (depreciation) of investments held at year end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is accrued as earned, and dividend income is recorded as of the ex-dividend date.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Significant estimates include the fair value of Plan investments. Actual results could differ from those estimates.

Risks and Uncertainties
The Plan provides for various investment options in any one or a combination of mutual funds or common collective funds. These investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

Payment of Benefits
Benefits are recorded when paid.

Notes Receivable From Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Recently Issued Accounting Pronouncements
In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, "Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)". Under the amendments in this update, investments for which fair value is measured at net asset value per share (or its equivalent) using the practical expedient should not be categorized in the fair value hierarchy. The amendment also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Investments that calculate net asset value per share (or its equivalent), but for which the practical expedient is not applied will continue to be included in the fair value hierarchy. The amendments in this update are effective for fiscal years beginning after December 15, 2016. The Plan elected to early adopt the provisions of this ASU and upon adoption for the December 31, 2013 reporting year, applied the amendments retrospectively to the December 31, 2012 year presented.

In July 2015, the FASB issued Accounting Standards Update No. 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965). The standard update eliminates the requirement for retirement plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation of investments by general type. Additionally, the standard update requires investments be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways. The standard update is effective for fiscal years beginning after December 15, 2015 with early adoption permitted. The Plan's financial statements reflect the early adoption, including the retrospective application, as allowed by the accounting standard.

3. Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated April 2, 2013, that the Plan is designed in accordance with applicable sections of the Code. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service (IRS). The Plan Administrator has analyzed the tax positions by the Plan and has concluded that, as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

4. Non Exempt Party-In-Interest Transactions

For the Plan year, the Company has remitted certain participant contributions to the Trustee after the date on which the remittances were required to be made under the Department of Labor Regulation Section 2510.3-102. The Company is in the process of filing IRS form 5330 to report and pay an excise tax with respect to the late remittances as required pursuant to Section 4975 of the Code. In addition, the Company will pay any additional amount to the Trustee to reflect foregone earnings that would have been credited to participants' accounts if remittances had been made on a timely basis. Such amounts are not material to the Plan's financial statements.

5. Information Certified by the Trustee

In addition to the Schedule of Assets (held at end of year), the following summary of financial information is certified as complete and accurate by the Trustee, in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA:

	2013	2012
Investments, at fair value	$ 10,852,726	$ 8,504,696
Loans receivable from participants	$ 191,314	$ 169,623
Net appreciation in fair value of investments	$ 1,810,466	
Interest and dividend	$ 7,488	

6. Party-in-Interest Transactions

Certain Plan investments are shares of funds of the Trustee. Services rendered by the Trustee as well as the investment transactions qualify as party-in-interest transactions. Fees for services rendered by the Trustee to the Plan are paid by the Plan. In addition, certain participants borrowed from the Plan. Such participants are parties-in-interest to the Plan.

7. Fair Value Measurements

Accounting Standards Codification 820, ("ASC 820") *Fair Value Measurements and Disclosures* defines fair values, establishes a framework for measuring fair value, gives guidance regarding the methods used for measuring fair value, and expands disclosures about fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is the description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Valuation methodologies for mutual funds and the interest in the common and collective trust are described in Note 2. The methods described in Note 2 may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurement at the reporting date. There were no transfers between level 1, 2 and 3 for the year ended December 31, 2013.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

	2013			
	Level 1	Level 2	Level 3	Total
Cash and cash equivalents	$ 3,224	$ -	$ -	$ 3,224
Mutual funds	193,792	-	-	193,792
Common collective trusts measured at net asset value	-	-	-	10,655,710 *
Total investments at fair value	$ 197,016	$ -	$ -	$ 10,852,726

	2012			
	Level 1	Level 2	Level 3	Total

Mutual funds	183,086	-	-	183,086
Common collective trusts measured at net asset value	-	-	-	8,318,233 *
Total investments at fair value	$ 186,463	$ -	$ -	$ 8,504,696

* In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.
