401(K) SAVINGS PLAN**

NOTES TO THE FINANCIAL STATEMENTS

JANUARY 31, 2015 AND DECEMBER 31, 2014

Note 1 - Description of the Plan

The following description of the Chesapeake Pharmaceutical Packaging Company 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions. Chesapeake Pharmaceutical Packaging Company, LLC is referred to in the notes as the Company or the Sponsor. On February 14, 2014, the Company was purchased by Multi Packaging Solutions. Effective January 2, 2015, assets from the Plan were merged into the Multi Packaging Solutions Retirement Plan.

On November 24, 2014, the members of the Company approved the merger of this Plan into the Multi Packaging Solutions Retirement Plan, effective January 2, 2015. As a result, all investments were transferred from the Plan into the Multi Packaging Solutions Retirement Plan on that date. The mergers were a result of Multi Packaging Solution's purchase of Chesapeake Pharmaceutical Packaging Company and resulted in a transfer of Plan assets of \$13,590,812 to the Multi Packaging Solutions Retirement Plan.

On November 1, 2010, a trust agreement by and between the Company and Bank of America was executed establishing the Chesapeake Pharmaceutical Packaging Company 401(k) Savings Plan Trust to receive and hold contributions and fund benefits under the Plan. The Company intends by this Trust Agreement to create a Trust forming a part of the Plan which shall qualify under Section 401 of the Code and which shall be exempt from tax pursuant to Code Section 501(a).

a. General - The Plan (which is a 401(k) plan) is a defined contribution plan covering all full-time eligible employees of the Company who have three months of service and are age 21 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees oversees governance of the Plan.

b. Contributions - Each year, participants may contribute up to the maximum percentage allowable under the federal statutory limit of Code Section 401(k), as defined in the Plan. The limit for 2015 and 2014 was \$18,000 and \$17,500, respectively. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Catch-up contributions amounted to \$6,000 and \$5,500 for 2015 and 2014, respectively.

401(K) SAVINGS PLAN**

NOTES TO THE FINANCIAL STATEMENTS

JANUARY 31, 2015 AND DECEMBER 31, 2014

Note 1 - Description of the Plan (continued)

The Company contributes an amount equal to the sum of 100 percent of the amount of the participant's elective deferral that does not exceed 3 percent of the participant's compensation, plus 50 percent of the amount of the participant's elective deferral that exceeds 3 percent of the participant's compensation but does not exceed 5 percent of the participant's compensation. All employer contributions are invested in the same proportion to that of the participants. Contributions are subject to certain limitations. Participants may also roll over amounts representing distributions from other qualified defined-benefit or defined-contribution plans.

c. Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings or losses. Administrative expenses of the Plan are paid by the Company.

d. Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after six years of credited service earned at 20 percent after the first two years and each year thereafter.

e. Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of \$1,000 and up to a maximum equal to the lesser of \$50,000 or 50% of their vested interest in the Plan. Participants may only have one loan outstanding at any time. Loan transactions are treated as a transfer to (from) the respective investment funds from (to) the Notes Receivable from Participants' Fund. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. During 2015 and 2014, interest rates ranged from 4.25 percent to 9.25 percent. Principal and interest are paid ratably through payroll deductions.

f. Payment of Benefits - On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or installments based upon various factors including the life expectancy of the participant and if elected, their beneficiary. For termination of service due to other reasons, a participant may receive the value of the vested interest in their account as a lump-sum distribution within one year.

JANUARY 31, 2015 AND DECEMBER 31, 2014

Note 1 - Description of the Plan (continued)

g. Forfeited Accounts - Forfeited balances of terminated participants' non-vested amounts are credited to a forfeiture account and become fully vested following the participant's termination of employment. Any amount in the forfeiture account occurring in the plan year just ending is reallocated on a prorated basis, and credited to the accounts of participants. There were no forfeitures for the one-month period ended January 31, 2015. Forfeitures totaled \$452 for the year ended December 31, 2014.

Note 2 - Summary of Significant Accounting Policies

Date of Management's Review

Subsequent events were evaluated through November 25, 2015, which is the date the financial statements were available to be issued.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as deemed distributions of participant loans based on the terms of the Plan document. There were no deemed distributions of participant loans for the one-month period ended January 31, 2015. For the year ended December 31, 2014, it totaled 11,988. The outstanding loan balances which were transferred to the Multi Packaging Solutions Retirement Plan on January 2, 2015, totaled \$223,424.

401(K) SAVINGS PLAN**

NOTES TO THE FINANCIAL STATEMENTS

JANUARY 31, 2015 AND DECEMBER 31, 2014

Note 2 - Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value as determined by Reliance Trust Company. All Plan assets were transferred to the Multi Packaging Solutions Retirement Plan before close of business on January 2, 2015. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Guaranteed investment contracts (GIC) issued by insurance companies and other financial institutions at fixed rates are carried at contract value. The contract value represents contributions made under the contract less any participant-directed withdrawals plus accrued interest which has not been received from the issuer. A Security-backed contract, also known as a synthetic GIC or a separate account GIC, is an investment contract issued by an insurance company or other financial institution that is backed by a portfolio of bonds. Security-backed contracts are carried at contract value in the aggregate, which consists of the fair value of the underlying portfolio, accrued interest on the underlying portfolio, and accrued interest on the underlying portfolio assets.

One of the investment options offered by the Plan, the Wells Fargo Stable Return Fund is fully invested in contracts deemed to be fully benefit-responsive. As a result, in accordance with Accounting Standards Codification ("ASC") 946-210, Reporting of Fully Benefit-Responsive Investment Contracts, the Plan reports its investment in the Stable Return Fund at fair value. However, contract value is the relevant measure to the Plan because it is the amount that is available for Plan benefits. In the Statements of Net Assets Available for Benefits, the Stable Return Fund, along with the Plan's other investments, is stated at fair value with a corresponding adjustment to reflect the investment in the Stable Return Fund at contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

401(K) SAVINGS PLAN**

NOTES TO THE FINANCIAL STATEMENTS

JANUARY 31, 2015 AND DECEMBER 31, 2014

Note 2 - Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition (continued)

The fair value of a GIC is based on the present value of future cash flows using the current discount rate. The fair value of a security-backed contract includes the value of the underlying securities and the value of the wrapper contract. The fair value of a wrapper contract provided by a security-backed contract issuer is the present value of the difference between the current wrapper fee and the contracted wrapper fee.

All GICs and security-backed contracts held in the fund are fully benefit-responsive, which means withdrawals from these investment contracts may be made at contract value for qualifying benefit payments, including participant-directed transfers.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

All expenses of maintaining the plan are the responsibility of the Company.

Note 3 – Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying Statements of Net Assets Available for Benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

**CHESAPEAKE PHARMACEUTICAL PACKAGING COMPANY
401(K) SAVINGS PLAN**

NOTES TO THE FINANCIAL STATEMENTS

JANUARY 31, 2015 AND DECEMBER 31, 2014

Note 3 – Fair Value Measurements (continued)

The fair value measurement accounting literature establishes a fair value hierarchy under Accounting Standards Codification ("ASC") 820-10 that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access and has the highest priority, Level 2 inputs consist of other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.), and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of investments.

When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. There were Level 1 inputs included for the year December 31, 2014.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014.

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year end. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The fair value of U.S Government securities are valued using pricing models maximizing the use of observable inputs for similar securities.

Guaranteed investment contracts are valued at fair value by the insurance company or other financial institution by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Security-backed contracts are carried at contract value in the aggregate, which consists of the fair value of the underlying portfolio, accrued interest on the underlying portfolio, and accrued interest on the underlying portfolio assets. Since participants transact at contract value, fair value is determined annually for financial statement reporting purposes only.

Note 3 – Fair Value Measurements (continued)

The interest crediting rate of security-backed contracts is based on the contract value, and the fair value, duration, and yield to maturity. These accounts are credited with actual earnings on underlying investments and charged for participant withdrawals. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Certain events limit the Plan's ability to transact at contract value. Such events include the following: (a) amendments to the plan documents (including complete or partial termination or merger with another plan), (b) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption under federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with Plan participants, is probable.

The following table sets forth, by level within the fair value hierarchy, those assets measured at fair value on a recurring basis as of December 31, 2014:

			Fair Value Measurements at the End of the Report Period Using:
			<u>Quoted Prices in Active Markets for Identical Assets (Level 1)</u>

Mutual Funds:			
Balanced Fund		\$ 126,909	\$ 126,909

The fair value and contract value of this fund as of January 31, 2015 and December 31, 2014 was \$0. Note 6 - Tax Status

The Internal Revenue Service determined and informed the Company by letter during the inception of the Plan, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax exempt as of January 31, 2015 and December 31, 2014. Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain tax position that more than likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

Note 7 – Risks and Uncertainties

The Plan provides for various investment options in mutual funds, common/collective trust funds, and U.S Government securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Investment contracts are exposed to credit risk of the contract issuer and liquidity is limited because of the unique characteristics of investment contracts and the absence of an actively traded secondary market. Interest rate risk is also present because rates may be fixed with these products. Due to the level of risk associated with certain investment securities and investment contracts, it is at least reasonably possible that changes in the values of investment securities and investment contracts will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
