1. DESCRIPTION OF PLAN

The following brief description of the ML Automotive Group, LLC 401(K) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of ML Automotive Group, LLC (the "Employer") who have completed six months of service and are age eighteen and older. The Plan was established on January 3, 2013 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Contributions to the Plan are made by the participants. Participants may elect to defer their annual compensation, as defined by the Plan and consistent with the Internal Revenue Service ("IRS") guidelines. Additionally, participants may rollover or transfer to the Plan any portion or all of the property received from another qualified employee benefit plan.

In addition, the Employer makes a match of 25% of participant's salary deferrals up to the first 4% of eligible compensation. Any participant who makes an elective deferral contribution and is credited with at least 1,000 hours of service during the plan year will be eligible to receive an Employer matching contribution. There were $20,542 and $22,690 in Employer contributions during the years ended December 31, 2014 and 2013, respectively.

Participant Accounts

Each participant's account is credited with the participant's contributions and an allocation of (a) the Employer's matching contributions, and (b) the Plan's earnings. Allocations of earnings are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Employer's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after four years of credited service.

The vesting schedule is as follows:

Less than 1 year of service	0%
1 year of service	25%
2 years of service	50%
3 years of service	75%
4 years of service	100%

Notes Receivable from Participants

A participant may borrow from the Plan an aggregate amount not to exceed the lesser of: (a) $50,000 or (b) 50% of the participant's vested account balance. Interest on participant loans is based on comparable market rates. Principal and interest is paid ratably through payroll deductions.

1. DESCRIPTION OF PLAN (CONTINUED)

Investment Options

Upon enrollment in the Plan, a participant may direct contributions into any of several investment options including various registered investment companies. Participants may change their investment options at their discretion.

Payment of Benefits

On termination of service due to termination of employment, death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or receive annual installments.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Tax Status

The Plan adopted its latest Prototype Non-standardized Profit Sharing Plan with a cash or deferral arrangement developed by State Street Bank and Trust Company, which obtained a favorable IRS determination letter in which the IRS stated that the form of the underlying prototype plan was acceptable under provisions of the Internal Revenue Code ("Code") and that any employer adopting this form of the Plan will be considered to have a plan qualified under the Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code, and therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America ("U.S. GAAP") require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the accompanying financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is subject to income tax examinations since inception.

Fair Value Measurements

Fair value of financial instruments are estimated using relevant market information and other assumptions, as more fully disclosed in NOTE 4. Fair value estimates involve uncertainties and matters of significant judgment. Changes in assumptions or in market conditions could significantly affect the estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See NOTE 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the years.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Management Fees and Operating Expenses

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net (depreciation) appreciation in fair value of investments.

Benefit Payments

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through October 6, 2015, which is the date the financial statements were available to be issued.

3. INVESTMENTS

The following presents investments that represent five percent or more of the Plan's net assets available for benefits at December 31,:

	2014	2013
Amercent One Choice 2040 A	$ 226,472	$ 199,691
Blackrock Global Allocation A	110,654	100,499
Blackrock Equity Dividend - A	63,748	51,993

For the years ended December 31, 2014 and 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) (depreciated) appreciated in value by $(2,686) and $41,330, respectively.

4. FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC"), *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the FASB ASC are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
  - quoted prices for similar assets or liabilities in active markets;
  - quoted prices for identical or similar assets or liabilities in inactive markets;
  - inputs other than quoted prices that are observable for the asset or liability;
  - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

4. FAIR VALUE MEASUREMENTS (CONTINUED)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Registered investment companies: Valued at fair value by the Plan at year end at the fund's publicly-quoted price in active markets.

Common/collective trust: Valued at the fund's net asset value reflecting all investments at fair value, as reported by the fund manager, on the last day of the Plan year. The fund's net asset value is determined by the bank or entity sponsoring such funds by dividing the fund's net assets at fair value by its units outstanding at the valuation date.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014.

		Fair Value Measurements at Reporting Date Using:

5. INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee, State Street Bank and Trust Company, has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate as of and for the years ended December 31,:

	2014	2013
Interest in registered investment companies	$ 704,718	$ 589,300
Common/collective trust	29,847	28,912
Notes receivable from participants	20,355	33,660

Net (depreciation) appreciation in fair value of investments	$ (2,686)	$ 41,330
Dividends	40,047	23,528
Interest on notes receivable from participants	1,869	1,022
Total	$ 39,230	$ 65,880

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their Employer contributions.

7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

8. TRANSFER OF ASSETS FROM PLAN

During the year ended December 31, 2013, ML Automotive Group, LLC was segregated from Esserman Automotive Group, LLC whereby the portion of the Plan assets relating to ML Automotive Group, LLC, was spun-off into a separate plan, the Plan. The spin-off took place in January 2013 and the total plan assets transferred into the Plan totaled $475,008, and is included in the Statements of Changes in Net Assets Available for Benefits.
