1. Description Of The Plan

The following description of the Mondi Jackson, Inc. Retirement Program (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Mondi Jackson, LLC (the Company or Plan Administrator). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Principal Life Insurance Company (Principal) is the issuer of the group annuity contract and recordkeeper of the Plan.

Plan Merger

Effective January 1, 2015, the Company became a participating employer in the Mondi Retirement Savings Plan USA. As a result, employees of the Company began making deferral contributions into this plan on that date.

Effective February 2, 2015, the Plan merged into Mondi Retirement Savings Plan USA. All Plan assets and participant accounts were transferred out of the Plan on that date.

Eligibility

Employees of the Company who were age 18 or older and were not covered by a collective bargaining agreement were eligible to participant in the salary deferral and Company contributions provisions. Employees began participation in the Plan the day the employee satisfies the eligibility requirements.

Contributions

Participants could contribute between 1% and 100% of pretax annual compensation, as defined in the Plan Document, and subject to Internal Revenue Code (the Code) limitations. Participants could also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions.

The Company made a discretionary matching contribution equal to 50% of a participant's contributions, up to a maximum dollar amount of $1,000 in 2014.

There were no Company matching contributions made for the period beginning January 1, 2015 and ended February 2, 2015.

A discretionary profit sharing contribution could have been made, at the option of the Company's Board of Directors, to participants employed by the Company on the last day of the Plan year. There was no profit sharing contribution for the period beginning January 1, 2015 and ended February 2, 2015 or for the year ended December 31, 2014.

Participant Vesting

Participants were immediately vested in their contributions plus actual earnings thereon. Vesting in Company contributions was based on years of continuous service. A participant was 100% vested after five years of credited service as follows:

Years Of Service	Vesting
1	20%
2	30%
3	40%
4	80%
5	100%

Participant Accounts

Each participant's account was credited with the participant's contributions, Company contributions, Plan earnings, and charged with allocations of administrative expenses. Allocations were based on participant earnings or account balances, as defined in the Plan Document. The benefit to which a participant was entitled was the benefit that can be provided from the participant's vested account.

Payment Of Benefits

Upon termination of service due to death, disability, retirement, or separation from the Company, a participant could have elected to receive either a lump-sum distribution or one of several forms of annuities, as defined in the Plan Document.

In-Service Withdrawals

Participants who attained the age of 59-1/2 could have withdrawn any portion of their vested account balance. In certain circumstances, a participant could have elected a hardship distribution, as defined in the Plan Document and allowed under IRS regulations.

Notes Receivable From Participants

Participants could have borrowed from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan repayment periods were a maximum of five years. Loans were secured by the balance in the participant's account and bear interest at 3.25%, which was commensurate with local prevailing rates. Principal and interest were paid ratably through payroll deductions.

Forfeitures

Forfeitures from the nonvested portion of participants' accounts upon termination were reallocated to Plan participants based on annual pay for the Plan year. For the year ended December 31, 2014, forfeited nonvested amounts totaling $58,877 were reallocated to Plan participants. At February 2, 2015, $68,190 was transferred to another plan as part of the merger.

Administrative Expenses

Certain expenses of maintaining the Plan were paid directly by the Company, including professional fees, and are excluded from these financial statements. Fees related to the administration of notes receivable from participants were charged directly to the participant's account and are included in administrative expenses. Contract administration fees, recordkeeping fees and investment related expenses are included in net appreciation of fair value of investments.

2. Summary Of Significant Accounting Policies

Basis Of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting.

Estimates And Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation And Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The guaranteed investment accounts are not considered fully benefit-responsive and as such, the amounts reported on the statement of net assets available for benefits and the statement of changes in net assets available for benefits are presented at fair value.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment Of Benefits

Benefits are recorded when paid.

3. Investments

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at January 30, 2015 and December 31, 2014, and net appreciation in fair value of investments and interest income for the period beginning January 1, 2015 and ended January 30, 2015 and for the year then ended December 31, 2014, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Principal.

The following presents investments that represent 5% or more of the Plan's net assets available for benefits as of February 2, 2015 and December 31, 2014:

	February 2, 2015	December 31, 2014
Guaranteed Interest Accounts	**$ —**	$ 2,246,797
Large Cap S&P 500 Index	—	3,569,668
Bond and Mortgage Account	—	1,758,902
Medium Company Blend	—	2,553,223
Diversified International Stock	—	1,799,161
Medium Company Value III	—	1,765,315

4. Fair Value Measurements

The Plan follows current accounting standards, which provide a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for investments measured at fair value:

Pooled Separate Accounts

Valued at the net asset value (NAV) of units held by the Plan at year end. The NAV is determined by dividing the net assets, at fair value, of the fund by the number of units outstanding on the day of valuation. The NAV, as provided by Principal, is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily.

Guaranteed Interest Accounts

Fair value represents contract value adjusted to reflect current market interest rates only to the extent such market rates exceeds crediting rates. Contract value represents contributions plus earnings, less withdrawals and expenses. In determining the reasonableness of the methodology, management evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through utilizing interest rates applied.

The methods described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts				
Large U.S. equity (1)	$ —	$ 6,065,777	$ —	$ 6,065,777

(1) Investment class seeks to invest a majority of assets in common stocks of companies with large market capitalizations (those with market capitalizations similar to a Russell 1000 Index or S&P 500 Index) at the time of purchase. These investments are redeemed on a daily basis at the NAV with no unfunded commitments at December 31, 2014.

(2) Investment class seeks to invest a majority of assets in common stocks of companies with medium or small market capitalizations (those with market capitalizations similar to a Russell Mid Cap Index, Russell 2000 Index or S&P Small Cap 600 Index) at the time of purchase. These investments are redeemed on a daily basis at the NAV with no unfunded commitments at December 31, 2014.

(3) Investment class seeks to invest a majority of assets in companies (1) with their principal place of business or principal office outside of the United States (U.S.), (2) for which the principal securities trade on a foreign exchange, (3) with small to medium market capitalizations and (4) that derive 50% or more of their total revenue from goods or services produced or sold outside of the U. S. These investments are redeemed on a daily basis at the NAV with no unfunded commitments at December 31, 2014.

(4) Investment class seeks a total return consisting of long-term growth of capital and current income. The fund invests in underlying domestic and foreign equity, real estate investments and fixed-income funds according to an asset allocation strategy designed for investors having various investment time horizons. These investments are redeemed on a daily basis at the NAV with no unfunded commitments at December 31, 2014.

(5) Investment class seeks a high level of current income consistent with preservation of principal and maintenance of liquidity. These investments are redeemed on a daily basis at the NAV with no unfunded commitments at December 31, 2014.

(6) Investment class invests primarily in intermediate-term, fixed-income investments such as public and private corporate bonds, commercial and residential mortgages, asset-backed securities, and U.S. government and agency-backed securities. These investments are redeemed on a daily basis at the NAV with no unfunded commitments at December 31, 2014.

5. Parties-In-Interest Transactions

Plan investments consisted of pooled separate accounts and guaranteed interest accounts managed by Principal. These transactions qualify as exempt party-in-interest transactions.

6. Income Tax Status

The prototype plan sponsor has obtained an opinion letter dated March 31, 2008 in which the Internal Revenue Service (IRS) stated that the restated prototype Plan Document was in compliance with the applicable requirements of the Code. The Plan itself has not received a determination letter. The Plan has been amended since the date of the opinion letter; however, the Plan Administrator believes that the Plan is currently being operated in accordance with the Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's federal tax returns for tax years 2012 and later remain subject to examination by taxing authorities.
