We were engaged to audit the accompanying financial statements of Tarkett 401(k) Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Fidelity Management Trust Company, the trustee of the Plan, and T. Rowe Price Trust Company, a custodian of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the trustee and custodian as of December 31, 2014 and 2013, and for the year ended December 31, 2014, that the information provided to the Plan Administrator by the trustee and custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Emphasis of Matter

As discussed in Note 2 to the financial statements, the entity adopted new accounting guidance related to presentation of fair value of certain investments and disclosure of investments. Certain investments are now shown at contract value rather than fair value on the statements of net assets available for benefits. Prior year disclosures have also been revised to reflect the retrospective application of adopting these changes in accounting. Our disclaimer of opinion is not modified with respect to this matter.

Other Matter

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2014, is required by the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purposes of additional analysis and is not a required part of the financial statements. This supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustee and custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Tarkett 401(k) Plan

Notes to Financial Statements

Note 1. Description of the Plan

The following description of Tarkett 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a safe harbor, defined contribution plan covering substantially all employees of Tarkett Enterprises Inc. (the Company) or employees of any of the following companies (the Participating Employers):

Tarkett Alabama Inc.
Tarkett USA Inc.
Tarkett IFA Inc.
Johnsonite Inc.
Diamond W. Floor Covering
Texas Tile Manufacturing LLC

An employee becomes eligible to participate in the Plan immediately upon employment with the Company or the Participating Employers. Employees covered by a collective bargaining agreement are subject to eligibility rules based on the agreement. There are no age or service requirements. The Pension Administration Committee is responsible for oversight of the Plan. The Pension Administration Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan amendment: Effective January 1, 2014 the Plan was amended to change the eligibility service requirements for certain classes of employees and to include an auto-enrollment feature for certain employees of Tarkett Alabama, Inc. Additionally, the Plan was amended to change the deferral percentage on bonuses paid the Employer to the percentage elected by the participants on their regular contributions, unless a special election has been made by such participant.

Effective June 23, 2014, the Plan was amended to include Texas Tile Manufacturing LLC as a Participating Employer.

Effective January 1, 2015, the Plan was amended to change the maximum deferral rate on catch-up contributions, the automatic deferral provisions and matching contribution percentage for certain classes of employees, and to change the lump-sum payment provision of the Plan. It was further amended to change the profit sharing contribution amount for certain employees of Tarkett Alabama, Inc and to change the definition of eligible employees for the profit sharing contribution.

Contributions: Participants may elect to make salary-deferral contributions ranging from 1% to 80% of their annual compensation, as defined in the Plan. Employees hired after January 1, 2012, are automatically enrolled in the Plan after 90 days of service at a deferral rate of 3%, unless the employee elects otherwise. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution plans (rollovers).

Tarkett 401(k) Plan

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

The Company will make a safe harbor matching contribution to the Plan equal to 100% up to the first 3% of eligible compensation and 50% up to the next 2% of eligible compensation contributed by the employee to all participants who are not covered by a collective bargaining agreement.

For participants who are members of the Johnsonite Bargaining Union represented by Local 507 of International Brotherhood of Teamsters (Local 507), the Company will match contributions each year, at a rate of 50% per each dollar contributed by the employee, up to a maximum of 6% of eligible compensation contributed. For the year ended December 31, 2014, the Company match for Local 507 was \$135,706.

For participants who are members of the Tarkett Alabama Bargaining Unit Employees Local No. 481 (Local No. 481), under the non-contributory portion of the Plan, the Company contributed an amount equal to \$0.70 for each hour worked during 2014 totaling \$166,401 for the year ended December 31, 2014. Each year participants may make salary deferral contributions as a percentage of annual compensation, as defined. The Company will match contributions each year, at a rate of 40% per each dollar contributed by an employee, up to a maximum of 6% of eligible compensation contributed to the Plan. For the year ended December 31, 2014, the Company match for Local No. 481 was \$79,092.

Contributions are subject to certain IRS limitations.

Participant accounts: Each participant's account is credited with the participant's contribution, the Company's matching contribution and allocations of (a) the Company's discretionary contribution, and (b) Plan earnings and charged with Plan losses, distributions and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their voluntary contributions plus actual earnings thereon. In addition, participants are also 100% vested in their rollover contribution, employer matching contributions, qualified non-elective contributions, regular contributions and any earnings thereon.

Under the non-contributory portion of the Plan, participants who are members of the Local No. 481 are entitled to 25% of their account balance after three years of service, increasing to 40% after the fourth year and in increments of 20% annually thereafter until 100% vesting is attained after seven years of service for non-elective employer contributions. For matching employer contributions under the contributory portion of the Plan, participants are entitled to 20% of their account balance after two years of service and continue vesting ratably until 100% is attained after six years of service.

Investment options: Upon enrollment in the Plan, a participant may direct contributions to selected investments as made available and determined by the Plan Administrator. Participants may change their investment options daily.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range up to five years, or longer for the purchase of a primary residence. The notes are collateralized by the vested balance in the participant's account and bear interest at a rate, which is commensurate with local prevailing rates, as determined by the Plan Administrator. These rates range from 4.25% to 10.00% on loans outstanding at December 31, 2014 and mature through 2041. Principal and interest are repaid ratably through payroll deductions or alternative methods.

Tarkett 401(k) Plan

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Payment of benefits: On termination of service due to death, disability, retirement or for any other reason, the participant or beneficiary may request a distribution equal to the value of the participant's vested interest in his or her account upon proper direction delivered to the trustee. Distributions may only be made in the form of a lump sum payable to the participant or beneficiary or a rollover into another qualified retirement plan. A participant may also elect to receive in-service distributions under the Plan upon the attainment of age 59 ½. Hardship withdrawals of elective contributions are permitted.

Former participants in the Tarkett Alabama Inc. Retirement and Savings Plan who had pension assets transferred into the Tarkett 401(k) Plan may elect to receive pension benefits in the form of a single life annuity or joint and 50% or 75% survivor annuity.

Forfeitures: Forfeited nonvested accounts totaled \$3,667 and \$10 at December 31, 2014 and 2013, respectively. The accounts will be used to reduce future employer contributions or to pay plan administrative expenses. Forfeitures in the amount of \$1,191 were used to pay Plan administrative expenses during 2014 and no forfeitures were used to reduce employer matching contributions.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Pension Administrative Committee determines the Plan's valuation policies utilizing information provided by the investment custodians and trustee. See Note 4 for discussion of fair value measurements.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully-benefit responsive contracts. Contract value is the relevant measurement for the portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits: Benefits are recorded when paid.

Tarkett 401(k) Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Administrative expenses includes fees related to the administration of notes receivable that are charged directly to the participant's account and certain recordkeeping fees paid by the Plan. Investment related expenses are included in net appreciation of fair value investments.

Contributions: Contributions from Plan participants and the matching contributions from the Plan Company are recorded in the year in which the participant contributions are withheld from amounts paid. Profit sharing contributions are recognized upon authorization as the underlying compensation is recognized. All participant and employer contributions are participant-directed.

Subsequent events: The Plan Administrator has evaluated subsequent events (events occurring after December 31, 2014) through December 18, 2015, which represents the date the financial statements were available to be issued.

Accounting pronouncements adopted: In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this Update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this Update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this Update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. The Plan adopted the Update for the 2014 plan year and the Update was retroactively applied to the 2013 plan year. Prior year disclosures in Note 4 have been revised to reflect the retrospective application. The impact of adopting this Update is reflected in the financial statements.

In July 2015, FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this Update is to simplify plan accounting. The amendments in Part I of this Update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit responsive investment contracts will be presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements. The amendments in Part II of this Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5% or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments.

Tarkett 401(k) Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. The amendments in Part II of this Update will also require that investments (both participant-directed and nonparticipant-directed investments) of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan*, as a direct filing entity, disclosure of that investment's strategy will no longer be required. The amendments in Part III of this Update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The Update may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. The Plan adopted amendments in Part I and Part II of this Update for the 2014 plan year, and the amendments in Part I and II were retrospectively applied to December 31, 2013. Prior year disclosures in Note 4 have been revised to reflect the retrospective application. The impact of adopting this Update is reflected in the financial statements.

Note 3. Information Certified and Provided by Fidelity Management Trust Company (Trustee) and T. Rowe Price Trust Company (Custodian)

The following is a summary of the Plan's asset information as of December 31, 2014 and 2013, and for the year ended December 31, 2014, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee and custodian that the information provided to the Plan Administrator by the trustee and custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

Note 3. Information Certified and Provided by Fidelity Management Trust Company (Trustee) and T. Rowe Price Trust Company (Custodian) (Continued)

Fidelity Management Trust Company also certified to the completeness and accuracy of \$805,166 of net appreciation in the fair value of investments and \$4,042,520 of interest and dividends related to the aforementioned plan assets for the year ended December 31, 2014.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Registered investment companies (mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common stock and preferred stock: The fair value of investment securities is the market value based on quoted market prices, when available, or market prices provided by recognized broker dealers. If listed prices or quotes are not available, fair value is based upon externally developed models that are unobservable inputs due to the limited market activity of the instrument.

Tarkett 401(k) Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013.

Assets at Fair Value at December 31, 2014				
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 68,960,561	\$ -	\$ -	\$ 68,960,561
Self-directed investments	1,113,504	-	-	1,113,504
	<u>\$ 70,074,065</u>	<u>\$ -</u>	<u>\$ -</u>	<u>70,074,065</u>

Assets at Fair Value at December 31, 2013 (as Revised)				
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 68,611,832	\$ -	\$ -	\$ 68,611,832
Self-directed investments	293,272	-	-	293,272
	<u>\$ 68,905,104</u>	<u>\$ -</u>	<u>\$ -</u>	<u>68,905,104</u>

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2014, there were no significant transfers in or out of Levels 1, 2 or 3.

Note 5. Risks and Uncertainties

The Plan's assets are exposed to various risks such as credit, interest rate and market risks.

Credit risk: arises from the potential for an issuer or other counterparty to default on its contractual obligations to the Plan. Investments are recorded at fair value. This represents the maximum credit risk exposure of the Plan.

Interest rate risk: refers to the impact of interest rate changes on the Plan's financial position. Interest rate changes directly impact the fair value of fixed income securities held in the Plan. Interest rate changes will also have an indirect impact on the other assets in the Plan.

Market risk: is the risk that the market value of an investment will fluctuate as a result of changes in market price.

Tarkett 401(k) Plan

Notes to Financial Statements

Note 5. Risks and Uncertainties (Continued)

Due to the level of risk associated with certain investment transactions, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Note 6. Income Tax Status

Effective January 1, 2012, the Plan adopted a Volume Submitter Defined Contribution Plan sponsored by Fidelity Management Trust Company with a cash or deferral arrangement. The Plan received an opinion letter from the Internal Revenue Service as to the Plan's qualified status. The opinion letters has been relied upon by this Plan. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

GAAP requires Plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken any uncertain tax positions that more likely than not would not be sustained upon examination by a tax authority. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is subject to income tax examinations by the U.S. Federal, state, or local tax authorities for 2012, 2013 and 2014.

Note 7. Related Party Transactions

Fidelity Investments is the trustee of the Plan; therefore, transactions with the trustee qualify as party-interest transactions. Fees paid by the Plan to the trustee totaled \$47,725 for the year ended December 31, 2014. Certain administrative expenses of maintaining the Plan are paid by the Company.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to amend, discontinue or terminate the Plan at any time subject to the provisions under ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits from the Plan's financial statements at December 31, 2014 to the Form 5500:
