NOTES TO FINANCIAL STATEMENTS

NOTE 1: PLAN DESCRIPTION

General

The Allied Mineral Products, Inc. Employees' Stock Ownership Plan and Trust (the "Plan") was formed on April 1, 1976, by Allied Mineral Products, Inc. (the "Plan Sponsor" or the "Company"). The Plan is a noncontributory defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Information concerning benefits, allocations, forfeitures, and other provisions under the Plan is included in the Allied Mineral Products, Inc. Employees' Stock Ownership Plan and Trust Agreement which is available for review by participants. Participants should refer to this document for more complete information.

ESOP Contributions

Contributions to the Plan are determined at the discretion of the Board of Directors of the Plan Sponsor and are subject to Internal Revenue Service limitations.

Participant Accounts

Individual accounts are maintained for each plan participant to reflect the participant's entire interest under the Plan. Each participant's account is credited with the Plan Sponsor's contribution as well as net gains and losses on investments and reduced by distributions from the participant's account. As of each valuation date, the Plan allocates earnings (losses) into each participant's account so that the total of all participant account balances equals the fair market value of the ESOP trust fund as of each valuation date. Generally, participants who have completed at least 1,000 hours of service during the Plan year and who are employed by the Company on the last day of that Plan year are eligible for Company contributions. The Company's contributions are allocated to eligible participants' accounts based on the ratio of each eligible participant's compensation for the year to the total compensation for all participants. A participant is entitled to that benefit which his or her account can provide.

Eligibility

A non-leased employee of the Company becomes eligible as a participant in the Plan upon reaching age 18 and completing 500 hours of service. Participation commences on the entry date, which is the first day of the plan year in which you first become eligible.

Voting Rights

The Plan Administrator has the right to direct the Trustee as to the voting of allocated and unallocated shares of Company Stock in any matter which any other shares of the Company may be voted, except that the Participants shall have the right to direct the Trustee as to the voting of stock allocated to their account in certain matters.

Vesting

Employer contributions to the Plan vest 20% at the end of the second year of participation and an additional 20% each year thereafter until fully vested.

Forfeitures

Forfeitures are allocated to participant accounts as provided by the Plan document. There were no unallocated forfeitures as of March 31, 2015 and 2014.

NOTE 1: PLAN DESCRIPTION (CONTINUED)

Diversification

Pursuant to Code Section 401(a)(28), a qualified participant shall be permitted to direct the Plan as to the investment of up to 25% of the Participant's stock account at any time during the participant's qualified election period, except that, as of the sixth year of such period, the Participant may direct the Plan as to the investments of up to 50% of the stock account.

Further, the Plan allows for in-service distributions to provide participants an opportunity to diversify their retirement holdings. A participant who has (a) attained age 55 and completed six years of service or (b) completed 25 years of service may elect to receive an annual in-service distribution. The amount of distribution to a participant has both annual and lifetime limitations as defined in the Plan document.

Payment of Benefits

Upon termination of service, a participant whose vested account balance is under \$25,000 is eligible for immediate withdrawal. If the participant's vested account balance exceeds \$25,000 there is a five year waiting period for withdrawal. Distributions due to death, disability or retirement are eligible for immediate withdrawal of 80% of their vested account balance, with remaining balance payable upon the next stock valuation.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the contract value of the investment contracts since contract value approximates fair value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures. Actual results could differ from those estimates. The Plan relies significantly on the use of estimates in determining the valuation of the Allied Mineral Products, Inc. common stock, which is the primary Plan investment.

NOTES TO FINANCIAL STATEMENTS

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investments in money market funds are valued at cost, which approximates market. Investments in mutual funds are stated at fair value as determined by quoted market prices. The fair value of the investment in common collective trust is equal to the sum of the fair market value of all of the fund's investments. Investments in Allied Mineral Products, Inc. common stock are stated at the estimated fair value based on valuation reports prepared by an independent appraiser as of March 31, 2015 and 2014, and dated September 3, 2015, and August 27, 2014, respectively.

During 2015 and 2014, the Plan was invested in The Morley Stable Value Fund and the Mellon Stable Value Fund, collective trusts, which invest in fully benefit responsive investment contracts. At March 31, 2015, the Plan was no longer invested in the Morley Stable Value Fund. There are currently no redemption restrictions on these investments. These investment contracts are recorded at contract value, which approximates fair value. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses. The fair value of the investments was determined based on the quoted market values of the underlying investments, as the collective trust itself is not actively traded on an exchange.

Benefit Payments

Benefit payments are recorded when paid.

Administrative Expenses

Trustee expenses are paid by the Plan and administrative expenses are paid by the Plan Sponsor as provided by the Plan document.

Recent Accounting Pronouncements

In October 2012, the FASB issued ASU 2012-04, Technical Corrections and Improvements. The amendments in this Update cover a wide range of Topics in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this update were generally effective for fiscal periods beginning after December 15, 2013, for non-public entities, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financial statements. The adoption of ASU 2012-04 has not had and is not expected to have a material impact on subsequent periods.

Recent Accounting Pronouncements (Continued)

On July 31, 2015, in an effort to simplify plan accounting, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) - (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient*. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015. Earlier application is permitted. Retrospective application is required for Parts I and II on all periods presented. While the update will impact the presentation of the net assets available for benefits as it relates to fully benefit responsive investments, there is no anticipated effect on the value of the net assets available for benefits, as the main changes resulting from implementation of this ASU centers around certain disclosures in the notes to the financial statements. The adoption of ASU 2015-12 is expected to be adopted for the plan year beginning April 1, 2015 (and will be applied retrospectively as required).

Subsequent Events

In evaluating events that may have a material impact on the financial statements, the Company has considered activities through January 7, 2016, the date the financial statements were available to be issued.

NOTE 5: FAIR VALUE MEASUREMENTS

Accounting standards establish a framework for measuring fair value by providing a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities ("Level 1 inputs") and the lowest priority to unobservable inputs ("Level 3 inputs"). The three levels of the fair value hierarchy are described below:

- Level 1 – inputs to the fair value determination are unadjusted quoted prices for identical assets and liabilities in active markets that the Plan has the ability to access.
- Level 2 – other significant inputs including; quoted prices of similar assets and liabilities in active markets, quoted prices for identical assets and liabilities in inactive markets, observable inputs other than quoted prices, inputs derived from or corroborated by observable market data either by correlation or other means.
- Level 3 – inputs to the valuation methodology are unobservable and significant to the fair value measurement and may include the Plan's own assumptions in determining the fair value of the assets and liabilities.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to the methodologies used at March 31, 2015 and 2014.

Common stocks: Valued by independent valuation.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Collective investment trust: Valued based on the NAV of units of the collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value.

The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Money market fund: Valued at cost which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5: FAIR VALUE MEASUREMENTS (CONTINUED)

The following table summarizes investments measured at fair value based on net asset value (NAV) per share as of March 31, 2015 and 2014, respectively.

Assets at Fair Value Based on NAV Per Share as of March 31, 2015

	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective investment trust (a)	\$13,492,059	n/a	Daily	None

Assets at Fair Value Based on NAV Per Share as of March 31, 2014

	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective investment trust (a)	\$8,348,372	n/a	Daily	None

(a) This category includes stable value collective funds. The objectives of the funds are to provide preservation of capital, relatively stable returns consistent with its comparatively low risk profile, and liquidity for benefit responsive plan or participant payments. The funds primarily consist of a diversified portfolio of stable value investment contracts issued by life insurance companies, banks and other financial institutions, the performance of which may be predicated on underlying fixed income investments. The funds are designed for long-term retirement investing.

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the years ended March 31, 2015 and 2014, there were no transfers in or out of Level 3.

NOTE 6: RELATED PARTY TRANSACTIONS

Certain Plan investments include shares of the Plan Sponsor. Allied Mineral Products, Inc. is the Plan Sponsor and, therefore, these transactions qualify as related party transactions.

NOTE 7: PLAN TERMINATION

The Plan was adopted with the expectation that it will continue indefinitely; however, the Plan Sponsor reserves the right to terminate the Plan in whole or in part or to completely discontinue contributions thereto. NOTES TO FINANCIAL STATEMENTS

NOTE 8: TAX STATUS

The Plan obtained its latest determination letter dated April 21, 2015, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require management of an organization to evaluate tax positions taken by the organization and recognize a tax liability if the organization has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of March 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

There are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2012.

NOTE 9: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
