NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Firetron, Inc. ("Company") 401(k) Plan ("Plan") is intended to give a general summary of its principal provisions. Participants should refer to the Plan adoption agreement for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan. Employees that have reached age 18 become participants in the Plan beginning on the first day of the month that coincides with, or immediately follows, the date the participant completes three months of eligibility service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions
Under the terms of the Plan, all eligible participants may contribute between 1% and 85% of eligible compensation subject to a maximum contribution limit. The maximum contribution limit was $17,500 for 2014 and 2013, which is subject to annual adjustment. In addition, a participant age 50 (at anytime during the year) or older who contributes the maximum pretax contribution to the Plan, may contribute a "catch-up" contribution of $5,500 for 2014 and 2013.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at one percent of eligible compensation.

Participants may also rollover amounts from another qualified plan.

Each year, the Company may make matching contributions equal to 100% of the first 2% and 50% of the next 2% of a participant's elective salary deferral, determined each payroll period. The Company may also make discretionary nonelective contributions at the end of a plan year.

Participant Accounts
Each participant's account is credited with the participant's contribution elections and allocations of the Company's contributions and is charged or credited with net Plan earnings, gains and losses, as well as, appreciation or depreciation in market value during each Plan year. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Under the terms of the Plan, all eligible participants invest their pre-tax contributions in various investment options offered by the Plan. If a participant does not direct the investment of his or her account, the account is invested in default investment alternatives established under the Plan.

Vesting
Participants are immediately 100% vested in their salary deferral contributions and actual earnings thereon. Participants' are entitled to a portion of his/her account balance derived from employer discretionary nonelective and matching contributions in accordance with the following vesting schedule:

Counted Years	Vested Percent
0-1	0 %
2	20 %
3	40 %
4	60 %
5	80 %
6	100 %

Benefit Payments
On termination of service due to death, disability or retirement, a participant may receive a single lump-sum distribution, installments over a certain period of time or partial withdrawals equal to the current value of the participant's vested interest in his or her account or direct the plan administrator to make payment of such distribution to another eligible plan that accepts rollovers.

A participant may withdraw all or part of his or her vested account balance upon attaining age 59 ½ or may defer making withdrawals until age 70 ½.

Federal income tax withholding is required on any taxable distribution that is eligible to be rolled over, but is not transferred directly to another eligible retirement plan.

Administration of the Plan
The Company pays the general expenses of the Plan.

Notes Receivable from Participants
Participants may obtain cash loans against their respective accounts with the written consent of the Company. A participant may have only one outstanding loan at anytime. Loan amounts are limited to 50% of the participant's vested account balance subject to a maximum of $50,000. Loans bear interest at market rates and are payable by payroll deduction within five years (or thirty years if the loan is used to acquire a principal residence.)

Hardship Withdrawals
The Plan allows for financial hardship withdrawals which include buying a house, paying for a college education for certain family members or designated beneficiaries, paying certain medical expenses, preventing eviction or foreclosure on the participant's home or for casualty repairs to a participant's principle residence. However, there may be tax consequences, and a participant is not allowed to make contributions to the Plan for at least six months following the hardship withdrawal.

Forfeitures
At December 31, 2014, the Plan has $3,328 of forfeitures remaining to reduce future employer contributions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements are prepared on the accrual basis of accounting. Certain reclassifications have been made to the 2013 financial statements for consistency.

Use of Estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon terms of the plan document.

Payment of Benefits
Benefit payments to participants are recorded upon distribution. There were no participants who have elected to withdraw from the Plan but have not been paid and are included in net assets available for benefits at December 31, 2014.

Expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to withdrawals and the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events
The Plan has evaluated subsequent events through September 29, 2015, the date the financial statements were available to be issued.

NOTE 4 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include • quoted prices for similar assets and liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds
For mutual funds of registered investment companies, the investments are valued at the net asset value (NAV) of shares held by the plan at year-end.

Common/Collective Trust Funds
The funds are valued at the net assets value (NAV) of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.

The Invesco Stable Asset fund is a fully benefit-responsive investment fund. Participants transact at contract value. Fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the trustee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014 and 2013:

	Investments at Fair Value as of December 31, 2014

NOTE 5 - INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE

The Plan's investment transactions and related income information included in the accompanying financial statements and supplemental schedule for December 31, 2014 and 2013, were obtained from data that has been prepared and certified to as complete and accurate, by State Street Bank and Trust Co.

NOTE 6 - RELATED PARTY TRANSACTIONS

The Plan incurs expenses related to general administration and record keeping. Direct participant-related expenses, such as participant withdrawal and loan setup fees are allocated and paid for out of the respective participant's account. Plan-level fees, such as year-end testing and participant account maintenance fees are paid directly by the Plan Sponsor. Additionally the Sponsor paid or will pay audit expenses of $9,500 on behalf of its participants for the Plan year ended December 31, 2014 and 2013, respectively.

Investments in common/collective trusts totaling $296,976 at December 31, 2014 are managed by the trustee.

NOTE 7 - PLAN TERMINATION

The Company expects and intends to continue the Plan on a permanent basis. However, the Company reserves the right to amend or discontinue the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 8 - TAX STATUS

The Plan obtained its latest determination letter dated January 31, 2006, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE 9 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2014 and 2013, to Form 5500:

	2014	2013
Net assets available for benefits per the financial statements	$ 3,619,145	$ 3,018,861
Contributions receivable	(7,919)	(22,528)
Deemed distributed loan	(738)	-
Adjustment to fair value for fully benefit-responsive contracts	1,229	-
Net assets available for benefits per the Form 5500	$ 3,611,717	$ 2,996,333

NOTE 10 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
