FirstService Residential 401(k) Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2014

1. General Description of the Plan:

The following description of the FirstService Residential 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering substantially all full-time employees of FirstService Residential, Inc., (the "Company") and commenced January 1, 1999. All employees, as defined by the Plan, who are at least 21 years old and who have completed three months of service are eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Administration of the Plan:

The Plan has retained Transamerica Retirement Solutions Corporation ("Transamerica") to provide participant level record keeping functions. Transamerica was formerly known as Diversified Retirement Corporation. State Street Bank and Trust Company ("State Street"), a trustee of the Plan, is the custodian of certain plan assets. The Plan is administered by the Company, and is responsible for all matters connected with the day-to-day operation of the Plan.

Contributions:

Each year, participants may contribute up to 75% of their pretax annual compensation, as defined by the Plan, up to the statutory maximum established by the Internal Revenue Service. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. With the consent of the Administrator, participants may transfer amounts from other qualified plans or non-conduit IRA's as rollover contributions. The Company's matching contributions were discretionary subject to non-discrimination testing for the years ended December 31, 2014 and 2013. The total Company matching contributions amounted to \$2,610,667 and \$2,377,423 for the years ended December 31, 2014 and 2013, respectively, which includes Qualified Non-Elective Contributions totaling \$14,908 and \$25,565 for the years ended December 31, 2014 and 2013, respectively,

1. General Description of the Plan: (Continued):

Participant accounts:

Each participant's account is credited with the participant and employer discretionary matching contributions as well as earnings from participant directed investments, net of administrative expenses. Allocations are based on participant earnings or account balances, as defined. Certain operating expenses are allocated based upon specific participant transactions, as defined. Contributions are deposited on a payroll to payroll basis and are allocated on a payroll to payroll basis to the investment options self-directed by the participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested balance in their respective account.

Vesting:

Participants are vested immediately in their contributions plus actual earnings thereon. Participants are fully vested in the Company's discretionary contribution portion of their accounts after 6 years of continuous service, unless a participant meeting certain conditions in one of the plans that merged into the Plan as follows:

Merit – If participant had one year of service as of November 1, 2012, company contributions vest over a three year graded vesting schedule.

Excellence – Prior plan followed a 3 year cliff vesting schedule. Participants with 3 or more years of service as of January 1, 2013 shall be 100% vested in all accrued and future employer contributions.

Wentworth Property Management Corp 401(k) Savings Plan

The vesting schedule under the merged plan was a 4 year graded vesting schedule. Active participants in this plan as of February 1, 2013 will continue to follow this 4 year graded vesting schedule for all accrued and future employer contributions.

Wentworth National 401(k) Plan – Active participants in the Wentworth National 401(k) Plan as of February 1, 2013 shall be 100% vested in all accrued and future contributions.

1. General Description of the Plan: (Continued):

Self-Directed Investment Options

The assets of the Plan, both employee and employer contributions, are allocated to various available investment options at the direction of the participant. Investment options include various mutual funds, a common collective trust and common stock.

Notes Receivable from Participants

Participants may borrow from their fund account a minimum of \$500 up to a maximum equal to the lesser of 50% of the participant's vested account balance or \$50,000. The loans are secured by the balance in the participant's account and bear interest at a rate of Prime plus 1 percent. Principal and interest are paid ratably through payroll deductions over a period up to 60 months, or up to 360 months if loans are to purchase a primary residence.

Payment of benefits:

On termination of service due to death, disability or retirement a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or monthly, quarterly or annual installments over a period not to exceed the participant's life expectancy. If the participant's vested account is greater than \$1,000, but such balance is \$5,000 or less as of the date of death, disability, retirement or termination of employment, and the participant has failed to make a distribution election within 45 days, the participant's vested interest in his or her account will be automatically rolled over into an IRA. For termination of services for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

The Plan provides that under certain conditions, participants may withdraw their vested benefit. A participant is entitled to receive the vested portion of their account in a lump sum distribution, or in monthly installments in the event of serious financial hardship or upon reaching age 59 ½ as an active employee.

Forfeited accounts:

At December 31, 2014 and 2013, forfeited non-vested accounts totaled \$154,173 and \$263,504, respectively. These accounts will be used to reduce future contributions or pay Plan administrative expenses. During the 2014 plan year, employer contributions were reduced by \$225,959 from forfeited non-vested accounts. In addition, \$61,035 of Plan administrative expenses were paid from forfeited non-vested accounts.

1. General Description of the Plan: (Continued):

Expense Budget Account

An allocation of approximately .10% of plan earnings is deposited into the Expense Budget Account ("EBA"). The amount allocated to each participant is based on earnings. Expenses paid by the Plan are disbursed from this account. Funds from this account may not be utilized to offset employer contributions. At December 31, 2014 and 2013 the balance in the EBA was \$31,150 and \$74,659, respectively. Expenses totaling \$291,140 were paid from the EBA for the year ending December 31, 2014.

2. Significant Accounting Policies:

The significant accounting policies employed in the preparation of the accompanying financial statements are as follows:

Basis of Accounting:

These financial statements of the Plan are prepared on the accrual method of accounting except for benefit payments which are recorded when paid.

Valuation of investments:

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of estimates:

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Benefit payments

Benefit payments are recorded when paid.

2. Significant Accounting Policies (Continued):

Excess Contributions

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding expense to corrective distributions in the year incurred. Excess contributions are refunded to participants in the following year.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 7 for discussion of fair value measurements. Cash, if any, represents contributions, rollovers, and loan repayments received but not processed.

Income recognition

Purchases and sales of investments are recorded on a trade-date basis. Dividend income for internal funds is recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Expenses

Certain administrative functions are performed by the employees of the Company. None of these employees receive compensation from the Plan. Certain administrative expenses, such as legal fees, are paid directly by the Company. Plan management fees, audit fees and record keeping services, as are paid by the plan and allocated to participants based on their pro-rata share of their EBA account. Expenses directly related to a participant such as processing loans and distributions plus the related postage are charged directly to the participant.

Concentrations

All of the Plan's investment assets are held by its trustee, State Street, located in North Quincy, Massachusetts.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2014

4. Related Party and Party in Interest Transactions

Certain Plan investments are shares of mutual funds managed by State Street who is the Trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions. Participant level record keeping functions were performed by Transamerica Retirement Solutions (“formerly Diversified Retirement Corporation”). Therefore, Transamerica Retirement Solutions is also a party in interest.

5. Tax Status of the Plan

The IRS has determined and informed the company by letter dated March 31, 2014 that the Plan and the related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the Plan administrator and the Plan’s tax counsel believe that the Plan is designed, and is currently being operated in compliance with the applicable requirements of the IRC other than being delinquent in filing the Plan’s tax returns with the Internal revenue Service for 2012, 2013 and 2014, for which the plan is subject to fines and penalties. The Plan does not believe that the late-filing will materially impact the Plan’s exemption, financial position or results of operations.

The Plan assesses its tax position in accordance with “*Accounting for Uncertainties in Income Taxes*” as prescribed by the “*Accounting Standards Codification*” which provides guidance for financial statement recognition and measurement of uncertain tax positions taken in a tax return for open years that remain subject to examination by the Plan’s major tax jurisdictions. Generally, the Plan is no longer subject to income tax examinations by major tax authorities for years before 2011. The Plan believes that it does not have any significant uncertain tax positions requiring recognition or measurement in the accompanying financial statements.

6. Risks and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants’ account balances and the amounts reported in the statement of net assets available for benefits.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2014

7. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Fair Value Measurements

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Fair Value Measurements

Inputs to the valuation methodology include, a) quoted prices for similar assets or liabilities in active markets, b) quoted prices for identical or similar assets or liabilities in inactive markets, c) inputs other than quoted prices that are observable for the asset or liability and, d) inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Fair Value Measurements

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. Mutual funds held by the Plan are deemed to be actively traded.

7. Fair Value Measurements - Continued

Common Collective Trust: The fair value of the Plan's interest in the common collective trust is based on quoted market values of the underlying assets. Because the participants transact at contract value, fair value is determined for financial statement reporting purposes only. In determining the reasonableness of the methodology, the trustees evaluate a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms while others are substantiated utilizing available market data.

Common Stock

Security transactions are recorded on a trade date basis, which is the date, the order to buy or sell is executed. Common shares held by the plan are valued at the end of every business day.

The following tables set forth, by level with the fair value hierarchy, the Plan's investments are fair value as of December 31, 2014 and 2013:

8. Stable Value Fund

The Plan offers a stable value fund, the Diversified Investment Advisors Collective Trust Stable Value Fund (“the Fund”), that the participant may elect to transfer all or part of its funds into. The stable value fund is considered to be a fully benefit responsive investment contract. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits. Contract value, as reported by the Fund, is the beginning balance plus any deposit and credited interest, less any withdrawals, charges, or expenses, a measurement that approximates fair value. Participants may ordinarily direct or withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the Fund or otherwise.

The carrying value of the investment contract at December 31, 2014 and 2013 was \$2,472,574 and \$1,850,622, respectively. This investment seeks to protect against any loss of principal while providing returns in excess of money market funds and one year United States Treasury bills. The investment has a portfolio investment rate design in which all deposits are credited with the same interest rate, credited on a daily basis, and with no set maturity. The effective credited interest rate is set monthly and effective on the first day of the month. Contract charges may reduce this return. The Fund is not a separate account investment choice – it is an investment in the Fund’s general account. The average yield of the stable value fund based on actual earnings and interest credited to participants was 2.06% and 2.04% for the years ended December 31, 2014 and 2013, respectively.

Certain events limit the ability of the Plan to transact at contract value with the Fund. Such events include the following: (1) the Plan is changed in a manner to significantly affect the Fund’s obligations to the contract, (2) the contract can no longer be treated as a pension plan contract, (3) the Plan is terminated, (4) failure to comply with the contract’s requirements, (5) failure to provide information, (6) sum of the contract account values at any time equals \$20,000 or less, or (7) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator is not aware of any events, which would limit the Plan’s ability to transact at contract value with participants, that are probable of occurring.

9. Plan termination:

Although it has not expressed any intent to do so, the Sponsor, the Company, has the right to discontinue its contributions at any time and to terminate the Plan at any time. In the event of Plan termination, Plan assets will be distributed in accordance with ERISA, and participants will be entitled to their vested account balances and will become fully vested in their allocation of employer contributions.

10. Excess Contributions Payable

The Plan failed the discrimination test for the years ended December 31, 2014 and 2013, resulting in excess contributions amounting to \$702,513 and \$287,363, respectively, which are recorded as liabilities in the accompanying statements of net assets available for benefits. The excess contributions during the year ended December 31, 2014 are recorded as a liability to the participant in the accompanying statement of net assets available for benefits and were reimbursed to participants prior to March 15, 2015.

11. Reportable Transactions

Sponsors of defined-contribution plans are required to remit employee contributions to the Plan as soon as funds can be reasonably segregated from the employer's general assets, but no later than the 15th business day of the month following the month in which the participant contributions are withheld by the employer. Failure to remit employee contributions into the Plan on a timely basis is considered a nonexempt prohibited transaction with a party-in-interest.

During 2013, contributions and loan payments in the amount of \$819,555 were not remitted timely. Subsequent to year-end lost earnings were allocated to the affected participant accounts based on the instruction of the Department of Labor. During 2014, contributions and participant loan payments in the amount of \$1,729,086 were not remitted timely. These late remittances are reported on Form 5500 for the Plan year ended December 31, 2014 as nonexempt prohibited transactions. Lost earnings on the 2014 late payments have not been determined to date.

In December 2014, the Plan was advised by the U.S. Department of Labor that, among other things, the Company was taking excessive amounts of time to remit employee contributions and loan repayments to the Plan and may have violated several provisions of ERISA. The Company is undertaking corrective action related to the violations. The ultimate outcome of this matter cannot presently be determined.
