1 Description of Plan

The following description of the Hoover Treated Wood Products, Inc. 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all of the non-union hourly employees of Hoover Treated Wood Products, Inc. (the Company or Plan Sponsor) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan Administration

The Company, as plan sponsor, has appointed Fidelity Management Trust Company (FMTTC) as the trustee of the Plan. Fidelity Investments Institutional Operations Company, Inc. (FIIOC) provides recordkeeping and other administrative services to the Plan.

Eligibility

All United States non-union hourly employees of the Company are eligible to participate in the Plan, unless specifically excluded. Entry dates are: January 1, April 1, July 1, and October 1. Employees may enroll to make participant pre-tax contributions and receive matching contributions once they reach the age of 18 and have completed 6 months of service. Excluded employees consist of the following:

- Leased employees, independent contractors and other workers who are not compensated through the internal corporate payroll system
- An employee whose employment is governed by a collective bargaining agreement with the Company and the agreement does not call for participation in the Plan
- Salaried employees

The Plan also includes an automatic salary deferral provision which states that once an employee is eligible to participate, the Company will automatically defer 2% of the employee's eligible compensation to the Plan as a pre-tax contribution, which is then increased each year thereafter by 1% up to a maximum of 6%. Eligible employees may complete a salary deferral agreement to select an alternative deferral amount or to elect not to defer under the Plan.

Contributions

Each year, participants may contribute a portion of pre-tax compensation as defined by the Plan. Participants may also contribute amounts representing distributions from other qualified retirement plans.

The Company provides a matching contribution, at its sole discretion, as determined by the Company's board of directors. The Company's matching contribution for the year ended March 31, 2015, equaled 50% of the first 6% of annual eligible compensation contributed by each participant.

Additionally, the Company may elect to make a discretionary profit sharing contribution. For the year ended March 31, 2015, the discretionary profit sharing contribution totaled \$219,129 of which \$199,629 was a receivable as of year-end. Employees are eligible to receive a share of any discretionary company contributions if they are employed on the last business day of the plan year and provided at least 1,000 hours of service during the plan year. Eligible employees are not required to contribute to the Plan to be eligible for the employer profit sharing discretionary contribution. The profit sharing contribution is allocated based on a uniform percentage of each participant's eligible compensation for the plan year.

Contributions are subject to certain regulatory limitations.

Participant Accounts

Participant accounts may be invested in one or more of the investment funds available under the Plan at the direction of the participant. Each participant's account is credited with (a) participant's contributions, (b) an allocation of employer contributions and (c) an allocation of investment earnings, and is charged with (a) withdrawals, (b) an allocation of investment losses and (c) certain administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus earnings thereon. Vesting in the Company's matching and discretionary contributions plus earnings thereon is based on years of service. A participant is 20% vested after one year, 40% vested after two years, 60% vested after three years, 80% vested after four years, and 100% vested after five years of credited service.

Investment Options

Participants may direct their contributions, allocated Company contributions, and any related earnings into a number of available investment options that vary in degree of risk and investment objective. The Plan currently holds various mutual funds and a money market fund as investment options for participants. Participants may change their investment options daily. The Plan administrator or FMTC may change the investment options available to participants at any time.

Benefit Payments

Upon termination of service, a participant will receive an amount equal to the value of the vested interest in their account. If a participant terminates while an active employee due to death, disability, or retirement, his or her account balance will automatically become 100% vested. Participants may receive all or a portion of their balance of deferred contributions and rollovers by requesting an in-service withdrawal if they are at least 59 ½. The Plan also provides that a participant may receive liquidation of all or a portion of their deferral contribution balance in the event of an economic hardship in the form of a lump-sum distribution only.

Forfeitures and Administrative Expenses

The following table presents the activity within the forfeiture account during the Plan year:

For the year ended March 31	2015
Forfeited nonvested accounts as of beginning of year	\$ 6,622
Participant forfeitures during year	20,853
Investment earnings	2
Forfeitures used to offset employer contributions	(14,678)
Forfeited nonvested accounts (available to pay future administrative expenses and reduce future employer contributions) as of end of year	\$ 12,799

Pursuant to provisions of the Plan, the Company pays substantially all expenses for the administration of the Plan except for certain investment related and participant requested service expenses. Amounts reported as administrative expenses per the statement of changes in net assets available for benefits primarily pertain to participant distribution fees.

2 Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (US GAAP) requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

Investment securities are exposed to various risks, such as interest rate and market risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risk in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Investment Valuation and Income Recognition

Investments of the Plan are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for description of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through January 11, 2016, the date the financial statements were available to be issued. No significant subsequent events have been identified that would require adjustment of or disclosure in the accompanying financial statements.

New Accounting Pronouncement

In July 2015, the FASB issued Accounting Standards Update (ASU) No. 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Parts I and II are effective for fiscal years beginning after December 15, 2015, and should be applied retrospectively for all financial statements presented. Early application is permitted. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. Part III is effective for fiscal years beginning after December 15, 2015, and should be applied prospectively. Early application is permitted. Management does not expect ASU 2015-12 to have a material impact on the financial statements.

In May 2015, the FASB issued ASU 2015-07, Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent) – a consensus of the FASB Emerging Issues Task Force, which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, Fair Value Measurement, from categorization within the fair value hierarchy and related disclosures. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. Management does not expect ASU 2015-07 to have a material impact on the financial statements.

3 Fair Value Measurements

The guidance for fair value measurements establishes the authoritative definition for fair value, sets out a framework for measuring fair value, and outlines the required disclosures regarding fair value measurements. Fair value is the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. The Plan uses a three-tier fair value hierarchy based upon observable and non-observable inputs as follows:

- | | |
|---------|--|
| Level 1 | Quoted prices (unadjusted) in active markets for identified assets or liabilities that the reporting entity has the ability to access at the measurement date. |
| Level 2 | Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly |
| Level 3 | Unobservable inputs developed using the Plan's estimates and assumptions which reflect those that market participants would use. |

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at March 31, 2015 and 2014.

Money market and mutual funds: valued at the net asset value (NAV) of shares held by the Plan at year-end.

The valuation methodologies described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets as of March 31, 2015:

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management has evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended March 31, 2015, there were no significant transfers in or out of levels 1, 2 or 3.

4 Investments

The following presents the fair value of investments. A more detailed presentation of the investments appears in the supplemental schedule of assets (held at end of year). Investments that represent 5% or more of the Plan's net assets are separately identified.

Fidelity Money Market Trust Retirement Fund	\$ 598,934	\$ 549,880

Fidelity Freedom 2020 Fund**	310,997	251,688

Individually less than 5% of net assets	1,181,422	1,149,239
	\$ 2,579,346	\$ 2,398,913

During the year ended March 31, 2015, the Plan's mutual fund investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$46,438.

5 Related-party Transactions

Plan investments are shares of mutual funds and a money market fund held by FMTC and managed by one of its affiliates. FMTC is the trustee as defined by the Plan and, therefore, transactions in these investments qualify as party-in-interest transactions.

6 Information Certified By Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments at fair value as shown in the statements of net assets available for benefits as of March 31, 2015 and 2014.
- Total investment earnings as shown in the statement of changes in net assets available for benefits for the year ended March 31, 2015.
- Schedule of assets (held at end of year) as of March 31, 2015.

7 Federal Income Tax Status

On March 31, 2008, the Internal Revenue Service (IRS) stated that the agreement adopted by the Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself; however, the Plan administrator and the Plan's tax counsel believe that the Plan, as amended, is designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

US GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of March 31, 2015 and 2014, and for the year ended March 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the Plan's financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, the Plan is not currently under audit with respect to any tax periods. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

8 Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in Company contributions.
