Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Keihin North America, Inc. Pension Equity Plan, which comprise the statements of net assets available for benefits as of March 31, 2015 and 2014, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting our audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974*, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by BMO Harris Bank, N.A. and State Street Bank and Trust Company, the trustees of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan Administrator that BMO Harris Bank, N.A. held the Plan's investment assets and executed investment transactions as of and for the year ended March 31, 2015 and that State Street Bank and Trust Company held the Plan's investment assets and executed investment transactions as of and for the year ended March 31, 2014. The Plan Administrator has obtained certifications from the trustees as of and for the years ended March 31, 2015 and 2014, that the information provided to the Plan Administrator by the trustees is complete and accurate to the best of their knowledge and belief.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules listed in the table of contents are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974* and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974*.

Keihin North America, Inc. Pension Equity Plan

Notes to Financial Statements March 31, 2015 and 2014

Note 1: Description of the Plan

The following description of the Keihin North America, Inc. Pension Equity Plan (Plan) provides only general information. Additional information about the vesting and benefit provisions and the Pension Benefit Guarantee Corporation's (PBGC) benefit guarantee is contained in the Plan Document and *Summary Plan Description*, which are available from the Plan Administrator.

General

The Plan is a noncontributory defined-benefit plan sponsored by Keihin North America, Inc. (Company) that covers substantially all employees who have one year of service or more and have attained age 21, and provides for retirement, death and disability benefits. Employees of Keihin IPT Manufacturing, Inc., a subsidiary of the Company, are also eligible to participate in the Plan. The Plan is subject to provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Effective April 1, 2014, BMO Harris Bank, N.A. (BMO) is the custodian and trustee of the Plan. Prior to this date, State Street Bank and Trust Company (State Street) was the trustee of the Plan and Transamerica Retirement Solutions was the recordkeeper.

Effective December 5, 2009, benefit accruals under the Plan were frozen and will not increase after this date. Participants may continue to earn years of service for vesting purposes. Effective December 5, 2009, participants are fully vested upon completion of three years of service (formerly five years).

Contributions

The Company has agreed to voluntarily contribute such amounts that are necessary to provide assets sufficient to meet the benefits to be paid to Plan members, as defined by the provisions of ERISA. The Plan has met the minimum funding requirements established by the federal government.

Pension Benefits

Benefits under the Plan are based on employees' three highest, consecutive compensation years during their last five years of credited service. Normal retirement age for Plan benefits is 65. Accrued benefits are payable as an annuity over the participant's lifetime, a qualified joint and survivor annuity or a lump sum payment.

Death Benefits

The spouse of a participant will receive a 100% survivor annuity, as defined in the Plan, upon the death of the participant. The surviving spouse annuity is equal to 100% of the participant's monthly benefit. This benefit is immediately payable to the spouse if the participant was already receiving benefits. If the participant was not already receiving benefits, payments to the spouse may commence as of the earliest date the participant would have received benefits.

Keihin North America, Inc. Pension Equity Plan

Notes to Financial Statements

March 31, 2015 and 2014

Vesting

Eligible employees are fully vested upon completion of three years of vesting service.

Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- (A) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan.
- (B) Other vested benefits insured by the PBGC up to the applicable limitations discussed below.
- (C) Vested benefits not insured by the PBGC.
- (D) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

Note 2: Summary of Significant Accounting Policies

Method of Accounting

The accompanying financial statements are prepared on the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets available for benefits, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Keihin North America, Inc. Pension Equity Plan

Notes to Financial Statements

March 31, 2015 and 2014

Valuation of Investments and Income Recognition

Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year end. Investments in collective trust funds were stated at fair value, which was determined by utilizing quoted market prices of the underlying assets on the last day of the Plan year.

The guaranteed investment contract is valued at fair value as estimated by Transamerica Financial Life Insurance Company (TFLIC). TFLIC values the investment contract using a pricing matrix that designates a hierarchy of sources based on security type.

Purchases and sale of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Accumulated Plan Benefits

Accumulated plan benefits (see Note 7) are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to:

- (A) Retired or terminated employees or their beneficiaries
- (B) Present employees or their beneficiaries

Benefits under the Plan are based on employees' compensation as described in Note 1. The accumulated plan benefits for active employees are based on their average compensation during the three years proceeding the valuation date. Benefits payable under all circumstances — retirement, death, disability and termination of employment — are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated plan benefits.

Benefit payments to participants are reported upon distribution.

Notes to Financial Statements March 31, 2015 and 2014

Plan Tax Status

The Plan obtained its latest determination letter on May 20, 2015, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Reclassifications

Certain reclassifications have been made to the 2014 financial statements to conform to the 2015 financial statement presentation. These reclassifications had no effect on changes in net assets available for benefits.

Subsequent Events

Effective September 30, 2015, BMO sold the portion of its administrative team that provides benefit plan services to OneAmerica. BMO will remain as the trustee and custodian of the assets of the Plan, but recordkeeping for the Plan was transferred to OneAmerica effective October 1, 2015.

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.

Note 3: Certification of Plan Trustees

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, BMO and State Street, the trustees of the Plan, have certified the following information included in the accompanying financial statements and supplemental schedules is complete and accurate to the best of their knowledge and belief:

- Investments as shown in the statements of net assets available for benefits and related disclosures as of March 31, 2015 and 2014
- Investment income as shown in the statements of changes in net assets available for benefits for the years ended March 31, 2015 and 2014
- Investment information included in the accompanying schedule of assets (held at year end) as of March 31, 2015 and the schedule of reportable transactions for the year ended March 31, 2015

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

Note 5: Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Recurring Measurements

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at March 31, 2015 and 2014:

		Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Keihin North America, Inc. Pension Equity Plan

Notes to Financial Statements

March 31, 2015 and 2014

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended March 31, 2015. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy.

Note 6: Contract With Insurance Company

The Plan entered into an investment contract with Transamerica Financial Life Insurance Company (TFLIC) and TFLIC maintains the contributions in a pooled account. The account is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses charged by TFLIC. The contract is subject to a market value adjustment upon termination. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract is carried at fair value. The average yields were approximately 1.69% and 1.67% for 2015 and 2014, respectively. The crediting interest rates ranged from 1.25% to 1.65% at March 31, 2015, and ranged from 1.25% to 2.00% at March 31, 2014. The crediting interest rate is based on an agreed-upon formula with the issuer.

Note 7: Accumulated Plan Benefits

An actuary from Mercer Human Resource Consulting determines the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Keihin North America, Inc. Pension Equity Plan

Notes to Financial Statements March 31, 2015 and 2014

The accumulated plan benefit information as of the beginning of each Plan year was as follows:

	2015	2014
Actuarial present value of accumulated plan benefits		
Vested benefits		
Participants currently receiving payments	\$ 361,303	\$ 222,841
Other participants	23,966,570	24,584,072
	<u>24,327,873</u>	<u>24,806,913</u>
Nonvested benefits	<u>331,889</u>	<u>438,780</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 24,659,762</u>	<u>\$ 25,245,693</u>

Changes in the actuarial present value of accumulated plan benefits were as follows:

	2015	2014
Actuarial present value of accumulated plan benefits, beginning balance	<u>\$ 25,245,693</u>	<u>\$ 23,524,318</u>
Increase (decrease) during the year attributable to		
Change in actuarial assumptions	(1,282,639)	1,376,033
Benefits accumulated and losses	113,390	104,704
Increase for interest due to the decrease in the discount period	1,000,783	1,016,577
Benefits paid	<u>(417,465)</u>	<u>(775,939)</u>
Net increase (decrease)	<u>(585,931)</u>	<u>1,721,375</u>
Actuarial present value of accumulated plan benefits, ending balance	<u>\$ 24,659,762</u>	<u>\$ 25,245,693</u>

Significant assumptions underlying the actuarial computations are:

- Assumed rate of return on investments: 7.00%
- Discount rate: 4.50% and 4.00% for 2015 and 2014, respectively
- Mortality basis: RP2014 Generational Healthy Blue Collar Mortality projected with scale MP2014 for 2015 and RP2000 Blue Collar Combined Active/Retiree Healthy Mortality Table projected to 2018 for 2014
- Retirement: At normal retirement age 65
- Asset valuation: Market

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Keihin North America, Inc. Pension Equity Plan

Notes to Financial Statements

March 31, 2015 and 2014

Note 8: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association, or relatives of such persons.

Fees for trust and management services paid by the Plan to the trustee were \$34,590 and \$58,697 for 2015 and 2014, respectively.

The Company provides certain administrative services at no cost to the Plan.

Note 9: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

• First 5 years	1.28%	4.99%	
• Next 15 years	4.05%	6.32%

Rationale: Prescribed by the IRS.			

Mortality sponsor elections

- Healthy and Disabled participants Section 430(h)(3) prescribed separate static annuitant and non annuitant mortality tables. These tables are based on the RP-2000 mortality tables projected with mortality improvement to the valuation year plus 7 and 15 years based on Scale AA.

417(e) lump sums

Liabilities are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum payment. This annuity is valued based on funding interest rates rather than 417(e) rates and current year 417(e) unisex mortality

For the liability assumed to be paid as a lump sum, a participant's target liability is the greater of the liability determined based on the assumptions described in the paragraph above or the present value of the participant's PEP balance determined based on funding valuation interest rates.

Late retirement increase factor

Interest rate based on 417(e) segment rates for November of the previous year. Mortality rates are based on current year 417(e) unisex mortality table.

Other economic assumptions

- Salary increases Not applicable.
- Expected investment return 7.25% per year for years 2011 through 2013 and 7.00% per year for year 2014, not to exceed the third segment rate for each respective year.
Rationale: Assumptions prescribed by Keihin North America, Inc. Mercer compares this with expected rates of return on plan assets (developed based on the median simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook) for the plan's current asset mix to ensure it falls within 35th – 65th percentile range.
- Expenses \$33,000 added to current year normal cost.
Expenses are assumed to be the average of the administrative expenses from the 3 prior years rounded to the nearest \$1,000.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial Methods

Asset Methods

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** Since the plan is frozen, the plan sponsor only provides us with employees who are participants in the plan.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, line 22 — Description of Weighted Average Retirement Age

Each employee is assumed to retire in accordance with the table of retirement rates. The plan does not permit early retirement. The normal retirement age specific in the plan is age 65. Therefore, the assumed normal retirement age of 65 is used as the weighted average retirement age.

Schedule SB, line 24 — Change in Actuarial Assumptions

- The interest rate was changed from 2013 to 2014 in accordance with the Pension Protection Act and MAP-21.
- The expense component of normal cost increased from \$29,000 to \$33,000 to reflect our expectations for the current plan year.
- The mandated mortality tables were updated from 2013 to 2014, with one additional year of projected mortality improvement, for both expected experience as well as calculating minimum lump sum values.
- The 417(e) segment rates used for late retirement increases were updated to November 2013 rates of 1.19% for the first 5 years, 4.53% for the next 15 years and 5.66% after 20 years.

Schedule SB, Part V — Summary of Plan Provisions**Summary of Major Plan Provisions**

Effective date and plan year	Original plan: April 1, 1999 Restated plan: April 1, 2009 Plan year: April 1 through March 31
Status of the plan	The plan is closed to anyone who was not a Participant on December 5, 2009. Benefit accruals were frozen as of December 5, 2009.
Significant events that occurred during the year	None
Definitions	
• Covered employees	All employees in the Greenfield, Indiana plant.
• Participation	Age 21 and one year of service.
• Employee contributions	Participants are not permitted to make contributions to the Plan.
• Vesting and Credited service	A year of service is defined as a calendar year in which an employee works 1,000 or more hours, including overtime. Credited service was frozen as of December 5, 2009.
• Pensionable earnings	Employee's base hourly rated determined as of the December 31 of each calendar year multiplied by hours worked, including regular and overtime hours, but not to exceed two thousand eighty (2,080) in any calendar year.
• Final average earnings	Highest average annual pay for any 3 consecutive calendar years during the 5 calendar years immediately before participant's retirement or termination from service. Final average earnings were frozen as of December 5, 2009.
• Accrued benefit	Defined as the projected benefit at normal retirement age, using current final average salary, prorated by current service divided by projected service at normal retirement age. The lump sum benefit is converted to an annuity based upon 5% interest and the 1983 Group Annuity Mortality Table (50% male, 50% female). The accrued benefit was frozen as of December 5, 2009.

Schedule SB, Part V — Summary of Plan Provisions

Normal retirement																			
• Eligibility	Age 65 and one year of service.																		
• Benefit	<p>The plan is a pension equity plan (PEP), where the lump sum benefit is defined as a percentage of the final average earnings. The percentage is determined by a participant's accumulated age and service points, which are accumulated year-by-year according to this table:</p> <table> <tr> <th>Age plus service</th><th>Points earned that year</th></tr> <tr> <td><30</td><td>2</td></tr> <tr> <td>30 – 39</td><td>3</td></tr> <tr> <td>40 – 49</td><td>4</td></tr> <tr> <td>50 – 59</td><td>5.5</td></tr> <tr> <td>60 – 69</td><td>7</td></tr> <tr> <td>70 – 79</td><td>9</td></tr> <tr> <td>80 – 89</td><td>11</td></tr> <tr> <td>90+</td><td>13</td></tr> </table> <p>One point entitles a participant to 1% of his final average base pay, payable as a lump sum at age 65. • Eligibility	100% vested after 3 years of service																		
• Benefit	Accrued benefit payable at normal retirement.																		
Disability																			
• Eligibility	None.																		
• Benefit	None.																		
Pre-retirement death	Employees who die while employed will be immediately vested and their beneficiaries will be entitled to an immediate lump sum payment.																		

Schedule SB, Part V — Summary of Plan Provisions

Form of benefits	
• Automatic form for unmarried participants	Single life annuity
• Automatic form for married participants	50% Joint and Survivor annuity
• Optional forms	<ul style="list-style-type: none"> • 100% Joint and Survivor annuity • 75% Joint and Survivor annuity • Lump sum
Miscellaneous	
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2014, the limit is \$210,000.

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan, as restated through April 1, 2009 and amended through March 21, 2011 are included in this valuation.

- **Late retirement increases:**
 - *Active and Deferred vested participants:* Current active and deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* The plan does not provide any unpredictable contingent event benefits.
 - *Plan amendments:* The plan was amended March 21, 2011 to adopt certain provisions of the Heroes Earnings Assistance and Relief ("HEART") Act of 2008. This amendment has no impact on liabilities.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding does not reflect any limitation on benefit accruals.
