NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013 (See Independent Auditors' Report)

NOTE 1 - DESCRIPTION OF PLAN

The following description of the EIS Group 401(k) Plan ("the Plan", formerly the Exigen Group Profit Sharing & Retirement Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

In October 2014, Exigen (USA), Inc changed its name to EIS Group, Inc. ("the Company" or "Plan Administrator") and the Plan's name was changed to EIS Group 401(k) Plan.

***General* -** The Plan is a defined contribution plan that was established on January 1, 2000 by Exigen (USA), Inc. covering all eligible employees of the Company as defined in the Plan agreement. Certain classes of employees as defined in the Plan agreement are excluded from plan participation. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

A Plan Committee ("the Committee") manages the operation and administration of the Plan, including the appropriateness of the Plan's investment offerings and investment performance. The Company has contracted with Great-West Trust Company, LLC ("Great-West") to act as custodian and maintain certain records of participant data. A third-party administrator provides certain services to the Plan. A Company officer serves as the Plan's trustee.

***Contributions* -** Each year, participants may contribute an amount of eligible pre-tax annual compensation as defined in the Plan agreement, not to exceed the maximum statutory amount. The Plan allows for ROTH deferral contributions. Participants who are age 50 or older can elect to make catch-up contributions to the Plan, not to exceed the maximum statutory amount. Participants may also contribute amounts representing distributions from other qualified eligible plans.

The Company is allowed to make qualified matching ("QMAC") and/or qualified non-elective contributions ("QNEC") under the Plan; none were made for 2013.

***Participant Accounts* -** Each participant's account is credited with the participant's contribution, QMAC or QNEC contributions (if any), plan earnings and losses, and plan expenses as applicable to the Plan. Allocations of plan earnings and losses are based on individual participant investment choices. All contributions/investments are participant directed. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Certain investment and fund fees are charged to the funds and are included in plan investment income and losses and charged to participant accounts. Participants should refer to the funds' prospectuses for further information on these fees.

Vesting - Participants are 100% vested in their accounts at all times.

Notes Receivable from Participants - Participants may borrow from their account balances a minimum of $1,000 up to a maximum of $50,000 or 50% of their account balance, whichever is less. Four outstanding notes per participant are permitted at any given time. The notes are secured by the balance in the participant's account and bear interest at rates which are commensurate with prevailing rates. Outstanding notes receivable from participants as of December 31, 2014 and 2013 carry an interest rate of 4.25%. Principal and interest is paid ratably through payroll deductions. The notes must be repaid within a five-year period, unless it is used for the purchase of a principal residence in which case the maximum repayment period may be longer. The Plan Administrator establishes the specific terms and conditions of such notes.

Payment of Benefits - Upon the satisfaction of certain distributable events, participants or their beneficiaries may elect to receive their account balance and are paid in accordance with plan provisions. The Plan allows for automatic distribution of terminated participant balances between $1,000 and $5,000 to an IRA Rollover account.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Committee determines the Plan's valuation policies utilizing information provided by Great-West. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013.

Excess Contributions Payable - Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service ("IRS") are recorded as a liability. As of December 31, 2014 and 2013 there were no excess contributions payable.

Plan Expenses - Some expenses incurred for administering the Plan are paid by the Company. Plan quarterly asset fees, contract changes, fixed fees, certain participant note and distribution fees are paid by participants and charged to their accounts as applicable.

Payment of Benefits - Benefits are recorded when paid.

Subsequent Events - The Plan has evaluated subsequent events through January 15, 2016, the date the financial statements were available to be issued.

NOTE 3 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 4 - CERTIFIED INFORMATION

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, information certified by Great-West regarding the current value of assets held as of December 31, 2014 and 2013, and transactions entered into during the year ended December 31, 2014, was used in the preparation of the accompanying financial statements and

supplemental schedules. The following table includes the fair values of investments which represent 5% or more of the Plan's net assets available for benefits as of December 31:

NOTE 5 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective Trust Fund: The fund is valued on a unitized share basis based on the value of the underlying investments. The net unit values are determined as of the close of each business day. The trust invests in various underlying securities (primarily synthetic guaranteed investment contracts) which use different valuation techniques based on the type of investment. The fund enters into wrapper agreements. Because changes in market interest rates affect the yield to maturity and the market value of the underlying investments, they can have a material impact on the wrapper contract's interest crediting rate. In addition, participant withdrawals and transfers from the fund are paid at contract value but funded

through the market value liquidation of the underlying investments, which also impacts the interest crediting rate. The resulting difference is an "adjustment from fair value to contract value" which is not material to the Plan's financial statements as of December 31, 2014 and 2013. The adjustment from fair value to contract value can be positive or negative over time. Generally, the trust's investment contracts are carried at contract value which is equal to principal balance plus accrued interest plus deposits less withdrawals. For this fund there is no unfunded commitment, the units can be redeemed daily, and a redemption notice period may apply.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of:

NOTE 6 - COLLECTIVE TRUST FUND

The Invesco IRT Stable Value Fund is a collective trust fund and is reported by Great-West at contract value which approximates fair value as of December 31, 2014 and 2013. Collective trust funds held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive collective trust funds. The fund is considered fully benefit-responsive. The crediting yield fluctuates based on the Plan's contract with Great-West.

Average yields:	**2014**	**2013**
Based on actual earnings	0.56%	0.69%
Based on interest rate credited to participants	0.55%	0.58%

NOTE 7 - RELATED PARTY TRANSACTIONS

Plan investments are managed by Great-West and are considered party-in-interest transactions under ERISA regulations. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

NOTE 8 - PLAN TERMINATION AND/OR MODIFICATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE 9 - TAX STATUS

The Plan has adopted a volume submitter plan which received an opinion letter dated March 31, 2008 from the IRS. The Plan has been amended since, however, the Plan Administrator believes that the Plan is designed, and is currently being

operated, in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believes the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by various taxing authorities and government agencies. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

NOTE 10 - NONEXEMPT TRANSACTIONS

During 2013 and 2012, certain participant contributions and loan repayments in the amount of $368,158 were not deposited with Great-West on a timely basis resulting in lost earnings in the total amount of $660 (prohibited transaction amount) which was deposited into the Plan by the Company in October 2015 and January 2016. The Company made the necessary excise tax filing with the IRS in 2016.
