The Contractors Retirement Plan

Notes to the Financial Statements
December 31, 2014

1 Description of Plan

The following description of The Contactors Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

a General

The Plan is a 401(k) Profit Sharing Plan covering all employees, except nonresident aliens, of the Organization upon date of employment. The Plan is a single employer Plan whose participants include Davis Mail Services, Inc.. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Organization adopted the 401(k) Plan in 2012. The Plan became effective on January 1, 2012.

Effective January 1, 2012, employees hired on or after that date may participate in the Plan with no restrictions as to participation except for the fact that nonresident aliens are not eligible.

b Contributions

The contributions to the plan by the employer are discretionary. Participant employees cannot contribute to the plan.

c Participant Accounts

Each participant's account is credited with an allocation of: (a) the Organization's contribution and (b) Plan earnings. The Organization's contributions are discretionary. The Organization will make a Prevailing Wage Contribution on behalf of each participant who performs services subject to the Service Contract Act, Davis-Bacon Act or similar Federal, State, or Municipal Prevailing Wage statutes. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant directs the investment of his/her individual account into the various investment options offered by the plan.

d Vesting

Participants are 100% vested (which means that they are entitled to all of the amounts) in their accounts attributable to the following contributions:

Rollover contributions

Prevailing wage contributions

Regardless of the vesting schedule, participants shall become fully vested upon death or upon total permanent disability.

e Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of his/her account, or may choose to have the benefits paid in installments.

f Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and may have impact on future periods.

g Loans to Participants

The Plan does not allow loans to participants

h Forfeited Accounts

The Plan provides that forfeited accounts are used to reduce the amount of the Organization's contribution and are not used to offset plan expenses. For the plan year ended December 31, 2014, terminating participants forfeited $0. For the plan year ended December 31, 2014, earnings on the forfeited amount totaled $0.

2 Summary of Significant Accounting Policies

a Basis of Accounting

The Plan maintains its accounts on the method used for the Internal Revenue Service Form 5500, whereby the asset amounts are reflected on a cash basis except for the contributions. The contributions are reported on a Plan year accrual basis.

b Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

c Investments Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of registered investment companies are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end.

i Pooled Separate Accounts

The Separate Accounts are 'pooled' investments. Some of these investments may be in stocks and others may be in bonds or other types of investments. They are similar to mutual funds, but they are only available to group annuity contract holders. The Plan reports the change in market value from year to year.

Realized gains or losses are not reported for pooled separate accounts even though the pooled

d Payment of Benefits

Benefits are recorded when paid.

3 Equity Investments

The following presents investments that represent 5% or more of the Plan's net assets:

		2014
Pooled separate accounts		
Contractors and Employees Retirement Trust		
M & N Conservative Term Series Ret Opt FB	$	16,891
Contractors and Employees Retirement Trust		
M & N Moderate Term Series Ret Opt FB	$	190,637
Contractors and Employees Retirement Trust		
M & N Extended Term Series Ret Opt FB	$	22,593
Contractors and Employees Retirement Trust		
M & N Maximum Term Series Ret Opt FB	$	27,126

4 Plan Termination

Although it has not expressed any intent to do so, the Organization has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

5 Tax Status

The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code, and accordingly, the trust's net investment income is exempt from income taxes. The Internal Revenue Service has determined and informed the Company by a letter dated April 29, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC) and the Organization believes that the Plan continues to qualify and to operate as designed.

6 Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

7 Fair Value Measurements

Accounting Standards Codification (ASC) No. 820, *Fair Value Measurements* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC No. 820 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term , the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled Separate Accounts

Valued based on the type of the pooled investment. Below are the type of investments in the pooled accounts:

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued based on the net asset value (NAV) of shares held by the plan at year end.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets at Fair Value as of December 31, 2014

	Level 1	Level 2	Level 3	Total
Pooled Separate Accounts	$ 273,505	-	-	$ 273,505
Total assets at fair value	$ 273,505	-	-	$ 273,505

8 Subsequent Events

Subsequent events were evaluated through the date the financial statements were available to be issued, which was December 15, 2015.
