INDEPENDENT AUDITOR'S REPORT

To the Participants and Plan Administrator of the
Sur-Flo Plastics & Engineering, Inc. 401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Sur-Flo Plastics & Engineering, Inc. 401(k) Plan, which comprise the statements of net assets available for benefits as of May 1, 2015 and December 31, 2014, and the related statement of changes in net assets available for benefits for the period ended May 1, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from Fidelity Management Trust Company as of May 1, 2015 and December 31, 2014 and for the period ended May 1, 2015, that the information provided to the plan administrator by the trustee is complete and accurate.

NOTES TO FINANCIAL STATEMENTS
May 1, 2015 and December 31, 2014

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Sur-Flo Plastics & Engineering, Inc. 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan was a defined contribution 401(k) profit sharing plan and trust with a qualified cash or deferred 401(k) arrangement covering all employees of Sur-Flo Plastics & Engineering, Inc. (the “Company”) except for union employees and non-resident aliens. Participation in the Plan was discretionary for all eligible employees who had attained the age of 21 and completed six months of eligible service, as defined by the Plan. The defined contribution 401(k) profit sharing plan and trust was established by the Company on March 1, 1998. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Trustees

Fidelity Management Trust Company was the Plan’s trustee. The trustee invested all participant and employer contributions, as well as earnings thereon, pursuant to the terms of the Plan.

Contributions

The Plan allowed participants to elect to defer a portion of their compensation up to 92%, plus any catch-up contributions for participants who had obtained age 50, not to exceed the maximum amounts allowed for by the Internal Revenue Code and plan documents. Participants were also able to contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants directed the investment of their contributions, including their employer contribution into various investment options offered by the Plan. The amount of the participant’s deferred compensation was treated as a participant elective contribution, allocated to that participant’s elective account, and was 100% vested at the time of contribution. The Company was able to contribute a discretionary percentage, as determined annually, to the Plan each year. The employer was able to also make a discretionary profit-sharing contribution, determined by the Company annually. Contributions were accumulated and invested, as directed by participants, in a trust fund held by the trustee.

Participant Accounts

Each participant’s account was credited with an allocation of (a) the Company’s discretionary matching contribution; (b) the Company’s discretionary profit-sharing contribution; (c) the participants’ voluntary contributions, transfer contributions, and rollover contributions; and (d) Plan earnings. The accounts were charged for any withdrawals, distributions, and administrative expenses. The benefit to which a participant was entitled was the benefit that can be provided from the participant’s vested account.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Vesting

The Plan provided that participants had no vested interest in the Company contributions until they completed one year of plan participation and service, at which time they became 20% vested. Vesting increased by 20% each year up to 100% after five years of plan participation and service. An employee was considered to have completed one (1) year of service for purposes of vesting upon the completion of 1,000 hours of service at any time during a plan year. Participants were fully vested immediately with respect to employee contributions, rollovers and earnings thereon.

Forfeited Accounts

Forfeitures were used to pay plan expenses. Any remaining forfeitures would be used to reduce employer contributions. During the period ended May 1, 2015, forfeitures in the amount of \$851 were used to reduce employer contributions. There were unallocated forfeitures of \$370 at December 31, 2014. There were no unallocated forfeitures at May 1, 2015.

Payment of Vested Benefits

Participants, or their beneficiaries, were entitled to receive the entire amount of their interests in the Plan upon retirement, death, total or permanent disability, employment termination, reaching the age of 65, or qualifying for a hardship distribution, as defined in the Plan. A participant was considered to have suffered a disability if he or she was permanently unable to perform his or her customary duties for the employer due to a mental or physical condition which could be expected to result in death, or be of a long continued and indefinite duration as determined by the Plan Administrator. On termination of service, a participant was able to elect to receive either a lump-sum amount equal to the value of his or her account, or payments over a certain period in monthly, quarterly, semi-annual, or annual cash installments. If the participants vested balance was less than or equal to \$1,000, the entire sum would be distributed as soon as possible following the participant's separation from service. If the participants vested balance was less than or equal to \$5,000, but greater than \$1,000, the entire sum would be rolled into an IRA. If the participants vested balance was greater than \$5,000, they were able to elect to receive a lump-sum distribution, installments, or an annuity.

At May 1, 2015, there were no requested distributions that had not been paid as of the Plan period end.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Notes Receivable from Participants

Participant loans were permitted under the Plan. Participants could borrow from their fund accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of the vested balance in the participant's account. The loans were secured by the vested balance in the participant's account and bore interest at rates which was commensurated with local prevailing rates as determined by the Plan administrator. The term of such loans were not to exceed five years except in the case of a loan for the purchase of a principal residence which were not to exceed thirty years. Participants were only able to have one note outstanding at any time. Principal and interest was paid ratably, through payroll deductions.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies followed in the preparation of these financial statements.

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invested in investment contracts through a stable value fund. The Statements of Net Assets Available for Benefits presents the fair value of the investment in the stable value fund as well as the adjustment from fair value to contract value relating to the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of money market funds are valued at the net asset value of shares held by the Plan at year end. Shares of mutual funds are valued at the daily closing price as reported by the fund. The Plan's interest in the stable value fund is valued at the net asset value based on information reported by the investment advisor using the audited financial statements of the collective trust at year end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investment bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses was recorded as of May 1, 2015 and December 31, 2014. If a participant ceased to make loan repayments and the plan administrator deemed the participant loan to be in default, the participant loan balance was reduced and a benefit payment was recorded.

Payment of Benefits

Benefits were recorded when paid.

Administrative Expenses

All administrative expenses related to the Plan were paid by the Plan and the plan sponsor, except for participant loan fees and fees for payments of benefits, which were paid by the participants. Personnel and facilities of the Company had been used by the Plan for its accounting and other activities at no charge to the Plan.

Subsequent Events

The plan sponsor has performed a review of events subsequent to the statements of net assets available for benefits date through January 12, 2016, the date the financial statements were available to be issued.

NOTE 3 – INFORMATION CERTIFIED BY THE CUSTODIAN (UNAUDITED)

Other than the fair value of the stable value fund and the related adjustment from fair value to contract value for fully benefit-responsive investment contracts, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements, including investments and notes receivable from participants held at May 1, 2015 and December 31, 2014, and net appreciation in fair value of investments, interest and dividends for the period ended May 1, 2015, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee of the Plan. The contract value of the stable value fund was certified by the trustee.

NOTE 4 – INVESTMENTS

The following presents investments that represent 5% or more of the Plan's assets:

	May 1, 2015	December 31, 2014
Fidelity Adv Free 2020 T	\$ -	\$ 189,930
Fidelity Adv Free 2030 T	\$ -	\$ 197,224
Invesco American French CI A	\$ -	\$ 139,861
First Eagle Global A	\$ -	\$ 109,983
Blackrock Equity Div A	\$ -	\$ 167,453
JP Morgan Large Cap Growth A	\$ -	\$ 187,017
Janus Triton S	\$ -	\$ 114,268

NOTE 5 – FAIR VALUE MEASUREMENTS

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

SUR-FLO PLASTICS & ENGINEERING, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
May 1, 2015 and December 31, 2014

NOTE 5 – FAIR VALUE MEASUREMENTS

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at May 1, 2015 and December 31, 2014.

Money Market Funds: Valued at the net asset value of shares held by the plan at year end.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Stable value fund: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. There were no unfunded commitments at May 1, 2015 and December 31, 2014.

SUR-FLO PLASTICS & ENGINEERING, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
May 1, 2015 and December 31, 2014

NOTE 5 – FAIR VALUE MEASUREMENTS (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

As of May 1, 2015, the plan had no assets.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014:

Description	Level 1	Level 2	Level 3	Total
Money market funds	\$ -	\$ 81,659	\$ -	\$ 81,659

NOTE 6 – INVESTMENT CONTRACT WITH A BANK

The Plan had assets invested in a stable value fund which was a fully benefit-responsive investment contract with Fidelity Management Trust Company. Fidelity maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

Because the stable value fund was fully benefit-responsive, contract value was the relevant measurement attribute for that portion of the net assets available for benefits attributable to the stable value fund. The stable value fund was presented on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Fidelity, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There were no reserves against contract value for credit risk of the contract issuer or otherwise at May 1, 2015 or December 31, 2014. The fair value of the investment contract at December 31, 2014, was \$46,554.

Certain events limited the ability of the Plan to transact at contract value with the issuer. Such events included (1) amendment to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. Please see Note 9 for the event that would limit the Plan's ability to transact at contract value with participants.

The stable value fund did not permit the bank to terminate the agreement prior to the scheduled maturity date. The average yield earned by the Plan for the guaranteed investment contract was 1.40% for the year ended December 31, 2014. The average yield earned by the Plan for the SVF with an adjustment to reflect the actual interest rate credited to the plan participants was 1.64% at December 31, 2014. Due to the Plan termination effective May 1, 2015, the average yield for the period ended May 1, 2015 is indeterminable.

SUR-FLO PLASTICS & ENGINEERING, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
May 1, 2015 and December 31, 2014

NOTE 7 – TAX STATUS

The Plan used a prototype plan sponsored by Fidelity Management and Research Co. The Internal Revenue Service has determined and informed the plan sponsor by a letter dated March 31, 2008, that the prototype plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan itself was not required to and had not received a determination letter from the IRS. Although the Plan had been amended since receiving this letter, the plan administrator and the Plan's tax counsel believe that the Plan was designed and operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes had been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of May 1, 2015 and December 31, 2014, there were no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan was subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

NOTE 8 – PARTIES-IN-INTEREST TRANSACTIONS

The Plan allowed for transactions with certain parties who performed services or had fiduciary responsibilities to the Plan, including the Company. During the period ended May 1, 2015, there were direct fees of \$150, and during the period ended May 1, 2015 and the year December 31, 2014, there were transactions involving the investment of plan assets in investment funds maintained by Fidelity Management Trust Company, a party-in-interest as defined in Section 3(14) of ERISA. Indirect fees paid by the Plan for investment management services are included in the net appreciation (depreciation) of the fair value of investments.

NOTE 9 – PLAN TERMINATION

As of May 1, 2015, the Plan was merged with the Crowne Group, LLC 401(k) Plan. All Plan assets and participant balances were transferred to the Crowne Group, LLC Plan and the Sur-Flo Plastics & Engineering, Inc. 401(k) Plan was terminated.

NOTE 10 – RISKS AND UNCERTAINTIES

The plan invested in various investment securities. Investment securities were exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it was at least reasonably possible that changes in values of investment securities would occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
