Independent Auditors' Report

Benefits Committee of
The J. M. Smucker Company
Orrville, Ohio

We have audited the accompanying financial statements of The J. M. Smucker Company Employees' Retirement Plan (the "Plan"), which comprise the statements of net assets available for benefits as of April 30, 2015 and 2014, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of April 30, 2015 and 2014, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

NOTES TO FINANCIAL STATEMENTS

Note A. Significant Accounting Policies

Basis of Accounting:

The financial statements are prepared on the accrual basis of accounting.

Investments:

All investments of The J. M. Smucker Company Employees' Retirement Plan (the "Plan") are maintained in the form of The J. M. Smucker Company Collective Trust for Investment of Employee Retirement Funds (the "Collective Trust") and, from time to time, units of a money market fund maintained by SEI Private Trust Company (Trustee of the Plan, "SEI"). The fair value of the Plan's investment in the Collective Trust is based on the quoted redemption value on the last business day of the Plan year as determined by the Trustee. The underlying investments in the Collective Trust are stated at fair value as determined by quoted market prices if available. Net assets, investment income, administrative expenses, and gains and losses relative to the Collective Trust are allocated to the Plan based on the relative balances invested in the Trust by each participating plan (see Note D).

The value of the Plan's interest in the Collective Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses.

Actuarial Present Value of Accumulated Plan Benefits:

Accumulated plan benefits (see Note C) are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired, terminated, or deceased employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on employees' previous compensation as defined in the Plan. The actuarial present value of accumulated plan benefits was determined on a "going concern" basis, based on each participant's age, service, and estimated average salary as of the valuation date.

Administrative Fees:

Administrative fees are paid by the Plan or by The J. M. Smucker Company (the "Company"), at the option of the Company.

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Note A. Significant Accounting Policies (Continued)

Payment of Benefits:

Benefit payments to participants are recorded upon distribution.

Subsequent Events:

The Company has evaluated subsequent events through January 20, 2016, which is the date the financial statements were available to be issued.

Note B. Description of the Plan

The following is a summary of certain provisions of the Plan. Participants should refer to the Plan document for more complete information. The Plan was restated effective July 1, 2012 to incorporate all amendments into the basic Plan document.

The Plan is a defined benefit plan that covered substantially all regular employees of the Company and certain of its subsidiaries not accruing benefits under any other retirement plan of the Company (see plan freeze referenced below). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. Under the Supplemental Benefit Plan, covered employees were able to contribute 4% of their monthly salary in excess of $2,000 until the Plan was renamed and restated and this provision was discontinued effective May 1, 1991. Such contributions earned, and shall continue to earn, a guaranteed rate of return until distributed to the participant. Effective December 31, 2007, the Company froze benefit service to the Plan for participants under the age of forty (40). No future benefit service or pay increases will be considered in the calculation of benefits. Participants at or over the age of forty as of January 1, 2008 will continue to accrue benefit service in the Plan. No new participants will be allowed to join the Plan after December 31, 2007.

Funding requirements are determined annually. The Company has agreed to contribute such amounts as are necessary to meet the minimum funding requirements of ERISA and to provide assets sufficient to meet the basic benefits to be paid to Plan participants.

Participants vest in the Plan after five years of credited service. The Company has the right under the Plan to discontinue all contributions at any time. The Company expects to continue the Plan indefinitely, but reserves the right to terminate it at any time. In the event of termination, Plan assets shall be apportioned and distributed for the purchase of annuities in the order of priority outlined in the Plan agreement subject to compliance with ERISA regulations.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC"). Should the Plan terminate at some future time, its net assets may not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by, and the financial condition of, the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

Note B. Description of the Plan (Continued)

Benefits are based on both a participant's eligible compensation during employment with the Company and the participant's years of service with the Company. All prior contributions under the Supplemental Benefit Plan will be held and subsequently distributed to the respective participants in accordance with the current Plan. Participants who terminate or retire on or after July 1, 2012 can elect to receive their benefits as a lump-sum.

Note C. Accumulated Plan Benefits

The Plan's actuary estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The Plan provides for benefit payments to commence upon the date of normal or qualified early retirement or the death or other termination of an active employee, whichever is later. A deferred vested benefit is computed for terminations occurring before this date. The Plan provides for the immediate payout to a participant upon retirement, death, or other termination if the actuarial present value of the participant's nonforfeitable accrued retirement benefit payable does not exceed $5,000. For any mandatory distributions greater than $1,000 and up to and including $5,000 for which the participant does not make an election for either a rollover to an eligible retirement plan or a direct distribution, the Company will pay the distribution in a direct rollover to an individual retirement plan designated by the Company.

The actuarial present value of accumulated plan benefits at May 1, 2014 is as follows:

Vested benefits:	
Participants currently receiving payments	$ 41,995,593
Other participants	72,142,077
	114,137,670
Nonvested benefits	600,085
	$114,737,755

Changes in accumulated plan benefits from May 1, 2013 to May 1, 2014 are as follows:

Actuarial present value of accumulated plan benefits - May 1, 2013	$110,208,354
Changes during the year attributable to:	
Benefits accumulated	4,906,722
Actuarial losses	1,655,074
Decrease in the discount period	7,445,395
Actual benefits paid	(9,625,867)
Change of assumptions	148,077
Net increase	4,529,401
Actuarial present value of accumulated plan benefits - May 1, 2014	$114,737,755

Note C. Accumulated Plan Benefits (Continued)

Significant assumptions underlying the actuarial computations are as follows:

	Year Ended April 30,	
	2015	2014
Life expectancy of participants	Prescribed static table under IRC Section 430(h)(3)(A) with separate mortality rates for annuitants and non-annuitants updated for 2015	Prescribed static table under IRC Section 430(h)(3)(A) with separate mortality rates for annuitants and non-annuitants updated for 2014
Interest discount rate	6.75%	6.75%
Retirement	100% by age 66	100% by age 66

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note D. Interest in The J. M. Smucker Company Collective Trust

The Plan's investments are in the Collective Trust which was established for the investment of assets of the Plan and several other Company-sponsored retirement plans.

Each participating retirement plan has an undivided interest in the Collective Trust. The assets of the Collective Trust are held by SEI. At April 30, 2015 and 2014, the Plan's interest in the net assets of the Collective Trust was approximately 43.1% and 42.6%, respectively.

The following table presents the fair values of investments of the Collective Trust:

	Year Ended April 30,	
	2015	2014
Investments at fair value:		
Common and convertible preferred stock:		
The J. M. Smucker Company	$ 36,810,628	$ 30,700,927

Note E. Fair Value Measurements

The Plan estimates the fair value of financial instruments using available market information and other generally accepted valuation methodologies. Fair value is defined as the price that would be received to sell an asset or would be paid to transfer a liability in an orderly transaction between market participants at the measurement date. The inputs used to measure fair value are classified into three levels:

- Level 1 – Quoted market prices in active markets for identical assets and liabilities
- Level 2 – Observable market-based inputs or unobservable inputs that are corroborated by market data
- Level 3 – Unobservable inputs in which little or no market data exists

Note E. Fair Value Measurements (Continued)

The following is a description of the valuation methodologies used for assets of the Collective Trust measured at fair value.

- Money market funds: Valued at the closing price reported in the active market in which the individual securities are traded. Pending transactions and accrued income receivable at the end of the Plan year are included within these funds. These are classified as Level 1.
- Common and convertible preferred stock: Valued at the closing price reported in the active market in which the individual securities are traded. These are classified as Level 1.
- Mutual funds: Valued at the net asset value of shares held by the Plan at year end. These are classified as Level 1.
- Limited partnership: Valued at fair value of the underlying assets of the partnership based upon reports provided by the investment manager. These are classified as Level 3.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. There have been no changes in the methodologies used from 2014 to 2015. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Collective Trust's assets at fair value as of April 30, 2015 and 2014:

	Assets at Fair Value as of April 30, 2015

Distributions	(3,394,501)
Balance at April 30, 2015	$15,663,472

Note E. Fair Value Measurements (Continued)

The Plan values its investment in a limited partnership (a Level 3 investment) at amounts reported by the investment manager and as validated through consideration of the audited financial statements of the investment. Accordingly, the Plan does not use separate quantitative information to value such investments.

The following table summarizes the investment strategy of the partnership investment as of April 30, 2015 and 2014:

Instrument	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
April 30, 2015				
SEI 2005 Global Opportunity Private Equity Fund (a)	$15,663,472	$ 2,623,484	Not eligible	Not eligible
April 30, 2014				
SEI 2005 Global Opportunity Private Equity Fund (a)	$14,978,309	$ 2,623,484	Not eligible	Not eligible

(a) The category comprises a private equity fund of funds whose investments will consist of primary limited partnership interests in corporate finance and venture capital funds. In addition, secondary partnership and co-investment deals are acceptable. Corporate finance investments may include leveraged buy-out, industry consolidation, growth or fundamental business change, acquisitions, refinancing and recapitalization, mezzanine investments, and distressed and turnaround strategies. Venture capital investments include start-up companies and companies developing new business solutions and technologies.

Note F. Transactions With Parties-In-Interest

Certain investments within the Collective Trust are in shares of the Company and units of funds sponsored by SEI. The Company is the plan sponsor and SEI is Trustee, as defined by the Plan, and, therefore, these qualify as party-in-interest transactions.

Note G. Income Tax Status

The Plan obtained a determination letter on July 23, 2012, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended and restated since requesting the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Note G. Income Tax Status (Continued)

Included in the Plan's underlying investments are units of a limited partnership. In any given year, this partnership may generate unrelated business income ("UBI") to the trust. In turn, each plan holding this investment would be liable for any income tax resulting from this investment after offsetting any related expenses and/or investment loss carry-forward amounts. Because the amount of any future UBI passing through to the Plan cannot be determined, the Plan's management has not recorded any deferred income tax benefit (loss) on the Plan's financial statements.

The plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of April 30, 2015, there are no uncertain positions taken or expected to be taken that would require such recognition or disclosure in the financial statements. As of April 30, 2015, the Plan's tax years from 2012 and thereafter remain subject to examination by the Internal Revenue Service, as well as various other taxing authorities.

Note H. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note I. Reconciliation to Form 5500 Presentation

The changes in net assets available for benefits as reported on Form 5500 differ from those reported in these financial statements due to investment expenses which, on Form 5500, are netted against the net investment gain from the Collective Trust, as follows:

	Year Ended April 30,	
	2015	2014
Net investment gain from collective investment trust fund as reported in financial statements	$13,778,324	$ 6,600,567
Less investment expenses incurred	406,871	310,346
Net investment gain from collective investment trust fund as reported on Form 5500	$13,371,453	$ 6,290,221

SCHEDULE SB ATTACHMENTS

Retirement

Rates varying by age and service, average age 62.

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire (per 100 employees) by age and service are shown below.

Attained Age	Employees Without 30 Years of Service	Employees With 30 Years of Service
55	2	2
56	2	3
57	2	4
58	3	5
59	3	7
60	5	9
61	10	10
62	15	35
63	20	20
64	25	20
65	100	90
66	100	100

Benefit commencement date:

- Preretirement death benefit: The later of the death of the active participant or the date the participant would have attained age 55. For the supplemental portion attributable to employee contribution the beneficiary receives the benefit upon death of the participants.
- Deferred vested benefit: The later of age 65 or termination of employment
- Disability benefit: Upon disablement with at least 10 years of service.
- Retirement benefit: Upon termination of employment and at least age 55 with 10 years of service or age 65.

Form of payment

50% of participants reaching retirement are assumed to elect a lump sum payment and 50% are assumed to elect a single life annuity. 100% of participants who terminate prior to reaching retirement are assumed to elect a lump sum payment. All current deferred vested participants are assumed to elect a single life annuity.

Percent married

It was assumed that 85% of males and 50% of females are married.

Spouse age

Females are assumed to be three years younger than males.

SCHEDULE SB ATTACHMENTS

Covered pay	Compensation assumed paid in the current year beginning on the valuation date is the current annual base rate of pay.
Administrative expenses	The amount included this year for plan-related expenses is $381,099.
At-risk assumptions	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22) . The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2013 plan year.) The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued based on discussions with The J.M. Smucker Company regarding the likelihood that these benefits will be paid. Towers Watson has reviewed the plan provisions with The J.M. Smucker Company and, based on that review, is not aware of any significant benefits required to be valued that were not.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Lump sum conversion rate	As required by IRC 430, lump sum benefits are valued using "annuity substitution", so that the interest rates assumed are effectively the same as described above for the discount rate, adjusted as required to account for the fact that the plan's lump sum conversion rate is either IRC 417(e) assumptions or whichever produces the larger lump sum.
Rates of increase in:	
• **Compensation**	Assumed compensation increases are based on plan sponsor expectations for near-term and long-term compensation practice. This assumption is derived by a building block approach by incorporating a combination of inflation, productivity increases in real wages in the general population and includes merit/promotional increases.
• **National average wages (NAW) (e.g., Social Security wage bases)**	The assumed NAW is based on assumed CPI as shown below, plus assumed increases in real wages (the portion of GDP increases that becomes part of wages). Such assumed future increases in real wages are based on a combination of historical averages and an expectation that the future rates will be higher than historical averages.
• **Increases in statutory limits (CPI)**	The assumed CPI increases are based on forecasts prepared by economists.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Assumed termination rates differ by age and gender, by age and service because of observed and expected differences in termination rates by gender and service.
Disability	Assumed disability rates differ by gender because of observed and expected differences in disability rates by gender.
Retirement	Retirement rates are based on plan sponsor expectations for the future reflecting plan changes and workforce events like early retirement windows that have occurred and current economic conditions with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed.

SCHEDULE SB ATTACHMENTS

Source of Prescribed Methods	
Funding methods	The methods used for funding purposes as described earlier, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods	
Change in assumptions since prior valuation	Only the prescribed changes in the interest rate and mortality assumption were made.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Line 22
Description of Weighted Average Retirement Age
as of May 1, 2014

See Schedule SB, Part V, Statement of Actuarial Assumptions and Methods for retirement rates. The average retirement age for Line 22 was calculated by determining the average age at retirement for those current active participants expected to reach retirement, based on all current decrements assumed.

As of May 1, 2014 valuation date, the weighted average retirement age is 62.

Age of Retirement	Under 30 Years	Over 30 Years	% Retiring*	Weighted Ages
(A)	(B)	(C)	(D)	(A)*(D)
55	2.00%	2.00%	2.00%	1.1000
56	2.00%	3.00%	2.74%	1.5366
57	2.00%	4.00%	3.43%	1.9547
58	3.00%	5.00%	4.22%	2.4499
59	3.00%	7.00%	5.43%	3.2045
60	5.00%	9.00%	6.74%	4.0428

63	20.00%	20.00%	9.37%	5.9024
64	25.00%	20.00%	7.87%	5.0367
65	100.00%	90.00%	27.24%	17.7041
66	100.00%	100.00%	2.37%	1.5632
Retirement Age		⇒		**62**

*Separate retirement rates (or decrements) are used for participants who reach an eligible retirement age prior to completing 30 years of service and those who reach an eligible retirement age after completing 30 years of service as shown above. An individual's average retirement age is determined based on the appropriate retirement decrement looking at the participant's age and service at each non-zero decremented retirement age. The weighted average retirement age for the plan represents the average of the individual averages for each active participant included in the current year's valuation.

It is estimated that 80% of the current active population will be eligible to retire with over 30 years of service, thus the derivation of the weighted average retirement age for the plan can be demonstrated using an earliest retirement age of age 55 for all individuals, and a 20% weighting of the decrements applicable to those with under 30 years of service combined with an 80% weighting of the decrements applicable to those with over 30 years of service as shown above.

SCHEDULE SB ATTACHMENTS

Credited Service

Effective January 1, 2008, with respect to participants who had not attained age 40 as of that date, benefit service is frozen.

Service for eligibility purposes is credited from the date of hire, as is service for benefit purposes is determined from date of hire or effective date noted above.

Normal Retirement Benefit

Eligible at age 65.

A monthly pension, if paid on a straight-life basis, equal to the sum of the Basic and Supplemental Benefits as follows:

Basic - Greater of a) or b) below:

a) $10.00 per month per year of credited service; and

b) 1% of Final Average Monthly Base Pay times years of credited service.

Frozen 4/30/1991 Supplemental Benefit - Monthly benefit equals the greater of a) or b) below:

a) 1/12 of the amount obtained by multiplying 50% times the employee contributions without interest as of April 30, 1991; and

b) Excess of Prior Formula over Current Formula at April 30, 1991.

Final Average Monthly Base Pay – 1/60 of the highest aggregate Base compensation received by him from an Employer during any 60 consecutive calendar months over all employment prior to the earlier of his retirement or other termination of employment. Effective May 1, 2011, compensation recognized for pension purposes is limited to $245,000 and is subject to annual indexing. Effective January 1, 2008, with respect to participants who had not attained age 40 as of that date, base compensation earned after December 31, 2007 is not considered.

Early Retirement Benefit

Eligible after age 55 and at least 10 years of service.

The monthly early retirement pension is equal to the accrued Basic and Supplemental Benefits reduced 1/3 of 1% for each month commencement of benefits precedes:

a) age 62, if employee has 30 or more years of vesting service, or

b) age 65, if employee has less than 30 years of vesting service.

SCHEDULE SB ATTACHMENTS

Disability Benefit

Eligible upon total and permanent disability after at least 10 years of service and not eligible for a short or long-term disability benefit under any plan maintained by the Company.

The monthly disability pension is the accrued normal retirement benefit commencing upon determination of disability (after at least 5 months).

Vested Benefits Upon Termination of Service

Eligible if the employee terminates after 5 years of service.

The vested termination benefit is the accrued normal retirement benefit commencing at age 65 or, if the employee has 10 years of service, commencing as early as age 55 on an actuarially reduced basis.

Lump Sum Window

A window was offered to deferred vested pensioners to take their benefits as a lump sum as of March 1, 2013.

Death Benefits for Participants in Active Service

Return of a participant's contributions to the Supplemental pension benefit together with accumulated interest.

Preretirement Spouse's Benefit

Eligible upon death of a participant after 5 years of service.

The spousal death benefit is the benefit to which the spouse would have been entitled had the deceased employee retired on the day of his death with a 50% Joint and Survivor option in effect. If death occurs prior to age 55, benefits to the spouse will commence with the month following the date that the employee would have reached age 55.

Optional Forms of Retirement Income

An employee may elect to receive his benefit on a single life, 100% Joint and Survivor, 75% Joint and Survivor, 50% Joint and Survivor, 66-2/3% Joint and Survivor basis, or 120-month Certain and Continuous basis.

- Participants who terminate or retire after July 1, 2012 may elect to receive their benefits as a lump sum.

- Unless otherwise elected, any benefit payable under the plan shall be paid on a 50% Joint and Survivor basis if the employee has been married to his current spouse for at least one year, or on a straight-life basis otherwise with the further provision that any benefits payable will be the actuarial equivalent of a straight-life benefit.

Pension Increases

Effective January 1, 2003 all pension benefits were adjusted to reflect a cost-of-living increase as follows:

Date of Retirement	Percent Increase
Prior to 05/01/1993	11%
05/01/1993 – 04/30/1994	10
