1. Description of Plan:

The following description of the Surface Technologies Corporation 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution Plan originally effective on January 1, 1995 by Surface Technologies Corporation (the Company), under the provisions of Section 401(a) of the Internal Revenue Code (the Code). The Plan includes a qualified deferred arrangement, as described in Section 401(k) of the Code, for the benefit of eligible employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2014, the recordkeeping, investment management and assets of the Plan were transferred from Ascensus, Inc., to MassMutual Life Insurance Company ("MassMutual"). In connection with the change in recordkeeper, the Plan's Trustee changed from Frontier Trust Company to State Street Bank and Trust Company. Also, effective January 1, 2014, all Plan funds were transferred to a new fund portfolio managed by MassMutual.

The amended and restated provisions of the Plan became effective on January 1, 2015. However, this restatement was made to conform the Plan to new tax laws and some provisions may be retroactively effective.

Contributions

Plan participants direct the investment of their contributions and the Company's contributions into various investment options offered by the Plan.

Participants may contribute pre-tax compensation to the Plan, as defined by the Plan and subject to certain limitations set by the Code. The Company, at its discretion may make matching contributions, as well as, a discretionary profit sharing contribution, which the Company determines each year. For the Plan year 2014 the Company matched one percent of eligible compensation that each participant contributed to the Plan. No discretionary profit sharing contribution was authorized for the 2014 Plan year.

Employees may participate in the Plan after completing one year of eligibility service and reaching age 18.

Participant Accounts

An individual account is maintained for each participant's interest in the Plan's net assets. Each participant's account is credited with the participant's contribution and allocation of the Company's contributions, if any, and Plan earnings. Earnings are allocated based on the performance of the shares in the investment options selected by the participant on a daily basis. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of Plan (Continued):

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service and is as follows:

Years of service for vesting	Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participants become fully vested upon death, total or permanent disability or an early retirement date as defined by the Plan.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant or beneficiary may receive either a lump sum or an annuity amount equal to the vested value of his or her account. For any other termination of service, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Participants that have terminated employment, but have not withdrawn their account balance due to Plan requirements, continue to participate in the earnings of the Plan. The Plan also permits withdrawals due to circumstances of financial hardship, in accordance with provisions specified in the Plan document.

Forfeited Accounts

At December 31, 2014 and 2013, forfeited non-vested accounts were $3,702 and $15,037, respectively. The amount of any non-vested forfeiture attributed to a participant’s break in service, as specified by the Plan Document, can be used to reduce future Company matching contributions. During 2014 forfeitures of $18,876 were used to reduce Company matching contributions.

Administrative Expenses

Record keeping expenses are paid by the Plan, as described in the Plan document and service agreements.

2. Summary of Accounting Policies:

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Risks and Uncertainties

The Plan provides for various investment options in any combination of common collective trusts, mutual and money market funds. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is as least reasonably possible that changes in risk in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

Investment Valuation and Income Recognition

Participants in the Plan direct their accounts to be invested in one or more of several common collective trusts and mutual funds. The Plan's investments are stated at fair value which represents the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Contract value is the relevant measurement attribute for certain Plan assets attributable to fully benefit-responsive investments because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the contract. During 2014 the Plan invested in a fully benefit-responsive investment through the MassMutual Guaranteed Interest Account and during 2013 the Plan invested in fully benefit-responsive investment contracts through a common collective trust. Contract value for these investments is based on the net asset value of the fund as reported by the investment advisor.

Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments, allocated to the individual accounts.

Payment of Benefits

Benefits are recorded when paid.

2. Summary of Accounting Policies (Continued):

Participant Loans Receivable

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as a distribution to the participant based upon the terms of the Plan document.

Management determines the collectability of the participant loans receivable on a periodic basis. This determination is made based on the terms of the Plan document and the related Plan policies and procedures. If participant loans receivable are deemed to be uncollectible, they are written off and included in as benefits paid to participants in the financial statements and the deemed distributions in the form 5500 for financial reporting purposes in the year the determination is made.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts in the financial statements and accompanying notes. Actual results could differ from those estimates.

Recent Accounting Pronouncements

In July 2015, the FASB issued Accounting Standards Update ("ASU") 2015-12, *Plan Accounting: Defined Benefits Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962) and Health and Welfare Benefit Plans (Topic 965): I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures; and III. Measurement Date Practical Expedient.* This three-part ASU simplifies current benefit plan accounting and requires (i) fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value and accordingly removes the requirement to reconcile their contract value to fair value; (ii) benefit plans to disaggregate their investments measured using fair value by general type, either on the face of the financial statements or in the notes to the financial statements; (iii) the net appreciation or depreciation in investments for the period to be presented in the aggregate rather than by general type, and removes certain disclosure requirements relevant to individual investments that represent five percent or more of net assets available for benefits. Further, the amendments in this ASU eliminate the requirement to disclose the investment strategy for certain investments that are measured using Net Asset Value ("NAV") per share using the practical expedient in the FASB ASC Topic 820. Part III of the ASU provides a practical expedient to permit employee benefit plans to measure investments and investment-related accounts as of the month-end that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end, while requiring certain additional disclosures. The amendments in Parts I and II of this standard are effective retrospectively for fiscal years beginning after December 15, 2015 and early adoption is permitted. The amendments in Part III of this standard are effective prospectively for fiscal years beginning after December 15, 2015.

The Plan has elected to adopt ASU 2015-12 for the year ended December 31, 2014. The effect of the early adoption is the elimination of disclosure of the applicable parts of the three-part ASU as described above.

3. Fair Value Measurements:

Financial Accounting Standards Board Statement Accounting Standards Codification Topic 820 (ASC 820), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1 - Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 - Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly.

Level 3 - Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Pooled separate accounts: The value of the units held in pooled separate accounts is based on the NAV of the units, determined by the security prices of the underlying investments. While the underlying security prices are quoted prices, the NAV of a separate account is not publicly quoted (Level 2 inputs).

Mutual funds: The fair values of mutual fund investments were determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy the Plan investment assets and investment liabilities at fair value, as of December 31, 2014 and 2013.

December 31, 2014	Level 1	Level 2	Level 3	Total
Pooled separate accounts		2,988,722		2,988,722
Total	$ -	$ 2,988,722	$ -	$ 2,988,722

December 31, 2013	Level 1	Level 2	Level 3	Total
Mutual funds	2,805,741	-	-	2,805,741
Total	$ 2,805,741	$ -	$ -	$ 2,805,741

4. Investments:

At December 31, 2014, the Plan invests in a guaranteed interest contract with MassMutual (the "GIA") which is a fully benefit-responsive investment contract. MassMutual maintains the contributions in a general account which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed interest contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Contract value, as reported to the Plan by MassMutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Certain events may limit the ability of the Plan to transact at contract value with the issuer. Such events include but may not be limited to the following: 1) participant termination, 2) removal from the Plan of one or more groups or classifications of participants, 3) partial or complete Plan termination or 4) Plan disqualification.

In general the following events would permit MassMutual to terminate the contract and settle at other-than-contract value: 1) the Plan's loss of its qualified status, 2) Plan termination, 3) uncured breaches of material obligations under the contract, or 4) advance notification by either party. There was no reserve against contract value for credit risk of the contract issuer or otherwise.

At December 31, 2013, the Plan invested in a fully-benefit-responsive investment fund, the Federated Capital Preservation Fund (the "Fund"). The Fund was a common collective trust that invested in traditional, synthetic and separate account investment contracts issued by insurance companies, banks and other financial institutions. Participants ordinarily directed the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represented contributions made to the Fund, plus credited earnings, less participant withdrawals. The Fund is presented in the accompanying statements of net assets available for benefits at contract value as reported to the Plan by the trustee. There was no reserve against contract value for credit risk of the contract issuer or otherwise.

5. Information Prepared and Certified by the Plan Trustee:

7. Related Party Transactions:

Certain Plan investments are shares of mutual funds managed by MassMutual and State Street Bank and Trust Company. MassMututal is the recordkeeper, and State Street Bank and Trust Company is the trustee as defined by the Plan and, therefore, transactions involving these funds qualify as party-in-interest transactions.

8. Tax Status:

The Plan was restated under the Ascensus Prototype Defined Contribution Plan (the "Prototype Plan"). The Internal Revenue Service (IRS) issued a determination letter dated March 31, 2008, stating that the Prototype Plan was in accordance with the applicable Plan designed requirements as of that date. The Plan as adopted and amended has not requested a determination letter. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement dates.

Management has evaluated the Plan's tax positions and concluded that as of December 31, 2014 the Plan had taken no uncertain tax positions that require recognition of a liability (or asset) in the financial statements. With few exceptions, the Plan is no longer subject to income tax examination by the U.S. federal, state or local tax authorities for years before 2011.

9. Plan Termination:

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

10. Nonexempt Transactions:

In August 2011, the Department of Labor ("DOL") completed an audit of the Plan year 2008 and an examination of remittances for the Plan years 2009 and 2010. The DOL determined that the Company did not remit certain employee deferrals and loan repayments to the Plan within the time frame required by the Department of Labor Regulation 29 CFR 2510.3-102. Certain other delinquent deferrals and loan repayments have been identified by the Company. Late or delinquent deferrals and loan repayments constitute prohibited transactions as defined by ERISA and are included in the accompanying supplemental Schedule H, Line 4a – Schedule of Delinquent Participant Contributions.

The following table presents all late or delinquent remittances identified by the DOL or by the Company.

Plan year	Participant contributions and loan repayments made late but remitted to the Plan	Delinquent participant contributions and loan repayments not yet remitted to the Plan
2007	$ 490,373	$ 325
2008	413,051	41,718
2009	357,998	7,844
2010	305,866	12,165
2011	316,208	-
2012	338,101	-
2013	394,374	10,318
2014	394,856	-

10. Nonexempt Transactions (Continued):

Corrections for lost earnings related to late remittances identified by the DOL in the amount of $15,648 were made in April 2013. The Company is taking steps to correct all other remittances and to calculate and remit lost earnings related to late or delinquent remittances identified by the Company and to implement procedures to ensure future deferrals and loan repayments are remitted correctly and within the prescribed period of time.

11. Subsequent Events:

The Plan has evaluated the accounting and disclosure requirements for subsequent events through February 1, 2016, the date of this report.
