HELAC CORPORATION 401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of Plan

The following description of the Helac Corporation (the Company) 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of Plan provisions.

General - The Plan is a 401(k) salary deferral and profit sharing plan covering substantially all employees of the Company, and is subject to provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Company is the Plan's sponsor and serves as Plan administrator.

Eligibility - Employees of the Company are eligible to participate in the Plan upon reaching age 18 and after completing two months of service.

Contributions

Participant contributions - Each year, participants may contribute between 1% and 100% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Employer match and profit sharing contributions - The Company makes matching contributions and may elect to make discretionary profit sharing contributions to the Plan. The Company matches 40% of employee contributions, up to 5% of eligible compensation deferred to the Plan. Profit sharing contributions are allocated to participants in the same proportion as a participant's compensation bears to the total of all participants' compensation. There were no profit sharing contributions for the year ended June 30, 2015.

Contributions are subject to regulatory limitations.

Participant accounts - Participant accounts are credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contributions, if any, and the Plan's earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their contributions into various investment options offered by the Plan.

Vesting - Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Participants vest in the Company's contributions based on the following schedule or upon death or disability:

<u>Years of Service</u>	<u>Vesting Percentage</u>
1	33%
2	67%
3	100%

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of Plan (continued)

Notes receivable from participants - Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loans are secured by the balance of the participant's account and bear fixed, reasonable rates of interest, as determined by the Plan administrator. The maximum loan term is five years unless the loan term qualifies as a home loan. Principal and interest are paid ratably through payroll deductions. As of June 30, 2015, the rates of interest on outstanding loans ranged from 5.25% to 11.75%, with various maturities through July 2025.

Payment of benefits - Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum distribution equal to the value of the vested interest in his or her account, or annual installments over a certain period, as defined in the Plan. A terminated participant with a vested balance of less than \$1,000 will receive the value of the vested interest in his or her account in a lump-sum cash distribution as soon as administratively possible after the termination date. A terminated participant's account balance is automatically rolled over into an individual retirement account if the account balance is greater than \$1,000 but less than \$5,000, unless otherwise elected.

Forfeitures - Forfeitures are the nonvested portion of a participant's account that is lost upon termination of employment. Forfeitures are retained in the Plan, must be used in the subsequent year, and will first be used to pay Plan administrative expenses, with any remaining amount used to reduce future employer contributions. As of June 30, 2015 and 2014, forfeited nonvested accounts totaled \$5,871 and \$8,980, respectively.

Note 2 - Summary of Significant Accounting Policies

Basis of accounting - The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Recent Accounting Pronouncements

ASU 2015-07 - In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The ASU is effective for fiscal years beginning after December 15, 2016, with earlier application permitted.

This amendment removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient (NAV). Once adopted, the Plan will apply the amendment retrospectively to all periods presented. Plan management is determining the specific impact on Plan reporting. However, when adopted, certain investments held by the Plan and measured using NAV will be no longer presented within the fair value hierarchy table.

Note 2 - Summary of Significant Accounting Policies (continued)

ASU 2015-12 - In July 2015, FASB issued ASU 2015-12, *Plan Accounting: Defined Contribution Pension Plans (Topic 962): I. Fully Benefit-Responsive Investment Contracts, II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient*. The ASU is effective for fiscal years beginning after December 15, 2015, with earlier application permitted. The amendment removes the requirement to:

- disclose individual investments held that exceed 5% of net assets available for benefits.
- disclose net appreciation in fair value of investments by type of investment held.
- disaggregate investments reported in the fair value hierarchy table by class of investment. They may be presented by general type only.
- disclose investment strategy for investments for which fair value is measured using the NAV practical expedient, if they are Form 5500 Direct Filing Entities.

Once adopted, the Plan will apply the amendment retrospectively to all periods presented. Plan management is determining the specific impact on Plan reporting.

Investment valuation - Investments are stated at fair value. The Plan's custodian, Charles Schwab Trust Company, certifies the contract value of the stable value funds and the fair market value of all other investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date (Note 4).

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Income recognition - Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains and losses and unrealized appreciation and depreciation of those investments.

Notes receivable from participants - Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions upon the occurrence of a distributable event, based on the terms of the Plan document.

Payment of benefits - Benefits are recorded when paid.

HELAC CORPORATION 401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Note 2 - Summary of Significant Accounting Policies (continued)

Expenses - General Plan administrative expenses may be paid out of the forfeiture account or paid by the Company. Investment management, distribution, and loan transaction fees are paid by the Plan participants.

Subsequent events - Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through February 1, 2016, which is the date the financial statements were available to be issued.

NOTES TO FINANCIAL STATEMENTS

Note 3 - Investments (continued)

During 2015, the Plan's investments (including gains and losses on investments purchased, sold, and held during the year) appreciated in fair value as follows:

	<u>2015</u>
Mutual funds	\$ 237,076
Collective trust	<u>5,644</u>
Net appreciation in fair value of investments	<u><u>\$ 242,720</u></u>

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820 are described as follows:

Basis of fair value measurement

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

HELAC CORPORATION 401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Note 4 - Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2015 and 2014.

Registered investment companies (mutual funds) - Shares of registered investment company funds are valued at the net asset value (NAV) of shares held by the Plan and are valued at the closing price reported on the active market on which the individual securities are traded.

Collective trust - Units held in collective trusts are valued using the NAV of the fund as reported by the fund managers. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The net asset value of a collective investment is calculated based on a compilation of primarily observable market information.

The Plan has investments in the Morley Stable Value Fund (the Fund), which is a collective investment trust fund designed to provide preservation of capital and relatively stable returns that are consistent regardless of stock and bond market volatility. The Fund seeks to earn a high level of income consistent with those objectives. The Fund holds guaranteed investment contracts, which typically have a fixed maturity. Each contract contains a provision that the issuer will, if required, repay principal at the stated contract value for the purpose of paying benefit payments (fully benefit-responsive). Accordingly the Fund is presented at fair value and an adjustment for contract value has been reflected in the accompanying statements of net assets available for benefits at June 30, 2015 and 2014.

Money market fund - The money market fund is a public investment vehicle valued using \$1 for the NAV.

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5 - Tax Status

The Plan document is a prototype standardized defined contribution plan that received a favorable opinion letter from the Internal Revenue Service on December 21, 2001, which stated that the Plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes (ASC 740-10), the Plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements.

NOTES TO FINANCIAL STATEMENTS

Note 6 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

Note 7 - Information Certified by the Custodian

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Charles Schwab Trust Company, the custodian of the Plan, has certified to the completeness and accuracy of:

Registered investment companies, money market fund, and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of June 30, 2015 and 2014.

Net appreciation in fair value of registered investment companies and interest income on notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the year ended June 30, 2015.

Contract value of collective trust reflected on the accompanying statements of net assets available for benefits as of June 30, 2015 and 2014. Net appreciation in contract value of collective trust reflected on the accompanying statement of changes in net assets available for benefits for the year ended June 30, 2015.

Investments reflected on the supplemental schedule of assets (held at end of year).

Transactions reflected on the supplemental schedule of reportable transactions.

Note 8 - Party-in-Interest Transactions

Certain Plan investments include shares of registered investment company funds managed by Charles Schwab Trust Company, custodian, as defined by the Plan; therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services were \$32,500 for the year ended June 30, 2015.
