1. Description of Plan

The following description of Ardisam, Inc. 401(k) Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all eligible employees of Ardisam, Inc. ("Company"). Upon hiring, employees are immediately eligible for elective deferrals after reaching twenty-one years of age. Employees are eligible for discretionary profit sharing contributions after reaching twenty-one years of age and completing one year of service as of the available Plan entry dates. The Company's Human Resources Manager serves as the Plan Administrator. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan permits contributions up to the maximum percentage allowable by IRS Code Sections 401(k), 402(g), 404 and 415. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Company may contribute on behalf of eligible employees a discretionary profit sharing contribution determined from year to year. The Company did not make contributions for the year ended December 31, 2014.

Participant accounts - Individual accounts are maintained for each Plan participant. An eligible participant's account is credited with allocations of the employer's discretionary contributions and plan earnings and charged with withdrawals, plan losses, and an allocation of administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested in employer profit sharing contributions after six years of credited service.

Payment of benefits - Benefits may be withdrawn if any of the following occur: normal retirement age, which is defined as age 59½; disability; termination of employment; termination of the Plan; death. Vested balances of less than $1,000 are paid out in a lump sum as soon as administratively possible after the participant is eligible to receive them. Vested balances over $1,000 are paid out as requested by the participant.

Forfeited accounts - Forfeited non-vested accounts are first used to reduce employer contributions and then used to pay plan administrative expenses. There were no forfeitures during the year ended December 31, 2014.

2. Summary of Accounting Policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts - Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the reported amounts and disclosures. Actual results could differ from those estimates.

Payments of benefits - Benefits are recorded when paid.

Plan expenses - Expenses incurred by the Plan for audit fees, plan administrative fees, and substantially all other operating expenses are paid from the Plan's assets, unless paid by forfeitures. The expenses will be allocated either proportionately based on the value of account balances or as equal dollar amounts based on the number of participants, depending on the nature of the expense.

Management fees and operating expenses charged to the Plan for investments are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Investment valuation and income recognition - The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Subsequent events - Plan management has evaluated subsequent events through February 10, 2016, which is the date the financial statements were available to be issued.

5. Fair Value Measurements

The Fair Value Measurements Topic of the FASB Accounting Standards Codification establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three levels of the fair value hierarchy are as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

Level 2 inputs are inputs other than quoted prices within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 inputs are unobservable inputs for the asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the Plan at year end. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled Separate Accounts: The value of the units held in a pooled separate account is based on the market value of the underlying investment holdings which are valued principally utilizing external appraisals. The pooled separate accounts are valued at the net asset value (NAV) of shares held by the Plan at year end.

Stable Value Fund: The fair value of the investment in the stable value fund is determined by the fund trustee based on the fair value of the underlying securities within the fund, which represents the net asset value of the shares held by the Plan at year end. The net asset value as provided by the custodian is used as a practical expedient to estimate fair value.

5. Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014:

6. Investment Contract with Life Insurance Company

The Plan entered into a benefit-responsive investment contract with Union Bond & Trust Company, the Gartmore Morley Stable Value Fund ("Fund"). The Fund maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by the Fund. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value, which approximates market value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the stable value fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract was $255,257 as of December 31, 2014. The spot yield to maturity and crediting interest rates were approximately 1.46% and 1.41%, respectively, for the year ending December 31, 2014. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

8. Plan Amendments and Tax Status

Effective January 1, 2014, the Plan adopted a Volume Submitter Defined Contribution Plan (Volume Submitter Plan) which received a favorable opinion letter from the Internal Revenue Service, dated March 31, 2014, stating that the Volume Submitter Plan, as then designed, qualifies itself; however, the Company believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

8. Plan Amendments and Tax Status (continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

9. Nonparticipant-Directed Investments

There are no nonparticipant-directed investments.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

11. Party-in-Interest Transaction

Transactions resulting in Plan assets being transferred to or used by a related party are prohibited under ERISA unless a specific exemption applies. For the plan year ended December 31, 2014, MG Trust Company and Principal Life Insurance Company are parties-in-interest, as defined by ERISA, as a result of the investment of Plan assets. However, such transactions are exempt under Section 408(b)(8) and are not prohibited by ERISA.

The Plan paid investment management and recordkeeping fees totaling $7,807 during the year ended December 31, 2014.
