AS OF JULY 31, 2015 (DATE OF ASSET TRANSFER) AND DECEMBER 31, 2014**

1. DESCRIPTION OF THE PLAN

The following description of the Profit Sharing and 401(k) Savings Plan for the Employees of Grey Global Group Inc. (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that was established effective December 31, 1960 to provide retirement benefits for eligible employees of Grey Global Group Inc. (the "Company"), a wholly-owned subsidiary of WPP plc. The Plan is administered by the Company through the Committee of the Profit Sharing and 401(k) Savings Plan for the Employees of Grey Global Group Inc. The Company has appointed Vanguard Fiduciary Trust Company ("VFTC" or "Vanguard"), as Recordkeeper and Trustee to maintain the Plan's assets and to pay benefits as provided by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective July 31, 2015, the Company became a participating employer in the Savings and Investment Plan ("SIP"), a Plan sponsored by WPP Group, USA, Inc. All assets of the Plan representing all participant account balances were transferred to the SIP on July 31, 2015.

Contributions/Eligibility

Deferred Contributions

Plan Participants may elect to contribute between 1% and 35% of their pre-tax salary not to exceed \$18,000 in 2015. Eligible employees are automatically enrolled in the pre-tax contribution portion of the Plan at a contribution rate of 3% of their Plan compensation unless the employee makes a contrary election. An automatically enrolled participant may change his or her contribution rate at any time. Contributions from participants are recorded when payroll deductions are made from the salaries of Plan participants. Participant contributions and the earnings thereon are always 100% vested. For Plan years 2015 and 2014, participating compensation is limited to \$265,000 and \$260,000, respectively.

Catch-up Contributions

Participating employees who have attained age 50 may contribute an additional percentage of eligible compensation as catch-up contributions (up to the annual federal dollar limit for these contributions).

Matching Contributions

Company matching contributions are allocated to Plan participants after the end of each year, based upon their Plan compensation. During 2014, Company matching contributions were equal to one half of the first 6% of a participant's pre-tax contributions. Matching contributions received by the Plan in 2015 were attributable to the 2014 Plan year, and were included in receivables on the Statement of Net Assets Available for Benefits at December 31, 2014. There were no matching contributions paid for the 2015 Plan year.

1. DESCRIPTION OF THE PLAN - (continued)

Profit Sharing Contributions

The Plan provides for profit sharing contributions by the Company at the discretion of the Board of Directors, subject to maximum limitations. There were no profit sharing contributions paid for the 2014 or the 2015 Plan year.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of any Company contributions and Plan earnings (losses). Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan offers a number of mutual funds and a common collective trust.

Vesting

A participant becomes vested in Company contributions i.e., matching and profit sharing contributions, and earnings thereon as follows:

<u>Years of Active Employment</u>	<u>Vested %</u>
Less than two years	0
At least two but less than three years	20
At least three but less than four years	40
At least four but less than five years	60
At least five but less than six years	80
Six years or more	100

Forfeited Accounts

At December 31, 2014, forfeited non-vested accounts totaled \$342,537. Normally, in accordance with Plan provisions, these amounts may be used to reduce future employer contributions or pay administrative expenses under the Plan. During the period from January 1 through July 31, 2015, employer contributions were reduced by \$260,860 from forfeited non-vested accounts. Forfeitures of \$156,130 were transferred to the SIP on July 31, 2015, and were included in net assets transferred out in the Statement of Changes in Net Assets Available for Benefits.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Loans are payable within 5 years or 10 years in the case of a loan used for the purchase of a principal residence. The interest rate for new loans will be based on the prime lending rate as received by Vanguard plus 1%. The interest rate will be adjusted by Vanguard on the first business day of the quarter after the prime lending rate changes. Principal and interest is paid ratably through monthly payroll deductions. The amount of any loan will be withdrawn in a ratio that is proportionate to the participant's balance in each investment fund. A participant may not have more than one general loan and one residential loan outstanding at any time. The vested portion of a participant's investment account is pledged as collateral for the loan.

Payment of Benefits

Benefit payments are based upon the participant's vested interest in Plan assets and are payable in cash in a single lump sum. Benefit payments are calculated based on the value of Plan assets as of the date of the distribution.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or for the period from January 1, 2015 through July 31, 2015.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service ("IRS") are recorded as a liability with a corresponding reduction to contributions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (continued)

Use of Estimates

The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Administrative and Investment Expenses

Certain expenses of the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation/depreciation of fair value of investments.

Subsequent Events

The Plan's management evaluated subsequent events through February 1, 2016, the date the financial statements were available to be issued, and no additional disclosures were required.

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820 are described as follows: Level 1 inputs consist of unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access; Level 2 inputs include quoted prices for similar assets or liabilities in active markets, quoted prices in markets that are not active, inputs other than quoted prices that are observable for the asset or liability, or other inputs that are derived principally from, or corroborated by, observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. Level 3 inputs are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

3. FAIR VALUE MEASUREMENTS - (continued)

The following is a description of the valuation methodologies used for assets measured at fair value.

Level 1

The fair value of the mutual funds is based on daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Level 2

The Vanguard Retirement Savings Trust ("VRST"), a common collective trust, invests primarily in synthetic guaranteed investment contracts and short-term money market funds. The VRST is valued at the NAV as provided by the trustee, which is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014. There were no assets held at July 31, 2015.

Assets at Fair Value as of December 31, 2014				
	Level 1	Level 2	Level 3	Total
Mutual funds:				
Bond fund	\$ 5,820,110	\$ -	\$ -	\$ 5,820,110
Growth funds	9,305,196	-	-	9,305,196

4. INVESTMENT IN COLLECTIVE TRUST

The investment in the VRST includes fully benefit-responsive investments stated at fair value. Contract value is equal to principal balance plus accrued interest. There are no reserves against contract value for credit risk of the contract issuer or otherwise. There are no unfunded commitments and the redemption frequency is daily. The redemption notice period of the trust is twelve months, which provides for plan redemptions at contract value, subject to the provisions of the trust. The average yield and crediting interest rates for the VRST were 2.30% and 1.89%, respectively for 2014. The average yield and crediting interest rates were not applicable for the period ended July 31, 2015.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include; (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

5. INVESTMENTS

The following presents Plan investments that represent five percent or more of the Plan's net assets available for benefits as of December 31, 2014:

<u>Investment</u>	<u>2014</u>
Vanguard Retirement Savings Trust	\$ 30,884,314
Vanguard Total Stock Market Index Fund	21,026,281
Vanguard Wellington Fund	18,685,707
Vanguard Target Retirement 2040 Fund	7,639,338
Vanguard Targe Retirement 2035 Fund	7,617,138

There were no assets held in the Plan at July 31, 2015.

During the period from January 1, 2015 to July 31, 2015, the entire net appreciation in the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) of \$2,915,807 was attributable to investments in mutual funds.

6. TAX STATUS

The IRS has determined and informed the Company by a letter dated October 5, 2012, that the Plan and related Trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related Trust is tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2012.

7. PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in shares of mutual funds and a common collective trust managed by an affiliate of VFTC. These transactions qualify as exempt party-in-interest transactions. There have been no known prohibited transactions with parties-in-interest.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances. As described in Note 1, all assets were transferred to the SIP on July 31, 2015.
