NTR Metals USA 401(k) Retirement Plan

Notes to Financial Statements August 1, 2015 and December 31, 2014

Note 1 - Plan Description

The following description of NTR Metals USA 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all full-time employees of NTR Metals USA, LLC, NTR Metals Group, LLC, and NTR Metals (Americas), LLC (collectively, the "Company") who have completed one month of service and are age 18 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective December 1, 2013, the Company resolved to suspend the Plan. Beginning on this date, eligible employees were placed into the new Elemetal, LLC 401(k) Retirement Plan. Elemetal, LLC is the parent holding company of the Company and other related entities. Effective November 30, 2013, the Plan was frozen and no further contributions were permitted. Per the resolution, all participants became fully vested in their accounts at this time. The custodian of the Plan was directed to merge the assets of the Plan into the Elemetal, LLC 401(k) Retirement Plan. As described in Note 6, the merger occurred effective August 1, 2015. During the transition period between December 1, 2013 and the effective merger date, participants could continue to direct the investment of their account balances into various investments offered by the Plan and request distributions.

Contributions - As described above, effective December 1, 2013, the Company resolved to suspend the Plan. Effective November 30, 2013, the Plan was frozen and no further contributions were permitted.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on the participant's compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting - As described above, effective December 1, 2013, the Company resolved to suspend the Plan. Effective November 30, 2013, the Plan was frozen and no further contributions were permitted. Per the resolution, all participants became fully vested in their accounts at this time.

Benefit Payments - Distributions are payable upon the retirement, death, disability, or termination of employment in the form of a lump-sum amount or a direct rollover equal to the vested balance of a participant's account. Participants who were still employed by the Company but have reached age 59½ may withdraw all or any part of their vested balance, subject to plan provisions.

NTR Metals USA 401(k) Retirement Plan

Notes to Financial Statements August 1, 2015 and December 31, 2014

Note 1 - Plan Description (Continued)

Hardship Withdrawals - Participants may request that all or a portion of their accounts be distributed in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions. At August 1, 2015 and December 31, 2014, forfeited account balances totaled \$0 and \$2,054, respectively.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by John Hancock Life Insurance Company or its affiliates. John Hancock Life Insurance Company is the custodian of the Plan and, therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Termination - The Company has the right under the Plan to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. See Note 6 for further information.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition - Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

NTR Metals USA 401(k) Retirement Plan

Notes to Financial Statements August 1, 2015 and December 31, 2014

Note 2 - Summary of Significant Accounting Policies (Continued)

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including February 26, 2016, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

John Hancock Life Insurance Company (the "Custodian") held the Plan's investments and executed all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedule of are based solely on information provided by the Custodian.

No investments were held as of August 1, 2015. Significant investments included in end of year net assets are as follows:

	December 31, 2014
Pooled separate accounts:	
JH Retirement through 2035 - Active Strategies	\$ 324,260
JH Retirement through 2040 - Active Strategies	446,031
JH Retirement through 2045 - Active Strategies	479,469
JH Lifestyle Growth - Active Strategies	361,646
JH Lifestyle Aggressive - Active Strategies	465,678
John Hancock Stable Value Fund	357,424
JH Retirement through 2030 - Active Strategies	182,081

Note 4 - Tax Status

The Plan, as adopted, is a volume submitter plan, which does not require an application for a determination letter from the Internal Revenue Service (IRS). The volume submitter plan has received a favorable notification letter from the IRS dated October 24, 2008. The Plan has not individually sought its own determination letter.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2012.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

NTR Metals USA 401(k) Retirement Plan

Notes to Financial Statements August 1, 2015 and December 31, 2014

Note 5 - Fair Value Measurements (Continued)

The following table presents information about the Plan's assets measured at fair value on a recurring basis at December 31, 2014. There were no plan assets held as of August 1, 2015.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Pooled Separate Accounts - The pooled separate accounts are valued at net asset value per share (or its equivalent) of the funds, which is based on the fair value of the funds' underlying net assets.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
