St. Vincent Charity Medical Center Pension Plan for ONA Employees
Notes to Financial Statements
May 31, 2015 and 2014

1. Description of the Plan

The following description of St. Vincent Charity Medical Center Pension Plan for ONA Employees (the “Plan”) provides only general information. Participants should refer to the plan document agreement for a more complete description of the Plan’s provisions.

General - The Plan is a defined benefit pension plan covering members of the Ohio Nurses Association (ONA) employed at St. Vincent Charity Medical Center of Cleveland, Ohio (collectively, the “Company” or the “Plan Administrator”). The Plan provides retirement and disability benefits to participants. Contributions are made to the Plan in amounts which, on an actuarial basis, provide assets sufficient to meet the benefits for participants. The Plan has met the Employee Retirement Income Security Act of 1974 (ERISA) minimum funding requirements.

The Plan was amended to freeze the accumulation of benefits to existing participants effective December 31, 2011. Additionally, the Plan no longer allows for new participants to enter the Plan after December 31, 2011.

In February 2014, the Company elected to terminate the Plan as of May 31, 2014 and liquidate the Plan’s assets by December 31, 2014 as required as part of the collective bargaining agreement with ONA. Upon termination of the Plan, all participants became fully vested in their benefits. In fiscal year 2015, in connection with the termination of the Plan, participants were offered a lump-sum distribution of their vested benefits. An annuity contract was purchased to settle the remaining obligation for participants not electing a lump-sum distribution. The Company fully funded the Plan as part of the termination.

Contributions - The Company contributes such amounts as are deemed necessary on an actuarial basis to provide the Plan with assets sufficient to meet the benefits paid to its participants. Contributions are sufficient to meet ERISA minimum funding requirements.

Pension Benefits - Eligible employees with five or more years of qualified service are entitled to normal annual pension benefits beginning at the participant’s normal retirement age of 65 as described in the Plan. The individual pension benefit is equal to credited service times a monthly pension basic benefit. Special provisions for retirement at other-than-normal retirement age are described in the plan agreement, if applicable.

Notes to Financial Statements (Continued)
May 31, 2015 and 2014

1. Description of the Plan (Continued)

Party-in-interest Transactions - Certain plan assets are investment funds managed by KeyBank National Association. KeyBank National Association is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

2. Significant Accounting Policies

Investment Valuation - Investments primarily consist of money market funds which are stated at fair value, as determined by quoted market prices. See Note 6 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates. Significant estimates are used in determining the present value of accumulated benefit plans (see Note 3).

Benefit Payments - Benefits to participants are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company.

Risks and Uncertainties - Contributions to the Plan and the present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the statements of net assets available for benefits.

2. Significant Accounting Policies (Continued)

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including March 11, 2016, which is the date the financial statements were available to be issued.

3. Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions, for services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are calculated as the applicable percent of average monthly compensation multiplied by the years of credited service. The accumulated plan benefits for active employees are the participants' accrued benefits as of the valuation date. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The Plan Administrator estimates the present value of accumulated plan benefits, which is the amount that results from applying assumptions to adjust the accumulated plan benefits earned by participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefit information as of the beginning the year is as follows:

	<u>June 1, 2014</u>
Present value of accumulated plan benefits:	
Participants currently receiving payments	\$ 1,076,000
Other participants	<u>10,884,000</u>
Total accumulated plan benefits	<u><u>\$ 11,960,000</u></u>

Notes to Financial Statements (Continued)
May 31, 2015 and 2014

3. Accumulated Plan Benefits (Continued)

	June 1, 2014
Present value of accumulated plan benefits - Beginning of year	\$ 11,943,508
Increase for interest due to decrease in discount period	715,233
Benefits paid	(698,741)
Present value of accumulated plan benefits - End of year	<u>\$ 11,960,000</u>

As discussed in Note 1, the Plan was approved for termination and was fully settled during 2015. The effect of the termination of approximately \$3.384 million is not reflected in the June 1, 2014 valuation.

The significant assumptions used in the valuation of the Plan at June 1, 2014 are summarized as follows:

Actuarial cost method	Projected unit credit method
Assumed rate of return on investments	6.00%

4. Unaudited Investment Information

KeyBank National Association (the “Trustee”) holds the Plan’s investments and executes all investment transactions. The investment balances and related investment results included in the accompanying financial statements and supplemental schedule of reportable transactions are based solely on information provided by the Trustee.

St. Vincent Charity Medical Center Pension Plan for ONA Employees
Notes to Financial Statements (Continued)
May 31, 2015 and 2014

5. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service, dated May 31 2012, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the “Code”) and therefore, the related trust is exempt from taxation. Subsequent to this determination by the Internal Revenue Service, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan’s tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan Administrator believes it is no longer subject to tax examinations for years prior to 2012.

6. Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following table presents information about the Plan's assets measured at fair value on a recurring basis at May 31, 2014 and the valuation techniques used by the Plan to determine those fair values.

Level 1 - In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

St. Vincent Charity Medical Center Pension Plan for ONA Employees
Notes to Financial Statements (Continued)
May 31, 2015 and 2014

6. Fair Value Measurements (Continued)

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Assets Measured at Fair Value on a Recurring Basis at May 31, 2014	
	Quoted Prices in Active Markets for Identical Assets (Level 1)
Assets:	
Short-term investments Federated Prime Cash Obligations	\$10,279,110

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the end of the reporting period. There were no significant transfers between levels of the fair value hierarchy during 2015 and 2014.
