NOTE 1. DESCRIPTION OF PLAN

The following description of Dixie Metal Products, Inc. Employees' 401(k) and Profit Sharing Plan and Trust Agreement (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of Dixie Metal Products, Inc. (the "Company") who have completed six months of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year participants may contribute any percentage of pretax annual compensation, as defined in the Plan, subject to maximum dollar limitations established by the Internal Revenue Service. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in a designated fund until changed by the participant. The Company may make qualified non-elective contributions to the Plan at the option of the Company's board of directors. During the year ended June 30, 2015, the Company did not declare or make any contributions. Contributions are subject to certain limitations.

Contributions from participants are recorded when payroll deductions are made. The Plan is required to return contributions received during the Plan year in excess of the Internal Revenue Service ("IRS") limits. Participants' pre-tax contribution limit is $18,000 for 2015 and $17,500 for 2014. Participants who have attained the age of 50 during the calendar year are eligible to make catch-up contributions to the Plan. The IRS limit for the catch-up contribution amount is $6,000 for 2015 and $5,500 for 2014.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution (if any) and Plan's investment results. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Upon distribution of the account to a participant who separates from service before vesting, the portion of the account attributable to the Company's contributions is forfeited.

Investment Elections

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and an insurance contract as investment options for participants. A participant may change such allocation at any time directly with the Plan's record keeper. All employer contributions are allocated in the same allocation percentages as the employee's contribution.

NOTE 1. DESCRIPTION OF PLAN (continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution, if any, plus actual earnings thereon is based on years of continuous service. A participant is fully vested after seven years of credited service.

Notes Receivable From Plan Participants

The Plan does not permit notes receivable from Plan participants.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant has several options for receiving benefits, including a lump-sum payment or installment payments. For termination of service for other reasons, a participant may receive the value of the vested interest as a lump sum distribution.

Forfeited Accounts

Forfeitures of nonvested participant account balances are allocated to all participants eligible to share in the matching allocations, regardless of whether a participant elected any salary reductions, in proportion to each such participant's compensation for the year. At June 30, 2015 and 2014, unallocated forfeited accounts totaled $1,079 and $2,740, respectively.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Administrative Expenses

All administrative expenses of the Plan are chargeable to the Plan. The Company may, at its sole discretion, pay any such expenses, in whole or in part. Expenses that are paid by the Company are excluded from these financial statements.

Benefit Payments

Benefits are recorded when paid. At June 30, 2015 there were no amounts allocated to accounts of persons who had elected to withdraw from the Plan, but had not been paid.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Any gain or loss resulting from the sale of fund units is determined as the difference between the sale proceeds and the cost of units sold. Investment income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fully Benefit-Responsive Investment Contract

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits presents the fair market value of the investment contract as the adjustment of the fully benefit-responsive contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

NOTE 3. NEW ACCOUNTING PRONOUCEMENTS TO BE ADOPTED

On July 31, 2015, the FASB issued ASU 2015-12, *Plan Accounting – (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date Practical Expedient.* ASU 2015-12 amends the reporting of investments held in a fully benefit-responsive investment contract to be reported at contract value; eliminates the requirement for participant-directed investments and non-participant-directed investments to disclose (a) individual investments that represent 5% or more of net assets available for benefits, and (b) the net appreciation or depreciation for investments by general type; and establishes a practical expedient to permit plans to measure investments and investment-related accounts as of a month-end date that is closes to the plan's fiscal year end date, when the fiscal period does not coincide with a month end. These amendments are to be applied prospectively and are effective for fiscal years beginning after December 15, 2015, with earlier application permitted. The Plan management is currently evaluating the new standard.

NOTE 4 INVESTMENTS

Investments that represent 5% or more of the Plan's net assets are as follows:

	2015	2014
Vanguard Windsor II Fund	$ 389,368	$ 367,219
Harbor International Fund	319,585	344,818
SSGA S&P 500 Index Fund	301,732	275,250
Fidelity Capital Trust Appreciation Fund	271,898	282,948
Royce Opportunity Fund	237,685	277,659
Wells Fargo Advantage Small Co Growth I	187,563	-
Vanguard Total Bond Market Index Fund	-	103,751
Buffalo Small Cap Fund	-	210,647

During the year ended June 30, 2015, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $65,754, comprised of a net decrease of $67,692 from mutual funds and a net increase of $1,938 from the stable value fund.

NOTE 5. FAIR VALUE MEASUREMENTS

Accounting Standards Codification ("ASC") 820, *Fair Value Measurement and Disclosures*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3 Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2015 and 2014.

- *Mutual funds*: Valued at the daily closing prices as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

- *Stable value fund*: Valued at the net asset value of the fund as of the close of trading on the New York Stock Exchange. The net asset value is based on the value of the underlying assets owned by the fund, less its liabilities, and then divided by the total number of units outstanding at the time of such computation. These investments are not available in an exchange or active market; however, the fair value is determined based on the underlying investments as traded in an exchange and active market.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5. FAIR VALUE MEASUREMENTS (continued)

The following tables set forth by level within the fair value hierarchy, the Plan's net assets at June 30, 2015 and 2014:

	Assets at Fair Value as of June 30, 2015			
	Level 1	Level 2	Level 3	Total
Mutual funds:				
Domestic equity	$ 1,388,432	$ -	$ -	$ 1,388,432

Fixed income	-	63,146	-	63,146
Total Investments	$ 1,893,985	$ 63,146	$ -	$ 1,957,131

	Assets at Fair Value as of June 30, 2014			
	Level 1	Level 2	Level 3	Total
Mutual funds:				
Domestic equity	$ 1,413,724	$ -	$ -	$ 1,413,724
International equity	344,818	-	-	344,818
Bonds	205,642	-	-	205,642
Fixed income	-	89,462	-	89,462
Total Investments	$ 1,964,184	$ 89,462	$ -	$ 2,053,646

NOTE 6. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified as complete and accurate by the custodian:

	2015	2014
Investments, at fair value:	$ 1,957,131	$ 2,053,646
Cash	187	405

Investment income and expenses certified by the Plan's custodian for the year ended June 30, 2015 is as follows:

Net depreciation in fair value of investments	$ 65,754
Investment earnings	$ 125,313
Plan administrative expenses	$ 20,614

NOTE 7. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan maintains a fully benefit-responsive stable value fund with Reliance Trust Company ('Reliance"). The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

Because the investment is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. The contact is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported by Reliance, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at June 30, 2015 and 2014 was $63,331 and $89,462, respectively.

Certain events limit the ability of the investment contract to transact at contract value with the issuer. Such events include the following (a) amendments to the Plan documents including a partial or complete legal termination of the investment contract, (b) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (c) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with Plan participants, is probable.

NOTE 8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 9. RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan, including the Company. During the year ended June 30, 2015, there were direct investment management fees of $9,834, trustee/recordkeeping/administrative fees of $10,706, and participant recordkeeping fees of $74. Indirect fees paid by the Plan are included in the net appreciation of the fair value of investments.

NOTE 10. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 11. TAX STATUS

The Company adopted a prototype 401(k) plan as provided by Gunster, Yoakley & Stewart, P.A.. The prototype plan received a favorable determination letter from the Internal Revenue Service dated August 7, 2001, stating that the Plan is designed in accordance with the applicable provisions of the Internal Revenue Code. The Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Accordingly, no provision for income taxes has been included in the financial statements. The Plan administrator believes it is not longer subject to income tax examinations for years prior to 2012.

NOTE 12. RECONCILIATION TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at June 30, 2015 and 2014 to Schedule H of Form 5500:

	2015	2014
Net assets available for benefits per the financial statements	$ 1,956,945	$ 2,053,100

The following is a reconciliation of changes in net assets available for benefits for the year ended June 30, 2015 per the financial statements to the net income per Schedule H of Form 5500:

Employees' contribution receivable – June 30, 2014	(1,532)

NOTE 13. SUBSEQUENT EVENTS

The Company has evaluated subsequent events through March 11, 2016, the date which the financial statements were available to be issued, and has determined that the Plan had no events occurring subsequent to June 30, 2015 requiring disclosure.

NOTE 1. DESCRIPTION OF PLAN

The following description of Dixie Metal Products, Inc. Employees' 401(k) and Profit Sharing Plan and Trust Agreement (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of Dixie Metal Products, Inc. (the "Company") who have completed six months of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year participants may contribute any percentage of pretax annual compensation, as defined in the Plan, subject to maximum dollar limitations established by the Internal Revenue Service. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in a designated fund until changed by the participant. The Company may make qualified non-elective contributions to the Plan at the option of the Company's board of directors. During the year ended June 30, 2015, the Company did not declare or make any contributions. Contributions are subject to certain limitations.

Contributions from participants are recorded when payroll deductions are made. The Plan is required to return contributions received during the Plan year in excess of the Internal Revenue Service ("IRS") limits. Participants' pre-tax contribution limit is $18,000 for 2015 and $17,500 for 2014. Participants who have attained the age of 50 during the calendar year are eligible to make catch-up contributions to the Plan. The IRS limit for the catch-up contribution amount is $6,000 for 2015 and $5,500 for 2014.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution (if any) and Plan's investment results. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Upon distribution of the account to a participant who separates from service before vesting, the portion of the account attributable to the Company's contributions is forfeited.

Investment Elections

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and an insurance contract as investment options for participants. A participant may change such allocation at any time directly with the Plan's record keeper. All employer contributions are allocated in the same allocation percentages as the employee's contribution.

NOTE 1. DESCRIPTION OF PLAN (continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution, if any, plus actual earnings thereon is based on years of continuous service. A participant is fully vested after seven years of credited service.

Notes Receivable From Plan Participants

The Plan does not permit notes receivable from Plan participants.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant has several options for receiving benefits, including a lump-sum payment or installment payments. For termination of service for other reasons, a participant may receive the value of the vested interest as a lump sum distribution.

Forfeited Accounts

Forfeitures of nonvested participant account balances are allocated to all participants eligible to share in the matching allocations, regardless of whether a participant elected any salary reductions, in proportion to each such participant's compensation for the year. At June 30, 2015 and 2014, unallocated forfeited accounts totaled $1,079 and $2,740, respectively.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Administrative Expenses

All administrative expenses of the Plan are chargeable to the Plan. The Company may, at its sole discretion, pay any such expenses, in whole or in part. Expenses that are paid by the Company are excluded from these financial statements.

Benefit Payments

Benefits are recorded when paid. At June 30, 2015 there were no amounts allocated to accounts of persons who had elected to withdraw from the Plan, but had not been paid.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Any gain or loss resulting from the sale of fund units is determined as the difference between the sale proceeds and the cost of units sold. Investment income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fully Benefit-Responsive Investment Contract

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits presents the fair market value of the investment contract as the adjustment of the fully benefit-responsive contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

NOTE 3. NEW ACCOUNTING PRONOUCEMENTS TO BE ADOPTED

On July 31, 2015, the FASB issued ASU 2015-12, *Plan Accounting – (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date Practical Expedient.* ASU 2015-12 amends the reporting of investments held in a fully benefit-responsive investment contract to be reported at contract value; eliminates the requirement for participant-directed investments and non-participant-directed investments to disclose (a) individual investments that represent 5% or more of net assets available for benefits, and (b) the net appreciation or depreciation for investments by general type; and establishes a practical expedient to permit plans to measure investments and investment-related accounts as of a month-end date that is closes to the plan's fiscal year end date, when the fiscal period does not coincide with a month end. These amendments are to be applied prospectively and are effective for fiscal years beginning after December 15, 2015, with earlier application permitted. The Plan management is currently evaluating the new standard.

NOTE 4 INVESTMENTS

Investments that represent 5% or more of the Plan's net assets are as follows:

	2015	2014
Vanguard Windsor II Fund	$ 389,368	$ 367,219
Harbor International Fund	319,585	344,818
SSGA S&P 500 Index Fund	301,732	275,250
Fidelity Capital Trust Appreciation Fund	271,898	282,948
Royce Opportunity Fund	237,685	277,659
Wells Fargo Advantage Small Co Growth I	187,563	-
Vanguard Total Bond Market Index Fund	-	103,751
Buffalo Small Cap Fund	-	210,647

During the year ended June 30, 2015, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $65,754, comprised of a net decrease of $67,692 from mutual funds and a net increase of $1,938 from the stable value fund.

NOTE 5. FAIR VALUE MEASUREMENTS

Accounting Standards Codification ("ASC") 820, *Fair Value Measurement and Disclosures*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3 Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2015 and 2014.

- *Mutual funds*: Valued at the daily closing prices as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

- *Stable value fund*: Valued at the net asset value of the fund as of the close of trading on the New York Stock Exchange. The net asset value is based on the value of the underlying assets owned by the fund, less its liabilities, and then divided by the total number of units outstanding at the time of such computation. These investments are not available in an exchange or active market; however, the fair value is determined based on the underlying investments as traded in an exchange and active market.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5. FAIR VALUE MEASUREMENTS (continued)

The following tables set forth by level within the fair value hierarchy, the Plan's net assets at June 30, 2015 and 2014:

	Assets at Fair Value as of June 30, 2015			
	Level 1	Level 2	Level 3	Total
Mutual funds:				
Domestic equity	$ 1,388,432	$ -	$ -	$ 1,388,432

	Assets at Fair Value as of June 30, 2014			
	Level 1	Level 2	Level 3	Total
Mutual funds:

Fixed income	-	89,462	-	89,462
Total Investments	$ 1,964,184	$ 89,462	$ -	$ 2,053,646

NOTE 6. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified as complete and accurate by the custodian:

	2015	2014
Investments, at fair value:	$ 1,957,131	$ 2,053,646
Cash	187	405

Investment income and expenses certified by the Plan's custodian for the year ended June 30, 2015 is as follows:

Net depreciation in fair value of investments	$ 65,754
Investment earnings	$ 125,313
Plan administrative expenses	$ 20,614

NOTE 7. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan maintains a fully benefit-responsive stable value fund with Reliance Trust Company ('Reliance"). The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

Because the investment is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. The contact is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported by Reliance, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at June 30, 2015 and 2014 was $63,331 and $89,462, respectively.

Certain events limit the ability of the investment contract to transact at contract value with the issuer. Such events include the following (a) amendments to the Plan documents including a partial or complete legal termination of the investment contract, (b) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (c) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with Plan participants, is probable.

NOTE 8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 9. RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan, including the Company. During the year ended June 30, 2015, there were direct investment management fees of $9,834, trustee/recordkeeping/administrative fees of $10,706, and participant recordkeeping fees of $74. Indirect fees paid by the Plan are included in the net appreciation of the fair value of investments.

NOTE 10. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 11. TAX STATUS

The Company adopted a prototype 401(k) plan as provided by Gunster, Yoakley & Stewart, P.A.. The prototype plan received a favorable determination letter from the Internal Revenue Service dated August 7, 2001, stating that the Plan is designed in accordance with the applicable provisions of the Internal Revenue Code. The Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Accordingly, no provision for income taxes has been included in the financial statements. The Plan administrator believes it is not longer subject to income tax examinations for years prior to 2012.

NOTE 12. RECONCILIATION TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at June 30, 2015 and 2014 to Schedule H of Form 5500:

	2015	2014
Net assets available for benefits per the financial statements	$ 1,956,945	$ 2,053,100
Employee's contribution receivable – June 30, 2014	-	(1,532)
Net assets available for benefits per Form 5500	$ 1,956,945	$ 2,051,568

The following is a reconciliation of changes in net assets available for benefits for the year ended June 30, 2015 per the financial statements to the net income per Schedule H of Form 5500:

Net decrease in net assets available for benefits per financial statements	$ 96,155
Employees' contribution receivable – June 30, 2014	(1,532)
Net loss per From 5500	$ 94,623

NOTE 13. SUBSEQUENT EVENTS

The Company has evaluated subsequent events through March 11, 2016, the date which the financial statements were available to be issued, and has determined that the Plan had no events occurring subsequent to June 30, 2015 requiring disclosure.

Management's Responsibility for the Financial Statements

Plan Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee' Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Alerus Financial, N.A., the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended June 30, 2015 and 2014, that the information provided to the plan administrator by the trustee is complete and accurate.

NOTE 1. DESCRIPTION OF PLAN

The following description of Dixie Metal Products, Inc. Employees' 401(k) and Profit Sharing Plan and Trust Agreement (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of Dixie Metal Products, Inc. (the "Company") who have completed six months of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year participants may contribute any percentage of pretax annual compensation, as defined in the Plan, subject to maximum dollar limitations established by the Internal Revenue Service. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in a designated fund until changed by the participant. The Company may make qualified non-elective contributions to the Plan at the option of the Company's board of directors. During the year ended June 30, 2015, the Company did not declare or make any contributions. Contributions are subject to certain limitations.

Contributions from participants are recorded when payroll deductions are made. The Plan is required to return contributions received during the Plan year in excess of the Internal Revenue Service ("IRS") limits. Participants' pre-tax contribution limit is $18,000 for 2015 and $17,500 for 2014. Participants who have attained the age of 50 during the calendar year are eligible to make catch-up contributions to the Plan. The IRS limit for the catch-up contribution amount is $6,000 for 2015 and $5,500 for 2014.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution (if any) and Plan's investment results. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Upon distribution of the account to a participant who separates from service before vesting, the portion of the account attributable to the Company's contributions is forfeited.

Investment Elections

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and an insurance contract as investment options for participants. A participant may change such allocation at any time directly with the Plan's record keeper. All employer contributions are allocated in the same allocation percentages as the employee's contribution.

NOTE 1. DESCRIPTION OF PLAN (continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution, if any, plus actual earnings thereon is based on years of continuous service. A participant is fully vested after seven years of credited service.

Notes Receivable From Plan Participants

The Plan does not permit notes receivable from Plan participants.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant has several options for receiving benefits, including a lump-sum payment or installment payments. For termination of service for other reasons, a participant may receive the value of the vested interest as a lump sum distribution.

Forfeited Accounts

Forfeitures of nonvested participant account balances are allocated to all participants eligible to share in the matching allocations, regardless of whether a participant elected any salary reductions, in proportion to each such participant's compensation for the year. At June 30, 2015 and 2014, unallocated forfeited accounts totaled $1,079 and $2,740, respectively.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Administrative Expenses

All administrative expenses of the Plan are chargeable to the Plan. The Company may, at its sole discretion, pay any such expenses, in whole or in part. Expenses that are paid by the Company are excluded from these financial statements.

Benefit Payments

Benefits are recorded when paid. At June 30, 2015 there were no amounts allocated to accounts of persons who had elected to withdraw from the Plan, but had not been paid.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Any gain or loss resulting from the sale of fund units is determined as the difference between the sale proceeds and the cost of units sold. Investment income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fully Benefit-Responsive Investment Contract

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits presents the fair market value of the investment contract as the adjustment of the fully benefit-responsive contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

NOTE 3. NEW ACCOUNTING PRONOUCEMENTS TO BE ADOPTED

On July 31, 2015, the FASB issued ASU 2015-12, *Plan Accounting – (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date Practical Expedient.* ASU 2015-12 amends the reporting of investments held in a fully benefit-responsive investment contract to be reported at contract value; eliminates the requirement for participant-directed investments and non-participant-directed investments to disclose (a) individual investments that represent 5% or more of net assets available for benefits, and (b) the net appreciation or depreciation for investments by general type; and establishes a practical expedient to permit plans to measure investments and investment-related accounts as of a month-end date that is closes to the plan's fiscal year end date, when the fiscal period does not coincide with a month end. These amendments are to be applied prospectively and are effective for fiscal years beginning after December 15, 2015, with earlier application permitted. The Plan management is currently evaluating the new standard.

NOTE 4 INVESTMENTS

Investments that represent 5% or more of the Plan's net assets are as follows:

	2015	2014
Vanguard Windsor II Fund	$ 389,368	$ 367,219
Harbor International Fund	319,585	344,818
SSGA S&P 500 Index Fund	301,732	275,250
Fidelity Capital Trust Appreciation Fund	271,898	282,948
Royce Opportunity Fund	237,685	277,659
Wells Fargo Advantage Small Co Growth I	187,563	-
Vanguard Total Bond Market Index Fund	-	103,751
Buffalo Small Cap Fund	-	210,647

During the year ended June 30, 2015, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $65,754, comprised of a net decrease of $67,692 from mutual funds and a net increase of $1,938 from the stable value fund.

NOTE 5. FAIR VALUE MEASUREMENTS

Accounting Standards Codification ("ASC") 820, *Fair Value Measurement and Disclosures*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3 Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2015 and 2014.

- *Mutual funds*: Valued at the daily closing prices as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

- *Stable value fund*: Valued at the net asset value of the fund as of the close of trading on the New York Stock Exchange. The net asset value is based on the value of the underlying assets owned by the fund, less its liabilities, and then divided by the total number of units outstanding at the time of such computation. These investments are not available in an exchange or active market; however, the fair value is determined based on the underlying investments as traded in an exchange and active market.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5. FAIR VALUE MEASUREMENTS (continued)

The following tables set forth by level within the fair value hierarchy, the Plan's net assets at June 30, 2015 and 2014:

	Assets at Fair Value as of June 30, 2015			
	Level 1	Level 2	Level 3	Total
Mutual funds:				
Domestic equity	$ 1,388,432	$ -	$ -	$ 1,388,432

Total Investments	$ 1,893,985	$ 63,146	$ -	$ 1,957,131

	Assets at Fair Value as of June 30, 2014

Fixed income	-	89,462	-	89,462
Total Investments	$ 1,964,184	$ 89,462	$ -	$ 2,053,646

NOTE 6. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified as complete and accurate by the custodian:

	2015	2014
Investments, at fair value:	$ 1,957,131	$ 2,053,646
Cash	187	405

Investment income and expenses certified by the Plan's custodian for the year ended June 30, 2015 is as follows:

Net depreciation in fair value of investments	$ 65,754
Investment earnings	$ 125,313
Plan administrative expenses	$ 20,614

NOTE 7. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan maintains a fully benefit-responsive stable value fund with Reliance Trust Company ('Reliance"). The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

Because the investment is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. The contact is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported by Reliance, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at June 30, 2015 and 2014 was $63,331 and $89,462, respectively.

Certain events limit the ability of the investment contract to transact at contract value with the issuer. Such events include the following (a) amendments to the Plan documents including a partial or complete legal termination of the investment contract, (b) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (c) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with Plan participants, is probable.

NOTE 8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 9. RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan, including the Company. During the year ended June 30, 2015, there were direct investment management fees of $9,834, trustee/recordkeeping/administrative fees of $10,706, and participant recordkeeping fees of $74.
