INTEGRACORE, LLC 401(k) PLAN

Notes to Financial Statements

1. Description of the Plan

Merger

The IntegraCore, LLC 401(k) Plan (the Plan) was merged into the Resource Management, Inc. 401(k) Plan (the Successor Plan) and all Plan assets and liabilities were transferred to the Successor Plan before close of business on May 4, 2015. The net assets transferred totaled \$3,226,669.

The following description of the IntegraCore, LLC 401(k) Plan provides only general information. Participants should refer to the plan document, adoption agreement, and summary plan description for the Plan and the Successor Plan for more complete information.

General

The Plan was created on December 29, 2002. The Plan is a prototype non-standardized profit sharing plan covering employees of IntegraCore, LLC (the Company or the Employer) who are age 18 or older and have completed three consecutive months of service at any time after employment commencement date. The Plan is intended to be a qualified retirement plan under the Internal Revenue Code (IRC) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Participants may elect under a salary reduction agreement to contribute to the Plan a portion of their eligible compensation. Participant contributions are limited by the IRC to an annual maximum contribution amount of \$18,000 (\$24,000 for participants age 50 or older) for the period January 1, 2015 through May 4, 2015. Roth contributions from participants may be made on an after-tax basis. Effective July 1, 2014, the Plan adopted an automatic deferral provision in which eligible employees deferred an automatic 6% of their compensation for each payroll period.

Effective January 1, 2015, the Company amended the Plan to match employee contributions equal to 100% of salary deferrals up to 1% of compensation plus 50% of salary deferrals that exceed 1% but do not exceed 6% of compensation. During the period January 1, 2015 through May 4, 2015, Employer matching contributions of \$97,514 were made. The Company may also elect to contribute discretionary profit sharing contributions. During the period January 1, 2015 through May 4, 2015, no discretionary profit sharing contribution was made.

**1. Description
of the Plan**
Continued

Forfeitures

Forfeitures of non-vested participant account balances may first be used to pay administrative expenses. Any remaining forfeitures that have not been used to pay administrative expenses may be used to reduce Employer contributions. As of May 4, 2015 and December 31, 2014, forfeited accounts totaled \$0. Forfeitures transferred out of the Plan as of May 4, 2015 totaled \$35,197. These funds may be used to reduce future Employer contributions to the Successor Plan. Forfeitures for the period January 1, 2015 through May 4, 2015 were \$35,177 with earnings of \$20.

Participant Accounts

Each participant's account is credited with (a) the participant's contribution, (b) the Company's matching contribution, and (c) earnings on the investments; and charged with (d) individual account processing fees for loans, benefit payments, and withdrawals, (e) investment management fees and other expenses that apply to specific investments in a participant's account, and (f) allocated Plan expenses for general administration and recordkeeping of the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant-Directed Options for Investments

Participants direct the investment of their contributions and Company contributions into various investment options offered by the Plan. Investment options include pooled separate accounts and a guaranteed interest account.

Vesting

As of January 1, 2015, the vesting schedule was amended to a 2-year cliff vesting period for Employer contributions, with 100% of Employer contributions vesting after 2 years of service.

Prior to January 1, 2015, participants were immediately 100% vested in their contributions, plus actual earnings thereon.

**1. Description
of the Plan**
Continued

Payment of Benefits

Upon termination of service due to death, disability, retirement, or termination, participants (or their beneficiaries) may elect to receive their vested balances in a lump sum or annual installments over a reasonable period of time. Participants who terminate their employment with the Company or attain age 59½ are entitled to withdraw all or a portion of their vested account balances. Participants must begin receiving benefits by the year following attainment of age 70½. Vested account balances will be distributed upon death or disability. Participants qualifying under hardship rules may elect to receive all or a portion of their vested rollover, pre-tax deferral and Roth deferral account balances prior to termination or retirement.

Notes Receivable from Participants

Participants may borrow from the Plan up to a maximum of \$50,000 or 50% of the vested account balance, whichever is less, with a minimum loan amount of \$1,000. General purpose loans must be repaid over a period not to exceed five years. Longer terms may be permitted by the Plan Administrators for principal residence loans. The loans bear interest at a fixed rate equal to 1% above the prime rate at the time the loan is made. All outstanding loans, which totaled \$195,611, were transferred to the Successor Plan as part of the transfer that occurred on May 4, 2015.

**2. Summary of
Significant
Accounting
Policies**

Basis of Accounting

The accompanying financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (US GAAP).

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. All Plan assets were transferred to the Successor Plan before close of business on May 4, 2015.

Net appreciation in fair value of investments represents net realized and unrealized gains and losses. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest is recorded on an accrual basis. Dividends and interest are reinvested as earned.

**2. Summary of
Significant
Accounting
Policies**
Continued

Investment Valuation and Income Recognition - continued

Investments in pooled separate accounts are valued at the net asset values reported by the investment manager of the fund. The fair value of the guaranteed interest account represents the value the Plan would receive if the contracts were terminated, which is carrying value less an early withdrawal charge.

In general, these securities are exposed to various risks, such as interest rate, credit, liquidity, overall market volatility, and changes in economic conditions. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of assets available for benefits.

Notes Receivable from Participants

Notes receivable from participants are recorded at their unpaid principal balance plus any accrued but unpaid interest, and are secured by the participants' account balances. Interest income is recognized over the terms of the notes at the rates specified in the loan documents. Fees related to notes receivable from participants are recorded as administrative expenses when they are incurred. If a participant defaults, the carrying amount of the note receivable from the participant is eliminated and a benefit payment is recorded at the time the participant has a distributable event.

Administrative Expenses

All reasonable expenses of administration may be paid out of the Plan assets unless paid by the Employer. Loan processing fees and fees associated with additional participant services are paid by the accounts of the participants benefiting from the services. During the period January 1, 2015 through May 4, 2015, the Plan paid administrative expenses totaling \$340.

Use of Estimates

The preparation of the Plan's financial statements in conformity with US GAAP requires Plan management to make estimates and assumptions that affect reported amounts and disclosures. The most sensitive estimates affecting the financial statements were the fair values of the pooled separate accounts. Net asset values are used as a practical expedient in determining the fair values of the pooled separate accounts. The net asset values are based upon the quoted redemption value of the underlying assets in the pooled separate accounts on the last day of the Plan year or the reporting date. Accordingly, actual results may differ from those estimates.

4. Plan Investments
Continued

During the period January 1, 2015 through May 4, 2015, the Plan's investments (including gains and losses on investments bought and sold as well as held during the year) appreciated in fair value as follows:

Pooled separate accounts:	
Balanced asset allocation	\$ 87,384
International equity	14,672
Small/mid cap US equity	12,769
Large cap US equity	8,959
Fixed income	711
Guaranteed interest account	<u>750</u>
Net appreciation in fair value of investments	<u>\$ 125,245</u>

The fair values of the Plan's investments in pooled separate accounts managed by AUL have been estimated using the net asset value per unit of the investments. Major categories of pooled separate accounts in which the Plan holds investments are as follows:

Balanced Asset Allocation

These accounts invest in portfolios of AUL with the intent to give the accounts broad exposure to the domestic and foreign equity and fixed-income markets.

Small/Mid Cap US Equity

These accounts invest primarily in equity securities of companies with small or medium market capitalizations, and mutual funds invested in common stocks of such companies. Investments in these accounts may also include stock index futures, commercial paper, over-the-counter derivative instruments such as options and futures, other equity securities, or other convertible securities that may be converted to common stocks, as well as stock index accounts operated by investment managers other than AUL.

Large Cap US Equity

These accounts invest primarily in equity securities of large, established corporations located within the United States, and to a limited extent, similar foreign companies. Investments in these accounts may also include stock index futures, commercial paper, over-the-counter derivative instruments such as options and futures, other equity securities, or other convertible securities that may be converted to common stocks, as well as stock index accounts operated by investment managers other than AUL.

International Equity

These accounts invest in stocks or other securities of corporations located outside of the United States, and mutual funds invested in common stocks of foreign corporations. Investments in these accounts may be made in either United States or foreign currency equivalents.

Fixed Income

These accounts invest in bond and mortgage-type investments, mutual funds invested primarily in foreign and domestic fixed income investments, and real estate such as office buildings, industrial buildings, shopping centers, retail stores and similar properties.

5. Fair Value Measurement

The Plan follows the established three-level fair value hierarchy which prioritizes inputs into valuation methodologies used to measure the fair value of financial instruments. This hierarchy requires the Plan's financial instruments carried at fair value to be classified by level in their entirety based upon the lowest level of input that was significant to the fair value measurement. The three levels of the fair value hierarchy include the following types of inputs:

- Level 1 – Quoted prices for identical financial instruments in active markets.
- Level 2 – Quoted prices for similar financial instruments in active markets and inputs that are observable either directly or indirectly for substantially the full term of the financial instrument.
- Level 3 – Unobservable inputs that are significant to the fair value measurement.

All Plan investments were transferred to the Successor Plan before close of business on May 4, 2015. The following table summarizes the fair values of the Plan's investments and the levels of inputs under which those investments were valued as of December 31, 2014:

Description	Level 1	Level 2	Level 3	Total
Balanced asset allocation separate accounts	\$ -	\$ 1,805,215	\$ -	\$ 1,805,215

6. Guaranteed Interest Accounts

The Plan provides an investment option in which participants may invest in a fully benefit-responsive guaranteed interest account with AUL. AUL maintains the contributions in a general account. The guaranteed interest account is contractually obligated to repay the principal and interest at a specified rate that is guaranteed to the Plan by AUL. The guaranteed interest account does not permit the insurance company to terminate the agreement prior to the scheduled maturity date. For the period ended May 4, 2015, the interest rates paid by the guaranteed interest account ranged from 1.00% to 1.50%. This investment is presented at fair value in the accompanying statements of assets available for benefits, which approximates contract value.

The Plan Administrative Committee's valuation process for the guaranteed interest account consists of reviewing the contract investment returns and current value for reasonableness throughout the year and consulting with an investment advisor.

7. Income Tax Status

The Plan has received an opinion letter, dated March 31, 2008, from the Internal Revenue Service, stating that the Plan is tax exempt under Section 401 of the IRC. The Plan is a non-standardized prototype plan. The Company believes that the Plan was designed and operated in compliance with the applicable requirements of the IRC and the trust established under the Plan was tax-exempt. Accordingly, an income tax provision was not recorded by the Plan.

Management evaluates tax positions taken by the Plan and recognizes a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by tax authorities. Plan management has concluded that as of May 4, 2015, there are no uncertain tax positions that require either recognition or disclosure in the financial statements. The Plan is subject to routine audits by tax authorities for tax years for which the applicable statutes of limitations have not expired. There are currently no audits for any tax periods in progress. Plan management believes the Plan is no longer subject to income tax examinations for years prior to 2012.

8. Party-in-Interest Transactions

Plan investments include pooled separate accounts managed by or associated with AUL. AUL is the trustee of the Plan's investments, and therefore, these transactions are considered to be party-in-interest transactions. Notes receivable from participants are also considered to be party-in-interest transactions.

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
