Note 1: Description of Plan

The following brief description of General Air Service & Supply Co. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan covering substantially all employees of General Air Service & Supply Co. (the Company). Employees are eligible for participation in the Plan on the first day of the month after becoming an employee. Participants must be 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was adopted on November 1, 1994, and restated on March 1, 2015. The Plan is designed to comply with the requirements of Section 401(k) of the Internal Revenue Code of 1986, as amended, (the Code). Under the Code, participants are not liable for federal income taxes on employee contributions, company contributions, or plan earnings until such time as they are partially or completely withdrawn from the Plan. The plan administrator is responsible for oversight of the plan and determining and monitoring investments.

Contributions

Employees are automatically enrolled to defer 2% of eligible compensation unless the employee opts out of deferral or elects a different contribution deferral. Contributions are subject to certain limitations and are invested at the direction of the participant. Participants may also contribute amounts representing distributions from other qualified plans. The Plan currently offers twenty-six mutual funds and one guaranteed interest contract with an insurance company as investment options for participants. Employees are eligible to receive discretionary contributions and qualified non-elective contributions from the employer after working at least 1,000 hours and being an active participant at any time during the plan year.

The Company may make discretionary matching contributions. The Company may also make discretionary contributions and qualified non-elective contributions based on certain formulas as defined in the Plan. The Company did not make any additional profit sharing contributions to the Plan during the year ended October 31, 2015.

Participant Accounts

Each participant's account is adjusted by the following increases and decreases: (a) Plan earnings; (b) payment of benefits; (c) increase (or decrease) in the fair value of applicable investments; (d) Company contributions; (e) participant contributions; and (f) administrative expenses incurred in the operations and maintenance of the Plan and its investments. Allocations to each participant's account are based on participant earnings to total plan earnings as defined in the Plan. The benefit to which a participant is entitled is that which can be provided from the participant's vested account.

Note 1: Description of Plan, continued

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's contributed portion of their accounts, plus actual earnings thereon, is based on years of service. A participant is 20% vested after two years, with a 20% increase each succeeding year until becoming fully vested after the sixth year of service. Participants are 100% vested in the Company's contributions upon death or disability.

Administration of Plan Assets

Contributions are held and managed by the custodian, who invests cash received, allocates interest and dividend income, and makes distributions to participants. Employees of the Company perform certain administrative functions for the Plan. Such employees do not receive compensation from the Plan. Substantially all administrative expenses are paid directly by the Company.

Notes Receivable from Participants

Participants may borrow up to the lesser of $50,000 or 50% of their vested account balance. The minimum loan amount is $1,000. The term for the repayment of the loan may not exceed five years, unless the loan qualifies as a principal residence home loan. The loans are secured by the vested balance in the participant's account and bear interest at a rate based on the rates for similar loans from commercial lending institutions. There can only be two loans granted during any one-year period and only three loans may be outstanding at a time. At October 31, 2015 and 2014, total loans to participants were $117,594 and $180,989, respectively.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of October 31, 2015 or 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

On termination of service due to death, disability, retirement, or withdrawal from the Plan, a participant may elect to receive a lump-sum cash payment, an annuity lump sum payment, periodic payments, or a direct rollover to another qualified retirement plan in an

Note 1: Description of Plan, continued

Payment of Benefits, continued

amount equal to the participant's vested interest in his or her account as described in the Plan document. Benefits are recorded when paid.

Forfeitures

Forfeitures shall be used to first pay plan expenses and then to offset the Company's first contribution made after the forfeiture is determined. Forfeitures for the years ended October 31, 2015 and 2014 were $166 and $3,571, respectively.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting from information supplied by the Company, the plan administrator, and the custodian.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at net asset value based on quoted market values determined at the close of each business day. Shares of mutual funds are valued at quoted market prices, which represent the fair value of shares held by the Plan at year-end. The fair value of guaranteed investment contracts represents the contract value adjusted to reflect current market interest rates only to the extent such market rates exceed crediting rates.

The Plan presents, in the statement of changes in net assets available for benefits, the net appreciation (depreciation) in the fair value of its investments which consists of the realized gains and losses and the unrealized appreciation (depreciation) on those investments.

Note 2: Summary of Significant Accounting Policies, continued

Corrective Distributions

Based on compliance testing performed for actual deferral percentage and actual contribution percentage, corrective distributions were made after the Plan's year end for the participants whose contributions were greater than allowable limits for the year ended October 31, 2015. These corrective distributions are classified as liabilities on the statements of net assets available for benefits for a total of $13,774 and $12,999 as of October 31, 2015 and 2014, respectively.

Note 3: Fair Value of Financial Instruments

The Plan has adopted Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820-10-50, *Fair Value Measurements*, which provides a framework for measuring fair value under generally accepted accounting principles. ASC 820-10-50 defines fair values, establishes a consistent framework for measuring fair value, and expands disclosure requirements for fair value measurements.

Under ASC 820-10-50, assets and liabilities are grouped in three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value. These levels are:

- Level 1 – Valuation is based upon quoted prices for identical instruments traded in active markets.

- Level 2 – Valuation is based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market.

- Level 3 – Valuation is generated from model-based techniques that use significant assumptions not observable in the market. These unobserved assumptions reflect the Company's own estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques include use of option pricing models, discounted cash flow models and similar techniques.

Under ASC 820-10-50, the Plan bases fair values on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements for assets and liabilities where there exists limited or no observable market data and, therefore, are based primarily upon the Plan's estimates, are often calculated based on current pricing policy, the economic and competitive environment, the characteristics of the asset or liability and other such factors. Therefore, the results cannot be determined with precision and may not be

Note 3: Fair Values of Financial Instruments, continued

realized in an actual sale or immediate settlement of the asset or liability. Additionally, there may be inherent weaknesses in any calculation technique, and changes in the underlying assumptions used, including discount rates and estimates of future cash flows, that could significantly affect the results of current or future values.

Fair value measurements for assets and liabilities recorded at fair value on a recurring basis at October 31, 2015 are as follows:

	Fair value	Level 1	Level 2	Level 3
Guaranteed investment contract	$ 40,858	$ -	$ -	$ 40,858
Collective investment trust	2,999,648	-	2,999,648	-
Mutual fund	1,089,224	1,089,224	-	-
Separate accounts	1,748,876	-	1,748,876	-
Total assets	$ 5,878,606	$ 1,089,224	$ 4,748,524	$ 40,858

Fair value measurements for assets and liabilities recorded at fair value on a recurring basis at October 31, 2014 are as follows:

	Fair value	Level 1	Level 2	Level 3
Guaranteed investment contract	$ 5,203	$ -	$ -	$ 5,203
Collective investment trust	695,054	-	695,054	-
Mutual fund	3,841,646	3,841,646	-	-
Separate accounts	1,575,798	-	1,575,798	-
Total assets	$ 6,117,701	$ 3,841,646	$ 2,270,852	$ 5,203

Level 2 securities consist of pooled separate accounts that invest in mutual funds, domestic stocks, collective trust funds, short-term securities such as commercial paper, and fixed securities such as commercial real estate which includes mortgage loans that are backed by the associated properties. Level 3 securities consist of a guaranteed investment contract, which is a group annuity contract established by the custodian. Fair value is the amount plan participants would receive if they were to withdraw or transfer funds within the Plan prior to their maturity unless the withdrawal is due to death, disability, termination or retirement. Fair value represents the contract value adjusted to reflect current market interest rates only to the extent such market rates exceed crediting rates. For Level 3 investments, there are no unfunded commitments.

Note 3: Fair Values of Financial Instruments, continued

The following table reconciles the beginning and ending balances of fair value measurements using the significant unobservable inputs (Level 3) of the investment contract with the insurance company for the years ending October 31, 2015 and 2014:

Russell Life Equity Growth Strategy, 35,858 shares	-	413,448
	$ 3,655,201	$ 3,835,019

During the years ending October 31, 2015 and 2014, the Plan's mutual fund investments and insurance contracts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $51,782 and $315,150, respectively. The Plan presents, in the statement of changes in net assets available for benefits, the net (depreciation) appreciation in the fair value of its investments which consists of the realized gains and losses and the unrealized (depreciation) appreciation on those investments.

Note 5: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

Note 6: Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan is qualified under the applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax council believe the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Currently the tax returns open and subject to examination are the 2011, 2012, and 2013 tax years by the Internal Revenue Service. However, the Plan is not currently under audit nor has the Plan been contacted by this jurisdiction. The plan administrator and sponsor believe the Plan's tax position would be upheld under examination. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 7: Party-In-Interest Transactions

Certain Plan investments are shares of mutual funds and securities managed by Principal Life Insurance Company. Principal Life Insurance Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Many investment options have charges and restrictions that apply when transactions are made, and vary depending in the type. Refer to the plan administrator about specific charges and restrictions.

Note 8: Plan Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

The Plan paid $30,999 in expenses for the year ending October 31, 2015 for administrative expenses.

Note 9: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10: Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of October 31:

The bond coverage is to be determined by the balance of the total plan assets, and is required to be at least equal to the lesser of 10% of the plan's assets at the beginning of the Plan year or $500,000. At October 31, 2015, the Plan's sponsor maintained bond coverage in the amount of $500,000.
