Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Bactolac Pharmaceutical 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits as of June 30, 2015 and 2014, and the related statement of changes in net assets available for benefits for the year ended June 30, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Wells Fargo Bank, N.A., the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the custodian as of June 30, 2015 and 2014, and for the year ended June 30, 2015, that the information provided to the Plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

1 - DESCRIPTION OF PLAN

The following description of the Bactolac Pharmaceutical 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

a. ***General*** - The Plan is a defined contribution plan covering all eligible full-time, permanent, and temporary employees of Bactolac Pharmaceutical Inc. (the "Company"), as defined in the Plan, who are age 21 or older and have completed one full year of service or 1,000 hours of service. Employees covered by a collective bargaining agreement, leased employees, nonresident aliens, and agency employees are ineligible to participate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan, adopted as of July 1, 2007, was amended and restated as of November 1, 2009. Employees were given credit for prior service.

b. ***Contributions*** - Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified plans. Contributions are subject to certain limitations as permitted under the Internal Revenue Code ("IRC"). The Company may make a discretionary match and contribute up to 20% of the first 5% of eligible compensation of the participants' deferral, up to a maximum match of $500 per participant, per year. For the year ended June 30, 2015, the Company contributed $24,347 under this provision. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and common collective trusts as investment options to its participants.

   Discretionary profit-sharing amounts may be contributed at the option of the Company's Board of Directors. These amounts, if any, are allocated to participants in proportion to the participant's compensation and are invested in the same investments as the participant's contributions. There were no discretionary profit-sharing employer contributions for the year ended June 30, 2015.

c. ***Participant Accounts*** - Each participant's account is credited with the participant's contribution, employer contributions, as well as allocations of Plan earnings and expenses. Allocations are based upon participant earnings on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d. ***Vesting*** - Participants are 100% vested in their deferral contributions, rollover contributions, plus earnings thereon. Vesting in the Company's matching contribution portion of their accounts, if any, plus actual earnings thereon, are based on years of service. Participants become vested in such balances at a rate of 20%, commencing with the completion of their second year of service. Participants become fully vested at the completion of five years of credited service or upon meeting the retirement provisions of the Plan.

e. ***Payment of Benefits*** - On termination of service due to death, disability, or retirement, participants will automatically be fully vested in their account balances and may elect to receive either a lump-sum amount, installment payments, or payments at will. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

f. ***Plan Costs*** - The Company has elected to absorb substantially all significant costs relating to the Plan.

Continued

g. ***Forfeitures*** - Forfeitures by participants may be used by the Plan as payment of Plan expenses or to reduce employer contributions to the Plan. Forfeitures are restored to the participant's account if the participant is reemployed before incurring five consecutive one-year breaks, and the full amount of any distribution is repaid before the end of the five-year period that begins upon reemployment. At June 30, 2015 and 2014, forfeited nonvested accounts totaled $4,323 and $4,316, respectively. During the year ended June 30, 2015, there were no forfeitures utilized to reduce employer contributions or plan expenses.

2 - Summary of Significant Accounting Policies

a. ***Basis of Accounting*** - The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis for fully benefit-responsive investment contracts.

b. ***Investment Valuation and Recognition*** - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

c. ***Excess Contributions Payable*** - Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service ("IRS") are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2015 and 2014 excess contributions with earnings thereon to the applicable participants, amounting to $33,705 and $7,501, respectively, prior to September 15, 2015 and 2014, respectively.

d. ***Payments of Benefits*** - Benefits are recorded when paid.

e. ***Use of Estimates*** - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

3 - Investments - Certified by the Custodian (Unaudited)

The Plan invests in common collective trusts and mutual funds that are held by Wells Fargo Bank, N.A. (the "Custodian"). Information related to those investments as of June 30, 2015 and 2014, and for the year ended June 30, 2015, included in this note, the accompanying financial statements, and supplemental schedule of assets held at end of year as of June 30, 2015, is based on information supplied and certified by the Custodian in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

The following table presents the fair value of investments as of June 30, 2015 and 2014:

	June 30,	
	2015	2014
Mutual funds	**$ 338,803**	$ 391,072
Common collective trusts	**610,572**	377,560
	$ 949,375	$ 768,632

The following presents the fair value of investments that represent 5% or more of the Plan's net assets:

	June 30,	
	2015	2014
Common Collective Trusts		
Wells Fargo Stable Return G, at contract value (fair value $591,111 and $358,367, respectively) (See Note 5)	**$ 584,102**	$ 352,723
Mutual Funds		
Goldman Sachs Mid Cap Value Fund	*	105,453
T Rowe Price Retirement 2040 Fund	**100,503**	86,755

* Represents less than 5%.

For the year ended June 30, 2015, the Plan's investments in mutual funds and common collective trusts (including gains and losses on investments bought and sold, as well as held during the period) depreciated in value by $12,082. Dividend income earned by the Plan amounted to $23,253 for the year ended June 30, 2015.

4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Continued

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2015 and 2014.

Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Collective Trusts - Valued at the NAV of units of a bank collective trust. The NAV, as provided by the Custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure the securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of June 30, 2015 and 2014:

Total Assets at Fair Value	$ 338,803	$ 610,572	$ -	**$ 949,375**

The Plan's policy is to recognize transfers into and out of Level 3 as of the date of the event or the change in circumstances that caused the transfer. For the year ended June 30, 2015, there were no transfers into or out of Level 3.

The common collective trusts, which are stable value funds, have an objective to maintain a constant net asset value, while generating income. The net asset value of the funds is determined daily. There are no restrictions on a participant's ability to redeem their investment in the common collective trusts at the net asset value.

5 - Common Collective Trusts

The Plan's investments in common collective trust funds are primarily invested in Wells Fargo Stable Return G (the "Stable Value Fund"). The Stable Value Fund invests in fully benefit-responsive investment contracts with insurance companies and other financial institutions.

The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value and adjusted for the difference between the fair value and contract value as reported to the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There were no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of this investment contract at June 30, 2015 and 2014 was $591,111 and $358,367, respectively. The average yield and crediting rates were approximately 1.40% and 1.64%, respectively, for 2015 and 1.36% and 1.52% respectively, for 2014. The crediting interest rate is based on an agreed-upon formula with the issuer, and cannot be less than zero.

The fair value of investments in common collective trust funds is as follows:

	June 30, 2015	2014
Fair Value of Plan's Investments in the Trusts	**$ 610,572**	$ 377,560
Adjustment from Fair Value to Contract Value	**(9,294)**	(5,644)
Contract Value of Plan's Investments in the Trusts	**$ 601,278**	$ 371,916

6 - Income Tax Status

The IRS has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for the years prior to June 30, 2012.

7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in the value in their accounts.

8 - Related Party Transactions

Certain Plan investments in common collective trusts and mutual funds are managed by the Custodian or its affiliates. Wells Fargo is the Custodian as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $11,291 for the year ended June 30, 2015.

9 - Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
