Notes to Financial Statements

June 30, 2015 and 2014

1. Description of the Plan

The following description of the Home Nursing Agency ERISA 403(b) Plan (the Plan) provides only general information. Participants should refer to the plan document and the summary plan description, which are available from the plan sponsor, for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan sponsored by Home Nursing Agency Affiliates (Sponsor) for the benefit of its employees. The Plan's effective date is January 1, 2010. All nonexcluded employees were immediately eligible to participate in the Plan as a contributing participant upon commencement of employment with the Sponsor. Participants were required to attain age 21 and have one year of service to qualify for Sponsor contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Delaware Charter Guarantee and Trust Company, d/b/a Principal Trust Company (Principal Trust Company), serves as the custodian of the Plan. Principal Trust Company's affiliate, Principal Life Insurance Company, serves as plan record keeper.

The Plan was amended effective December 31, 2013, to freeze all future contributions (including employee and employer contributions).

Contributions

Prior to December 31, 2013, the Plan permitted eligible employees through a salary deferral election to make contributions of up to the maximum allowed by the Internal Revenue Code. Employee rollover and catch-up contributions were also permitted. For participants who had at least one year of service, the Sponsor made matching contributions equal to 25% of participants' deferrals to the Plan, including employee catch-up contributions, up to a maximum of 4% of compensation, as defined in the plan document.

The Sponsor also made employer safe harbor qualified nonelective contributions equal to 3% of compensation on behalf of eligible employees who had at least one year of service.

1. Description of the Plan (continued)

Participant Investment Account Options

The investment of a participant's account is directed by the participant.

Participant Accounts

Each participant's account is credited with plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants were immediately vested in their voluntary and rollover contributions plus earnings thereon. Participants were immediately vested in the Sponsor's qualified nonelective contributions plus earnings thereon. Vesting in the Sponsor's matching contribution portion of their accounts plus earnings thereon is based on years of continuous service. A participant is fully vested after three years of continuous service. The nonvested balance is forfeited upon termination of service. Forfeitures are used to pay plan expenses.

Payment of Benefits

Benefits are paid as a single sum payment.

If a participant ceases to be an employee of the Sponsor and his account balance is less than $1,000, the entire vested account balance will be payable to the participant or his beneficiaries in a single lump-sum payment. Balances greater than $1,000 but less than $5,000 are to be rolled over to an individual retirement account as designated by the Plan, absent an election by the participant. Participant balances in excess of $5,000 can remain in the Plan until such time the participant elects to receive a distribution.

Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the Plan. Hardship withdrawals are strictly regulated by the Internal Revenue Service and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

1. Description of the Plan (continued)

Forfeited Accounts

At June 30, 2015 and 2014, there were no unused forfeited nonvested accounts, and forfeitures used to pay for administrative expenses for the year ended June 30, 2015 were $2,625.

Plan Termination

Although it has not expressed an intention to do so, the Sponsor has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion and disclosures related to fair value measurements.

2. Summary of Significant Accounting Policies (continued)

The Plan invests in a fully benefit-responsive guaranteed investment contract (GIC). This investment contract is recorded at fair value (see Note 4), which for this GIC also approximates contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value of the fully benefit-responsive investment contracts represents contributions plus earnings, less participant withdrawals, and administrative expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

New Accounting Pronouncement

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I of the ASU eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II of the ASU eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III of the ASU is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015. Parts I and II are to be applied retrospectively. Management is currently evaluating the effects that the provisions of Part I and Part II of ASU 2015-12 will have on the Plan's financial statements.

2. Summary of Significant Accounting Policies (continued)

Payment of Benefits

Benefit payments to participants are recorded when paid.

Administrative Expenses

Administrative expenses may be paid by the Sponsor or the Plan, at the Sponsor's discretion.

3. Investments

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at June 30, 2015 and 2014, and net appreciation in fair value of investments in mutual funds, and interest and dividends for the year ended June 30, 2015, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by Principal Trust Company, the custodian of the Plan.

Individual investments that represent 5% or more of the Plan's net assets available for benefits are as follows:

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

- Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

  – Quoted prices for similar assets and liabilities in active markets

  – Quoted prices for identical or similar assets or liabilities in markets that are not active

  – Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)

  – Inputs that are derived principally from or corroborated by observable market data, correlation, or other means

- Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

4. Fair Value Measurements (continued)

Following is a description of the valuation techniques and inputs used for assets measured at fair value.

- Mutual Funds. These funds are stated at fair value as determined by quoted market price, which represents the net asset value (NAV) of shares held by the Plan at year-end.

- Guaranteed Interest Contract (GIC). This is a contract in which the issuer of the GIC takes a deposit from the Plan and purchases investments that are held in the issuer's general accounts. In return, the issuer of the GIC is obligated to repay the principal and specified interest guaranteed to the Plan. The fair value of this fund approximates contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value of the fully benefit-responsive investment contract represents contributions plus earnings, less participant withdrawals and administrative expenses.

The Finance and Investment Committees are responsible for determining the reasonableness of information provided by investment custodian that is used to determine the fair value measurement of the Plan's investments. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data.

The following tables set forth by fair value hierarchy level the Plan's assets carried at fair value:

5. Investment Contract With Insurance Company

The Plan invests in the PFIGO Fund, a fully benefit-responsive guaranteed investment contract (Contract) with Principal Life Insurance Company (PLIC). PLIC maintains the contributions in a general account. The account is credited with participant contributions plus earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with PLIC, but may not be less than 1% or greater than 3%. Such interest rates are reset on a semiannual basis.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (2) premature termination of the Contract by the Plan, and (3) a transfer exceeding certain thresholds as defined in the Contract by the plan sponsor of assets from the PFIGO fund to another plan investment option. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The GIC has a 5% surrender fee should the Plan discontinue the Contract without proper notification as prescribed in the Contract.

The GIC does not permit the insurance company to terminate the Contract without at least a 60-day advanced notice of when no future contributions will be accepted into this Contract. The Contract will be terminated when the remaining balance in the Contract is paid out to participants.

	Average Yields	
	Based on Actual Earnings	**Based on Interest Rate Credited to Participants**
July 1, 2013 – November 30, 2013	2.00%	2.00%
December 1, 2013 – May 31, 2014	2.00%	2.00%
June 1, 2014 – November 30, 2014	2.00%	2.00%
December 1, 2014 – May 31, 2015	2.00%	2.00%
June 1, 2015 – June 30, 2015	1.90%	1.90%

6. Related-Party Transactions

Certain plan investments are funds managed by affiliates of Principal Trust Company, the custodian of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

The Sponsor provides certain administrative services at no cost to the Plan. The Sponsor pays certain administrative fees relating to the Plan.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. Tax Status

The underlying prototype plan has not received an opinion letter from the Internal Revenue Service (IRS), stating that the underlying prototype plan is qualified under Section 403(b) of the Internal Revenue Code (the Code). However, the plan administrator believes that the Plan has been designed to comply with and is operating in accordance with the applicable requirements of Section 403(b) of the Code and therefore, believes the Plan is qualified and the related custodial accounts and tax-deferred annuities are tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2015, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2012.

9. Subsequent Events

Management evaluated subsequent events for the Plan through April 5, 2016, the date the financial statements were available to be issued.
