Note 1 - Description of Plan

The following description of the Dallas Basketball Limited 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of Plan provisions. The Plan document is controlling at all times.

General

The Plan was established effective August 1, 1994, as a defined contribution plan for Dallas Basketball Limited d.b.a. Dallas Mavericks. The Plan was amended and restated effective October 1, 2012, to include Radical Ventures, LLC, a related entity of the Dallas Mavericks, and its employees. The combined entities are hereinafter referred to as the Company or Employer. The Plan is designed to comply with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), and the Internal Revenue Code (IRC). In addition, the financial statements have been prepared in compliance with accounting principles generally accepted in the United States of America (US GAAP) and with ERISA. Fidelity Management Trust Company (the Trustee) is the Plan's trustee and is responsible for asset custody and executing investment transactions at the direction of Plan participants. A related entity to the Trustee, Fidelity Workplace Services LLC, is the Plan's record keeper responsible for maintaining participant accounts.

Eligibility

The Plan covers all eligible employees of the Company. Employees who have performed three months of service are eligible to participate in the Plan. Employees may enroll in the Plan on the first day of the month following the date the employee meets the eligibility requirements. The Plan was amended on February 3, 2014 to exclude part-time employees who have not completed at least 1,000 hours of service, as defined.

Contributions

Participants may contribute up to 60% of their annual compensation as defined in the Plan, but are limited to the maximum dollar amount allowable under the IRC. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions up to IRC limits. In addition, a participant, with the Plan administrator's written consent, may contribute a rollover contribution from another qualified plan.

The Company may make discretionary matching and/or discretionary profit sharing contributions. In fiscal years 2015 and 2014, the Company matched 50% of the first 6% of participants' deferred compensation. No discretionary profit sharing contributions were made by the Company in fiscal 2015 or 2014.

Participant accounts

Each participant's account is credited with the participant's contributions, rollovers and Company contributions. Additionally participant accounts are allocated investment income or losses and certain administrative expenses, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 - Description of Plan - (Continued)

Vesting

Participants vest immediately in their contributions, but are subject to a five-year vesting schedule for Company matching contributions and discretionary profit sharing contributions. Vesting takes into account all completed years of service from a participant's date of hire. Company matching contributions and discretionary profit sharing contributions vest as follows:

Completed Years of Service:	Vested Percentage
Less than 2	0%
2	25%
3	50%
4	75%
5 or more	100%

Payment of benefits

Benefits to participants are generally paid upon normal retirement, death, full and permanent disability, or termination of employment. Upon normal retirement, death, or full and permanent disability, a participant, or their beneficiary, is entitled to receive 100% of his or her account balance. Upon termination of employment for other reasons, a participant is entitled to receive the vested portion of his or her account balance. Benefits payable under the Plan are paid either in the form of a lump sum cash payment or in the form of periodic installment cash payments. In addition, the Plan permits in service withdrawals from a participant's vested account due to a substantial hardship, as defined, (subject to certain penalties as defined in the Plan document) or upon attaining the age 59½.

Forfeitures

Forfeitures of terminated participants' non-vested account balances may be used to reduce Company contributions or to pay Plan expenses. Forfeitures used to reduce Company contributions amounted to $10,228 in 2015 and $0 in 2014. Unallocated forfeitures totaled $5,199 at June 30, 2015 and $7,925 at June 30, 2014.

Investment options

All Plan investments are participant directed. Participants are allowed to invest their account balances in various investment funds made available by the Trustee. Participant and Company contributions are allocated at the same percentage among those investment funds. The investment options consist of various mutual funds and participants may change their investment options at any time.

Note 1 - Description of Plan - (Continued)

Administrative expenses

Fees and expenses charged under participant accounts will impact retirement savings, and fall into three basic categories. *Investment fees* are generally assessed as a percentage of assets invested, and are deducted directly from investment fund balances. They can be in the form of sales charges, loads, commissions, or management fees. *Plan administration and record keeping* fees cover the routine expenses for the services of lawyers, accountants, third party administrators, and other advisors. The Plan requires that certain expenses related to the Plan be paid directly by the Employer, but permits certain expenses incurred to administer the Plan to be paid from Plan assets. *Transaction-based fees* are associated with optional services offered under the Plan, and are charged directly to participant accounts for particular Plan features that may be available, such as a participant note or the maintenance of a terminated participants account.

Notes receivable from participants

Participants may borrow a portion of their vested account balance subject to procedures and regulation limitations adopted under the Plan and required by the IRC. The minimum note amount is $1,000. The maximum note amount equals the lesser of (a) $50,000, reduced by the highest outstanding note balance within the twelve months prior to the note application or (b) one-half the participant's vested account balance. Note terms range from one to five years or up to ten years if for the purchase of a primary residence. The notes are secured by the participant's account balance and bear a reasonable interest rate determined by the plan administrator. Principal and interest are paid ratably through semi-monthly payroll deductions. Notes receivable from participants are recorded at their amortized cost which is unpaid principal plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the plan document.

Note 2 - Summary of Significant Accounting Policies

New accounting policies

The Plan has early adopted Accounting Standards Update (ASU) 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965)*, a three part ASU. Only Part II, *Plan Investment Disclosures,* applied to the Plan and changes the nature in which the Plan aggregates investments under ASC 820, *Fair Value Measurement* (Note 3) from asset class to general investment type, and by eliminating the requirement that the Plan report individual investments that exceed 5% of net assets as of the end of the year. The Plan has retrospectively applied these changes in accordance with the requirements of the ASU.

Basis of accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with US GAAP and present the net assets available for benefits and changes in those net assets.

Use of estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies - (Continued)

Investment valuation and income recognition
The Plan's investments are stated at fair value as determined by quoted market prices which represent the net asset value of shares held by the Plan at year-end. Investment transactions are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Capital gains that are reinvested are included with interest and dividends. Net appreciation in fair value of investments includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Receivables and payables
Receivables for employee contributions and loan repayments, if any, are recorded based on the date the contributions or repayments have been separated from a participant's pay which is the pay date. Accruals for Plan expenses not related to benefit payments are recorded when due.

Payment of benefits
Benefits paid to participants are recorded as a reduction of net assets available for benefits when paid.

Risks and uncertainties
The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect participants' account balances.

Note 3 - Fair Value Measurements

Fair value measurements
Accounting standards require that fair value be determined based on the price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market, in an orderly transaction between market participants. Such fair value is a market-based measurement, not an entity-specific measurement. US GAAP establishes a three-level valuation hierarchy based upon observable and unobservable inputs. The hierarchy gives the highest priority to level 1 measurements and the lowest priority to level 3 measurements. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Plan management's market assumptions.

The fair value hierarchy consists of three levels of inputs that may be used to measure fair value as follows:

Level 1: Quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Note 3 - Fair Value Measurements - (Continued)

In instances where the determination of fair value measurement is based on inputs from the different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

The methods used to value investments may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables present the Plan's fair value hierarchy by general type for those assets measured at fair value at June 30, 2015 and 2014:

		Fair Value Measurements at June 30, 2015		
Investment Type	**Total**	**Level 1**	**Level 2**	**Level 3**

Note 4 - Information Prepared and Certified by the Trustee (Unaudited)

The plan administrator has elected the method of annual reporting permitted by Regulation 2520.103-8 of ERISA. Accordingly, as permitted under such election, the plan administrator has instructed the Plan's independent auditors not to perform any auditing procedures with respect to the Plan's investment information, and related activity, certified by the Trustee, except for comparing such information to the related information included in the Plan's financial statements and supplemental schedule of assets (held at end of year).

The following is a summary of financial information certified by the Trustee as accurate and complete as of June 30, 2015 and 2014, and for the year ended June 30, 2015.

Assets	2015	2014
Mutual funds, at fair value	$ 16,789,239	$ 14,892,386
Total investments	**16,789,239**	**14,892,386**
Participant notes receivable	81,691	139,755
Total assets certified by the Trustee	**$ 16,870,930**	**$ 15,032,141**

Changes in Assets	Year ended June 30, 2015
Net appreciation in fair value of mutual funds	$ 7,701
Interest income on notes receivable from participants	4,981
Interest and dividends	765,926

Note 5 - Plan Termination

Although management has not expressed any intent to do so, the Employer has the right to terminate the Plan in compliance with the provisions of ERISA and the IRC. In the event the Plan is terminated, participants become 100 percent vested in their accounts.

Note 6 - Income Tax Status

The Plan is based on a prototype document sponsored by the Trustee. The Trustee obtained its latest opinion letter on March 31, 2008, in which the Internal Revenue Service stated that the prototype Plan, as then defined, was in compliance with the applicable requirements of the IRC and is suitable for use by plan sponsors for their plans. The Plan administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting standards require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that, more likely than not, would not be sustained upon examination by the IRS. The Plan Sponsor does not believe there to be any uncertain tax positions taken by the Plan as of June 30, 2015 or 2014. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Note 7 - Party-In-Interest Transactions

Parties-in-interest are defined by ERISA as any fiduciary of the Plan, any party rendering services to the Plan, the Employer, and certain others. As such, transactions conducted by the Trustee and its affiliates qualify as party-in-interest transactions. Also, the Plan Sponsor pays certain fees and expenses on behalf of the Plan. These transactions qualify as party-in-interest transactions.

Certain fund level fees incurred by the funds in which the Plan invests for such services as investment management and record-keeping are paid through fund level revenue sharing agreements. These fees reduce the fund earnings thereby impacting the Plan revenue applied to participants' accounts.

The Trustee retains as compensation for services provided to the Plan any interest on amounts earned while certain transactions are pending (float). This applies to both contributions and distributions. Earnings are at institutional money market rates.

Note 8 - Subsequent Events

The Plan Administrator has evaluated subsequent events through February 17, 2016, the date the financial statements were available to be issued.

Note 1 - Description of Plan

The following description of the Dallas Basketball Limited 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of Plan provisions. The Plan document is controlling at all times.

General

The Plan was established effective August 1, 1994, as a defined contribution plan for Dallas Basketball Limited d.b.a. Dallas Mavericks. The Plan was amended and restated effective October 1, 2012, to include Radical Ventures, LLC, a related entity of the Dallas Mavericks, and its employees. The combined entities are hereinafter referred to as the Company or Employer. The Plan is designed to comply with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), and the Internal Revenue Code (IRC). In addition, the financial statements have been prepared in compliance with accounting principles generally accepted in the United States of America (US GAAP) and with ERISA. Fidelity Management Trust Company (the Trustee) is the Plan's trustee and is responsible for asset custody and executing investment transactions at the direction of Plan participants. A related entity to the Trustee, Fidelity Workplace Services LLC, is the Plan's record keeper responsible for maintaining participant accounts.

Eligibility

The Plan covers all eligible employees of the Company. Employees who have performed three months of service are eligible to participate in the Plan. Employees may enroll in the Plan on the first day of the month following the date the employee meets the eligibility requirements. The Plan was amended on February 3, 2014 to exclude part-time employees who have not completed at least 1,000 hours of service, as defined.

Contributions

Participants may contribute up to 60% of their annual compensation as defined in the Plan, but are limited to the maximum dollar amount allowable under the IRC. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions up to IRC limits. In addition, a participant, with the Plan administrator's written consent, may contribute a rollover contribution from another qualified plan.

The Company may make discretionary matching and/or discretionary profit sharing contributions. In fiscal years 2015 and 2014, the Company matched 50% of the first 6% of participants' deferred compensation. No discretionary profit sharing contributions were made by the Company in fiscal 2015 or 2014.

Participant accounts

Each participant's account is credited with the participant's contributions, rollovers and Company contributions. Additionally participant accounts are allocated investment income or losses and certain administrative expenses, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 - Description of Plan - (Continued)

Vesting

Participants vest immediately in their contributions, but are subject to a five-year vesting schedule for Company matching contributions and discretionary profit sharing contributions. Vesting takes into account all completed years of service from a participant's date of hire. Company matching contributions and discretionary profit sharing contributions vest as follows:

Completed Years of Service:	Vested Percentage
Less than 2	0%
2	25%
3	50%
4	75%
5 or more	100%

Payment of benefits

Benefits to participants are generally paid upon normal retirement, death, full and permanent disability, or termination of employment. Upon normal retirement, death, or full and permanent disability, a participant, or their beneficiary, is entitled to receive 100% of his or her account balance. Upon termination of employment for other reasons, a participant is entitled to receive the vested portion of his or her account balance. Benefits payable under the Plan are paid either in the form of a lump sum cash payment or in the form of periodic installment cash payments. In addition, the Plan permits in service withdrawals from a participant's vested account due to a substantial hardship, as defined, (subject to certain penalties as defined in the Plan document) or upon attaining the age 59½.

Forfeitures

Forfeitures of terminated participants' non-vested account balances may be used to reduce Company contributions or to pay Plan expenses. Forfeitures used to reduce Company contributions amounted to $10,228 in 2015 and $0 in 2014. Unallocated forfeitures totaled $5,199 at June 30, 2015 and $7,925 at June 30, 2014.

Investment options

All Plan investments are participant directed. Participants are allowed to invest their account balances in various investment funds made available by the Trustee. Participant and Company contributions are allocated at the same percentage among those investment funds. The investment options consist of various mutual funds and participants may change their investment options at any time.

Note 1 - Description of Plan - (Continued)

Administrative expenses

Fees and expenses charged under participant accounts will impact retirement savings, and fall into three basic categories. *Investment fees* are generally assessed as a percentage of assets invested, and are deducted directly from investment fund balances. They can be in the form of sales charges, loads, commissions, or management fees. *Plan administration and record keeping* fees cover the routine expenses for the services of lawyers, accountants, third party administrators, and other advisors. The Plan requires that certain expenses related to the Plan be paid directly by the Employer, but permits certain expenses incurred to administer the Plan to be paid from Plan assets. *Transaction-based fees* are associated with optional services offered under the Plan, and are charged directly to participant accounts for particular Plan features that may be available, such as a participant note or the maintenance of a terminated participants account.

Notes receivable from participants

Participants may borrow a portion of their vested account balance subject to procedures and regulation limitations adopted under the Plan and required by the IRC. The minimum note amount is $1,000. The maximum note amount equals the lesser of (a) $50,000, reduced by the highest outstanding note balance within the twelve months prior to the note application or (b) one-half the participant's vested account balance. Note terms range from one to five years or up to ten years if for the purchase of a primary residence. The notes are secured by the participant's account balance and bear a reasonable interest rate determined by the plan administrator. Principal and interest are paid ratably through semi-monthly payroll deductions. Notes receivable from participants are recorded at their amortized cost which is unpaid principal plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the plan document.

Note 2 - Summary of Significant Accounting Policies

New accounting policies

The Plan has early adopted Accounting Standards Update (ASU) 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965)*, a three part ASU. Only Part II, *Plan Investment Disclosures,* applied to the Plan and changes the nature in which the Plan aggregates investments under ASC 820, *Fair Value Measurement* (Note 3) from asset class to general investment type, and by eliminating the requirement that the Plan report individual investments that exceed 5% of net assets as of the end of the year. The Plan has retrospectively applied these changes in accordance with the requirements of the ASU.

Basis of accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with US GAAP and present the net assets available for benefits and changes in those net assets.

Use of estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies - (Continued)

Investment valuation and income recognition
The Plan's investments are stated at fair value as determined by quoted market prices which represent the net asset value of shares held by the Plan at year-end. Investment transactions are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Capital gains that are reinvested are included with interest and dividends. Net appreciation in fair value of investments includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Receivables and payables
Receivables for employee contributions and loan repayments, if any, are recorded based on the date the contributions or repayments have been separated from a participant's pay which is the pay date. Accruals for Plan expenses not related to benefit payments are recorded when due.

Payment of benefits
Benefits paid to participants are recorded as a reduction of net assets available for benefits when paid.

Risks and uncertainties
The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect participants' account balances.

Note 3 - Fair Value Measurements

Fair value measurements
Accounting standards require that fair value be determined based on the price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market, in an orderly transaction between market participants. Such fair value is a market-based measurement, not an entity-specific measurement. US GAAP establishes a three-level valuation hierarchy based upon observable and unobservable inputs. The hierarchy gives the highest priority to level 1 measurements and the lowest priority to level 3 measurements. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Plan management's market assumptions.

The fair value hierarchy consists of three levels of inputs that may be used to measure fair value as follows:

Level 1: Quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Note 3 - Fair Value Measurements - (Continued)

In instances where the determination of fair value measurement is based on inputs from the different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

The methods used to value investments may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables present the Plan's fair value hierarchy by general type for those assets measured at fair value at June 30, 2015 and 2014:

		Fair Value Measurements at June 30, 2015		
Investment Type	**Total**	**Level 1**	**Level 2**	**Level 3**

Note 4 - Information Prepared and Certified by the Trustee (Unaudited)

The plan administrator has elected the method of annual reporting permitted by Regulation 2520.103-8 of ERISA. Accordingly, as permitted under such election, the plan administrator has instructed the Plan's independent auditors not to perform any auditing procedures with respect to the Plan's investment information, and related activity, certified by the Trustee, except for comparing such information to the related information included in the Plan's financial statements and supplemental schedule of assets (held at end of year).

The following is a summary of financial information certified by the Trustee as accurate and complete as of June 30, 2015 and 2014, and for the year ended June 30, 2015.

Assets	2015	2014
Mutual funds, at fair value	$ 16,789,239	$ 14,892,386
Total investments	**16,789,239**	**14,892,386**
Participant notes receivable	81,691	139,755
Total assets certified by the Trustee	**$ 16,870,930**	**$ 15,032,141**

Changes in Assets	Year ended June 30, 2015
Net appreciation in fair value of mutual funds	$ 7,701
Interest income on notes receivable from participants	4,981
Interest and dividends	765,926

Note 5 - Plan Termination

Although management has not expressed any intent to do so, the Employer has the right to terminate the Plan in compliance with the provisions of ERISA and the IRC. In the event the Plan is terminated, participants become 100 percent vested in their accounts.

Note 6 - Income Tax Status

The Plan is based on a prototype document sponsored by the Trustee. The Trustee obtained its latest opinion letter on March 31, 2008, in which the Internal Revenue Service stated that the prototype Plan, as then defined, was in compliance with the applicable requirements of the IRC and is suitable for use by plan sponsors for their plans. The Plan administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting standards require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that, more likely than not, would not be sustained upon examination by the IRS. The Plan Sponsor does not believe there to be any uncertain tax positions taken by the Plan as of June 30, 2015 or 2014. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Note 7 - Party-In-Interest Transactions

Parties-in-interest are defined by ERISA as any fiduciary of the Plan, any party rendering services to the Plan, the Employer, and certain others. As such, transactions conducted by the Trustee and its affiliates qualify as party-in-interest transactions. Also, the Plan Sponsor pays certain fees and expenses on behalf of the Plan. These transactions qualify as party-in-interest transactions.

Certain fund level fees incurred by the funds in which the Plan invests for such services as investment management and record-keeping are paid through fund level revenue sharing agreements. These fees reduce the fund earnings thereby impacting the Plan revenue applied to participants' accounts.

The Trustee retains as compensation for services provided to the Plan any interest on amounts earned while certain transactions are pending (float). This applies to both contributions and distributions. Earnings are at institutional money market rates.

Note 8 - Subsequent Events

The Plan Administrator has evaluated subsequent events through February 17, 2016, the date the financial statements were available to be issued.
