403(B) THRIFT PLAN OF YAKIMA NEIGHBORHOOD HEALTH SERVICES
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2015 AND 2014

NOTE 1 DESCRIPTION OF PLAN

The following description of the 403(b) Thrift Plan of Yakima Neighborhood Health Services (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Yakima Neighborhood Health Services, Inc. (the Organization) effective February 12, 1999. The Plan has been amended throughout the years to comply with tax legislation and most recently amended effective January 1, 2011. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA).

Insurance company

Effective January 1, 2011, the Organization changed asset insurance company from Mutual of America Life Insurance Company (Mutual of America) to Massachusetts Mutual Life Insurance Company (MassMutual). In accordance with ERISA regulations, participants were offered the choice to maintain their account balance with Mutual of America or transfer it to MassMutual. As a result of this change, contributions were no longer remitted to Mutual of America accounts. If a participant elected to keep the account with Mutual of America and was actively participating in the Plan, a new account was created with MassMutual to accept the contributions. Therefore, participants may have accounts with both Mutual of America and MassMutual.

Eligibility

For employee deferrals, an employee becomes eligible to participate at the date of hire. Participation shall begin the month after the date of hire.

For employer matching contributions, an employee becomes eligible after one year of service plus completion of 1,000 hours and attainment of age 21.

Contributions

The Plan provides for contributions to be made for electing employees under a salary reduction agreement. Participants who have attained age 50 before the end of the Plan year and participants with 15 years of service are eligible to make catch-up contributions. Participants direct the investment of their contributions into various investments offered by the Plan. Participant contributions may be made up to the maximum federal dollar limit of pretax annual compensation, as allowed by the Internal Revenue Service.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Contributions (Continued)

The Plan allows for the Organization to make matching contributions based on an employee's years of service. A participant must be at least 21 years of age and have completed at least one year of service to be eligible to participate in employer matching contributions. For eligible participants with less than four years of service the Organization will match 50 percent of the employees' deferral up to 6 percent of total compensation. For eligible participants with five to nine years of service the Organization will match 50 percent of the deferral up to 10 percent of compensation. For eligible participants with 10 to 14 years of service the Organization will match 75 percent of the deferral up to 10 percent of compensation. For all eligible participants with 15 years or more of service, the Organization will match 100 percent of the deferral up to 10 percent of compensation. For the years ended June 30, 2015 and 2014, the Organization's contributions to the Plan were \$245,151 and \$211,152, respectively.

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution Plans or conduit IRA's. Participants direct the investment of contributions into various investment options offered by the Plan. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Organization's matching contribution, and an allocation of Plan earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account.

Vesting

Participants are immediately vested in their elective deferral and rollover contributions, plus earnings thereon. Vesting in employer contributions is based on years of continuous service. A participant is 20 percent vested after two years of credited service, 40 percent vested after three years of credited service, 60 percent vested after four years of credited service, 80 percent vested after five years of credited service, and 100 percent after six years of credited service. Notwithstanding the above, a participant is fully vested upon reaching normal retirement age, death, or permanent disability.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Benefit Payments

Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, monthly income or annual payments for a fixed period of time, or a specific dollar amount each year. If a participant terminates employment and the participant's account balance does not exceed \$1,000, the Plan administrator will authorize the benefit payment without the participant's consent. If the balance of the terminated participant's account is between \$1,000 and \$5,000, the Plan Sponsor may authorize that the benefit payment be rolled into an individual retirement account in the participant's name.

Forfeited Accounts

Forfeited nonvested accounts are used to reduce future Organization contributions. Forfeited nonvested accounts as of June 30, 2015 and 2014 totaled \$4,916 and \$3,166, respectively. There were \$3,612 and \$6,417 of forfeitures used to reduce Organization contributions for the years ended June 30, 2015 and 2014, respectively.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts which approximates contract value. The statements of changes in net assets available for benefits are prepared on a contract-value basis.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

JUNE 30, 2015 AND 2014**

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investment presented in the accompanying statement of changes in net assets available for benefits.

Benefit Payments

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred.

Subsequent Events

The Plan has evaluated subsequent events through March 29, 2016, the date the financial statements were available to be issued.

NOTE 3 CERTIFICATION OF INVESTMENT INFORMATION

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at June 30, 2015 and 2014, and net appreciation in fair value of the investments, interest and dividends for the years ended June 30, 2015 and 2014, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Mutual of America, the insurance company of the Plan. The contract value of the group annuity contract (Note 6) was certified by the insurance company.

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at June 30, 2015 and 2014, and net appreciation in fair value of the investments, interest and dividends for the years ended June 30, 2015 and 2014, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by State Street Bank and Trust Company, the trustee of the Plan. The contract value of the guaranteed investment contract was certified by the trustee.

NOTES TO FINANCIAL STATEMENTS

NOTE 4 FAIR VALUE OF INVESTMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at June 30, 2015 and 2014.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

General Accounts: The insurance company general accounts are valued at fair value which approximates contract value. Contract value represents contributions made under the contract, plus interest at the contract rate, less withdrawals and less funds used to pay administration expenses.

Pooled Separate Accounts: Investments in the pooled separate accounts are valued using the net asset value of units, which are based on observable market prices for the underlying assets, held by the Plan at year-end.

NOTE 4 FAIR VALUE OF INVESTMENTS (CONTINUED)

The following tables set forth additional disclosures for the fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent) as of June 30:

Investment Type	2015			
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled Separate Accounts:				
Equity Funds	\$ 108,107	\$ -	Daily	Daily
Balanced Funds	1,702	-	Daily	Daily
Fixed Income Funds	1,639	-	Daily	Daily

Investment Type	2014			
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled Separate Accounts:				
Equity Funds	\$ 108,268	\$ -	Daily	Daily
Balanced Funds	1,660	-	Daily	Daily
Fixed Income Funds	1,622	-	Daily	Daily

The equity funds seek capital appreciation. The funds seek to meet this objective by investing in growth stock of small-cap companies that are believed to possess above-average growth potential. Under normal market conditions, at least 80 percent of the funds' total assets are invested in small-cap growth stock.

The balanced funds seek to achieve capital appreciation and current income by investing in a diversified portfolio of publicly-traded common stocks, debt securities, and money market instruments. The funds seek to achieve long-term growth of its capital and increasing income by investments in common stock and other equity-type securities, and a high level of current income through investments in publicly-traded debt securities and money market instruments.

The fixed income funds seek to provide a high level of current income over time and are believed to be consistent with prudent investment risk. A secondary objective is preservation of capital.

During 2015 and 2014, the Plan's investments (including gains and losses on investments bought and sold as well as held during the year) appreciated in the following manner:

	2015	2014
Mutual Fund	\$ 116,422	\$ 424,516

NOTE 6 GROUP ANNUITY CONTRACT WITH MUTUAL OF AMERICA

In September 1992, the Plan entered into a fully benefit-responsive investment contract with Mutual of America. Mutual of America maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits (under the "General Accounts" line item) at fair value which approximates contract value. Contract value, as reported to the Plan by trustee, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at June 30, 2015 and 2014 was \$626,808 and \$625,642, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3 percent. Such interest rates are reviewed on a quarterly basis for resetting. The average yield and crediting yield was approximately 3 percent for the years ended June 30, 2015 and 2014.

NOTE 6 GROUP ANNUITY CONTRACT WITH MUTUAL OF AMERICA (CONTINUED)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption under ERISA. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

NOTE 7 GROUP ANNUITY CONTRACT WITH MASSMUTUAL

In January 2011, the Plan entered into a fully benefit-responsive investment contract with MassMutual. MassMutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value which approximates contract value. Contract value, as reported to the Plan by trustee, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at June 30, 2015 and 2014 was \$675,546 and \$594,110, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1 percent. Such interest rates are reviewed on a quarterly basis for resetting. The average yield and crediting yield was approximately 1.03 percent for the years ended June 30, 2015 and 2014.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption under ERISA. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2015 AND 2014

NOTE 8 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 9 PLAN TERMINATION

Although it has not expressed any intent to do so, the Organization has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants would become 100 percent vested in their Organization contributions.

NOTE 10 PLAN TAX STATUS

The 403(b) Thrift Plan of Yakima Neighborhood Health Services is a prototype 403(b) Plan.

The Plan was restated as of January 1, 2009. The Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

NOTE 11 PARTY-IN-INTEREST TRANSACTIONS

The Plan investments are managed by Mutual of America and MassMutual. Mutual of America is the insurance company and State Street Bank and Trust Company is the trustee as defined by the Plan and, therefore, the investment transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made a direct payment to the third party administrator of \$8,857 and \$6,998 which was not covered by revenue sharing for the years ended June 30, 2015 and 2014, respectively. The Plan sponsor pays directly any other fees related to the Plan's operations.
