IRVINE SCIENTIFIC SALES COMPANY, INC. 401(K) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
June 30, 2015

Note 1 - Description of the Plan

The following description of the Irvine Scientific Sales Company, Inc. 401(k) Savings Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

- A. General - The Plan is a defined contribution plan with a 401(k) arrangement covering substantially all employees of Irvine Scientific Sales Company, Inc., (the Company or the employer) who have attained the age of 21 years, are nonunion employees and are either U.S. residents or resident aliens of the United States. Eligible participants may enter the Plan on the first day of each month following their hire date. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).
- B. Participants Accounts - Each participant's account is credited with the participant's contributions, Plan earnings and, if any, allocations of (1) discretionary matching and (2) discretionary profit sharing contributions. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.
- C. Vesting - Participants are immediately vested in their pretax wage deferrals, plus actual earnings thereon. Participants do not vest in employer discretionary contributions until they have completed two years of service, at which time they become 25% vested. An employee becomes 50% vested after three years, 75% vested after four years and fully vested after five years.
- D. Participant Loans - Participants may borrow from their fund accounts up to \$50,000 but not in excess of 50% of their vested account balance. Loans are repaid through payroll deductions using an interest rate of prime plus 2%. Loan terms are typically 5 years unless used for the purchase of a primary residence in which case the loan term may be extended.
- E. Payment of Benefits - Upon termination of service, a participant with a vested account balance of \$1,000 or less will receive their vested benefits through a single lump-sum payment or may elect a rollover into another qualified plan. Participants with accounts balances greater than \$1,000 and less than \$5,000 will receive their vested balances in a direct rollover to an individual retirement account unless the participant elects to receive a single lump-sum payment, periodic installment payments or a rollover into another qualified plan. Participants with vested account balances greater than \$5,000 excluding rollovers may receive their vested benefits in a direct rollover to an individual retirement account or through a single lump-sum payment or periodic installments. Upon termination of service due to disability a participant may receive benefits through a single lump-sum payment or periodic installments. If a participant's service is terminated due to death, the participant's beneficiary may receive the value of the participants account through a single lump-sum payment or periodic installments.
- F. Forfeited Accounts – Forfeitures of terminated participants' non-vested accounts arising from employer matching contributions are used to reduce future discretionary matching contributions. As of June 30, 2015 there was \$8,134 of unallocated forfeitures from matching contributions.

Forfeitures of profit sharing contributions are reallocated to participants based on employee eligible compensation. In order to share in the allocation of profit sharing forfeitures, an employee must be eligible to participate in the Plan and be employed on the last day of the Plan year. As of June 30, 2015, there were no unallocated forfeitures from profit sharing contributions.

IRVINE SCIENTIFIC SALES COMPANY, INC. 401(K) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
June 30, 2015

Note 1 - Description of the Plan (continued)

- G. Participant Investment options – Upon enrollment in the Plan, participants must direct their pretax wage deferrals and any allocations of employer contributions to be invested in various investment options as more fully described in the Plan's literature. Participants may change their mix of investment options at any time throughout the year via telephone or internet access to the plans asset custodian.

Note 2 - Summary of Significant Accounting Policies

- A. Basis of Accounting - The financial statements of the Plan are prepared under the accrual method of accounting.
- B. Estimates - The preparation of the Plan financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting periods. Accordingly, actual results could differ from those estimates.
- C. Investment Valuation and Income Recognition - The Plan's investments were held by the Plan's investment manager and asset custodian John Hancock Life Insurance Company (U.S.A) (John Hancock). Investments in pooled separate accounts are reported at the value reported to the Plan by John Hancock, which is based on quoted market prices less fees charged by John Hancock.
- Purchases and sales of securities are recorded on a trade-date basis. Interest income is reported on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.
- D. Notes Receivable from Participants – Loans to Participants are stated at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of June 30, 2015 and 2014.
- E. Payment of Benefits - Benefits are recorded when paid.
- F. Subsequent Events – The Plan has evaluated subsequent events through April 6, 2016, the date the financial statements were available to be issued.

Note 3 – Funding Policy

The employer may make discretionary matching contributions to participants' accounts. The employer currently matches 50% of the first 6% of an employee's eligible compensation (after one year of service). Participants may contribute up to 50% of their eligible compensation for the year, which may be proportionately matched by the Company. The Company's discretionary matching contributions for 2015 were \$190,858.

In addition, each year the Company may contribute to the Plan an amount, if any, which the Company's Board of Directors determines at its discretion (profit sharing). The Company did not make any profit sharing contributions for the year ended June 30, 2015.

Note 4 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 5 – Information Certified by John Hancock Life Insurance Company (U.S.A)

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent accountants not to perform any auditing procedures with respect to the following information certified by John Hancock Life Insurance Company (U.S.A.) (John Hancock), except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedule.

The following table presents the fair value of the participant-directed investments in this Plan that was certified by John Hancock. Single investments representing more than 5% of the Plan's net assets are separately identified.

	<u>2015</u>	<u>2014</u>
Fair Value as determined by John Hancock:

Participant loans	<u>176,562</u>	<u>225,597</u>
	<u>\$ 9,009,128</u>	<u>\$ 8,135,699</u>

John Hancock certified the completeness and accuracy of \$258,560 of net appreciation in fair value of investments and \$10,417 of interest related to the aforementioned investments for the year ended June 30, 2015.

Note 6 – Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan for such functions. Certain administrative expenses for the Plan are paid directly by the Company or from Plan income.

Note 7 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investments securities will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 8 - Tax Status

The Internal Revenue Service has determined and informed the Company, by a letter dated October 27, 2009 that the Plan and related trust as amended through February 20, 2009, are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letters, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 9 – Related-Party Transactions and Party in Interest Transactions

The Plan has investments in participation units held in pooled separate accounts through sub-accounts of John Hancock. John Hancock provides services to the Plan as the custodian and record keeper; therefore, these investments and transactions qualify as party-in-interest transactions.

Note 10 – Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Fair Value Measurements

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Fair Value Measurements

Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Fair Value Measurements

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 10 – Fair Value Measurements – (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2015 and 2014.

Pooled separate accounts: Valued at the net asset value (NAV) of shares held by the plan as adjusted for mutual fund dividends, mutual fund splits and administrative maintenance charges and other items as reported by John Hancock which approximates fair value of the investments. The investments are redeemable at the adjusted NAV. Pooled separate accounts are classified in Level 2 in the fair value hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with the other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of June 30, 2015 and 2014:
