LOCAL 81134 IUE-CWA 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2015

1. DESCRIPTION OF PLAN

The following description of Local 81134 IUE-CWA 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution savings plan established by Datwyler Pharma Packaging USA, Inc. (the Sponsor) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Participation in the Plan is entirely voluntary. An eligible employee is any person employed by Datwyler Pharma Packaging USA, Inc. and a member of Local 81134 IUE-CWA who has completed 60 days of service and is employed on the next Plan entry date. The Plan entry date is the first payroll period following completion of the eligibility requirements. Employees employed as of July 1, 2014, Plan inception date, were immediately eligible.

Contributions – Effective January 1, 2015, participants may contribute up to 100% of pretax compensation, as defined in the Plan. The Sponsor is required to make non-elective contributions, starting July 1, 2014, equal to \$.90 for each hour worked by the employee. The Sponsor may, but is not required to, make discretionary qualified non-elective contributions to the Plan. Required non-elective contributions for the Plan year were \$443,107. There were no discretionary qualified non-elective contributions for the Plan year. Participants direct the investment of their contributions and sponsor contributions into one or more mutual funds currently available through the Plan.

Excess Contributions - Contributions made by certain active participants during a plan year are returned to them in order to satisfy the relevant nondiscrimination provisions of the Plan. There were no excess deferral contributions payable at June 30, 2015.

Participants' Accounts - Each participant's account is credited with its proportionate share of employee elective deferrals, the Sponsor's non-elective contributions and the Plan's earnings. Allocations of contributions and Plan earnings are based on participants' elective deferrals, account balances or hours worked, as provided in the Plan agreement. Each participant is entitled only to the benefits that can be provided from that participant's account.

Vesting - Participants are immediately vested in their contributions plus earnings thereon. Participants' vested interests in Sponsor non-elective profit sharing contributions increase from 20% after the first year of service to 100% after the fifth year. If the participant was employed on July 1, 2014, they became 100% vested in their total account.

Investment Options - Upon enrollment in the Plan, a participant may direct contributions, in any increment, to approximately 20 different investment options. Investments are held in individual mutual funds. Participants can refer to the 401(k) investment summary, provided by the custodian, for detailed descriptions of investment options.

Payment of Benefits - Upon termination of employment, participants receive vested interests either in a lump-sum amount or over a period of time not exceeding beyond the participant's life expectancy (or the life expectancy of the participant and his designated beneficiary). There were no benefits payable to terminated participants at June 30, 2015.

Forfeiture Accounts - Forfeitures may be used to reduce the amount of any legally permitted expenses incurred in connection with the administration of the Plan which are not otherwise paid by the Sponsor or reduce the Sponsor's future contributions. There were no forfeitures used or created during the plan year ended June 30, 2015.

Notes Receivable from Participants - Participants may borrow from their account up to a maximum of 50% of their total vested account balance, not to exceed \$50,000. There are no loans issued for less than \$1,000 and participants may only have one loan at a time. Transactions are treated as transfers between an investment fund and notes receivable. Notes receivable must be repaid within five years unless the purpose is to acquire, construct or reconstruct a principal residence. Each note is secured by the balance in the participant's account and bears a rate of interest of prime plus one percent. Interest rates were 4.24% at June 30, 2015. Note repayments are made by automatic payroll deduction.

Tax Status - The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code (IRC), and, accordingly, the trust's net investment income is exempt from income taxes. The Internal Revenue Service has determined and informed the Sponsor by a letter dated March 31, 2014 that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving its acceptance under section 401 of the IRC, the plan administrator and sponsor believe that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Tax years 2014 and later remain open and subject to examination.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared using the accrual method of accounting.

The Plan has evaluated subsequent events through April 11, 2016, the date the financial statements were approved and authorized by the Plan administrator.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures of net assets available for benefits as of the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Investment Contracts - Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts.

The Plan does not have any investment contracts at June 30, 2015.

Investment Valuation and Income Recognition - The Plan's investments in securities are stated at fair value determined using year-end market prices which represent the net asset value of shares held by the Plan. Charles Schwab Bank provides market prices to the Plan. Unrealized gains or losses are allocated to participants' accounts. Security transactions are recorded on trade dates; the specific-identification method is used in computing gains or losses. Investment income is stated net of investment fees.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

Payment of Benefits - Benefits are recorded when paid.

Expenses of the Plan - The Sponsor has elected to pay certain administrative expenses of the Plan and provides administrative services at no cost to the Plan. If not paid by the Sponsor, administrative expenses become a liability and are paid out of the Plan. Administrative expenses paid from the Plan are fees charged to each participant for notes receivable and distribution processing.

3. INVESTMENTS

The following presents investments that represent five percent or more of the Plan's net assets:

Vanguard 500 Index Fund A	\$ 143,259
Vanguard Mid-Cap Index Fund A	107,884
Vanguard Target Retirement Fund 2015	135,209
Vanguard Target Retirement Fund 2020	101,108
Vanguard Target Retirement Fund 2025	102,437
Vanguard Target Retirement Fund 2030	97,810
Vanguard Target Retirement Fund 2035	92,566
Vanguard Target Retirement Fund 2040	74,699
Vanguard Target Retirement Fund 2045	93,133

The Plan's investments (including gains and losses on investments bought and sold as well as held during the year) depreciated in value as follows:

Mutual funds	\$ 3,065
--------------	----------

The following information included in the Plan's financial statements and supplemental schedule as of and for the year ended June 30, 2015 was obtained from data prepared by Charles Schwab Bank, the trustee of the Plan. The plan administrator has obtained certification from the trustee that such information is complete and accurate. The following represents the fair values of the investments in the separate identifiable funds administered by the trustee:

Investments, at fair value	\$ 1,242,446
Notes receivable from participants	50,068
Principal on notes receivable from participants	156
Interest and dividend income	6,474
Net depreciation in fair value of investments	3,065

4. FAIR VALUE MEASUREMENTS

The Plan's measurement of fair value for assets and liabilities is based on the framework established in the fair value accounting guidance. The framework is based on the inputs used in valuation, gives the highest priority to quoted prices in active markets, and requires that observable inputs be used in the valuations when available. The three levels of the hierarchy are as follows:

- Level 1: observable inputs such as unadjusted quoted prices in active markets for identical assets or liabilities
- Level 2: inputs other than quoted prices included in active markets that are observable either directly or indirectly
- Level 3: unobservable inputs in which there is little or no market data, which requires the Plan to develop its own assumptions

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2015.

Money market cash fund: Valued at the net asset value of the underlying assets.

Mutual funds: Valued at the net asset value (NAV) of fund shares held by the plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different valuation methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of June 30, 2015:

	Level 1	Total
Schwab Investor Money Fund	\$ 56,389	\$ 56,389
Mutual funds:		
Blend funds	36,969	36,969
Bond funds	58,332	58,332
Index funds	327,778	327,778
Target funds	<u>762,978</u>	<u>762,978</u>
Total investment assets at fair value	<u>\$ 1,242,446</u>	<u>\$ 1,242,446</u>

6. PLAN TERMINATION

Although it has not expressed any intention to do so, the Sponsor has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.
