DIRECTION'S 403(b) PLAN
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED JUNE 30, 2015 AND 2014

NOTE 1 - DESCRIPTION OF PLAN

The following description of Direction's 403(b) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General - Directions for Youth and Families, Inc. (the Company) established the Direction's 403(b) Plan effective July 1, 2004. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions - The Plan is a defined contribution plan. Employees who are age 21 or older are eligible to participate. Participants may contribute a percentage of their annual compensation or a dollar amount, provided however, that such contribution does not exceed the IRS prescribed limitations. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company may make a discretionary nonelective contribution. Such contributions are allocated to all eligible participants who have attained six months of service and 21 years of age, as a uniform percentage of the participant's compensation. The Company's discretionary nonelective contribution to all eligible employees was 6% and 3% for the years ended June 30, 2015 and 2014, respectively.

Participant Accounts - Each eligible participant's account is credited with the participant's and the Company's contributions and allocations of plan earnings. Plan earnings are allocated based on the ratio of each participant's account balance to the total of all participants' account balances in that fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options - Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and several stable value asset funds as investment options for participants.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after two years of credited service.

Plan Loans - Plan loans are issued directly from funds owned by MetLife and not directly from a participant's account. As such, these loans are not the Plan's assets. In order to receive a Plan loan, a participant is required to reserve 125% of his/her loan balance to serve as collateral in the event of default. The loan principal and interest payments are paid directly to MetLife. Outstanding collateralized Plan loans totaled approximately \$6,100 and \$7,200 at June 30, 2015 and 2014.

Payment of Benefits - On termination of service due to death, disability or retirement, a participant or beneficiary may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or periodic payments as requested. Participants may also withdraw their vested amounts in the Plan under certain hardship conditions, as defined in the plan document.

Forfeited Accounts - Forfeited amounts are used to reduce future employer contributions. At June 30, 2015 and 2014, forfeited nonvested accounts approximated \$5,700 and \$3,900, respectively. In 2015, no forfeitures were used to reduce employer contributions.

DIRECTION'S 403(b) PLAN

NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED JUNE 30, 2015 AND 2014

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of significant accounting policies consistently applied by the Plan's management in the preparation of the accompanying financial statements follows:

Basis of Accounting - The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the custodians. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - Benefits to participants are recorded when paid.

Administrative Costs - The Plan's administrative expenses and management fees for the trust account are primarily paid by the Company. Certain fees may be paid by the Plan as they are allocated directly to the participant responsible for the expense.

DIRECTION'S 403(b) PLAN

NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED JUNE 30, 2015 AND 2014

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Recent Accounting Pronouncements - In July 2015, the FASB issued ASU No. 2015-12 Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. This ASU reduces the complexity in employee benefit plan reporting. Part I designates contract value as the only required measure for fully benefit-responsive investment contracts. Currently, fully benefit-responsive investment contracts are required to be measured at contract value with a reconciliation of contract value to fair value, when these measures differ, on the face of the plan financial statements. Part II eliminates the requirement to disclose individual investments representing 5% or more of net assets available for benefits for both participant-directed investments and nonparticipant-directed investments. Additionally, net appreciation or depreciation in investments for the period is no longer required to be disaggregated and disclosed by general type, however, should still be presented in the aggregate. Part II also requires that investments of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts (e.g., a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. This ASU is effective for nonpublic entities for fiscal years beginning after December 15, 2015. A reporting entity should apply the amendments to Parts I and II retrospectively to all periods presented, while Part III should be applied prospectively. Early application is permitted. The Plan administrator has elected to early-adopt these amendments where applicable. The results of this implementation did not have an impact on the net assets available for benefits and the related changes in net assets available for benefits, but rather affected only certain presentation and related disclosures within the financial statements.

Subsequent Events - The Plan has evaluated subsequent events through April 11, 2016, the date the financial statements were available to be issued.

NOTE 3 - CERTIFICATIONS

The Plan administrator has received certification from MetLife and Voya, the custodians of the Plan's assets as to the completeness and accuracy of the investments and related investment income. Such information includes the composition and current value of the investments reported in the statements of net assets available for benefits and the related investment income reported in the statement of changes in net assets available for benefits.

NOTES TO FINANCIAL STATEMENTS

NOTE 4 - FAIR VALUE MEASUREMENTS

Financial accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the standard are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2015 and 2014.

Mutual Funds: Valued at the daily closing price as reported by the fund. The mutual funds held by the Plan are deemed to be actively traded.

Stable Value Asset Funds: Valued at fair value by determining the payout based upon the current average credited rate and then discounting the related cash flows based upon the credited rate available for new deposits into the fixed accounts of the funds. In addition, the new deposit credited rate is adjusted to cover certain expenses. In determining the reasonableness of the methodology, Plan management evaluates a variety of factors, including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date), whereas others are substantiated utilizing available market data (for example, swap curve rate).

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED JUNE 30, 2015 AND 2014

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

The following table represents the Plan's Level 3 assets, the valuation techniques used to measure the fair value of those assets, and the significant unobservable inputs and the ranges of values for those inputs:

Type	Fair Value	Valuation Techniques	Significant Unobservable Inputs	Range
Stable Value Asset Fund	\$ 9,634	Discounted cash flow	Crediting interest rates	Average yield of 3.00% - 3.50% over 5 years

NOTE 5 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer and certain others. At June 30, 2015 and 2014, the Plan holds certain investment interests in various mutual funds and stable value asset funds, of which MetLife and Voya are the custodians. Accordingly, the Plan's investments in these funds qualify as party-in-interest transactions.

NOTE 6 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

NOTE 7 - TAX STATUS

The Plan was established under Section 403(b) of the IRC. At this time, the Internal Revenue Service has not established a process for issuing determination and opinion letters for 403(b) plans. The Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes that the Plan is no longer subject to tax examinations for years prior to 2012.

DIRECTION'S 403(b) PLAN

NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED JUNE 30, 2015 AND 2014

NOTE 8 - RISK AND UNCERTAINTIES

The Plan invests in various investment securities, which are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
