NOTES TO FINANCIAL STATEMENTS

NOTE 1: DESCRIPTION OF THE PLAN

The following summary description of the Constellation School Retirement Savings Plan (the “Plan”) is provided for general information purposes. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution 403(b) retirement plan which became effective July 1, 2008 for the purpose of providing supplemental retirement benefits to eligible employees, as defined in the Plan agreement. Employees are eligible to contribute to the plan via salary reduction on their date of employment. Employees working less than 20 hours per week are excluded. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan agreement, subject to Internal Revenue Code statutory limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make additional catch-up contributions. Participants may also contribute amounts representing distributions from other plans and IRA’s. There is no provision for employer contributions under the Plan.

Investment Options

Upon enrollment in the Plan, a participant may direct contributions into any of several investment funds. Participants may change their investment option allocations at any time.

Participant Accounts

Each participant’s account is credited with the participant’s contribution and allocation of Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Participants are vested 100% immediately in their contributions, plus earnings thereon.

Notes Receivable From Participants

Loans of up to 50% of a participant’s vested account, with a minimum of a \$1,000, not to exceed \$50,000, may be obtained from the Plan at the discretion of the Plan’s trustee. All loans are subject to the terms and conditions of the Plan.

Payments of Benefits

The participant benefit upon retirement, death, disability, or termination is the value of the participant’s account and is payable in a lump sum amount. Earlier distributions may be made from participant’s contributions to the extent necessary to meet financial hardship.

NOTES TO FINANCIAL STATEMENTS

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

Investment contracts are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts. There was no adjustment of the fully benefit-responsive investment contracts from fair value to contract value, since contract value is an appropriate determination of fair value.

Use of Estimates

The preparation of the financial statements consistent with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA requires the Plan administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Committee determines the Plan's valuation policies utilizing information provided by the investment custodians and insurance company. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Administration Expenses

All expenses of the Plan are paid by the Plan, except for plan audit fees. Plan record keeping and administration fees, investment advisory and asset management fees are all paid from plan assets. With the exception of certain participant specific fees, these fees are all netted from plan earnings on the statement of changes in net assets.

Investment management fees provided by the various investment fund companies associated with the plan were netted from fund earnings. Please see a prospectus for each fund to determine the net operating expense ratio of each fund.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Subsequent Events

Subsequent events have been evaluated through April 6, 2016, which is the date the financial statements were available to be issued.

Recent Accounting Pronouncements

In October 2012, the FASB issued ASU 2012-04, Technical Corrections and Improvements. The amendments in this update cover a wide range of topics in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, for non public entities, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments is included in Note 5. The adoption of ASU 2012-04 has not had and is not expected to have a material impact on subsequent periods.

On July 31, 2015, in an effort to simplify plan accounting, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) - (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015. Earlier application is permitted. Retrospective application is required for Parts I and II on all periods presented. There is no anticipated effect on the value of the net assets available for benefits, as the main changes resulting from implementation of this ASU centers around certain disclosures in the notes to the financial statements. The adoption of ASU 2015-12 is expected to be adopted for the plan year beginning July 1, 2015 (and will be applied retrospectively as required).

NOTE 3: INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at June 30, 2015 and 2014, and net appreciation in fair value of investments, interest and dividends for the years ended June 30, 2015 and 2014, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by American United Life Insurance Company (the custodian of the Plan).

CONSTELLATION SCHOOL
RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 4: INVESTEMENTS

The Plan's investments that represent five percent or more of Plan net assets available for benefits as of June 30, 2015 and 2014, are as follows:

	<u>2015</u>	<u>2014</u>
Mutual Funds:		
Russell Lifepoints 2020	\$ 35,341	\$ 62,668
Russell Lifepoints 2030	110,573	96,089
Russell Lifepoints 2040	53,156	60,387

During 2015 and 2014, the plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

	<u>2015</u>	<u>2014</u>
Mutual Funds	<u>\$ (2,894)</u>	<u>\$ 29,038</u>

NOTE 5: FAIR VALUE MEASUREMENTS

Generally accepted accounting principles include a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

CONSTELLATION SCHOOL
RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 5: FAIR VALUE MEASUREMENTS (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2015 and 2014.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end. NAV is based on the value of underlying assets owned by the fund, minus its liabilities and then divided by the number of shares outstanding. NAV is a quoted price in an active market.

Guaranteed account: Valued based on the NAV of units of the collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2015 and 2014:

Assets at Fair Value as of June 30, 2015

NOTE 6: GUARANTEED INVESTMENT CONTRACT

The plan entered into a benefit-responsive guaranteed investment contract with American United Life Insurance Company (AUL). AUL maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the plan by AUL. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value. There is no adjustment to contract value in arriving at net assets available for benefits because contract value is an appropriate determination of fair value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at June 30, 2015 and 2014 was \$5,771 and \$4,749, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than one percent. Such interest rates are reviewed on a quarterly basis for resetting.

CONSTELLATION SCHOOL
RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 6: GUARANTEED INVESTMENT CONTRACT (CONTINUED)

Certain events limit the ability of the plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity was provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	<u>2015</u>	<u>2014</u>
Average Yields:		
Based on actual earnings	1.00%	1.00%
Based on interest rate credited to participants	1.025%	1.22%

NOTE 7: PARTY-IN-INTEREST

American United Life Insurance Company provides the plan services such as participant record keeping, plan administration and investment management. Fees for these services are paid from plan assets. These transactions qualify as party-in-interest transactions.

NOTE 8: PLAN TERMINATION

Although it has not expressed any intent to do so, the School has the right under the terms of the Plan to discontinue the plan's operations at any time and terminate the Plan subject to the provisions of ERISA.

NOTE 9: TAX STATUS OF THE PLAN

The Plan has a formal written plan document in place. The Internal Revenue Service has only recently established the program for the formal review and approval of pre-approved plan documents for 403(b) plans, therefore, no opinion or advisory letter is currently available for the plan. The School believes that the Plan is designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

CONSTELLATION SCHOOL
RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 9: TAX STATUS OF THE PLAN (CONTINUED)

Accounting principles generally accepted in the United States of America require management of an organization to evaluate tax positions taken by the organization and recognize a tax liability if the organization has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. There are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2012.

NOTE 10: RISKS AND UNCERTAINTIES

The Plan allows investments in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
