NOTES TO FINANCIAL STATEMENTS

June 30, 2015 and 2014

NOTE 1 DESCRIPTION OF PLAN

The following description of The Agricultural and Labor Program, Inc. Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General – The Plan consists of a tax deferred annuity plan. The Plan was established by The Agricultural and Labor Program, Inc. (the Program) on July 1, 1993. The Plan was amended and restated in its entirety, effective January 1, 2009. All employees of the Program are eligible to participate in the Tax Sheltered Annuity Plan immediately upon employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

Administration – The Plan is administered by the Program, which serves without compensation. The plan administrator has the overall responsibility and authority as the named fiduciary to manage and control the operations and administration of the Plan and may designate one or more individuals to perform those responsibilities.

Contributions – For the year ended June 30, 2015, participants may contribute up to $17,500 of pre-tax annual compensation subject to certain Internal Revenue Code (IRC) limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Once eligible, participants may also contribute amounts representing distributions from other qualified retirement plans (rollover). Employees must be employed on the first and last day of the Plan year to be eligible to receive an allocation of the discretionary age weighted employer nonelective contribution. During the year ended June 30, 2015, the Program made a $199,659 nonelective contribution to the Plan. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Investment Options – Upon enrollment in the Plan, a participant may direct their allocation of basic contributions with Great-West Life & Annuity Insurance Company (Great-West) or ReliaStar Life Insurance Company (ReliaStar). Within these investment vehicles, participants may select between several investment options.

Participant Accounts – Each participant's account is credited with the participant's contributions and the employer nonelective contribution. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately fully vested in their contributions plus actual earnings thereon. A participant is 100% vested in the employer nonelective contribution after one year of service.

NOTE 1 DESCRIPTION OF PLAN – Continued

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. The loan interest rate, determined as of the loan application date, is set at the prime rate plus 2% (Great-West) or 2.25% (ING), as defined. Principal and interest are paid ratably through biweekly payroll deductions.

Payment of Benefits – Upon termination of service, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, installment payments over a specified period of time subject to certain limitations, or an annuity.

Forfeited Accounts – At June 30, 2015 and 2014, the Plan had no forfeitures, nor were any used during the year ended June 30, 2015.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of Estimates – The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan administrator determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians and insurance companies. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of June 30, 2015 and 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits – Benefits are recorded when paid.

Operating Expenses – Certain expenses of maintaining the Plan are paid directly by the Program and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events – The Program has evaluated subsequent events through April 07, 2016, the date which the financial statements were available to be issued.

NOTE 3 INFORMATION PREPARED AND CERTIFIED BY THE CUSTODIANS (UNAUDITED)

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at June 30, 2015 and 2014, net appreciation in fair value of investments, and interest income for the year ended June 30, 2015, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Great-West and ReliaStar.

NOTE 4 INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets at June 30, 2015 and 2014:

	2015	2014
Great - West Guaranteed Fixed Fund	$ 519,418	$ 533,491
ReliaStar Fixed Account Investment Funds	2,068,122	1,828,004
	$ 2,587,540	$ 2,361,495

During 2015, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Fixed annuities	$ 47,423
Variable annuities	9,570
	$ 56,993

NOTE 5 INVESTMENT CONTRACTS WITH INSURANCE COMPANIES

The Plan has benefit-responsive investment contracts with Great-West and ReliaStar. Great-West and ReliaStar maintain the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed annuity contract issuers are contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the Statements of Net Assets Available for Benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Great-West and ReliaStar, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for contract risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer.

NOTE 5 INVESTMENT CONTRACTS WITH INSURANCE COMPANIES – Continued

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probably of not occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

NOTE 6 FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in an active market; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 6 FAIR VALUE MEASUREMENTS – Continued

Guaranteed interest accounts: Valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Plan administrator evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

The following table sets forth by level, within the fair value hierarchy, the Plan's level 2 assets at fair value as of June 30, 2015 and 2014:

	2015	2014
Fixed annuities	$ 2,605,695	$ 2,375,561
Variable annuities	262,470	278,739
Total assets at fair value	$ 2,868,165	$ 2,654,300

At June 30, 2015 and 2014, there are no assets measured using level 1 or level 3 inputs.

NOTE 7 RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS

The Plan engaged in transactions involving Great-West and ReliaStar. Great-West and ReliaStar are the custodians as defined by the Plan and, therefore, these transactions qualify as party in interest transaction. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment. The Program pays directly any other fees related to the Plan's operations.

Certain administrative functions are performed by officers or employees of the Program. No such officer or employee receives compensation from the Plan.

NOTE 8 PLAN TERMINATION

Although it has not expressed any intent to do so, the Program has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event such discontinuance results in termination of the Plan, the Plan provides that the assets be allocated among the participants and beneficiaries in the amounts credited to each Participant's respective account at the effective date of such termination. Distribution of participant account balances will occur as soon as administratively feasible upon termination of the Plan.

NOTE 9 TAX STATUS

The IRS is developing a determination letter program for Section 403(b) plans; however, the procedures for a Section 403(b) plan determination letter program have not been issued. The Plan and related trust is designed through a prototype plan, and the prototype sponsor, as well as the Plan's sponsor, believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

U.S. GAAP require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 10 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 11 RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:
