**SENECA MEDICAL, INC. 401(K) PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**June 30, 2015 and 2014**

**Note 1—Description of Plan**

The following description of the Seneca Medical, Inc. 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document and plan amendments for complete information.

**General**

The Plan is a defined contribution plan established for the sole purpose of providing retirement benefits to all employees as defined in the Plan document of Seneca Medical, Inc. (the Company). Employees are eligible to participate in the Plan upon employment with the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

**Contributions**

Participants may elect a percentage reduction in compensation, subject to Internal Revenue Service (IRS) limitations, which may be contributed to the Plan, as designated by the employee, as both Roth elective deferrals in addition to pre-tax elective deferrals. The Company, at its discretion, may make matching contributions for participants who are contributing to the Plan and are actively employed at the end of the Plan year or have completed 500 hours of service. Matching contributions may also be made for participants that are not actively employed at the end of the Plan year as a result of death, total and permanent disability, and early or normal retirement. There were no discretionary matching contributions in 2015 or 2014.

**Participant accounts**

Participants direct the investment of their accounts among investment options offered by the Plan. Each participant's account is credited with the participant's contribution and the Company's contributions, if any. Participant accounts are also adjusted for investment earnings and losses based on the respective fund's changes in net asset value during the Plan year.

**Vesting**

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after three years of service for any Company matching contribution.

**Forfeitures**

Forfeited balances of terminated participant accounts are used to pay Plan administrative fees and reduce the Company's future matching contributions.

**Plan termination**

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all amounts credited to participants' accounts shall become fully vested.

**SENECA MEDICAL, INC. 401(K) PLAN**  
**NOTES TO FINANCIAL STATEMENTS - CONTINUED**  
**June 30, 2015 and 2014**

**Note 1—Description of Plan—continued**

**Retirement benefits**

On termination of service due to death, disability, or retirement a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or installment payments over a period not to exceed the life expectancy of the participant or beneficiary. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Retirement benefits are recorded when paid. In the event of hardship, as defined in the plan agreement, participants may make a partial or full distribution of their accounts, subject to certain tax withholdings.

**Notes receivable from participants**

Participants may borrow the lesser of 50% of the fair market value of the vested account balance or \$50,000. The interest rate is established based on the prime rate plus one percent. The note receivable repayment schedule can be no longer than 60 months except if the note receivable is for the purpose of acquiring any house, apartment, condominium or mobile home that is to be used as the principal residence of the participant. The Plan Administrator will determine the term of such note receivable. Principal and interest is paid ratably through payroll deductions. These notes receivable are secured by the balance in the participant's accounts.

**Note 2—Summary of significant accounting policies**

**Basis of accounting**

The accompanying financial statements are prepared on the accrual basis of accounting. Participant withdrawals are recorded upon distribution.

**Notes receivable from participants**

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

**Use of estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

**Administrative expenses**

Administrative costs are first paid by forfeitures and then by the Company, except for note receivable transaction fees, which are paid from the participant's account receiving the note receivable.

**NOTES TO FINANCIAL STATEMENTS - CONTINUED**  
**June 30, 2015 and 2014**

**Note 2—Summary of significant accounting policies—continued**

**Income tax status**

The Plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (the Code). The Plan has been amended since receiving the determination letter; however, the Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

**Investment valuation and income recognition**

Investments held by the Plan are stated at fair value with the exception of the fully benefit-responsive investment contract (a common collective trust fund), which is valued at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion and disclosures related to fair value measurements.

The Wells Fargo Stable Return Fund invests in fully benefit-responsive investment contracts. In accordance with Financial Accounting Standards Board (FASB) guidance, "Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide" and "Defined-Contribution Health and Welfare and Pension Plans", investment contracts held by a defined-contribution plan are to be reported at fair value. However, contract value is the relevant measurement of attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by FASB guidance, the statement of net assets available for plan benefits presents the fair value of the investment contracts from fair value to contract value. The statement of changes in net assets available for plan benefits is prepared on a contract value basis.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes gains and losses on investments bought and sold as well as held during the year.

**Note 4—Fair value measurements**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification Topic, Fair Value Measurement, are described as follows:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include:

- a. Quoted prices for similar assets or liabilities in active markets;
- b. Quoted prices for identical or similar assets or liabilities in inactive markets;
- c. Inputs other than quoted prices that are observable for the asset or liability;
- d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value by the plan. There have been no changes in the methodologies used at June 30, 2015.

*Mutual Funds* – valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year end. The NAV is based on the fair value of the underlying investments held by the fund, less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

*Common/Collective Trust Fund* – valued at the NAV of units of a collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund, less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.
