SEMA CONSTRUCTION, INC.
401(k) RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014

1 Description of Plan

The following description of the SEMA Construction, Inc. (Company) 401(k) Retirement Savings Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. General. The Plan is a defined contribution plan covering all employees of the Company who are twenty-one years of age or older and have one year of service in which 1,000 or more hours of services were provided. It is subject to the provisions of the ERISA). The Plan is a qualified trust under Internal Revenue Service (IRS) Code Section 401(a).

B. Contributions. Each year, participants may contribute up to the maximum amount allowed under the Internal Revenue Code (IRC), as defined in the Plan. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers over twenty investment options for participants. The Company makes two types of contributions to the Plan: the first type is the Company can elect to make discretionary contributions as determined by the employer. The second type of Company contributions are Davis Bacon contributions. These contributions are on federally funded projects which dictate wage and benefit rates for the specific location of the contract. They are made into the accounts of the employees on the specific projects which require certification of each payroll to ensure wage and benefit amounts are within the contract specifications.

C. Participant Accounts. Each participant's account is credited with the participant's contribution and the allocation of: a) the Company's contribution; and, b) Plan earnings. Allocations are based on participant's earnings and account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

D. Vesting. Participants are immediately vested in their contributions plus actual earnings thereon. The Company's contribution portion of their accounts and earnings is 100% vested when the contribution is made.

E. Payment of Benefits. On termination of service, a participant may elect to receive: a) a lump sum; b) payment in installments over a fixed period, not to exceed the lesser of the participant's life expectancy, the joint life expectancy of the participant and his/her spouse, or ten years; or, c) rollover.

F. Notes Receivable From Participants. Participants may borrow from their fund accounts up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and are charged a reasonable rate of interest as determined by the Plan administrator.

G. Forfeited Accounts. At June 30, 2014 and 2013 there were no forfeited non-vested accounts to be used to offset future employer contributions.

2 Summary of Significant Accounting Policies

A. Basis of Accounting. The financial statements of the Plan are prepared on the accrual basis of accounting. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attributable for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

B. Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

C. Investment Valuation and Income Recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 8 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

D. Notes Receivable From Participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

E. Payment of Benefits. Benefits are recorded when paid.

F. Operating Expenses. Expenses of maintaining the Plan are paid by the Company.

4 Plan Termination

In the event of Plan termination, participants will become 100% vested in their accounts. The Plan is not covered under the Pension Benefit Guarantee Corporation termination insurance program.

5 Information Prepared and Certified by the Custodian

The following information, included in the accompanying financial statements and supplemental schedule, was taken from data that has been prepared and certified to as complete and accurate by the custodian.

	2014	2013
Investments, At Fair Value		
Mutual Funds (Registered Investment Companies)	$ 9,172,196	$ 6,974,282
Insurance Company, Common.Collective Trusts	$ 2,741,470	$ 2,564,803
Pooled Separate Accounts	$ 5,454,854	$ 4,776,631
Investment Income	$ 2,408,396	$ 1,646,979

6 Tax Status

The IRS has determined and informed the Company, by a letter dated March 9, 2011, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC; and, therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles general accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more than likely than not would not be sustained upon examination by the IRS.

The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of June 30, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to June 30, 2010.

7 Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for Plan benefits.

8 Fair Value Measurements

FASB ASC 820-10-50, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 Measurements) and the lowest priority to unobservable inputs (Level 3 Measurements). The three levels of the fair value hierarchy under FASB ASC 820-10-50 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include -
- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and,
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the assets or liability has specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Pooled Separate Accounts: Valued at Net Asset Value (NAV) of shares held by the Plan at year end.

Common/Collective Trust: The common/collective trust is a guaranteed investment contract. It is valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values.

8 Fair Value Measurements (Continued)

Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments would result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2014 and 2013:

	Assets at Fair Value as of June 30, 2014			
	Level 1	Level 2	Level 3	Total

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended June 30, 2013:
