INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator and
Battelle Pension Management and Investment Council
Columbus, Ohio

Report on the Financial Statements

We have audited the accompanying financial statements of Pension Plan of the Pacific Northwest Laboratories, Battelle Memorial Institute (the "Plan"), which comprise the statement of net assets available for benefits as of June 30, 2015, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the 2015 financial statements referred to above present fairly, in all material respects, the financial status of Pension Plan of the Pacific Northwest Laboratories, Battelle Memorial Institute as of June 30, 2015, and the changes in its financial status for the year then ended in accordance with accounting principles generally accepted in the United States of America.

(Continued)

Other Matters

The statement of net assets available for benefits and the related statement of changes in net assets available for benefits of Pension Plan of the Pacific Northwest Laboratories, Battelle Memorial Institute as of and for the year ended June 30, 2014, were audited by other auditors whose report dated April 14, 2015, expressed an unmodified opinion on those statements.

Our audit was conducted for the purpose of forming an opinion on the 2015 financial statements as a whole. The information included in the June 30, 2015 supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) and Schedule G – Part III, Nonexempt Transactions are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the 2015 financial statements as a whole.

AS OF AND FOR THE YEARS ENDED JUNE 30, 2015 AND 2014

(Dollars in Thousands)

1. ORGANIZATION

The accompanying financial statements present the net assets of the Pension Plan of the Pacific Northwest Laboratories, Battelle Memorial Institute (“Plan”) and changes therein. The net assets of the Plan are commingled with the assets of the Employees Pension Plan of Battelle Memorial Institute and the assets of the Pension Plan of Battelle National Biodefense Institute, LLC within the Battelle Pension Trust (“Master Trust”).

The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General. The Plan is a defined benefit pension plan covering all U.S.-based salaried employees and eligible hourly employees of the Pacific Northwest Laboratories, Battelle Memorial Institute (“Battelle” or “Plan Sponsor”) and those group members, as defined by the Plan, who have adopted the Plan, except employees who are covered by collective bargaining agreements or by another pension plan funded by the employer. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Plan Amendments. An amendment was adopted January 8, 2015. The board resolution was approved on November 13, 2014, with communications to former employees in March 2015. The amendment provides the Plan for a lump-sum payment option to certain terminated vested employees with an actuarial equivalent value less than \$125,000. The amendment also provides for a lump-sum option (as long as the actuarial equivalent value of the benefit is less than \$125,000) upon termination, retirement or benefit commencement on or after July 1, 2015.

Pension Benefits. Participants with five or more years of vested service, as defined by the Plan, are entitled to annual pension benefits beginning at the normal retirement age of 65 based upon certain formulas using years of credited service up to a maximum of 40 years and the highest 60 months of compensation. The Plan permits early retirement at ages 55 to 64. Participants may elect to receive their vested benefit as a joint and survivor annuity payable monthly from the date of retirement. The normal form of benefit is a single-life annuity payable monthly. If participants terminate before rendering five years of vesting service, they forfeit the right to receive their accumulated plan benefits. A participant is fully vested upon attainment of age 65 while in active service.

Death and Disability Benefits. If a vested participant dies before benefit payments begin, a death benefit equal to the participant’s accumulated benefits is paid to the participant’s spousal beneficiary based on certain payment options as defined by the Plan. Alternatively, the Plan provides spousal and nonspousal beneficiaries the option to elect a death benefit of 120 monthly payments commencing immediately, where each monthly payment is equal to the actuarial equivalent of the monthly payment the participant would have received at normal retirement age, or the lump-sum present value of such 120 monthly payments.

(Dollars in thousands)

Active participants who become totally disabled are immediately fully vested in their pension benefit under the Plan and may elect to begin receiving an annual disability retirement benefit. Alternatively, active salaried participants who become totally disabled may elect to continue to accrue benefits with their salary rate remaining the same as at the time they became disabled until normal or early retirement, at which time disabled participants begin receiving normal or early retirement benefits.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting. The financial statements of the Plan have been prepared under the accrual basis of accounting.

Accounting Pronouncements. The Plan has early adopted the provisions of Accounting Standards Update (ASU) 2015-12 (Parts I and II) as of June 30, 2015, with retrospective application to June 30, 2014. The ASU simplified disclosures related to fair value measurements and investments. The adoption of the ASU had no impact on the Statement of Net Assets Available for Benefits and changes therein. Also, the adoption of the ASU had no impact on the present value of Accumulated Plan Benefits and changes therein.

Use of Estimates. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities; disclosure of contingent assets, liabilities, and pension obligations at the date of the financial statements; and the reported amounts of changes in net assets and pension obligations during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties. The Master Trust invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits is reported, based on certain assumptions pertaining to interest rates, salary increases, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Reclassifications. Certain prior year amounts have been reclassified to conform with the current year's presentation.

BATTELLE MEMORIAL INSTITUTE
NOTES TO FINANCIAL STATEMENTS**

Investment Valuation and Income Recognition. Investments are stated at fair value. Fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a description of valuation methods. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The valuation of investments is prepared by the trustee. The trustee utilizes its external pricing service to estimate the fair value of certain investments held in the Plan. The trustee uses multiple pricing vendors for the assets held in the Master Trust. In some cases, such as limited partnerships, the valuation is provided to the trustee by the applicable fund manager of the investment. The Plan's investment managers review and validate the prices utilized by the trustee to determine fair value. The Plan Sponsor receives audit reports of the trustee's operating controls and valuation processes. Management has established processes and procedures for establishment and valuation of alternative investments.

Payment of Benefits. Benefit payments to participants or beneficiaries are recorded upon distribution.

Administrative Expenses. Investment management and custodial fees; accounting fees; audit fees; and certain administrative, consulting, and legal fees are paid by the Plan and are expensed as incurred. Certain other administrative expenses not paid by the Plan are paid by the employer.

Subsequent Events. Plan management has performed an evaluation of subsequent events through April 15, 2016, which is the date the financial statements were available for issuance. There were no subsequent events noted.

3. THE MASTER TRUST

At June 30, 2015 and 2014, the Plan had an approximate 58.1% and 55% interest, respectively, in the net assets available for benefits of the Master Trust. Effective October 1, 2014, net assets, interest, dividends, realized gains (losses), unrealized gains (losses), and certain administrative expenses relating to the Master Trust are allocated to the individual plans via unitized accounting with the trustee. This unitization is based on the weighted market value of the Plan's ownership in the Master Trust assets at the close of the previous month. Prior to October 1, 2014, net assets, interest, dividends, and realized gains (losses) relating to the Master Trust were allocated to the individual plans based on the weighted book value of each plan. Unrealized gains (losses) and administrative expenses relating to the Master Trust were allocated to the individual plans based on the weighted market value of each plan.

Total investment income	<u>\$ 94,153</u>	<u>\$ 384,204</u>

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

**PENSION PLAN OF THE PACIFIC NORTHWEST LABORATORIES,
BATTELLE MEMORIAL INSTITUTE
NOTES TO FINANCIAL STATEMENTS**

AS OF AND FOR THE YEARS ENDED JUNE 30, 2015 AND 2014

(Dollars in thousands)

Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- * Quoted prices for similar assets or liabilities in active markets
- * Quoted prices for identical or similar assets or liabilities in inactive markets
- * Inputs other than quoted prices that are observable for the asset or liability
- * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs that are unobservable inputs for the asset or liability.

The Plan's investment in the Master Trust is presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust. Consideration was given to how third-party pricing was performed.

The following is a description of the valuation methodologies used by the Plan to calculate the fair value of Master Trust investments. There have been no changes in the methodologies used at June 30, 2015 and 2014:

Cash includes trust deposit accounts as well as local and foreign currencies for which fair value measurements are all based on quoted prices for similar assets or liabilities. Cash equivalents includes a money market account, for which fair value is estimated to approximate the cost basis of the deposit account balance, and a short-term investment fund, which is valued at net asset value per share as determined by the issuer. Common stocks are valued at the closing price reported in the active market in which the individual security is traded.

U.S. Government and U.S. Government Agency (Government) bonds and municipal bonds are valued based on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available, the government security is valued under a discounted cash flow approach that maximizes observable inputs, such as current yields of similar instruments.

**PENSION PLAN OF THE PACIFIC NORTHWEST LABORATORIES,
BATTELLE MEMORIAL INSTITUTE
NOTES TO FINANCIAL STATEMENTS**

AS OF AND FOR THE YEARS ENDED JUNE 30, 2015 AND 2014

(Dollars in thousands)

Asset-backed securities, mortgage-backed securities, corporate bonds, and nongovernment-backed collateralized mortgage obligations (CMOs) are valued based on yields currently available on comparable securities of issuers with similar credit ratings.

When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flow approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks.

Private real estate investments are valued at estimated fair value based on net asset value as reported by the fund managers. These funds seek growth and income through investment in commercial, residential, and industrial real estate. Funds are subject to various redemption restrictions and advance notice requirements. Redemptions for most funds are limited to once per quarter and subject to a 45-day notice requirement. In addition, circumstances may exist in which the otherwise redeemable investment may be subject to limitations, including availability of cash arising from net investment income and the sale of investments in the ordinary course of business.

Commingled funds consist of collective trust investments and one limited partnership which are valued at estimated fair value based on net asset value as reported by the fund manager. These funds invest primarily in readily marketable international securities with the objective of long-term growth. Redemption for these investments is permitted daily, with no other restrictions or notice periods.

Private equity funds are valued at net asset value or its equivalent, as reported by the fund manager. The net asset value is based on the cumulative capital account balances reported by the general partners. In some cases, this might be based on limited partnerships' audited financial statements. The allocation of the gains, losses, and expenses to the partners are based on the ownership percentage as described in the partnership agreements. These funds seek growth and income through investments in other limited partnerships, equity venture capital and other arrangements. For private equity funds classified in Level 2 of the hierarchy as of June 30, 2015, there are no significant redemption restrictions or advance notice requirements. For those classified in Level 3 of the hierarchy as of June 30, 2015, substantially all redemptions are permanently restricted until the termination of the partnership or by written consent of the general partner. The estimated time period for liquidation of these private equity funds varies from 1 to 10 years, but is subject to variability. Unfunded capital commitments to private equity funds as of June 30, 2015 were \$49,834,150.

The following tables set forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of June 30, 2015 and 2014 (in thousands). Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement:

5. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service participants have rendered as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present participants or their beneficiaries.

The Plan amendment on accumulated plan benefits effective July 1, 2014 is recognized during the year in which such amendment was adopted. The Plan amendment increased accumulated plan benefits by \$605 as of June 30, 2014. The actuarial present value of accumulated plan benefits is determined by an independent actuary, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits as of June 30, 2015 and 2014 is as follows (in thousands):

	<u>2015</u>	<u>2014</u>
Vested benefits:		
Participants currently receiving payments	\$ 546,961	\$ 505,881
Other participants	<u>494,008</u>	<u>480,344</u>
Total vested benefits	1,040,969	986,225
Nonvested benefits	<u>2,846</u>	<u>26,644</u>
Total Actuarial Present Value of Accumulated Plan Benefits	<u>\$ 1,043,815</u>	<u>\$ 1,012,869</u>

The increase in actuarial present value of accumulated plan benefits during the years ended June 30, 2015 and 2014, resulted from the following (in thousands):

	<u>2015</u>	<u>2014</u>
Actuarial Present Value of Accumulated Plan Benefits at Beginning of Fiscal Year	\$ 1,012,869	\$ 914,092
Changes During the Plan Year Attributable to:		
Net actuarial loss/(gain)	19,420	29,376
Plan amendment and changes in Plan provisions	3,576	605
Increase for interest due to the decrease in the discount period	75,566	68,805
Change in actuarial assumptions	2,208	48,533
Benefits paid (including lump sum amounts)	<u>(69,824)</u>	<u>(48,542)</u>
Net increase	<u>30,946</u>	<u>98,777</u>
Actuarial Present Value of Accumulated Plan Benefits at End of Fiscal Year	<u>\$ 1,043,815</u>	<u>\$ 1,012,869</u>

The significant actuarial assumptions used in the valuations as of June 30, 2015 and 2014, were as follows:

- a. Mortality: Healthy Mortality, Combined separate annuitant and non-annuitant tables
2015 and 2014: RP2014, Generational White Collar, using mortality improvement Scale MP2014
- b. Assumed retirement rates are stratified by various age (and/or service) ranges, with 100% assumed to be retired by age 70.

**PENSION PLAN OF THE PACIFIC NORTHWEST LABORATORIES,
BATTELLE MEMORIAL INSTITUTE
NOTES TO FINANCIAL STATEMENTS**

AS OF AND FOR THE YEARS ENDED JUNE 30, 2015 AND 2014

(Dollars in thousands)

- c. Assumed turnover rates are based on plan experience, by various age categories.
- d. Interest rate of 7.75%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

6. FUNDING POLICY

The employer makes contributions to the Plan, which are expected to be sufficient to provide the defined benefits of the Plan. Such contributions, as determined by actuaries, include provisions for normal costs as they accrue and unfunded prior service cost over a maximum of 30 years. Minimum funding requirements as set forth in ERISA have been met for the years ended June 30, 2015 and 2014.

7. PLAN TERMINATION

Although it has not expressed any intention to do so, Battelle has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions set forth in ERISA. Should the Plan be terminated at some future time, all participants become fully vested in benefits earned as of the termination date.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits of any participant who retired three years or more prior to the date of termination or who could have retired as of such date (in the normal form of annuity) without in either case giving effect to any increase in benefits, which has been put into effect by a Plan amendment within five years prior to such date.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) up to the applicable limitations discussed below.
- c. All other vested benefits that are not insured by the PBGC.
- d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

8. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

In 2015 and 2014, the shares of the short-term investment fund (a collective trust) held by the Master Trust were managed by The Northern Trust Company (Northern Trust). Northern Trust was the trustee as defined by the Plan, and therefore, these transactions qualify as party in interest. In addition, certain Plan investments were held in companies that also serve as portfolio managers, and these transactions also qualify as party in interest. The Plan Sponsor was reimbursed for certain administrative expenses from the Plan.

9. FEDERAL INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined and informed Battelle by a letter dated April 27, 2010, that the Plan, as amended, and related Master Trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, Plan management believes that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of June 30, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

During the year ended June 30, 2014, there was a net realized gain of \$4,245 and a last day's mark of \$18.

At the time Battelle enters into a futures contract, it is generally required to make a margin deposit with the custodian of a specified amount of liquid assets. Subsequent payments are made or received by the investment fund equal to the daily change in the contract value and are recorded as variation margin receivable or payable and offset in unrealized gains or losses. Futures are marked to market each day, with the change in value reflected in the unrealized gains and losses.

The use of futures contracts involves, to varying degrees, elements of market and counterparty risk, which may exceed the amounts recognized in the statements of net assets available for benefits. Futures contracts present the following risks: imperfect correlation between the change in market value of a fund's securities and the price of futures contracts; the possible inability to close a futures contract when desired; losses due to unanticipated market movements, which potentially are unlimited; and the possible inability of Battelle to correctly predict the direction of securities prices, interest rates, currency exchange rates, and other economic factors. Futures markets are highly volatile, and the use of futures may increase the volatility of an investment's value. As a result of low margin deposits normally required in futures trading, a relatively small price movement in a futures contract may result in substantial losses to Battelle. Futures contracts may be illiquid, and exchanges may limit fluctuations in futures contract prices during a single day. All of the future contracts are traded on a U.S. exchange.

Schedule SB, Part V – Summary of Plan Provisions

Summary of Major Plan Provisions

Effective date and plan year	Original plan: July 18, 1941 Restated plan: July 1, 2008 Plan year: July 1 through June 30
Status of the plan	The plan has ongoing benefit accruals and new employees are eligible to participate in the plan once they satisfy the participation requirements.
Significant events that occurred during the year	Not applicable.
Definitions	
• Covered employees	Any Employee who is employed by a Participating Employer and who is not classified as one or more of the following: (1) a member of the Board of Directors unless member is also an Employee; (2) an employee who is covered by a collective bargaining agreement unless such agreement provides for participation in the Plan; (3) an individual employed outside the United States by a foreign-based subsidiary or division of Employer; (4) an employee who is covered by any other qualified defined benefit pension plan funded by Employer; (5) an employee of any Battelle Affiliate that has not adopted this Plan for its employees; (6) a Leased Employee; (7) an independent contractor; (8) effective on and after February 13, 2003, an individual employed as a telephone interviewer; (9) interns and co-op students; and (10) Limited Term Employees.
• Participation	Participation commences on the date of employment for employees other than hourly employees. Hourly employees participate after completing 1,000 hours of service.
• Employee contributions	None.
• Credited service for vesting	A participant receives one year of Credited Service for Vesting for every plan year he is credited with at least 1,000 hours of service or a fraction of a year if credited with at least 500 hours of service.
• Credited service for benefit accrual	A participant receives one year of Credited Service for Benefit Accrual for every plan year he is credited with at least 2,080 hours, or a fraction of a year if credited with less than 2,080 hours. Note that hourly employees must complete a minimum of 1,000 hours of service to receive any credit.
• Monthly compensation	Monthly equivalent of compensation as if the employee worked full-time. Effective July 1, 2001, incentive compensation and overtime are counted as plan compensation. However, compensation is limited by IRC 401(a)(17) annually (indexed for future years).
• Final average earnings	The average of the highest 60 consecutive months of compensation.
• Accrued benefit	The normal retirement benefit based on Credited Service for Benefit Accrual and Final Average Compensation on the date of determination.

Schedule SB, Part V – Summary of Plan Provisions

Normal retirement	
• Eligibility	Attainment of age 65
• Benefit	<p>The larger of i. and ii.</p> <p>i. 1.2% of Final Average Compensation times Credited Service for Benefit Accrual (maximum of 40 years)</p> <p>ii. The sum of a. plus b.</p> <p>a. <u>For service after July 1, 2012</u> – 1.2% of Final Average Compensation times Credited Service for Benefit Accrual</p> <p>b. <u>For service prior to July 1, 2012*</u> – The larger of 1. and 2.</p> <p>1. 1.6% of Final Average Compensation multiplied by Credited Service for Benefit Accrual, and</p> <p>2. Accrued Retirement Benefit as of June 30, 1994, plus 1.6% of Final Average Compensation multiplied by Credited Service for Benefit Accrual after June 30, 1994.</p> <p>Credited Service for Benefit Accrual for (a) and (b) cannot exceed 40 years.</p> <p>*For any Member who has attained age 50 and completed at least 15 years of Credited Service for Vesting as of June 30, 2012, benefits under (b.1.) and (b.2.) use Final Average Compensation as of their date of termination. For any other Member not meeting these criteria, benefits under (b.1.) and (b.2.) use Final Average Compensation on June 30, 2012</p> <p>Benefits attributable to service prior to July 1, 2009 under (b) are increased by 9.76% to account for the change in normal form of payment from 10 years Certain and Life to Single Life Annuity.</p>
Early retirement	
• Eligibility	The later of attainment of age 55 and the completion of 10 years of Credited Service for Vesting.
• Benefit attributable to credited service for benefit accrual earned prior to July 1, 2009	The accrued benefit is reduced 1/2% for each month the early retirement date precedes age 60.
• Benefit attributable to credited service for benefit accrual earned after July 1, 2009	Normal retirement benefit, actuarially reduced based on the RP 2000 white collar mortality table, projected to 2025 using scale AA, and blended 60% male and 40% female and 7% interest compounded annually.

Schedule SB, Part V – Summary of Plan Provisions

Late retirement	
• Eligibility	Actual retirement after age 65.
• Benefit	The benefit reflects Credited Service for Benefit Accrual and Monthly Compensation earned after age 65.
Deferred vested	
• Eligibility	100% after 5 years of Credited Service for Vesting; no vesting prior to completion of 5 years of Credited Services for Vesting. Participant is 100% vested on normal retirement date.
• Benefit	Accrued Retirement Benefit payable at age 65 or payable at or after age 55 and reduced for each month benefit commencement date precedes age 65.
Disability	
• Eligibility	Only employees other than hourly employees are eligible for special disability benefits. Total and permanent disability is defined in the Plan.
• Benefit	A monthly benefit equal to the regular retirement benefit with Monthly Compensation and Credited Service for Benefit Accrual determined at retirement as if the participant were employed on the same basis as immediately before disablement. This benefit will be reduced for early retirement, if applicable.
Pre-retirement death	
• Eligibility	Eligible if employee has a vested benefit.
• Benefit prior to early retirement	For death after vesting but prior to early retirement eligibility the benefit is equal to the vested Accrued Retirement Benefit payable at the earliest date the participant could have retired. The amount is reduced as for early retirement and is payable as a 50% joint and survivor annuity (benefits are payable for 120 months if there is no surviving spouse).
• Benefit after early retirement eligible	For death after early retirement eligibility the benefit is calculated as if the participant retired the day before death and elected a 100% joint and survivor annuity (benefits are payable for 120 months if there is no surviving spouse).
Form of benefits	
• Automatic form for unmarried participants	Single Life Annuity
• Automatic form for married participants	50% Joint & Survivor Annuity
• Optional forms	50%, 75%, or 100% joint and survivor annuity, life annuity with 5 or 10 years of payments certain to be made. Additional options include a guaranteed number of payments of any duration with or without a life annuity.

Schedule SB, Part V – Summary of Plan Provisions

• Optional form conversion factors	Optional forms of benefit, other than the lump sum, are determined using the RP 2000 white collar mortality table, projected to 2025 using Scale AA, and blended 60% male and 40% female and 7% interest compounded annually.
Miscellaneous	
• Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2014, the limit is \$260,000.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2014, the limit is \$210,000.

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan are included in this valuation.

- **Most recent plan amendments included:** The Schedule A amendment signed May 8, 2014 is included because it was adopted by the valuation date and is effective by the end of the plan year.
- Plan amendments excluded: None.
- Late retirement increases:
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation does not currently include increases for current participants over age 70 as it was determined the effect of doing so would be minimal. This will be reevaluated annually.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). Therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Additional Benefits Included or Excluded

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* The plan does not have any limitations on prohibited benefits prior to the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.

Schedule SB, Part V – Summary of Plan Provisions

- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan Provision Changes Since Prior Valuation

Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2013 to 2014.

Minimum benefits were changed effective June 30, 2014 for participants listed in the Schedule A amendment of the plan document.

Other economic assumptions

- Salary increases Salary rates begin with 12.0% at age 20 and reduce until age 61 where the rate is then held constant at 4.5% to age 70. This assumption is based on an experience study covering the period July 1, 2005 to June 30, 2010 and is adjusted to reflect Battelle Memorial Institute's future budgeted salary increases. See table of sample rates
- Social Security wage base 3.50% per year. This assumption is based on the inflation and wage increase assumptions periodically published by Mercer Investment Consulting in their Capital Markets Outlook.
- Inflation 2.50% per year. This assumption is based on the inflation assumption periodically published by Mercer Investment Consulting in their Capital Markets Outlook.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

- Expected investment return 7.75% per year for years 2011 through 2014. Mercer's best estimate return utilizes the weighted average approach, weighting 60% with forward looking asset return assumptions and 40% with the building block method recognizing current yields, which defines the return as the sum of three components: inflation, risk-free return, and risk premium, all offset by an expense load. Assumptions for these components are derived from the Mercer Investment Consulting Capital Market Outlook as of July 1, 2014. Risk premiums are applied appropriately to reflect Battelle Memorial Institute's actual asset allocation.
- Expenses The prior plan year's administrative and investment expenses, adjusted for expected events (if any), rounded up to the next \$5,000. For the 2014/2015 plan year, this amount is \$5,815,000 and has been added to 2014/2015 normal cost.
- Accrual of future credited service for benefit accrual Hourly employees are assumed to accrue .25 of a year during each future plan year. Non-hourly full-time employees are assumed to accrue 1 year for each future year of employment. Non-hourly employees who are not full-time are assumed to accrue 1 year times their percent full-time for each future year of employment. This assumption is based on an experience study covering the period July 1, 2005 to June 30, 2010.

Demographic assumptions

- Withdrawal Rates are based on length of service and age, based on Battelle Memorial Institute's actual experience. See table of sample rates.

Actuarial Methods for Funding

Asset Methods

The asset valuation method is an average of the adjusted market value for each year during the last 24 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- This plan provides disability/death benefits that are only partially based on a participant's accrued benefit or years of service. This benefit is allocated to funding target based on the accrued benefit on the valuation date plus a portion of the excess of the benefit over the accrued benefit multiplied by the ratio of the participant's service at the beginning of the plan year to their service at each decrement age. This benefit is allocated to target normal cost based on the proportionate benefit attributable to the increase in the participant's service and compensation during the plan year.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Maximum Suggested Contribution Funding Methods

Calculations of maximum suggested contributions include the excess of the funding target computed using the projected unit credit method over the minimum funding target. The objective of the projected unit credit method is to fund each participant's benefits under the plan as they accrue, taking into consideration expected future compensation increases. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- An individual's **projected funding target** is the present value of benefits based on credited service as of the beginning of the plan year and projected compensation that would be used in the calculation of the benefit on each expected separation date. If multiple decrements are used, the projected funding target for an individual is the sum of the component projected funding targets associated with the various anticipated separation dates.
- The plan's **projected funding target** is the sum of the projected funding targets for all participants under the plan. The excess of the plan's projected funding target over the plan's funding target is included in the "cushion amount."

Schedule SB, line 24 – Change in Actuarial Assumptions

The following changes were made for the plan year beginning July 1, 2014:

Interest discount rates were updated from 2013 to 2014 in accordance with PPA.

The expense component of normal cost changed from \$6,060,000 to \$5,815,000 to reflect our expectations for the current plan year.

The benefit commencement age for current deferred vested participants was changed from age 63 for all terminated vested participants to age 63 if an employee terminated before July 1, 2009 and age 65 if an employee terminates on or after July 1, 2009 to better reflect recent plan experience.

Schedule SB, line 22 – Description of Weighted Average Retirement Age

Each employee is assumed to retire in accordance with the table of retirement rates. The proportion of employees expected to retire at each potential retirement age is shown below. The average retirement age is 62.

(A) Retirement age	(B) Retirement percent	(C) Lx	(D) Number of employees expected to retire (B) x (C)	(E) (A) x (D)
55	5.00%	100,000	5,000	275,000

70	100.00	3,148	3,148	220,382
Total			100,000	6,207,194
Average				62.07

The weighted average retirement age is the total for column E divided by the total for column D, rounded to the nearest integral age. It should be noted that while only integral values are shown in the table, the full content of each cell, including decimal portions, is used in the calculations.
