SPECIALTY PROFESSIONAL SERVICES 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan

The following description of the Specialty Professional Services 401(k) Plan (Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering substantially all employees of Specialty Professional Services (Employer). An employee may join the Plan on any entry date following the date of employment. The Plan's entry dates are the first day of each calendar month. The Plan is subject to the provisions of ERISA. The Plan administrative committee is responsible for oversight of the Plan, determining the appropriateness of the Plan's investment offerings and monitoring investment performance.

Contributions:

Each year, participants may contribute up to 90% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. There are no Employer contributions made to the Plan. Contributions are subject to certain IRS limitations.

Participant accounts:

Each participant's account is credited with the participant's contributions, as well as allocations of the Plan's earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are immediately vested in their contributions, plus actual earnings thereon.

Payment of benefits:

Upon termination of service due to death, disability, retirement, termination of employment, or attaining normal retirement age, a participant may elect to receive a lump-sum payment equal to the vested value of his or her account. The Plan specifically restricts the timing and method of benefit payments based upon the participant's age, length of service, account value, and reason for termination.

Notes receivable from participants:

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Notes fund. Loan terms range from 1-5 years or up to 30 years for the purchase of a principal residence. The loans are secured by the balance in the participant's account and bear interest as determined quarterly by the plan administrator. Interest rates on all loans are 5.25%. Principal and interest is paid ratably through payroll deductions.

Note 2. Summary of Significant Accounting Policies

This summary of significant accounting policies of Specialty Professional Services 401(k) Plan is presented to assist in understanding the Plan's financial statements. The financial statements and notes are representations of the Plan's management, who is responsible for the integrity and objectivity of the financial statements. These accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

Basis of accounting:

The financial statements of the Plan are prepared on the accrual basis of accounting.

Valuation of investments and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's administrative committee determines the Plan's valuation policies utilizing information provided by the investment advisers and custodians. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan has significant investments in various securities held by State Street Bank & Trust. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Plan Benefits.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits:

Benefits are recorded when paid.

Administrative expenses:

Certain expenses of maintaining the Plan are paid directly by the Employer and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments as they are paid through revenue sharing, rather than a direct payment.

Subsequent events:

The Plan has evaluated subsequent events through April 28, 2016, the date the financial statements were available to be issued.

Note 3. Investments Held by Trustee (Unaudited)

State Street Bank & Trust is the trustee of the Plan and, as such, has custody of all of the Plan's assets, executes transactions therein, receives contributions from the Employer and disburses funds according to the trust agreement.

The following is a summary of the Plan's financial information and data certified by the trustees, in accordance with Section 2520.103-5 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Investments that represent five percent or more of the Plan's net assets are separately identified by an asterisk.

	2014	2013
Common/collective trust funds:		
S&P 500 Index	$ 18,225*	$ 14,718
Cash Series US Gov't	130,690*	132,166*
Mutual funds:		
T. Rowe Price Retirement Balance Fund	119,796*	115,257*
Others	39,069	36,439
	$307,780	$298,580

During the year ended December 31, 2014, the Plan's investments (including investments bought, sold and held during the year) appreciated (depreciated) in value as follows:

Mutual funds – equity	$ 806
Mutual funds – fixed	(32)
Common/collective trust funds	2,019
	$2,793

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active or inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

All assets have been valued using a market approach. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2014 and 2013.

Mutual funds – valued at the net asset value of shares held by the Plan at year end.

Common/collective trust funds – valued at the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

	2014		
	Level 1	Level 2	Total
Mutual funds:			
Fixed income	$ 2,383		$ 2,383
Equity	156,482		156,482
Total mutual funds	158,865		158,865
Common/collective trust funds		$148,915	148,915
Total assets at fair value	$158,865	$148,915	$307,780

	2013		
	Level 1	Level 2	Total
Mutual funds:			
Fixed income	$ 929		$ 929
Equity	150,767		150,767
Total mutual funds	151,696		151,696
Common/collective trust funds		$146,884	146,884
Total assets at fair value	$151,696	$146,884	$298,580

The common/collective trust funds had no unfunded commitments and could be redeemed daily, with no redemption notice period, without specific terms or conditions at the underlying investments' net asset value (NAV). The NAV was updated daily. The common/collective trust funds had an investment objective to maximize current income while preserving principal.

Note 5. Income Tax Status

The Plan is a prototype plan offered by ADP Retirement Services, Inc. The prototype plan obtained its latest opinion letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will be entitled to 100% of the value of their accounts.

Note 7. Related Party and Party-in-Interest Transactions

Certain plan investments were units of common/collective trust accounts managed by State Street Bank and Trust. State Street Bank and Trust was the trustee of the Plan and therefore, these transactions qualified as party-in-interest transactions. Fees paid for investment management services amounted to $4,084 for the year ended December 31, 2014.

ADP Retirement Services, Inc. was the recordkeeper of the Plan and therefore, transactions with ADP qualify as party-in-interest transactions. Fees paid by the Plan for these services amounted to $175 for the year ended December 31, 2014.
